II. School Business

A. PUBLIC HEARING: Learning Continuity and Attendance Plan

Ms. Clark discussed the draft Learning Continuity and Attendance Plan ("LCP"). The LCP identifies the impact of COVID-19 on the school and the school community, and the goals the school has adopted for the year. The LCP also included actions related to in-person instructional offerings and identified the funds used for the purposes.

Mr. Silverstein asked if the survey had some matters that were consistent throughout as areas of concern or which needed immediate attention; Ms. Clark stated that there were some issues that were definitely raised throughout the different stakeholder groups; those were included in the LCP. For example, as a result of one of the concerns raised, Saturday virtual tutoring academy was started.

Mr. Hussey asked that the section describing Professional Development (PD) reflect that PD took place on July 29, 30 and 31 for technology training put on by the staff.

Ms. Chen asked if there have been downtime or network connectivity issues. Ms. Clark noted that the Tech Department has done a great job in staying on top of the school's connectivity; if there are issues, it may be on the student's side. Ms. Chen asked that this be included in the section. Mr. Hussey also noted that there has been great communication when there have been any connectivity issues.

Staff Roles and Responsibilities identifies any staff members who may have had to change roles because of the distance learning. This has happened, particularly for employees who are 62 years of age or older or who have underlying medical conditions.

The school's HR department has worked to accommodate anyone needing to work from home.

The section on Support of Students with Unique Needs was recently revised, and identifies the steps the school is taking to ensure our students with special needs, English learners, and the homeless and foster youth population.

The section on Pupil Learning Loss discusses the inevitability of learning loss with a distance learning program, and the steps the school is taking to minimize learning loss, through MAP testing and Common Formative Assessments. The amounts listed in the Actions to Address Pupil Learning Loss, for the Saturday virtual tutoring academy and the Math hotline, is mainly to pay staff for the additional work done. We are also adding a special day class for students with moderate to severe disabilities who are on an alternative curriculum. Ms. Ibach asked if the special day class was a new class; Ms. Clark advised that this is new as the program has grown just this year by 55 students. Our total population for special education students is now over 300 students.

The section on Mental Health and Social and Emotional Well-Being identifies the work done for student and staff and the intervention steps taken to support mental health and social and emotional well-being.

Pupil and Family Engagement and Outreach discusses the steps the school will take to reconnect with any students and families with whom we have lost contact (such as if a family has moved or is unable to afford to connect). We may reach out to the student and family through phone calls, making a visit, or having the Psychiatric Social Worker (PSW) or the counselors reach out.

Johanna Johnston, our PSW, noted that telehealth has been set up to reach out to students through a HIPAA-approved format.

Mr. Silverstein asked if any studies had been done comparing the mental health well being of students now as opposed to pre-COVID quarantine. Mr. Hussey and Ms. Johnston noted that data has been collected, and that currently there is not an increase in mental health issues, but it is still early in the school year. Ms. Johnston also noted she is doing transformative and restorative justice circles with the English department and with any other teachers who invite her. Ms. Johnson noted that she is reaching out to the students, parents, and the community as much as possible.

The School Nutrition section identifies that we are serving meals for all pupils; currently, meals are being served on Mondays and Wednesdays from 11:30 to 12:30. Mr. Archibald asked if this only applies to students who are able to get to the campus to pick up food. Ms. Clark noted that this was true, but that the bus pass program should assist in allowing qualified students come to campus to pick up meals. Also, it was noted that some students who may not live near the school may be going to food service centers that are closer to where they live. Mr. Wood noted that CDE guidelines allowed us only to provide meals for our students, as we would only be getting reimbursed for such meals. However, we are applying to be part of the program that would allow us to get reimbursed for all meals given to school-aged children, whether our students or not. Mr. Lee asked how many of our students are getting meals, whether here or elsewhere. Mr. Archibald asked if a survey could be sent to students to determine if our students are getting meals from other sites. Ms. Clark and Mr. Hussey stated that this would be done.

Mr. Silverstein asked if the cafeteria equipment listed was in addition to our contract with Chartwells; Mr. Wood said yes, and that the equipment purchased would belong to El Camino and be used to improve food service when students are allowed again on campus. Mr. Silverstein also asked about the cost paid to Chartwells for serving just 80 meals or so; Mr. Wood noted that we are only paying Chartwells for the meals actually

served. It was discussed that staff should come up with a recommendation as to what can be done with the Chartwells contract, which can be discussed during a subsequent Board meeting.

For the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students, Ms. Clark noted that further detail may have to be provided. Mr. Hussey stated that this issue has already been addressed in other documents, and perhaps that information has to be transferred to the LCP. Ms. Chen noted that perhaps information on the number of WiFi hotspots could be included here or other data that identifies how we are helping these students.

Ms. Ibach asked if our teachers have asked about additional support to pay for daycare for their own children while they are in distance learning; Mr. Hussey noted that they have asked and we are discussing this.

Ms. Clark noted that the document will be finalized next week and shared with the Board, and that it will be voted on at the next Board meeting and submitted to the State by September 30th.

B. Discuss and Vote on Conflict of Interest Code

Mr. Chang stated that ECR, like many other charter schools, had agreed to abide by LAUSD's Conflict of Interest Code; however, as part of the charter renewal, it was suggested that ECR should have its own Code. The Code was drafted with the assistance of outside counsel.

The Resolution authorizes the Executive Director to submit the Charter Renewal Petition to LAUSD once it has been finalized. The Petition will be submitted before Tuesday, and our appointment with LAUSD is on September 15th at 10 a.m.
