II. School Business

A. Discuss and Vote on Insurance Contract

Participants: Bettina Hooper, Dan Berry, and Thuy Wong from CharterSafe; Jonathan Schreter from Bolton; Brandon Cole from Gallagher

Brandon Cole from Gallagher went over the CharterSafe proposal. The excess liability limit of \$50M was highlighted, and it was noted that LAUSD requires a minimum of \$5M coverage, which we are not getting from Bolton. CharterSafe is a member organization spun out from CCSA to meet charter schools' needs. CharterSafe is very charter-centric and very California-oriented.

Dan Berry highlighted the Directors and Officers Insurance from CharterSafe. Ms. Wong provided additional info about CharterSafe's proposal. Explained their Board governance structure and involvement of finance personnel from conversion charters. Mr. Berry noted that they can update their coverage as needed to address any gaps - used Covid-19 example. Added additional coverage to address this. Stated that authorizer is comfortable with CharterSafe's coverage. Ms. Hooper noted CharterSafe has a team of people to support the school.

Mr. Silverstein asked about communicable disease coverage. The coverage is \$100,000 per event and aggregate for the year. Mr. Wright asked about administrative fees. CharterSafe has an initial 2-year commitment requirement. Mr. Silverstein asked about catastrophic student accident coverage. There is an add-on for this costing \$13,000 to make the coverage comparable to Bolton. This includes coverage for contact sports. Mr. Silverstein asked about coverage of the Shoup property. The coverage is up to \$1M replacement/repair cost. Mr. Silverstein also asked for an explanation about what pollution coverage includes; the coverage includes damage caused by pollutants (such as mold). Mr. Silverstein asked about the deductible for this coverage; it is \$10K per

occurrence. For the general liability coverage, there is no deductible except a \$500 deductible for certain activities. He also asked about the sexual harassment coverage for events in the past; the coverage is a claims-made coverage (as opposed to an occurrence coverage) - when the claim is made is what triggers coverage. Mr. Silverstein asked about the timeline for when CharterSafe communicates when the policy is set to expire; they will communicate early and often, with the proposals released in approximately mid-May.

Mr. Schreter presented Bolton's proposal. He noted ECR previously had CharterSafe and chose to leave and go with Bolton. He noted that the increases year over year have been controlled, with one year the overall premiums going down. Discussed the D&O and EPLI coverage; raising those numbers to LAUSD's required minimums will raise the cost. States that the longer we can remain on an occurrence coverage would be better for the school in the long run. Discussed active shooter/assailant coverage which is included in their policy but not in CharterSafe. Bolton's policy also includes pollution liability. And noted that CharterSafe does not have an aggregate coverage for certain areas, which is not the case with Bolton. Mr. Schreter also discussed workers comp coverage, and noted that we are down 30% from the time we first went with Bolton. He noted that he is part of a team of 40 that represents their education practice group, and Bolton represents over 250 schools nationwide, including about 20 charter schools in California. Bolton's team specifically for El Camino is 3 members, with others available to help support, including someone to help with IEP control.

Mr. Silverstein asked if they are a fiduciary; Mr. Schreter replied that Bolton is not a fiduciary to the school. Mr. Silverstein asked why Bolton's proposal came just 9 days before the end of the policy period; Mr. Schreter noted these were final numbers, but there were preliminary numbers discussed for some six months. Mr. Silverstein stated that the preliminary numbers and the final numbers differed significantly. Mr. Schreter apologized and they should have kept ECR more in the loop, but this is a reflection of the changes in the market and is on par at least with CharterSafe's proposal. Mr. Silverstein asked if there was a reduction because we were in distance learning; Mr. Schreter said no, because ECR is still educating students, even though remotely. The biggest premiums are based on educator liability, not in student presence. Mr. Silverstein asked what the liability would be if ECR were to change coverage during the year; Mr. Schreter replied that there would be at least a 25% minimum earned liability. Mr. Silverstein asked about the coverage for the Shoup property; Mr. Schreter replied that their coverage is based on replacement cost, which he believes should be sufficient coverage when in aggregate with the blanket limit from the main campus. The equipment replacement coverage is for both campuses, and is to replace equipment that breaks down as part of a covered loss. As to a deductible, Mr. Schreter does not believe there is a deductible for general liability. The \$150K deductible for EPLI claims was discussed; this is because in 2018-19, there was paid losses of \$208K, so the carrier increased the deductible. Mr. Silverstein asked about coverage related to terrorism. Coverage for workplace violence was discussed in this context.

Representatives for both insurance providers had the opportunity to follow-up to address concerns and questions raised when it was the other provider's turn to present.

Brad Wright made a motion to approve the insurance contract with CharterSafe for the 2021-2022 and 2022-2023 school years.

Scott Silverstein seconded the motion.
