III. Investment

A. Investment Update

Mr. Wood, CBO, and Mr. Breller, of Beacon Pointe, provided the Q1 Investment update, with highlights as follow:

OPEB Account Discussion:

1. OPEB \$21.305 Million

2. Gen. Account \$6.214 Million

two annuities, neither of which is controlled by either US Bank or Beacon Pointe, so Mr. Wood pulled those items because we receive separate reporting by those two organizations. Over \$700K

3. OPEB start of year - \$21.25 Million; we've made 10 months of contributions at \$2.2 Million; we've incurred market losses of \$2.145 Million; gains and losses were down 10% because of the investments, but because of the contributions, we are up .3% as of April 2022.

Mr. Breller on 1Q22 package:

SLIDE 12: Mr. Breller reviewed Market Performance Summary, noting negative equities and Fixed Income performance during the Quarter and YTD returns.

Discussed the Fed's desire to get inflation under control with fiscal stimulus (last two quarters); steps to be taken are time-sensitive in order to try to create a "soft landing," to slow inflation without bringing us into a recession.

Rare to have volatility in both equities and fixed income; S&P 500 down 4.6% and US Aggregate Bond is down 5.9%.

Part of context is that the US had been at a 200-year low in interest rates. Fed increases rates and people are taking their money out of both equities and fixed income and moving it into cash. We should expect to see some continued volatility.

SLIDE 13: Mr. Breller reviewed the US Equity Sector Review, 1Q22, and One Year, noting that over the past twelve months, most segments of the market posted positive returns, with energy and utilities growth posting positive returns in the first quarter, and all sectors other than Communication services posting positive returns over the prior twelve-month period.

S&P down 8% in April, and down so far another 5% in May. Overall, S&P down 18%. Rates increasing in short and long-term. Short term volatility and long-term.

SLIDE 20: Mr. Breller reviewed the OPEB Total Composite as of March 31, 2022.

Mr. Breller discussed each sector of the OPEB account chart, including current balances, current allocation, investment policy, policy range, difference, and whether or not the sector performance is "within the IPS Range."

In short, ECR's investments (US Equity, Intl. Equity, Fixed Income, Alts., and Cash all are within the expected investment policy range.

Mr. Breller noted if any investments fall out of the policy range it is their (Beacon Pointe) responsibility to make adjustments to allocations in the hopes of bringing the sector back within range.

Mr. Breller next reviewed the OPEB Total Composite, noting the current market value of \$22,518.835, which is down 6.8% for the quarter and YTD, since its inception of September 2021.

Mr. Breller noted that this quarter has been one of the worst performing quarters, in particular as pertains to total Domestic Equity and total International Equity. Energy and utilities still up. Fund managers note that it is not too surprising to have these short-terms

numbers. Beacon Pointe will continue to hold Fixed Income at about the policy level or a little higher in order to manage risk during this period of volatility.

SLIDE 23: Mr. Breller reviewed this slide which provides greater detail; no cause for concern enough to make any changes to allocations/fund managers in Domestic or International Equities allocations/funds/managers.

Discussed Chinese and Russian equities in the Invesco Developing Markets fund having lost all value, thus resulting in substantial losses in the Invesco

Fixed Income Managers - done a couple of things; Dodge and Cox adjusted to give us a little extra yield, and PIMCO Short Asset Investment which has less interest rate sensitivity.

Fixed Alternatives mix is working; inflation is up so infrastructure is up; short-term asset bond was a "win" for the portfolio.

Questions Re: OPEB:

Mr. Webster asked what is the expense ratio on Fiduciary Management and Polen Capital, to which Mr. Breller replied that Beacon Pointe uses separate accounts, with Fiduciary Management at 50 basis points (.5%); Polen Capital is 60 basis points or .6%. These are both negotiated fees with Beacon Pointe.

Mr. Webster asked a follow-up question about our policy index benchmark and against whom we are comparing performance, CalSTRS, or a market index, to which Mr. Breller replied that it is a moderate portfolio market index, specifically, as listed on **slide 25**, as follows:

60% MSCI ACWI / 40% Bloomberg US Aggregate TR

General Account (GA) Discussion:

SLIDE 30: Mr. Breller noted that instead of the 60/40 mix in the OPEB, the General Account Asset Allocation is roughly the opposite, with Fixed Income securities weighted at 64% and Equities at about 30+%. More conservative, but still with losses.

SLIDE 32:

Mr. Breller reviewed the General Account Total Composite.
Fixed income down 4.9; shorter time horizon; if we need \$1M or \$1.5M, it should come from here, which has less volatility. Less exposure to equities risk in this account.

Mr. Hussey asked how long might it take to get out of the market's deep dive, to see a correction, to which Mr. Breller replied that it typically takes two quarters of growth to exit a recession. If markets decline 2-6 quarters, you see a steep recovery once the market hits the recovery stage. Average loss is 28%; loss is 18%; can expect more volatility. I do believe that a recess is a probability. We don't have excess valuation like we had in 2000 and 2008. We have strong fundamentals and high employment with inflation that the Fed is trying to fight, which, when under control, there will likely a result in a more market-positive fiscal policy.

Do expect more volatility while fixed income should offer some protection from the volatility.

Ms. Malconian asked if we have any investment in any "cryptocurrency" to which Mr. Breller replied that we do not and that we may never get a recommendation like that from him as it is too much of a speculative asset class today.

Mr. Breller will join the next board meeting again via virtual format.

IV. Finance

A. April 2022 Financial Update

Mr. Wood, CBO, and Mr. Arndt, of ICON School Management, provided the April 2022 Financial Update, with highlights as follow:

Balance Sheet Slide:

Reviewed Assets Actuals, Prior Year, \$ Change to Prior, and % Change; Overall Total Assets \$36.9 Million, an 18.70% increase from April of 2021 (prior year).

Cash has increased due to 20- 21 One-Time Funds, PPP Loan, and 20-21 Deferral Payments

- State overpaid with Deferrals and will reduce cash for 21-22 LCFF (\$2M)
 - LT-Debt decreased due to FMV adjustment to OPEB Accounts as well as PPP Loan being forgiven.
 - Restricted Net Position:
 - Lottery - \$233,711
 - ELO - \$733,967
 - ELO PP - \$239,972
 - Unrestricted Net Position – Investigating allocation of Net Assets into a Designated Fund for Deferred Maintenance
- Total liabilities: 16.21% increase

Cash Analysis Slide:

ECRCHS is projected to have 182 days of cash on hand (Recommended to have min. of 90)

Total Cash (Checking/Savings/CDs) on-hand April 2022: 21,674,033.25

Profit and Loss (Summary) Slide:

Reviewed Revenues, Expenses, Net income (Loss), and Net Income Before FMV Adjustments from Adopted Budget 21-22, 1st Interim Budget, 2nd Interim Budget, YTD 2021-2022, and PYTD 2020-2021.

Mr. Wood noted that the FMV Adjustment line reflects a market loss of \$3.32 Million YTD 2021-2022, or roughly a \$7M loss from PYTD 2020-2021 valuation of \$4.19 Million.

Profit and Loss (YTD) Slide:

Revenues down 13.59%; Expenditures up 10.31%; net income before FMV Adjustment down 106.89%.

In-Person Instruction and Sport Activities will incur additional expenses with the re-opening of School

- Additional CARES Related expenses for 21-22 will also increase expenses.
- Employee Benefits decrease due to STRS Refund in December for EE/ER contributions made in prior year for DBS Earnings

Budget Comparison (YTD) Slide:

Lottery Amounts went from \$150 – Unrestricted / \$49 – Restricted to \$163 – Unrestricted / \$65 – Restricted (more revenue)

- SPED Rates are projected to increase from the \$689 – State/ \$267 – Federal (more revenue)
- Lower Enrollment/ADA from 21-22 Adopted Budget (approx. 152 ADA/\$1.6M less).

Reviewed Revenue and Expenditures percentages. Lower enrollment a cause for drop in revenue.

About 80% spent at this time of the year.

Mr. Wood noted that we are 8/10 completed with this year, so expenditures largely reflect this and are in general, aligned. Books and supplies have categorical funding requirements, so he is not concerned about the budget expenditure reflecting over 100% used due to categorical budget off-set.

Department Budgets (4000s) Slide:

- Textbooks and Instructional Materials in certain departments will continue to be monitored due to the need of purchasing more materials in order to continue higher educational standards

Textbooks and Core Curricula Materials = 91% expenditures

Instructional Materials and Supplies 102.63% expended

Other Departments Slide:

- Investment advisor provided a complete quarterly report update at the May Finance Committee Meeting and Board Meeting.
- Detailed May Revise Budget updates for 2022-2023 will be provided in a School Services of California Conference to be attended on May 20th.

Reviewed following documentation by name only.

Ms. Malconian asked about the Governor's budget, to which Mr. Wood noted that it is the May Revise; a 3 hour call tomorrow to learn more to review the May Revise; we'll have more updates to share at the next regular board meeting.

Mr. Wood reviewed Slide 76 from second handout re: ASB Trust Accounts, and the sections, columns, etc.

Adjusted Balance.

B. Review of April 2022 Check Registers

Danielle Malconian made a motion to approved the April 2022 Check Registers.

Alexandra Ramirez seconded the motion.

Mr. Wood discussed the April 2022 Check Registers prior to the vote.

Mr. Webster noted that the OPEB Trust funds are to used entirely for retirement funds and not for general funds in any way, shape, or form, to which Mr. Wood replied, "correct," and to which Ms. Malconian replied to Mr. Webster, with words to the effect of, "Well, that is not what the question was," to which Mr, Webster noted, "Well, you're talking about recoupment of funds, and there should be no discussion about recoupment of funds from the OPEB account."

In reply, Mr. Hussey noted that if we were to get into financial hard times, we could use funds from OPEB to support the general fund.

Mr. Wood and Ms. Malconian agreed, with Mr. Wood noting that we cannot take funds out that had already been contributed, but the board could take existing funds from OPEB to support the general fund if the need arises.

Mr. Wood continued that once the OPEB is fully funded, actuarially speaking, it should be self-sustaining.

Dr. Lowry asked when the OPEB account is expected to be fully funded, to which Mr. Wood replied, five or six years, but investment portfolio performance will determine, as well as healthcare costs. Schwab actuary will obtain census information and this item will provide an updated answer at the July Board Meeting.

Ms. Malconian asked about the Techlease buyout and how the asset would be treated, in which Mr. Wood noted that we could potentially put it in inventory or CARES funded; he will first obtain the opinion from the auditor.

Mr. Wood then reviewed the Vendors document from A-Z.

Mr. Wood then reviewed the ASB checking account document and some transactions. The committee **VOTED** unanimously to approve the motion.

V. School Business

A. Average Daily Attendance (ADA) Update

Mr. Wood, CBO, provided our ADA Update, with highlights as follow:

We've completed month 9; one more month on which to report.

Attendance 90.6 (Nov.); YTD 92.2 ADA.

We are looking to hear confirmation on whether or not schools/we can use the 2019-2020 ADA percentage and apply that ADA percentage to this year's enrollment.

Combination of CALPADS (CDE is all about attendance) and ADA systems. We will do our own internal calculations to make some projections and we will also report what the Governor reports, and we will have more information by the end of June.

June 15th is when the State is expected to pass a State budget. There are incentives for legislators to pass the budget.

Ms. Malconian asked Mr. Hussey about our expected enrollment projections, to which Mr. Hussey said we are slightly lower, but we generally increase enrollment over the Summer.

B. Discussion and Vote on 2022-2023 Budget Updates

Danielle Malconian made a motion to approve the proposed Instructional Materials/Textbook Budgets for 2022-2023.

Alexandra Ramirez seconded the motion.

Mr. Wood discussed the 2022-2023 Budget Updates prior to the vote, with highlights as follow:

1. Budget Calendar Adopted in Feb. 2022
2. Budget packets when to Department Chairs, Department heads, and administrators received the completed proposed budgets.
3. Reviewed the columns and forms and process, gave specific details for various Departments, including English Department, regarding novels, which we will track as textbooks.
4. Mr. Wood continue to recommend a schoolwide budget contingency dollar amount in order to support department spending overages.

Mr. Wood noted that the proposed \$65K "contingency" line amount gives us some flexibility in case a funding need arises without requiring us to go back to the board to request additional funding through a vote.

Dr. Lowry asked about the math and science budgets increases and if those were related to new textbook adoptions, to which Mr. Wood and Mr. Hussey replied in the affirmative regarding those content areas and the English Department.

Mr. Wood walked through an example from the English Department, with novels and explained where an additional \$54K came from.

Ms. Lopez-Vargas asked if Departments were asked to provide quotes for their purchases as back-up, to which Mr. Wood replied in the affirmative. Mr. Wood gave an example of Alg. 1 and Alg. 2 purchases.

Ms. Malconian asked if licenses are included in the programs, including books, software, etc., to which Mr. Hussey and Mr. Wood replied, "yes."

Mr. Hussey noted that we'd try to purchase textbooks in different years to spread out expenditures.

Mr. Wood then discussed Instructional Materials budgets process, with highlights as follows:

1. Athletics budget review
2. EL Department

We are trying to keep the IMA pure. \$350/per teacher allowance to help determine our budgets.

Having a similar Department IMA budget contingency fund.

We'd therefore like to request that the board approve a \$397K+ budget for IMA for 2022-2023.

The committee **VOTED** unanimously to approve the motion.

Based on the rubric, Chartwells scored a 95/100 and Fresh Start scored an 82/100.

Supporting Documents:

Mr. Wood reviewed supporting documentation, including a per meal/unit cost for breakfast and lunch.

Total Chartwells Cost = \$856,550

Cost Difference of \$160,000 in favor of Chartwells. Based on the Overall Rubric scores and with the cost better on Chartwells, food costs definitely weighed in Chartwells' favor.

20 participants in Taste Test, including Ms. Malconian:

Huntington Foods 4.3

Chartwells - 4.0

Fresh Start - 3.8

Based on the overall process, and rubric, Mr. Wood recommended to the Committee that they recommend that Chartwells be approved to continue our Food Service at ECRCHS.

Ms. Malconian noted that Chartwells' proposal was better prepared.

Mr. Wood introduced Chartwells' representative who was attending the meeting.
