Ms. Collins also stated that there were "inequities at the last board meeting regarding public comment" and requested that the Board pay attention to the board training that will come up at the end of Summer regarding Brown Act and public meetings. Ms. Collins stated that teachers and counselors worked really hard, so she and UTLA are hoping that teachers/counselors can come back this next year with a lot of support, that they hope to continue conversations with Board Members, and she stated that she hopes the ECRA Board's search for a community representative is conducted with "lots of thought" and that you go through the applications carefully to choose the best candidate for this school community.

E. Executive Director Update

Mr. Hussey provided his Executive Director update that included the following highlights:

* Thanked Board Members for their work and efforts throughout the year, noting their role in helping to get things done on behalf of the school community on a volunteer basis.

* Thanked Mr. Wright, Ms. Ramirez, and Mr. Kofahl for attending the graduation ceremony of 2022. Students, Teachers, Staff members, parents appreciated your support/presence at that spectacular event that had not occurred since 2019.

* Thanked Mr. Wright for facilitating solutions to the parking restrictions enacted on Valley Circle Boulevard. Mr. Wright had reached out to LAUSD, Charter Schools Division, and Councilmember Blumenfield's office to effect a solution that provided temporary parking

access for our students that helped them finish their school year and finals without having to worry too much about parking.

* Thanked Mr. Wright for jumpstarting the capitalization projects committee process with LAUSD, noting that Mr. Wright's efforts have resulted in LAUSD considering ECR's projects with increased seriousness.

* Capitalization Projects Updates: Architects have ECR's original master blueprints; next steps include verifying and finishing existing plans, meet with architects one more time, who will then design conceptualization targets, have another meeting with the board and public to obtain their input on the master plan, etc.

ECR is approved to do the following proposed projects:

* Digital signage in the front, foyer, and main office modernization, library conversion into media center, all of which are under LAUSD's development agreement, on which LAUSD is working and includes architectural and engineering services, Div. of State Architecture (DSA) permit(s), facilities environmental technical unit, OEHS and OSHA notice of exemption, Maintenance and Operation review, etc.

* All aforementioned projected need to be approved by the LAUSD Board, which will likely not occur until September.

* LAUSD has noted that ECRCH's submission is very detailed, which Mr. Hussey hopes makes the oversight review and approval process easy and quickly. The Capitalization projects committee meetings have helped. He noted that results will be shared with all stakeholders.

Ms. Malconian asked Mr. Hussey if once the approval is made by the LAUSD board, will ECRCHS be able to hit the ground running on these projects, to which Mr. Hussey replied in the affirmative, while noting that LAUSD will help us obtain DSA permits, and we'd have to follow up with OSHA.

Mr. Wright noted that Councilmember Blumenfield's office has offered to help ECRCHS with the permit process, if possible.

* Summer School is underway with over 700 students being served by 23 teachers; numbers are down a little from previous Summer School enrollments; it may be due to vacations. But the kids who are here want to be here and ECRCHS is serving their needs.

* District Validation Review (DVR) results reviewed by LAUSD and all corrective actions made. Thanked Mrs. Larew, Mr. Kingery, and Mr. Wasser, Special Ed. Department, and teachers for their work on the report that looks very good.

E. Discussion and Vote on NWEA Services Contract Extension

Danielle Malconian made a motion to approve the renewal/extension of the NWEA services contract.

Brad Wright seconded the motion.

Prior to the vote, Ms. Clark, Administrative Director, provided an overview of NWEA services provided, including the following highlights:

. All schools are required to administer internal/formative assessments during the academic year, in addition to the CA Statewide assessment, the Smarter Balanced Assessment Consortium (SBAC) summative assessment that is administered at the end of the year.

*MAP (through NWEA) is ECRCHS's internal/formative assessment and in Ms. Clark's experience and opinion, MAP is by far one of the most comprehensive and research-based internal assessments available.

* Ms. Clark provided to Board Members and then reviewed ECRCHS's MAP internal/formative assessment results report for ECRCHS students by grade level in the content areas of English Language Arts (Reading) and Mathematics from the Fall 2021 and Winter/Spring 2022 MAP administration periods;

* Growth in Mathematics - Fall 2021 Winter 2022 comparison columns, and then growth; In math ECRCHS grew slightly in every grade level between Fall and Winter.

* Growth in Reading - Reading growth declined slightly.

* Standard deviation is an important consideration as anything under and up to ten is considered normal and indicates students' needs are more similar; anything beyond/above twelve indicates wider ranging results and needs within grades and even in respective classrooms and which will require teachers to differentiate their instruction with greater precision to meet the needs of their students.

* We use the MAP data results to inform (formative) instruction and we administer the MAP tests three times per year (Fall, Winter, Spring).

2. an overview of the NWEA contract/invoice that includes Science add-on content area, for the following cost:

Quote Subtotal \$51,122.50 Estimated Tax \$0.00 Grand Total \$51,122.50

* Content areas for NWEA contract (MAP assessments) include Language, Reading, Math, and Science. Science pushes the cost over \$50K, thus requiring Board approval, so that is why we are presenting this item to the Board and requesting your approval so we can continue to support our teachers with their understanding and use of formative assessment data more than they already are [supported].

Mr. Kofahl asked if ECRCHS's reading scores are similar to those of other charter schools' reading scores, to which Ms. Clark explained that the norms tell us that we are in the middle or a little lower than other similar schools as measured by the MAP assessment in reading, while on the SBAC our reading results came in higher.

Mr. Wright asked if there might be a difference in our scores (a little lower) than those of other charters because our charter accepts a more diverse student population, including students with special needs, etc., that other charters might not serve, to which Ms. Clark responded that that could be a consideration, although she made no firm guarantee that that was the cause. She noted that our demographics are very diverse and we can continue to improve and there is more to do every day to improve.

The board **VOTED** to approve the motion.

- * Teachers assigned over 4,700 assignments for which students turned in over 120,000 pieces of work.

- * Allows teachers to quickly see whether or not the assignment/piece is plagiarized or an original piece of work.

Discussion and Vote on Local Control Accountability Plan (LCAP) 22-23 Proposed Goals and Actions

Daniela Lopez-Vargas made a motion to approve the Local Control Accountability Plan (LCAP) 22-23 Proposed Goals and Actions.

Alexandra Ramirez seconded the motion.

Prior to the vote, Ms. Clark provided a brief overview of the LCAP proposed goals and actions that she had previously presented during the Finance and Investment Committee meeting on 6/16/22 and which had been recommended for full board approval today.

Highlights of Ms. Clark's presentation today included the following:

* No changes have been made prior to Mr. Wood's and Ms. Clark's work prior to the F & I investment committee.

* Highlights do indicated changes proposed for 22-23.

* Reviewed ELA and Math SBAC data (increased significantly over the past couple of years).

* 21-22 based on feedback from stakeholders (parents, students, teachers, staff, committees, etc.) that revealed areas most in need of improvement such as:

1. Attendance and Discipline

* concerns about high tardy rates expressed by parents/teachers, etc.

* some administrative restructuring to address these concerns

2. Parent Engagement

* parent meetings in the community

* parent workshops (currently, Ms. Clark is in training to support these efforts)

3. Schoolwide Marketing efforts

* investing in an in-house marketing coordinator after previous year with a company that did not produce the results we wanted

4. Mental Health/Social Emotional learning (a carry-over item from last year as stakeholders believe we need to continue to invest and improve in this area).

* Hiring of at least one PSW is a recommendation

LCAP reports are updated for a three year period, with annual updates to progress. For example:

Year one reviewed progress, then year two, then year three; metrics and goals remain same while progress is measured and documented; after the three years, goals might change again and the process of monitoring progress begins again.

Mr. Wood noted that this LCAP was presented to him in order to cost out items requiring funding that are recommended in the LCAP and these expenditures are in alignment with and supported by the proposed Budget for 2022-2023.

Mr. Wood noted that all districts/schools are required to approve the LCAP plan which guides budget development.

A major expense in our budget/LCAP is \$1.1M in expenditures for textbooks and instructional materials, and there are other expenses, such as furniture expenses, other expenses, all of which have been factored into our proposed 22-23 budget which will be presented later in this meeting.

Mr. Wood then reviewed the LCAP parent presentation to highlight where the money is coming from for the proposed LCAP-aligned 22-23 school budget.

Ms. Clark also noted that furniture modernization is approved and that process will be started during the upcoming year with 10-12 classrooms.

The board **VOTED** to approve the motion.

Danielle Malconian made a motion to approve the renewal of the Palo Alto firewall license for three (3) years and the purchase of the Lightspeed Content Filter contract for five (5) years.

Steven Kofahl seconded the motion.

Prior to the vote, Mr. Hussey and Mr. Guinto reviewed the services and proposed contract costs, with highlights as follow:

* Since we started the 21st century classroom in 2018 ECRCHS has had zero incidents with malware or ransomware.

* Praised Mr. Delgado, Mr. Guinto, and the rest of their Tech. team in ensuring student and staff safety regarding the tech. filter/firewall to keep everything intact and to ensure network security.

* Mr. Guinto saved the school over \$9,500 on the aforementioned 3 year term, the length of the contract being the reason why this item is being presented to the board.

* The content filter alerts ECRCHS when students might search for things they should not be searching in order to help us keep the campus safe. Additionally, the filter helps ECRCHS support students who might benefit from the help of a school psychologist or a psychiatric social worker (PSW) to work out other issues.

* The content filter is essential in keeping students, staff, and school campus safe. It is a five (5) year subscription proposed and Mr. Guinto was able to knock down the price \$16K.

*Mr. Guinto availed himself for any questions at any time. No questions followed. The board **VOTED** to approve the motion.

* ECRCHS just replaced 23 older cameras of 40 total that have helped our safety officers identify issues that have happened at school.

* We're looking to add 40 additional cameras, which will increase the number of cameras close to 80.

* We are looking to add vape sensors, which will help the Deans ensure safety in key areas of the school.

* We are looking to add Pixellot cameras for live coverage for sports, and they will help coaches with their analytics.

* Total Cost of Project is approx. \$84,285, and ECRCHS would be reimbursed 50% using E-rate funds after completion of the project.

* We would not be permitted to start this project until LAUSD's Information Technology Division (ITD) approves this project, which may or may not happen when the matter is taken up in September 2022.
