III. Investment

A. Investment Update

Mr. Wood, CBO, and Mr. Breller, Beacon Pointe Investment Advisor, presented the Investment Update, with highlights as follows:

OPEB:

Mr. wood noted that the October OPEB balance increased from \$19,713M to \$20,842M based on investment gains plus a double contribution in October; As of 11/7/22, the OPEB balance is \$20,684M.

Gen. Acct.:

US Bank Holdings balance \$5.79M.

End of month through Oct Investments down 2.4% up overall up 1.9% due to contributions.

Portfolio transfers due to performance:

* \$725K from Polen into Beacon Pointe Account (OPEB)

* \$125K from Polen into Beacon Pointe (Gen. Acct.)

Mr. Breller presented an overview of Q3 performance slides, with highlights as follows:

* p.1 of slide presentation for Q3; S&P down 5%, stocks and bonds losses; termed it the worst 60/40 portfolio he's seen; pandemic, fiscal stimulus; inflation, monetary policy rate hikes came together for a "perfect storm" that adversely impacted both stocks and bonds; this is really the worst we should see short-term.

* p. 2 - we were in a period of financial repression but repression policies are on pause in order to fight inflation with higher interest rates; fiscal policy is therefore in reverse, economy is slowing, with the chance of recession increasing; risk assets will remain challenged accordingly; while inflation is uncomfortably high, inflation expectations are well-anchored; therefore, the Fed. will continue to tighten financial conditions until inflation is subdued; higher interest rates and economic slowdown continue to support a rotation out of U.S. large Cap Growth stocks and into U.S. Large Cap value. Fed. policy has produced attractive Core Bonds yields. Alternative investments can help reduce volatility, diversity portfolios, and add "uncorrelated" returns.

* p. 3 - reviewed the portfolio OPEB

Market value, percentage of portfolio, and then returns for a period; 1 year mark with Beacon Pointe; policy index reflects 60/40 stocks and bonds, respectively. Gray bars represent equities asset classes, growth, value, etc. Domestic and intl. are subsets.; it's

our fiduciary responsibility to ensure that we invest within the policy statement/ranges based on the risk profile of portfolio expectations.

OPEB 5.5% decline

Additional comments:

- * made some shifts to reduce risk while increasing returns;
- * Alternative investments provided less correlated performance and reflect slightly lower decreased returns when compared to overall portfolio; reduced volatility.
- *Polen noted that consumer staples were too expensive; not terminating the manager, but trimmed to put into our passive equity strategy (core equity passive strategy - S&P 500).

Good News:

- * October brought another 3-5% increase; Polen significant increase in one day;

Gen. Acct:

- * p. 7 - 4-5% income payments starts to pay off some of the losses; all investments are within policy ranges, etc.
