D. Public Comments

E. CBO Report

• The update covered:

- Current financial position of the organization
- Year-to-date revenue and expenses
- Multi-year fiscal outlook
- Staffing stress test scenarios
- The presentation aims to provide a snapshot of the organization's financial health and prepare for potential financial risks.

• Current Financial Position

◦ Year-to-Date Revenue

- Current revenue received: \$28.36 million
- This figure reflects actual cash received so far, not total expected revenue.
- Government funding (state and federal) is disbursed in stages, which explains why some projected revenue has not yet been received.
- Key point:
 - Received funds = confirmed revenue
 - Projected funds = expected but not guaranteed until received

◦ Year-to-Date Expenses

- Current expenses: \$24.97 million
- Spending is currently within the board-approved budget parameters.
- Expense control has been maintained.

◦ Current Surplus

- As of January 26, the organization shows a \$3.39 million surplus.
- This surplus reflects the mid-year financial position.
- The fiscal year is only halfway completed, so projections may change.

• Financial Stability Outlook

◦ Reserve Funds

- The organization maintains reserve funds.
- These reserves act as a financial buffer in case of revenue fluctuations or unexpected expenses.

- **Expected Year-End Outcome**
 - Projected total revenue for the fiscal year: ~\$50 million
 - Projected total expenses: ~\$50 million
 - Expected result:
 - Operating deficit: approximately \$105,000
- **Comparison to Board Projection**
 - The board previously approved a \$200,000 projected deficit.
 - Current projections show a smaller deficit (\$105,000).
 - However:
 - Committee members emphasized that any deficit still represents being “in the red.”
 - Continuous financial monitoring is required.
- **Key Financial Drivers**
 - **Enrollment as Revenue Source**
 - The school’s funding is based on ADA (Average Daily Attendance).
 - Revenue is generated per student attendance.
 - Approximate value:
 - \$14,500 per student per year
 - Therefore:
 - Enrollment fluctuations directly affect funding levels.
- **Staffing Stress Test**
 - A financial stress test was conducted to evaluate how declines in enrollment would affect finances and staffing.
 - **Assumptions**
 - Revenue is primarily driven by ADA enrollment levels
 - Benefits costs increase approximately 3% annually
 - Personnel costs represent 70–80% of the total budget
 - **Scenario 1: 1% Enrollment Decline**
 - Enrollment Impact:
 - 1% ADA decline ≈ 28 students
 - Revenue Impact:
 - Revenue loss: ~\$406,000
 - Benefit Cost Inflation:
 - Additional expense increase: ~\$286,000
 - Staffing Impact:
 - Equivalent to 5.5 Full-Time Equivalent (FTE) positions
 - Implication:
 - A small enrollment drop could require staffing adjustments or reductions.
 - **Scenario 2: 2% Enrollment Decline**
 - Revenue Impact:
 - Approximately \$1.4 million revenue loss
 - Budget Impact:

- Projected deficit increases to ~\$1.6 million
 - Staffing Impact:
 - Significant personnel adjustments would likely be required.
- **Importance of Early Monitoring**
 - To reduce financial disruption, the organization should:
 - Monitor enrollment trends closely
 - Detect declines early
 - Adjust budgets and staffing accordingly
 - Potential strategies include:
 - Natural attrition (retirements or resignations)
 - Adjustments during annual contract cycles
 - Budget planning aligned with enrollment forecasts
- **Teacher Contract and Retirement Timing**
 - Teachers may notify the district of retirement or resignation as late as June.
 - This timing can make budget planning difficult.
 - Possible strategy discussed:
 - Providing financial incentives for early retirement or early notice.
 - Example from another district:
 - Offering approximately \$3,500 incentive payments for early retirement declarations.
 - Early commitments help the organization finalize staffing budgets sooner.
- **Major Financial Risks**
 - **Primary Risk: Enrollment Decline**
 - The largest risk to financial stability.
 - Directly reduces ADA funding.
 - **Financial Sensitivity**
 - Each 1% enrollment change significantly affects revenue.
 - Approximately:
 - 28 students = 1% change
 - **Personnel Costs**
 - Personnel costs account for 70–80% of the total budget.
 - This makes staffing the largest financial lever for managing costs.
- **Potential Cost Management Strategies**
 - Aside from staffing adjustments, the organization could also:
 - Review vendor contracts
 - Reevaluate outsourced services
 - Identify operational efficiencies
 - Adjust discretionary spending
 - These strategies could reduce financial pressure without immediate staff reductions.
- **Key Financial Takeaways**
 - **Current Fiscal Health**

- Financial position remains stable overall.
- Current deficit projection is minor and manageable.
- **Structural Stability**
 - The organization does not currently face a structural deficit.
- **Monitoring Priorities**
 - Leadership must focus on:
 - Enrollment trends
 - Personnel costs
 - Operational efficiency
- **Overall Conclusion**
 - The organization is currently in a stable financial position, though projecting a small deficit (~\$105,000).
 - Enrollment remains the most critical financial factor.
 - Proactive monitoring and strategic planning are necessary to mitigate potential risks from enrollment declines and rising personnel costs.

 - Submissions would be reviewed and approved by advisors and administration prior to being posted.

- The initiative is intended to increase student engagement and provide insight into student council activities.
- Another initiative, "StuCo Scoop," involves recording updates and activities related to student council operations.

• **Board Discussion**

- Board Member Mr. Wright raised concerns regarding the use of personal cameras for recording students and the potential privacy and liability implications.
- Questions were raised regarding whether the school's media waiver, signed by parents at enrollment, applies to media captured using personal devices rather than school equipment.
- Mr. Delgado noted that parents sign a media waiver upon enrollment, but indicated the policy would need to be reviewed to determine the scope of its coverage.
- Mr. Wright suggested that if such media initiatives are approved, they should ideally use school-owned equipment to ensure proper oversight and control of content.
- The Board agreed that the matter should be reviewed further before formal approval.

• **Student Activities**

- ASB hosted a performance by Mini Kiss, which generated strong student engagement.
- Founder's Week was also held in place of a traditional Welcome Back Week and included Spirit Week activities celebrating the school's founding.
