B. Update LAUSD Notice to Cure Issues

Marshall reported that Fernando Delgado and his team have been working on the ERP system since 2013 to create a substantiation process so that the entire purchasing process visible from beginning to end. The team has been creating a customized approach integrating attendance, payroll and purchasing into one program rather than use an off-the-shelf system. The entire process was sped up by LAUSD in October 2014 because staff was complaining to LAUSD. LAUSD issued a Notice to Cure. The team has updated the fiscal policies to be totally compliant, while bringing on additional staff and perfecting the ERP system. The goal is to have the ERP system working smoothly

by summer. LAUSD wants more details and explanations added to the system so that on purchases there is a justification, for example, why a certain hotel was booked for a conference, when there might have been a cheaper option.

C. Update: Enterprise Resource Planning Status

Marshall reported that two or three more fields have been added to the ERP system and staff will be responsible for inputting the information. LACOE sends out a list of preferred vendors every March or April and by using these vendors, it allows schools to bypass the bidding process. The additional steps being asked by LAUSD will require additional staff.

D. Discuss Changes to Fiscal Policies

Marshall stated that FCMAT was invited to review ECRCHS's finances and for their opinion on the ERP system and any fixes that can be corrected prior to LAUSD's next review. This will be another layer of review of ECRCHS's finances which include our accounting team, Federson & Co. auditing firm, Ed Tek (the back office accounting firm), LAUSD and now FCMAT. Jon suggested the Board be the first set of eyes to review finances and suggested making changes to the credit card statements to add more specifics, that the Board be more proactive, that details be immediately documented on receipts and that limits be set on expenses. Marshall stated that the new ERP system is designed to address all the steps of purchases and provide details. Jon addressed the cost of the pianos purchased which was higher than what LAUSD might have paid, but that the quality and legacy of the new pianos justified the cost and he found no violation.
