VI. TOPICS SCHEDULED FOR BOARD DISCUSSION

A. Committees

President Michal opened the discussion about Committees. She referenced board policy 1240, which says that a committee of the board may be created by the majority of the board. They discussed the ABC acronym for the committees that could be formed: The Academic Committee, the Budget Committee, and the Capital Facilities Committee.

The Board discussed starting out with these ABC committees. They discussed what topics would fall under which committee. It was also discussed that it should be really clear what the committees' purposes are and what should be achieved through them. They would like to see standard rules of engagement developed and the parameters of the committees clarified.

The board also discussed the need to ensure all voices are heard in the community. It was also noted that they would like an accurate representation of the community and demographics on each committee.

A Board member asked about forming a levy committee. Superintendent Rumbaugh stated that it is only typical for districts to strategize around their levy information campaign. Districts are limited to information sharing only. She shared that the community might already have some type of levy work underway in the form of a YES campaign.

The Board is interested in the Superintendent forming the ABC committees and would like her to report back in a future meeting on the logistics of getting them started.

VII. STUDENT REPRESENTATIVE REPORT

A. Marysville Pilchuck High School

Student Representative Melody Groff presented a report to the board outlining student learning activities and classroom projects. She also highlighted student school leadership activities, such as Inter High and Elevation Nation. She summed it up by noting the amazing win that Unified Basketball had in their final game of the season and ASB's coordination of Valentine's spirit week.
