### **A. 2024 Report on The Leadership School**

Martha McGeehon from MPCSC (joined by Laurel Bounds & Amy Brown) provided an overview of the annual accountability report for 2023-2024. Late data was released by DESE in late November 2024. Ideally, the report will be provided in September of each year.

The five categories are academics, financial management, learning environment, governance and operations.

Updates include a new Performance Framework and report format; comparing student group to student group vs all students; and growth calculation.

2023-24 data tell us that:

- \* ELA is above district and the proficiency rate is 19%
- \* Math is below district and the proficiency rate is 9%
- \* Attendance = 72% of students attended at least 90%

What does this mean?

In order to move toward renewal, The Leadership School will need to increase student achievement and continue to work on sustainability measures for the organization for 2024-25 school year.

we are holding strong on finances. Budgeted for 210 students and have 215, plus our attendance is up, so funding is steady and increased from last year.

Gary has been working with the Buddy Fund to potentially help us with a donation to fund a playground
