AIMS K-12

Board of Directors Presentation

September 21, 2021

Background & Objectives

D&A Communications has created a strategy based on the strengths of AIMS, with the goal of showcasing the District's academic excellence, highlighting achievements, and showcasing the people who form the AIMS community. D&A began this work in early April, 2021.

D&A has been working towards 3 objectives for AIMS: (1) Raising awareness, (2) Strengthening positive reputation and, (3) Drive support for AIMS' priorities amongst targeted stakeholder groups, including:

- Alumni
- Parents-current and prospective
- Community Business leaders and owners

D&A has maximized AIMS parent and community engagement by highlighting educational accomplishments and student successes through a variety of platforms, including:

- Website optimization
- Creation of a CBO database
- Alumni Outreach
- Blog/Thought Leadership

Methodology

The following was conducted by D&A for the purpose of creating a Key Findings Report and Strategy and Messaging Framework.

1. Research

- Website audit
- Social media audit

2. Listening Sessions

- Head of High School (90-minutes)
- Co-Leads of Middle School (60-minutes)
- Head of Elementary School (30-minutes)
- External Stakeholders (60-minutes)
 - Kimi Kean, Aron Michalski, Jumoke Hinton (3)
- Board President (30-minutes)
- Parent Engagement Coordinator (60-minutes)

Kitt Grant and Ariella Flatt (D&A) facilitated each listening session on behalf of AIMS.

3. Written Surveys

- Teachers (31)
- Board members (3)

Key Learnings

Through the research conducted, we have identified insights, recurring themes, and trends that will help inform the communications strategy moving forward. The Key Findings Report identifies gaps, summarizes opportunities, and uncovers leverageable stakeholder insights to inform this Messaging Framework, and to help clearly define what needs to shift in order to support more positive perceptions of AIMS. The 2020-2021 school year was a unique and challenging time for the AIMS community as Heads of School, teachers, parents, and students adapted to the changes that COVID-19 brought. During this time, more than ever before, frequent and transparent communication was key.

Based on the research, the key learnings include:

- **Equity** should be prioritized.
- **Transparency** and **consistency** are key.
- Emphasize the **community** aspect of AIMS.
- Emphasize the **facts**, including test scores, achievements, and evidence of academic excellence.
- **Trust** is everything. The reputation of AIMS still carries some of the weight of past leadership.
- It's about the **people**- the students, staff, and parents.

End of Year CBO Letter

Dear <<First Name>> <<Last Name>>,

As our 2021-2022 school year is about to begin, we have never been more proud of, not only our AIMS K-12 community, but our Oakland community as a whole. Together, we have faced the challenges of the COVID-19 pandemic, as well as the social unrest experienced nationwide. We remained united, helping each other and providing much-needed support while staying true to our mission of cultivating a community of diverse learners who achieve academic excellence.

AIMS is a tuition-free public charter school, and is open to all California students, including English language learners and students with disabilities. We're committed to high academic achievement, attendance, and character development. This commitment results in our students being prepared for lifelong success and becoming the leaders of tomorrow. Alumni Letter

Dear <Name>,

As we prepare to welcome students back to campus, this year is even more special as we prepare to celebrate our 25th year of existence in the Oakland community. As alumni who played an integral part in us achieving this milestone, we would love to share some highlights from this school year. We have a lot of special activities planned throughout the year and we'd be honored if you could join us to celebrate. **We also would like to invite you to participate in a special social media campaign to honor this milestone (scroll down for more details)!**

Celebrating Academic Excellence

While our District has gone through several changes throughout the past 25 years, one thing certainly hasn't changed: Our commitment to academic excellence.

We are grateful to celebrate another year of stellar academic achievements. The AIMS District is in the top 12% in Math and top 24% in English Language Arts in Oakland. AIMS Elementary and Middle Schools have been recognized by Innovate Public Schools for closing the achievement gap for low-income African Americans in English Language Arts & Math. We have a 100% completion rate of A-G requirements for African-American and Latinx students, and are proud to serve a diverse student body that reflects Oakland's communities. Our students begin taking AP classes in the 9th grade, setting them up for an enriching and comprehensive academic high school experience.

Show Your AIMS Pride!

As we enter our 25th year, we would like to invite you to participate in our **25th Anniversary social media campaign**, which will highlight the people who form our wonderful community. We are thrilled to shine the spotlight on our alumni, and hope that you'll consider supporting your alma mater and participating in this exciting campaign.

To participate, please record a video (1-minute or less), using the following guidelines:

1. Record your video at eye level in portrait mode (hold the phone vertically)
2. Leave some space between your head and the top of the frame
3. Bottom of the frame should be around the middle of your chest
4. Choose a natural outdoor location that is relatively quiet during the day.
5. Hold the phone with your hand when recording (selfie mode)

Introduce yourself and choose **one** question you'd like to answer and aim for around **1 minute** in length (please include the question in your response)

A - What is your name?

1. What AIMS accomplishment fills you with pride?
2. What sets AIMS apart from other schools in Oakland? What makes it special?
3. What's the best part about being part of the AIMS community?
4. What's one word that you would use to describe AIMS? And Why?

Feeling (video) camera shy? No problem! If you would like to participate without recording a video, you can also send us some photos and answer a question of your choice in writing. We would love to see photos from your AIMS days, as well as ones that are more recent.

Please send your videos and photos to Suzen Chu at suzen.chu@aimsk12.org.

Annual Review

SPSA Year Reviewed: 2020-2021

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

The strategies selected for this document are put in place to help our students succeed at a high academic level. These strategies are used to get students on track to proficiency. The strategies are targeted to meet the needs of improved learning for all students and subsets of students who demonstrate the need for additional support in each of the following categories of goals 1- 4. Our strategies are targeted to meet the needs of improved learning for all students and subsets of students who demonstrate the need for additional support.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

After analyzing the SPSA from the 2020-2021 school year, we realized that there was a little bit of learning loss. When we returned to in-person instruction in April, the school year was almost done.

We also had a lot of students still doing virtual learning because of the pandemic. Our goals in performance ratings for expected outcomes were met for some goals and were not met for others.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

Metrics were lowered to more realistic percentages to account for learning loss. The learning loss has made us hire additional intervention aides to help the students who have the most need. We are also putting more funding into professional development for teachers in terms of training on how to work with English Language Learners.

Instructions

The School Plan for Student Achievement (SPSA) is a strategic plan that maximizes the resources available to the school while minimizing duplication of effort with the ultimate goal of increasing student achievement. SPSA development should be aligned with and inform the Local Control and Accountability Plan process.

The SPSA consolidates all school-level planning efforts into one plan for programs funded through the consolidated application (ConApp), and for federal school improvement programs, including schoolwide programs, Comprehensive Support and Improvement (CSI), Targeted Support and Improvement (TSI), and Additional Targeted Support and Improvement (ATSI), pursuant to California *Education Code (EC)* Section 64001 and the Elementary and Secondary Education Act as amended by the Every Student Succeeds Act (ESSA). This template is designed to meet schoolwide program planning requirements. It also notes how to meet CSI, TSI, or ATSI requirements, as applicable.

California's ESSA State Plan supports the state's approach to improving student group performance through the utilization of federal resources. Schools use the SPSA to document their approach to maximizing the impact of federal investments in support of underserved students. The implementation of ESSA in California presents an opportunity for schools to innovate with their federally-funded programs and align them with the priority goals of the school and the LEA that are being realized under the state's Local Control Funding Formula (LCFF).

The LCFF provides schools and LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The SPSA planning process supports continuous cycles of action, reflection, and improvement. Consistent with *EC 65001*, the Schoolsite Council (SSC) is required to develop and annually review the SPSA, establish an annual budget, and make modifications to the plan that reflect changing needs and priorities, as applicable.

For questions related to specific sections of the template, please see instructions below:

Instructions: Table of Contents

The SPSA template meets the requirements of schoolwide planning (SWP). Each section also contains a notation of how to meet CSI, TSI, or ATSI requirements.

Purpose and Description

Schools identified for Comprehensive Support and Improvement (CSI), Targeted Support and Improvement (TSI), or Additional Targeted Support and Improvement (ATSI) must respond to the following prompts. A school that has not been identified for CSI, TSI, or ATSI may delete the Purpose and Description prompts.

Purpose

Briefly describe the purpose of this plan by selecting from Schoolwide Program, Comprehensive Support and Improvement, Targeted Support and Improvement, or Additional Targeted Support and Improvement)

Description

Briefly describe the school's plan for effectively meeting ESSA requirements in alignment with the Local Control and Accountability Plan and other federal, state, and local programs.

Stakeholder Involvement

Meaningful involvement of parents, students, and other stakeholders is critical to the development of the SPSA and the budget process. Schools must share the SPSA with school site-level advisory groups, as applicable (e.g., English Learner Advisory committee, student advisory groups, tribes and

tribal organizations present in the community, as appropriate, etc.) and seek input from these advisory groups in the development of the SPSA.

The Stakeholder Engagement process is an ongoing, annual process. Describe the process used to involve advisory committees, parents, students, school faculty and staff, and the community in the development of the SPSA and the annual review and update.

[This section meets the requirements for TSI and ATSI.]

[When completing this section for CSI, the LEA shall describe the process used to develop, in partnership with stakeholders, the CSI plan.]

Resource Inequities

Schools eligible for CSI or ATSI must identify resource inequities, which may include a review of LEA-and school-level budgeting as a part of the required needs assessment. Identified resource inequities must be addressed through implementation of the CSI or ATSI plan. Briefly identify and describe any resource inequities identified as a result of the required needs assessment and summarize how the identified resource inequities are addressed in the SPSA.

[This section meets the requirements for CSI and ATSI. If the school is not identified for CSI or ATSI this section is not applicable and may be deleted.]

Goals, Strategies, Expenditures, & Annual Review

In this section a school provides a description of the annual goals to be achieved by the school. This section also includes descriptions of the specific planned strategies/activities a school will take to meet the identified goals, and a description of the expenditures required to implement the specific strategies and activities.

Goal

State the goal. A goal is a broad statement that describes the desired result to which all strategies/activities are directed. A goal answers the question: What is the school seeking to achieve?

It can be helpful to use a framework for writing goals such as the S.M.A.R.T. approach. A S.M.A.R.T. goal is one that is **S**pecific, **M**easurable, **A**chievable, **R**ealistic, and **T**ime-bound. A level of specificity is needed in order to measure performance relative to the goal as well as to assess whether it is reasonably achievable. Including time constraints, such as milestone dates, ensures a realistic approach that supports student success.

A school may number the goals using the "Goal #" for ease of reference.

[When completing this section for CSI, TSI, and ATSI, improvement goals shall align to the goals, actions, and services in the LEA LCAP.]

Identified Need

Describe the basis for establishing the goal. The goal should be based upon an analysis of verifiable state data, including local and state indicator data from the California School Dashboard (Dashboard) and data from the School Accountability Report Card, including local data voluntarily collected by districts to measure pupil achievement.

[Completing this section fully addresses all relevant federal planning requirements]

Annual Measurable Outcomes

Identify the metric(s) and/or state indicator(s) that the school will use as a means of evaluating progress toward accomplishing the goal. A school may identify metrics for specific student groups. Include in the baseline column the most recent data associated with the metric or indicator available at the time of adoption of the SPSA. The most recent data associated with a metric or indicator includes data reported in the annual update of the SPSA. In the subsequent Expected Outcome column, identify the progress the school intends to make in the coming year.

[When completing this section for CSI the school must include school-level metrics related to the metrics that led to the school's identification.]

[When completing this section for TSI/ATSI the school must include metrics related to the specific student group(s) that led to the school's identification.]

Strategies/Activities

Describe the strategies and activities being provided to meet the described goal. A school may number the strategy/activity using the "Strategy/Activity #" for ease of reference.

Planned strategies/activities address the findings of the needs assessment consistent with state priorities and resource inequities, which may have been identified through a review of the local educational agency's budgeting, its local control and accountability plan, and school-level budgeting, if applicable.

[When completing this section for CSI, TSI, and ATSI, this plan shall include evidence-based interventions and align to the goals, actions, and services in the LEA LCAP.]

[When completing this section for CSI and ATSI, this plan shall address through implementation, identified resource inequities, which may have been identified through a review of LEA- and school-level budgeting.]

Students to be Served by this Strategy/Activity

Indicate in this box which students will benefit from the strategies/activities by indicating "All Students" or listing one or more specific student group(s) to be served.

[This section meets the requirements for CSI.]

[When completing this section for TSI and ATSI, at a minimum, the student groups to be served shall include the student groups that are consistently underperforming, for which the school received the TSI or ATSI designation. For TSI, a school may focus on all students or the student group(s) that led to identification based on the evidence-based interventions selected.]

Proposed Expenditures for this Strategy/Activity

For each strategy/activity, list the amount(s) and funding source(s) for the proposed expenditures for the school year to implement these strategies/activities. Specify the funding source(s) using one or more of the following: LCFF, Federal (if Federal, identify the Title and Part, as applicable), Other State, and/or Local.

Proposed expenditures that are included more than once in a SPSA should be indicated as a duplicated expenditure and include a reference to the goal and strategy/activity where the

expenditure first appears in the SPSA. Pursuant to Education Code, Section 64001(g)(3)(C), proposed expenditures, based on the projected resource allocation from the governing board or governing body of the LEA, to address the findings of the needs assessment consistent with the state priorities including identifying resource inequities which may include a review of the LEA's budgeting, its LCAP, and school-level budgeting, if applicable.

[This section meets the requirements for CSI, TSI, and ATSI.]

[NOTE: Federal funds for CSI shall not be used in schools identified for TSI or ATSI. In addition, funds for CSI shall not be used to hire additional permanent staff.]

Annual Review

In the following Analysis prompts, identify any material differences between what was planned and what actually occurred as well as significant changes in strategies/activities and/ or expenditures from the prior year. This annual review and analysis should be the basis for decision-making and updates to the plan.

Analysis

Using actual outcome data, including state indicator data from the Dashboard, analyze whether the planned strategies/activities were effective in achieving the goal. Respond to the prompts as instructed. Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal the Annual Review section is not required and this section may be deleted.

- Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.
- Briefly describe any major differences between either/or the intended implementation or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.
- Describe any changes that will be made to the goal, expected annual measurable outcomes, metrics/indicators, or strategies/activities to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard, as applicable. Identify where those changes can be found in the SPSA.

[When completing this section for CSI, TSI, or ATSI, any changes made to the goals, annual measurable outcomes, metrics/indicators, or strategies/activities, shall meet the CSI, TSI, or ATSI planning requirements. CSI, TSI, and ATSI planning requirements are listed under each section of the Instructions. For example, as a result of the Annual Review and Update, if changes are made to a goal(s), see the Goal section for CSI, TSI, and ATSI planning requirements.]

Budget Summary

In this section a school provides a brief summary of the funding allocated to the school through the ConApp and/or other funding sources as well as the total amount of funds for proposed expenditures described in the SPSA. The Budget Summary is required for schools funded through the ConApp and that receive federal funds for CSI. If the school is not operating a Title I schoolwide program this section is not applicable and may be deleted.

From its total allocation for CSI, the LEA may distribute funds across its schools that meet the criteria for CSI to support implementation of this plan. In addition, the LEA may retain a portion of its total

allocation to support LEA-level expenditures that are directly related to serving schools eligible for CSI.

Budget Summary

A school receiving funds allocated through the ConApp should complete the Budget Summary as follows:

- Total Funds Provided to the School Through the Consolidated Application: This amount is the total amount of funding provided to the school through the ConApp for the school year. The school year means the fiscal year for which a SPSA is adopted or updated.
- Total Funds Budgeted for Strategies to Meet the Goals in the SPSA: This amount is the total of the proposed expenditures from all sources of funds associated with the strategies/activities reflected in the SPSA. To the extent strategies/activities and/or proposed expenditures are listed in the SPSA under more than one goal, the expenditures should be counted only once.

A school receiving federal funds for CSI should complete the Budget Summary as follows:

- Total Federal Funds Provided to the School from the LEA for CSI: This amount is the total amount of funding provided to the school from the LEA.

[NOTE: Federal funds for CSI shall not be used in schools eligible for TSI or ATSI. In addition, funds for CSI shall not be used to hire additional permanent staff.]

Appendix A: Plan Requirements

Schoolwide Program Requirements

This School Plan for Student Achievement (SPSA) template meets the requirements of a schoolwide program plan. The requirements below are for planning reference.

A school that operates a schoolwide program and receives funds allocated through the ConApp is required to develop a SPSA. The SPSA, including proposed expenditures of funds allocated to the school through the ConApp, must be reviewed annually and updated by the SSC. The content of a SPSA must be aligned with school goals for improving student achievement.

- B. Evidence-based strategies, actions, or services (described in Strategies and Activities)
 - 1. A description of the strategies that the school will be implementing to address school needs, including a description of how such strategies will--
 - a. provide opportunities for all children including each of the subgroups of students to meet the challenging state academic standards
 - b. use methods and instructional strategies that:

 1. Ensure that those students' difficulties are identified on a timely basis; and
 2. Provide sufficient information on which to base effective assistance to those students.
- G. For an elementary school, a description of how the school will assist preschool students in the successful transition from early childhood programs to the school.

Single School Districts and Charter Schools Identified for School Improvement

Single school districts (SSDs) or charter schools that are identified for CSI, TSI, or ATSI, shall develop a SPSA that addresses the applicable requirements above as a condition of receiving funds (EC Section 64001[a] as amended by Assembly Bill [AB] 716, effective January 1, 2019).

However, a SSD or a charter school may streamline the process by combining state and federal requirements into one document which may include the local control and accountability plan (LCAP) and all federal planning requirements, provided that the combined plan is able to demonstrate that the legal requirements for each of the plans is met (EC Section 52062[a] as amended by AB 716, effective January 1, 2019).

Planning requirements for single school districts and charter schools choosing to exercise this option are available in the LCAP Instructions.

Annual Review

SPSA Year Reviewed: 2020-2021

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

The strategies selected for this document are put in place to help our students succeed at a high academic level. These strategies are used to get students on track to proficiency. The strategies are targeted to meet the needs of improved learning for all students and subsets of students who demonstrate the need for additional support in each of the following categories of goals 1- 4. Our strategies are targeted to meet the needs of improved learning for all students and subsets of students who demonstrate the need for additional support.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

After analyzing the SPSA from the 2020-2021 school year, we realized that there was a little bit of learning loss. When we returned to in-person instruction in April, the school year was almost done. We also had a lot of students still doing virtual learning because of the pandemic. Our goals in performance ratings for expected outcomes were met for some goals and were not met for others.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

Metrics were lowered to more realistic percentages to account for learning loss. The learning loss has made us hire additional intervention aides to help the students who have the most need. We are also putting more funding into professional development for teachers in terms of training on how to work with English Language Learners.

Instructions

The School Plan for Student Achievement (SPSA) is a strategic plan that maximizes the resources available to the school while minimizing duplication of effort with the ultimate goal of increasing student achievement. SPSA development should be aligned with and inform the Local Control and Accountability Plan process.

The SPSA consolidates all school-level planning efforts into one plan for programs funded through the consolidated application (ConApp), and for federal school improvement programs, including schoolwide programs, Comprehensive Support and Improvement (CSI), Targeted Support and Improvement (TSI), and Additional Targeted Support and Improvement (ATSI), pursuant to California *Education Code (EC)* Section 64001 and the Elementary and Secondary Education Act as amended by the Every Student Succeeds Act (ESSA). This template is designed to meet schoolwide program planning requirements. It also notes how to meet CSI, TSI, or ATSI requirements, as applicable.

California's ESSA State Plan supports the state's approach to improving student group performance through the utilization of federal resources. Schools use the SPSA to document their approach to maximizing the impact of federal investments in support of underserved students. The implementation of ESSA in California presents an opportunity for schools to innovate with their federally-funded programs and align them with the priority goals of the school and the LEA that are being realized under the state's Local Control Funding Formula (LCFF).

The LCFF provides schools and LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The SPSA planning process supports continuous cycles of action, reflection, and improvement. Consistent with *EC 65001*, the Schoolsite Council (SSC) is required to develop and annually review the SPSA, establish an annual budget, and make modifications to the plan that reflect changing needs and priorities, as applicable.

For questions related to specific sections of the template, please see instructions below:

Instructions: Table of Contents

The SPSA template meets the requirements of schoolwide planning (SWP). Each section also contains a notation of how to meet CSI, TSI, or ATSI requirements.

Purpose and Description

Schools identified for Comprehensive Support and Improvement (CSI), Targeted Support and Improvement (TSI), or Additional Targeted Support and Improvement (ATSI) must respond to the following prompts. A school that has not been identified for CSI, TSI, or ATSI may delete the Purpose and Description prompts.

Purpose

Briefly describe the purpose of this plan by selecting from Schoolwide Program, Comprehensive Support and Improvement, Targeted Support and Improvement, or Additional Targeted Support and Improvement)

Description

Briefly describe the school's plan for effectively meeting ESSA requirements in alignment with the Local Control and Accountability Plan and other federal, state, and local programs.

Stakeholder Involvement

Meaningful involvement of parents, students, and other stakeholders is critical to the development of the SPSA and the budget process. Schools must share the SPSA with school site-level advisory groups, as applicable (e.g., English Learner Advisory committee, student advisory groups, tribes and School Plan for Student Achievement| Page 2 of 4

tribal organizations present in the community, as appropriate, etc.) and seek input from these advisory groups in the development of the SPSA.

The Stakeholder Engagement process is an ongoing, annual process. Describe the process used to involve advisory committees, parents, students, school faculty and staff, and the community in the development of the SPSA and the annual review and update.

[This section meets the requirements for TSI and ATSI.]

[When completing this section for CSI, the LEA shall describe the process used to develop, in partnership with stakeholders, the CSI plan.]

Resource Inequities

Schools eligible for CSI or ATSI must identify resource inequities, which may include a review of LEA-and school-level budgeting as a part of the required needs assessment. Identified resource inequities must be addressed through implementation of the CSI or ATSI plan. Briefly identify and describe any resource inequities identified as a result of the required needs assessment and summarize how the identified resource inequities are addressed in the SPSA.

[This section meets the requirements for CSI and ATSI. If the school is not identified for CSI or ATSI this section is not applicable and may be deleted.]

Goals, Strategies, Expenditures, & Annual Review

In this section a school provides a description of the annual goals to be achieved by the school. This section also includes descriptions of the specific planned strategies/activities a school will take to meet the identified goals, and a description of the expenditures required to implement the specific strategies and activities.

Goal

State the goal. A goal is a broad statement that describes the desired result to which all strategies/activities are directed. A goal answers the question: What is the school seeking to achieve?

It can be helpful to use a framework for writing goals such as the S.M.A.R.T. approach. A S.M.A.R.T. goal is one that is **S**pecific, **M**easurable, **A**chievable, **R**ealistic, and **T**ime-bound. A level of specificity is needed in order to measure performance relative to the goal as well as to assess whether it is reasonably achievable. Including time constraints, such as milestone dates, ensures a realistic approach that supports student success.

A school may number the goals using the “Goal #” for ease of reference.

[When completing this section for CSI, TSI, and ATSI, improvement goals shall align to the goals, actions, and services in the LEA LCAP.]

Identified Need

Describe the basis for establishing the goal. The goal should be based upon an analysis of verifiable state data, including local and state indicator data from the California School Dashboard (Dashboard) and data from the School Accountability Report Card, including local data voluntarily collected by districts to measure pupil achievement.

[Completing this section fully addresses all relevant federal planning requirements]

Annual Measurable Outcomes

Identify the metric(s) and/or state indicator(s) that the school will use as a means of evaluating progress toward accomplishing the goal. A school may identify metrics for specific student groups. Include in the baseline column the most recent data associated with the metric or indicator available at the time of adoption of the SPSA. The most recent data associated with a metric or indicator includes data reported in the annual update of the SPSA. In the subsequent Expected Outcome column, identify the progress the school intends to make in the coming year.

[When completing this section for CSI the school must include school-level metrics related to the metrics that led to the school's identification.]

[When completing this section for TSI/ATSI the school must include metrics related to the specific student group(s) that led to the school's identification.]

Strategies/Activities

Describe the strategies and activities being provided to meet the described goal. A school may number the strategy/activity using the "Strategy/Activity #" for ease of reference.

Planned strategies/activities address the findings of the needs assessment consistent with state priorities and resource inequities, which may have been identified through a review of the local educational agency's budgeting, its local control and accountability plan, and school-level budgeting, if applicable.

[When completing this section for CSI, TSI, and ATSI, this plan shall include evidence-based interventions and align to the goals, actions, and services in the LEA LCAP.]

[When completing this section for CSI and ATSI, this plan shall address through implementation, identified resource inequities, which may have been identified through a review of LEA- and school-level budgeting.]

Students to be Served by this Strategy/Activity

Indicate in this box which students will benefit from the strategies/activities by indicating "All Students" or listing one or more specific student group(s) to be served.

[This section meets the requirements for CSI.]

[When completing this section for TSI and ATSI, at a minimum, the student groups to be served shall include the student groups that are consistently underperforming, for which the school received the TSI or ATSI designation. For TSI, a school may focus on all students or the student group(s) that led to identification based on the evidence-based interventions selected.]

Proposed Expenditures for this Strategy/Activity

For each strategy/activity, list the amount(s) and funding source(s) for the proposed expenditures for the school year to implement these strategies/activities. Specify the funding source(s) using one or more of the following: LCFF, Federal (if Federal, identify the Title and Part, as applicable), Other State, and/or Local.

Proposed expenditures that are included more than once in a SPSA should be indicated as a duplicated expenditure and include a reference to the goal and strategy/activity where the

expenditure first appears in the SPSA. Pursuant to Education Code, Section 64001(g)(3)(C), proposed expenditures, based on the projected resource allocation from the governing board or governing body of the LEA, to address the findings of the needs assessment consistent with the state priorities including identifying resource inequities which may include a review of the LEA's budgeting, its LCAP, and school-level budgeting, if applicable.

[This section meets the requirements for CSI, TSI, and ATSI.]

[NOTE: Federal funds for CSI shall not be used in schools identified for TSI or ATSI. In addition, funds for CSI shall not be used to hire additional permanent staff.]

Annual Review

In the following Analysis prompts, identify any material differences between what was planned and what actually occurred as well as significant changes in strategies/activities and/ or expenditures from the prior year. This annual review and analysis should be the basis for decision-making and updates to the plan.

Analysis

Using actual outcome data, including state indicator data from the Dashboard, analyze whether the planned strategies/activities were effective in achieving the goal. Respond to the prompts as instructed. Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal the Annual Review section is not required and this section may be deleted.

- Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.
- Briefly describe any major differences between either/or the intended implementation or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.
- Describe any changes that will be made to the goal, expected annual measurable outcomes, metrics/indicators, or strategies/activities to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard, as applicable. Identify where those changes can be found in the SPSA.

[When completing this section for CSI, TSI, or ATSI, any changes made to the goals, annual measurable outcomes, metrics/indicators, or strategies/activities, shall meet the CSI, TSI, or ATSI planning requirements. CSI, TSI, and ATSI planning requirements are listed under each section of the Instructions. For example, as a result of the Annual Review and Update, if changes are made to a goal(s), see the Goal section for CSI, TSI, and ATSI planning requirements.]

Budget Summary

In this section a school provides a brief summary of the funding allocated to the school through the ConApp and/or other funding sources as well as the total amount of funds for proposed expenditures described in the SPSA. The Budget Summary is required for schools funded through the ConApp and that receive federal funds for CSI. If the school is not operating a Title I schoolwide program this section is not applicable and may be deleted.

From its total allocation for CSI, the LEA may distribute funds across its schools that meet the criteria for CSI to support implementation of this plan. In addition, the LEA may retain a portion of its total

allocation to support LEA-level expenditures that are directly related to serving schools eligible for CSI.

Budget Summary

A school receiving funds allocated through the ConApp should complete the Budget Summary as follows:

- Total Funds Provided to the School Through the Consolidated Application: This amount is the total amount of funding provided to the school through the ConApp for the school year. The school year means the fiscal year for which a SPSA is adopted or updated.
- Total Funds Budgeted for Strategies to Meet the Goals in the SPSA: This amount is the total of the proposed expenditures from all sources of funds associated with the strategies/activities reflected in the SPSA. To the extent strategies/activities and/or proposed expenditures are listed in the SPSA under more than one goal, the expenditures should be counted only once.

A school receiving federal funds for CSI should complete the Budget Summary as follows:

- Total Federal Funds Provided to the School from the LEA for CSI: This amount is the total amount of funding provided to the school from the LEA.

[NOTE: Federal funds for CSI shall not be used in schools eligible for TSI or ATSI. In addition, funds for CSI shall not be used to hire additional permanent staff.]

Appendix A: Plan Requirements

Schoolwide Program Requirements

This School Plan for Student Achievement (SPSA) template meets the requirements of a schoolwide program plan. The requirements below are for planning reference.

A school that operates a schoolwide program and receives funds allocated through the ConApp is required to develop a SPSA. The SPSA, including proposed expenditures of funds allocated to the school through the ConApp, must be reviewed annually and updated by the SSC. The content of a SPSA must be aligned with school goals for improving student achievement.

Requirements for Development of the Plan

 - A. Administration of a comprehensive needs assessment that forms the basis of the school's goals contained in the SPSA.
 1. The comprehensive needs assessment of the entire school shall:
 - a. Include an analysis of verifiable state data, consistent with all state priorities as noted in Sections 52060 and 52066, and informed by all indicators described in Section 1111(c)(4)(B) of the federal Every Student Succeeds Act, including pupil performance against state-determined long-term goals. The school may include data voluntarily developed by districts to measure pupil outcomes (described in the Identified Need); and
 - b. Be based on academic achievement information about all students in the school, including all groups under §200.13(b)(7) and migratory children as defined in section 1309(2) of the ESEA, relative to the State's academic standards under §200.1 to—
 - i. Help the school understand the subjects and skills for which teaching and learning need to be improved; and
 - ii. Identify the specific academic needs of students and groups of students who are not yet achieving the State's academic standards; and
 - iii. Assess the needs of the school relative to each of the components of the schoolwide program under §200.28.
 - iv. Develop the comprehensive needs assessment with the participation of individuals who will carry out the schoolwide program plan.
 - v. Document how it conducted the needs assessment, the results it obtained, and the conclusions it drew from those results.
 - B. Identification of the process for evaluating and monitoring the implementation of the SPSA and progress towards accomplishing the goals set forth in the SPSA (described in the Expected Annual Measurable Outcomes and Annual Review and Update).

- B. Evidence-based strategies, actions, or services (described in Strategies and Activities)
 - 1. A description of the strategies that the school will be implementing to address school needs, including a description of how such strategies will--
 - a. provide opportunities for all children including each of the subgroups of students to meet the challenging state academic standards
 - b. use methods and instructional strategies that:
 - i. strengthen the academic program in the school,
 - ii. increase the amount and quality of learning time, and
 - iii. provide an enriched and accelerated curriculum, which may include programs, activities, and courses necessary to provide a well-rounded education.
 - c. Address the needs of all children in the school, but particularly the needs of those at risk of not meeting the challenging State academic standards, so that all students demonstrate at least proficiency on the State's academic standards through activities which may include:
 - i. strategies to improve students' skills outside the academic subject areas;
 - ii. preparation for and awareness of opportunities for postsecondary education and the workforce;
 - iii. implementation of a schoolwide tiered model to prevent and address problem behavior;
 - iv. professional development and other activities for teachers, paraprofessionals, and other school personnel to improve instruction and use of data; and

Employees of the schoolwide program may be deemed funded by a single cost objective.
- D. A description of how the school will determine if school needs have been met (described in the Expected Annual Measurable Outcomes and the Annual Review and Update).

- E. A description of how the school will ensure parental involvement in the planning, review, and improvement of the schoolwide program plan (described in Stakeholder Involvement and/or Strategies/Activities).
- F. A description of the activities the school will include to ensure that students who experience difficulty attaining proficient or advanced levels of academic achievement standards will be provided with effective, timely additional support, including measures to
 1. Ensure that those students' difficulties are identified on a timely basis; and
 2. Provide sufficient information on which to base effective assistance to those students.
- G. For an elementary school, a description of how the school will assist preschool students in the successful transition from early childhood programs to the school.
- H. A description of how the school will use resources to carry out these components (described in the Proposed Expenditures for Strategies/Activities).
- I. A description of any other activities and objectives as established by the SSC (described in the Strategies/Activities).

Plan Requirements for School to Meet Federal School Improvement Planning Requirements

For questions or technical assistance related to meeting Federal School Improvement Planning Requirements, please contact the CDE's School Improvement and Support Office at SISO@cde.ca.gov.

Comprehensive Support and Improvement

The LEA shall, in partnership with stakeholders (including principals and other school leaders, teachers, and parents), locally develop and implement the CSI plan for the school to improve student outcomes, and specifically address the metrics that led to eligibility for CSI (Stakeholder Involvement).

The CSI plan shall:

1. Be informed by all state indicators, including student performance against state-determined long-term goals (Goal, Identified Need, Expected Annual Measurable Outcomes, Annual Review and Update, as applicable);
2. Include evidence-based interventions (Strategies/Activities, Annual Review and Update, as applicable) (For resources related to evidence-based interventions, see the U.S. Department of Education's "Using Evidence to Strengthen Education Investments" at <https://www2.ed.gov/policy/elsec/leg/essa/guidanceusesinvestment.pdf>);
3. Be based on a school-level needs assessment (Goal, Identified Need, Expected Annual Measurable Outcomes, Annual Review and Update, as applicable); and
4. Identify resource inequities, which may include a review of LEA- and school-level budgeting, to be addressed through implementation of the CSI plan (Goal, Identified Need, Expected Annual Measurable Outcomes, Planned Strategies/Activities; and Annual Review and Update, as applicable).

Authority Cited: Sections 1003(e)(1)(A), 1003(i), 1111(c)(4)(B), and 1111(d)(1) of the ESSA.

Targeted Support and Improvement

In partnership with stakeholders (including principals and other school leaders, teachers, and parents) the school shall develop and implement a school-level TSI plan to improve student outcomes for each subgroup of students that was the subject of identification (Stakeholder Involvement).

The TSI plan shall:

1. Be informed by all state indicators, including student performance against state-determined long-term goals (Goal, Identified Need, Expected Annual Measurable Outcomes, Annual Review and Update, as applicable); and
2. Include evidence-based interventions (Planned Strategies/Activities, Annual Review and Update, as applicable). 1. Identify resource inequities, which may include a review of LEA- and school-level budgeting, which will be addressed through implementation of its TSI plan (Goal, Identified Need, Expected Annual Measurable Outcomes, Planned Strategies/Activities, and Annual Review and Update, as applicable).

Authority Cited: Sections 1003(e)(1)(B), 1003(i), 1111(c)(4)(B), and 1111(d)(2)(c) of the ESSA.

Single School Districts and Charter Schools Identified for School Improvement

Single school districts (SSDs) or charter schools that are identified for CSI, TSI, or ATSI, shall develop a SPSA that addresses the applicable requirements above as a condition of receiving funds (EC Section 64001[a] as amended by Assembly Bill [AB] 716, effective January 1, 2019).

However, a SSD or a charter school may streamline the process by combining state and federal requirements into one document which may include the local control and accountability plan (LCAP) and all federal planning requirements, provided that the combined plan is able to demonstrate that the legal requirements for each of the plans is met (EC Section 52062[a] as amended by AB 716, effective January 1, 2019).

Planning requirements for single school districts and charter schools choosing to exercise this option are available in the LCAP Instructions.

Authority Cited: EC sections 52062(a) and 64001(a), both as amended by AB 716, effective January 1, 2019.

Display is installed. Buyer shall pay for costs of relocating power lines, or other obstacles, to comply with the laws of Federal, State, or Municipal agencies. The price fixed herein is based on the assumption that installation will be in normal soil. In the event adverse soft conditions or underground obstructions are encountered, the parties agree to adjust the extra installation costs based on Seller's additional cost. The price fixed herein is also based on the assumption that mounting surfaces are conducive to normal installation procedures. In addition, concrete walls and surfaces are assumed to be of normal density. Should adverse conditions exist, such as rebar, hidden steel members, and/or high specification concrete, which impedes drilling of same, then the parties agree to adjust the extra installation costs based on Seller's additional cost.

8) Painting: Upon removal of signs that are attached to building walls, fascias, or other structures, Buyer will, unless otherwise specified, patch all mounting and electrical holes in conjunction with the removal, and spot paint the patch marks with a color that, if specified, is determined by Seller to be reasonably close to the existing color. Because of fading, weathering and possible differences in surface textures, Seller makes no guarantee to match the existing colors exactly. Additionally, there are times when it may be necessary to have entire wall sections or fascia areas repainted to get rid of "shadowing" and ensure color matches. That painting, if required, is to be the sole responsibility of the Buyer.

9) Fabrication of Display; Price Increases for Deferred Fabrication or Delivery: Seller shall commence fabrication of Display promptly following receipt of all permits, licenses and consents specified herein unless the terms of this agreement or instructions from Buyer provide for Seller not to commence fabrication of Display until a later date, occurrence or event. If, for any reason other than fault or neglect of Seller, fabrication shall not be commenced within 90 days from the date of Seller's acceptance of this agreement, or if delivery or tender of Display shall be delayed, deferred or postponed, for any reason other than fault or neglect of Seller, beyond 12 months from the date of such acceptance, then, in any such event, the price of Display specified herein shall be subject to increase, as determined by Seller, on the basis of applicable labor, material and transportation cost increases incurred by Seller subsequent to such acceptance date. Seller shall promptly advise Buyer of any price increase resulting from the provisions of this paragraph.

10) Fabrication Interruptions: If, after fabrication of Display is commenced, Seller shall cease scheduled fabrication at the request of Buyer or by reason of any act or omission of Buyer, then Buyer, in addition to all its other obligations under this agreement, shall be responsible for all of Seller's costs and expenses thereby resulting and for all additional costs and expenses incurred upon recommencement of fabrication, including, without limitation, increased labor and materials costs incurred by Seller in completion of fabrication. Any cessation or extension of scheduled fabrication requested by Buyer shall be in the sole discretion of Seller and shall not relieve Buyer of any of its obligations under this agreement.

11) Indemnification: Buyer shall indemnify Seller against and hold Seller harmless from, all claims, actions, proceedings, costs, damages and liabilities, including attorneys fees, arising out of, connected with, or resulting from the installation and maintenance of said Display which arises from the operations or conduct of Buyer or his agents, the use of any trade names, trademarks, copyrights, or patents utilized in the said Display, or, any disputes with the owner or lien holder of the premises, or any government agency or authority seeking to revoke a permit or license or to enjoin or have the Display declared a nuisance

12) Credit Reference: At Seller's discretion, Seller may request, coincidentally with delivery of this agreement, current financial statements together with financial information and references on forms provided by Seller. Buyer agrees to provide further information promptly upon request by Seller at any time during the term of this agreement, which reflect the financial condition of Buyer's business, not limited to, but including, financial statements for the current accounting period. Buyer further authorizes Seller to obtain TRW, Dunn & Bradstreet or some other similar credit check of Buyer from time to time until Buyer has paid in full for the Display.

13) Warranty: Seller warrants to Buyer that Display (excluding lamps as to which Seller makes no warranty) at the time of delivery or installation, if applicable, will be free from defects of material and workmanship, and will be in accordance with specifications which are a part of this agreement. Seller's sole obligation under these warranties is limited to either at Seller's option, repairing or furnishing a replacement for Display or the parts thereof, which Seller determines to not conform to these warranties, and Buyer's exclusive remedy for breach of any such warranty will be enforcement of such obligation of Seller. Seller's obligations hereunder shall extend only to defects for which Buyer shall have given Seller written notice thereof within 90 days after date of delivery or installation, if

applicable, and shall in no event extend to consequential damages or damages for loss of use of Display. ***THE FOREGOING WARRANTIES ARE EXCLUSIVE AND IN LIEU OF ALL OTHER WARRANTIES OF MERCHANTABILITY, FITNESS FOR PARTICULAR PURPOSE, AND OF ANY OTHER TYPE, WHETHER EXPRESS OR IMPLIED.***

subject to discovery in any arbitration or court action, pursuant to Evidence Code Section 1152.5. If any party commences an arbitration or court action based on a dispute or claim to which this paragraph applies, without first attempting to resolve the matter through mediation, then in the discretion of the arbitration(s) or judge, that party shall not be entitled to recover attorney’s fees, even if they would otherwise be available to that party in any such arbitration or court action. Any dispute or claim in law or in equity arising out of or relating to this order, which is not settled through a mediation, shall be decided by neutral, binding arbitration and not by court action, except as provided by CA law for judicial review of arbitration proceedings. The arbitration shall be conducted in accordance with the rules of either the American Arbitration Assoc. construction industry rules, or Judicial Arbitration and Mediations Services, Inc./Endispute (J.A.M.S./Endispute). The claimant first filing for arbitration shall make the selection between A.A.A. and J.A.M.S./Endispute rules. 15) Inspection: Buyer shall inspect the Display immediately upon installation, and shall notify Seller in writing of any defects or variances therein. Completion of the Display, ready for installation, shall be deemed equivalent of actual installation in the event that Seller shall be prevented from making the installation by reason of failure or neglect of Buyer to prepare the premises for such installation, as herein provided, or other default on the part of Buyer. Buyer will provide reasonable access to area behind Display, if required to complete installation of it.

CA Dashboard

What Is the California School Dashboard?

The California School Dashboard (or the Dashboard) is an online tool that shows parents and communities how schools and districts are performing on test scores, graduation rates, and other measures of student success. These multiple measures of success reflect California's new accountability system, which is based on the ten priority areas of the Local Control Funding Formula (LCFF) available at <http://www.cde.ca.gov/fg/aa/lc/lcffoverview.asp>.

Local Indicators

Local indicators are a part of a seamless accountability system that:

- Reflects the emphasis on 'local control'
- Enables LEAs to measure its progress using local data
- Provides valuable information necessary for stakeholders to engage in meaningful engagement with a holistic understanding of local successes and challenges
- Informs the Local Control and Accountability Plan (LCAP) planning process

Local Indicators

Priority 1:

- **Basic Services and Conditions**

 - Teacher misassignment

 - Student access to instructional material

 - Conditions of school facilities

Priority 2:

- Implementation of State Academic Standards

Priority 3:

- Parent Engagement

Priority 6:

- School Climate

Priority 7:

- Access to a Broad Course of Study

AIMS MS - Priority 1

Priority 1 - Basic Services and Conditions: Met

- Teacher misassignment - 25%
- Student access to instructional material - 100%
- Conditions of school facilities - Good

Teacher credentialing continues to be a priority. Several teachers who are in need of clearing their preliminary credential participated in the induction program, a cost for which the school pays.

During the distance learning due to pandemic, we ensure all of our students have access to standards-aligned instructional materials including technology devices and internet access for use at home.

During reopening, CDE guidelines were followed for safe in-person learning. Students are placed in stable cohorts, facilities are checked, sanitized and maintained throughout the day . The school created a partnership with an on-site janitorial company to provide additional daily cleaning, sanitization and maintenance services. This provides students a COVID-19 safe, healthy and inviting learning environment where they are protected from physical and emotional harm and is essential to the mission of our schools. Safe schools are not just places with advanced security procedures. They are also places that help students develop and that allow them to succeed even in difficult circumstances. We believe safe schools encourage healthy behaviors that help students learn about fitness, nutrition, and healthy choices.

AIMS MS - Priority 2

Priority 2 - Implementation of State Academic Standards: Met

The district conducted several needs assessments in order to determine the most appropriate strategies for distance learning. Teachers were provided with additional technology resources and internet access to implement the Academic Standards in virtual settings. Teachers were provided professional development required for implementation of State Academic standards in distance learning settings.

The district conducted several needs assessments in order to determine proper ELA curriculum and teacher training required to build vertical alignment between K-12; the ultimate goal is college-readiness. Schools determined a need for more higher order thinking materials to support a college-ready literacy program. Teachers began to receive training on building higher order thinking literacy protocols to build upon a robust reading comprehension program.

The district conducted additional needs assessments in order to determine better ways to utilize the existing HMH Go Math curriculum. Teachers required additional training in emphasizing Common Core approaches to math in order to supplement the curriculum effectively. Teachers received this training. Professional development towards Next Generation Science Standards implementation began with help from Lawrence Hall of Science. Students were also able to use science kits from Foss Science for a more hands-on experience. Teachers began familiarizing themselves with DBQ for Social Science. Mandarin and Spanish were both offered for students in the middle school.

In addition, the school applied for Measure G1 which allow students to be provided innovative courses that cover visual and performing arts. We envision a program that will offer a unique combination of rigorous curriculum and artistic immersion.

AIMS MS - Priority 6

Priority 6 - School Climate: Met

We conducted an annual survey to get results on school climate. The survey was given to 6th-8th families. Below are the results for families.

Family Survey (Strongly agree or agree responses)

1: At school my child is able to do his/her work without worrying about his/her physical or emotional safety. 92.3%

2: This school has a supportive learning environment for my child. 98.0%

Providing students a healthy and inviting learning environment where they are protected from physical and emotional harm is essential to the mission of our schools. Safe schools are not just places with advanced security procedures. They are also places that help students develop that allow them to succeed even in difficult circumstances. Safe schools encourage healthy behaviors that help students learn about fitness, nutrition, and healthy choices.

AIMS MS- Priority 7

Priority 7- Access to a Broad Course of Study: Met

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served.

At AIMS MS, all students were enrolled in the following courses:

- English Language Arts
- Mathematics
- Social Studies
- Science
- Physical Education
- World Languages Courses (Mandarin/Spanish)
- Visual & Performing Art courses (Art/Graphic Design/Music)

2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study. LEAs may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study.

During the 2020-21 academic school year, all Middle School students were enrolled in the following courses both in distance & hybrid learning settings. :

- English Language Arts
- Mathematics
- Social Studies
- Science
- Physical Education
- World Languages Courses (Mandarin/Spanish)
- Visual & Performing Art courses (Art/Graphic Design/Music)
-

This is ensured by enrollment as well as consistent progress monitoring. Students who required additional support in core subjects, through pull-out support (in stable cohorts and/or zoom breakout rooms), received services from instructional aids. Students with exceptional needs, as mandated by their IEP or 504, will still have access to general education classrooms based on standard compliance with IEPs. Additionally, students who are English learners either received push-in and/or pull-out services so that they could access coursework in the general education classroom. Newcomer ELs have designated ELD class.

AIMS MS- Priority 7

Priority 7- Access to a Broad Course of Study: Met

3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students.

During the 2020-21 academic school year, there were several unprecedented challenges due to Covid-19 pandemic that prevented a greater access to a broad course of study for all students, particularly as it pertained to implementing the instructions virtually via zoom and the online platforms. Students as well as teachers have difficulties with slow internet connections at time, power outage and issues with online platforms that we used.

4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students?

During the 2020-21 school year, Covid-19 pandemic forced us to make several changes throughout the year. At the beginning of the school year, we were in 100% distance learning, that required us to modify our master schedules, intervention support plans as well as implementation of Physical Education and Visual & Performing Art courses. Our teachers has to add additional focus on Students' social emotional well being. Then towards the end of the school year, we reopened school and turned into hybrid learning. Shifting to hybrid learning required us another phase of changes in master schedules, intervention support plans, students safety for in-person learning. We also have resistance from teachers to return to work from school. Some teachers did not return and we faced shortage of teachers and staff.

AIPCS II (AIMS ES)- Priority 1

Priority 1 - Basic Services and Conditions: Met

- Teacher misassignment - 33.00%
- Student access to instructional material - 100%
- Conditions of school facilities - Good.

Teacher credentialing continues to be a priority. Several teachers who are in need of clearing their preliminary credential participated in the induction program from the Sacramento County Office of Education, a cost for which our school pays.

We ensure all of our students have access to standards-aligned instructional materials for use at home and school. For the first time ever, we entered into a hybrid model because of the global pandemic. We were able to make sure that students who were learning virtually were able to get the same access to the curriculum as those who were in school. We were able to take our main ELA and math textbooks/curriculum and purchase the digital version of them. We also had books and material distribution days. Students would come at different times of the year and collect the books and supplies they needed for the upcoming year. 100% of our students had full access to all of the materials whether they were virtual or in person.

Facilities are checked and maintained throughout the year. The school created a partnership with an onsite janitorial company to provide daily cleaning and maintenance services. This provided students with a healthy and inviting learning environment where they were protected from physical and emotional harm and is essential to the mission of our schools. Safe schools are not just places with advanced security procedures. They are also places that help students develop and that allow them to succeed even in difficult circumstances. We believe safe schools encourage healthy behaviors that help students learn about fitness, nutrition, and healthy choices.

With the Pandemic, we had to take extra precautions cleaning and thorough disinfecting of the classrooms and building. Classrooms were disinfected with a professional-grade defogger machine each night. Desks, office tables, and lunch tables were disinfected after each use. Extra time went into wiping door handles, cleaning elevators, and maintaining a clean building. New desks were purchased to maintain correct social distancing as well. Overall, a lot of time and effort went into the cleaning, maintenance, and disinfecting of the building.

AIPCS II (AIMS ES)- Priority 2

Priority 2 - Implementation of State Academic Standards: Met

Our school made several purchases of new curriculum that were all aligned to the California Common Core State Standards, NGSS Science Standards, as well as the Social Studies standards. This curriculum provided teachers with a thorough pacing guide to make sure all of the standards were covered during the year.

Teachers were also given a tool to use to track the standards that were taught each day. Teachers were given a new list of standards to cover every 6 weeks. After, a benchmark was given to all students to determine which standards were met.

With the Pandemic came new online learning platforms. Teachers were able to align the standards from their textbooks, standards tracking tools, and lesson plans, to the standards on these online platforms. They were able to further reinforce what was taught in class with the help of the online learning platforms.

Measure G also allowed students to be provided with innovative courses that cover visual and performing arts. This grant allowed our school district to have the opportunity to excel academically and to also have the access to musical and artistic enrichment.

3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students.

There were no barriers to accessing the course materials. We did everything we could to ensure that students had access to everything. Every single student had their own laptop, connecting to the internet through hotspots, all curriculum material and books.

4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students?

Taking our core curriculum and transferring it to digital material had a big impact on the implementation of our program. We were able to get textbook lessons directly to students without them having the actual textbooks. All of the core curricula had an online component that teachers were trained to use.

AIMS HS - Priority 1

Priority 1 - Basic Services and Conditions: Met

- Teacher misassignment - 30%
- Student access to instructional material - 100%
- Conditions of school facilities - Good

The majority of AIMS HS teachers are credentialed and teach in their corresponding subject in every classroom. Teachers who are not yet credentialed are enrolled in university credential or intern programs.

AIMS HS has up-to-date AP-aligned textbooks/curriculum, AP test prep books, and novels based upon Lexile reading scores, AP frequency, and diversity. Efforts are underway to enhance science classrooms to become more technology and lab ready.

During reopening for 2021-22, state and county health guidelines were strictly followed for safe in-person learning. Students are placed in stable cohorts, masks for students and staff are required and provided, and facilities are checked, sanitized and maintained throughout the day. The school has partnered with an on-site janitorial company to provide additional daily cleaning, nightly spraying, and sanitization and maintenance services. Hand sanitizer dispensers and air purifiers are placed throughout the building and in each classroom. Air conditioners and solar blinds were installed in the classrooms to enhance the learning environment.

This provides students a COVID-19 safe, healthy and inviting learning environment where they are protected from physical and emotional harm. This is essential to the mission of our schools.

Safe schools are not just places with advanced security procedures. They are also places that help students develop and that allow them to succeed, even in difficult circumstances. We believe safe schools encourage healthy behaviors that help students learn about fitness, nutrition, and healthy choices.

Priority 2 - Implementation of State Academic Standards: Met

The district conducted several needs assessments in order to determine an appropriate English curriculum and to determine the teacher training required to build vertical alignment across grades K-12, with the ultimate goal being college-readiness. AIMS HS determined a need for a greater number of higher-order thinking materials to support a college-ready literacy program.

To ensure that we are providing and achieving academic standards, AIMS HS has aligned its English curriculum with Common Core State Standards, including the AP novels most frequently referenced on AP exams, exemplars for writing and rubric use, assessment of quality ELD programming and planning for ELD K-12 initiative. In addition, AIMS HS offers supplemental academic programs such as ALEKS Math, Rosetta Stone, Scholastic Reading Inventory, Math Inventory, Learning Ally, and Quill (Writing).

New Reading and Math Strategies are incorporated into each classroom to establish schoolwide methods that are consistent in all classrooms to promote higher-order thinking.

We offer a robust AP curriculum framework to ensure students are prepared for college. Advanced placement courses provide our students the experience with college-level opportunities to ensure collegereadiness. New textbooks were purchased in alignment with updated AP standards to offer increased focus and rigor. Next Generation Science Standards (NGSS), State Visual and Performing Arts, and Physical Education standards are included as part of our core curriculum.

AIMS HS - Priority 6

Priority 6 - School Climate: Met

We conducted an annual survey to get results on school climate. The survey is given to 9th-12th students/families. Below are the results for students and families.

Student Survey (Strongly agree or agree responses)

1: At school I am able to do my work without worrying about my physical and/or emotional safety. 77.8%

2: I feel I am part of this school. 80.2%

3: Teachers and other grown-ups at school care about me. 84.5%

Family Survey (Strongly agree or agree responses)

1: At school my child is able to do his/her work without worrying about his/her physical or emotional safety. 87.7%

2: This school has a supportive learning environment for my child. 91.4%

Providing students a healthy and inviting learning environment where they are protected from physical and emotional harm is essential to the mission of our schools. Safe schools are not just places with advanced security procedures. They are also places that help students develop that allow them to succeed even in difficult circumstances. Safe schools encourage healthy behaviors that help students learn about fitness, nutrition, and healthy choices.

AIMS HS- Priority 7

Priority 7- Access to a Broad Course of Study: Met

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served.

At AIMS HS, we have a strict course catalogue and listed within are all the course requirements for graduation at AIMS HS, including students' A-G standards to qualify for entry into CSU and UC campuses. Except for students with Individualized Educational Plans (IEP), AIMS HS graduation requirements are universal for all AIMS HS students.

2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study. LEAs may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study.

As a matter of equity, at AIMS HS, all students are enrolled in AP courses, beginning in their Freshman year. Over the course of a student's matriculation at AIMS HS, students will take at least 10-12 AP courses. AIMS HS pays for 100 percent of all AP and SAT/PSAT Examinations for our students. Freshmen students take an advisory course to help transition them into the rigors of high school and learn the importance of time management, note taking, and mental health / well-being. Additional required grade level courses include Design Thinking (Freshmen) Latin / Logic (Sophomores), SAT / AP Test Prep (Juniors), and College Planning (Seniors.) AIMS HS partners with Peralta Colleges to offer concurrent enrollment for its students through the Merritt College in a onsite program called College Pathways.

AIMS HS- Priority 7

Priority 7- Access to a Broad Course of Study: Met

3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students.

There are no barriers preventing the LEA from providing access to a broad course of study for all students. AIMS provides all students access to courses to meet and exceed UC / CSU A-G state standards.

4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students?

Implemented during the 2020-21 academic school year, AIMS HS is currently in the second year of its AIMS U College Pathways program, which allows AIMS Students the opportunity to take Pre-Business, Pre-Engineering / Design Media, Pre-Law, and Pre-Med Peralta Community College classes (Merritt, Laney College and Berkeley CC) while on campus at AIMS.

As part of the pathways program, AIMS HS students are enrolled in pathway programs, have the opportunity to earn between 18-24 UC and CSU transferable college credits, and potentially begin their college career with sophomore standing.
