## What Is the California School Dashboard?

The California School Dashboard (or the Dashboard) is an online tool that shows parents and communities how schools and districts are performing on test scores, graduation rates, and other measures of student success. These multiple measures of success reflect California's new accountability system, which is based on the ten priority areas of the Local Control Funding Formula (LCFF) available at <http://www.cde.ca.gov/fg/aa/lc/lcffoverview.asp>.

# Local Indicators

Local indicators are a part of a seamless accountability system that:

- Reflects the emphasis on 'local control'
- Enables LEAs to measure its progress using local data
- Provides valuable information necessary for stakeholders to engage in meaningful engagement with a holistic understanding of local successes and challenges
- Informs the Local Control and Accountability Plan (LCAP) planning process

# Local Indicators

## Priority 1:

- **Basic Services and Conditions**

- Teacher misassignment

- Student access to instructional material

- Conditions of school facilities

## Priority 2:

- Implementation of State Academic Standards

## Priority 3:

- Parent Engagement

## Priority 6:

- School Climate

## Priority 7:

- Access to a Broad Course of Study

# AIMS HS - Priority 1

## Priority 1 - Basic Services and Conditions: Met

- Teacher misassignment - 31%
- Student access to instructional material - 100%
- Conditions of school facilities - Good

The majority of AIMS HS teachers are credentialed and teach in their corresponding subject in every classroom. Teachers who are not yet credentialed are enrolled in university credential or intern programs.

AIMS HS has up-to-date AP-aligned textbooks/curriculum, AP test prep books, and novels based upon Lexile reading scores, AP frequency, and diversity. Efforts are underway to enhance science classrooms to become more technology and lab ready.

During the 2021-22, state and county health guidelines were strictly followed for safe in-person learning. Students are placed in stable cohorts, masks for students and staff are required and provided, and facilities are checked, sanitized and maintained throughout the day. The school has partnered with an on-site janitorial company to provide additional daily cleaning, nightly spraying, and sanitization and maintenance services. Hand sanitizer dispensers and air purifiers are placed throughout the building and in each classroom. Air conditioners and solar blinds were installed in the classrooms to enhance the learning environment.

This provides students a COVID-19 safe, healthy and inviting learning environment where they are protected from physical and emotional harm. This is essential to the mission of our schools.

Safe schools are not just places with advanced security procedures. They are also places that help students develop and that allow them to succeed, even in difficult circumstances. We believe safe schools encourage healthy behaviors that help students learn about fitness, nutrition, and healthy choices.

# AIMS HS - Priority 2

## Priority 2 - Implementation of State Academic Standards: Met

The district conducted several needs assessments in order to determine an appropriate English curriculum and to determine the teacher training required to build vertical alignment across grades K-12, with the ultimate goal being college-readiness. AIMS HS determined a need for a greater number of higher-order thinking materials to support a college-ready literacy program.

To ensure that we are providing and achieving academic standards, AIMS HS has aligned its English curriculum with Common Core State Standards, including the AP novels most frequently referenced on AP exams, exemplars for writing and rubric use, assessment of quality ELD programming and planning for an ELD K-12 initiative. In addition, AIMS will be planning to adopt new English Curriculum that better aligns with AP standards, and are preparing for new AP Seminar courses for sophomore English students. AIMS HS offers supplemental academic programs such as ALEKS Math, Rosetta Stone, Scholastic Reading Inventory, Math Inventory, Learning Ally, and Quill (Writing).

New Reading and Math Strategies are incorporated into each classroom to establish schoolwide methods that are consistent in all classrooms to promote higher-order thinking.

We offer a robust AP curriculum framework to ensure students are prepared for college. Advanced placement courses provide our students the experience with college-level opportunities to ensure collegereadiness. New textbooks were purchased in alignment with updated AP standards to offer increased focus and rigor. Next Generation Science Standards (NGSS), State Visual and Performing Arts, and Physical Education standards are included as part of our core curriculum.

# AIMS HS - Priority 6

## Priority 6 - School Climate: Met

We conducted an annual survey to get results on school climate. The survey is given to 9th-12th students/families. Below are the results for students and families.

### Student Survey (Strongly agree or agree responses)

- 1: At school I am able to do my work without worrying about my physical and/or emotional safety. 89.6%**
- 2: I feel I am part of this school. 90.9%**
- 3: Teachers and other grown-ups at school care about me. 90.9%**

### Family Survey (Strongly agree or agree responses)

- 1: At school my child is able to do his/her work without worrying about his/her physical or emotional safety. 92%**
- 2: This school has a supportive learning environment for my child. 92%**

Providing students a healthy and inviting learning environment where they are protected from physical and emotional harm is essential to the mission of our schools. Safe schools are not just places with advanced security procedures. They are also places that help students develop that allow them to succeed even in difficult circumstances. Safe schools encourage healthy behaviors that help students learn about fitness, nutrition, and healthy choices.

# AIMS HS- Priority 7

## Priority 7- Access to a Broad Course of Study: Met

**1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served.**

At AIMS HS, we have a strict course catalogue and listed within are all the course requirements for graduation at AIMS HS, including students' A-G standards to qualify for entry into CSU and UC campuses. Except for students with Individualized Educational Plans (IEP), AIMS HS graduation requirements are universal for all AIMS HS students.

**2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study. LEAs may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study.**

As a matter of equity, at AIMS HS, all students are enrolled in AP courses, beginning in their Freshman year. Over the course of a student's matriculation at AIMS HS, students will take at least 10-12 AP courses. AIMS HS pays for 100 percent of all AP and SAT/PSAT Examinations for our students. Freshmen students take an advisory course to help transition them into the rigors of high school and learn the importance of time management, note taking, and mental health / well-being. Additional required grade level courses include Design Thinking (Freshmen) Latin / Logic (Sophomores), SAT / AP Test Prep (Juniors), and College Planning (Seniors.) AIMS HS partners with Peralta Colleges to offer concurrent enrollment for its students through our AIMS U College Pathways program. Students take pathways courses, beginning in their sophomore year.

# AIMS HS- Priority 7

## Priority 7- Access to a Broad Course of Study: Met

**3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students.**

There are no barriers preventing the LEA from providing access to a broad course of study for all students. AIMS provides all students access to courses to meet and exceed UC / CSU A-G state standards.

**4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students?**

Implemented during the 2020-21 academic school year, the AIMS U College Pathways program allows AIMS Students the opportunity to take Pre-Business, Pre-Engineering / Design Media, Pre-Law, and Pre-Med Peralta Community College classes (Merritt, Laney College and Berkeley CC) while on campus at AIMS.

As part of the pathways program, AIMS HS students are enrolled in pathway programs, have the opportunity to earn between 18-24 UC and CSU transferable college credits, and potentially begin their college career with sophomore standing.

**The school is engaging with various stakeholders to ensure that we are gathering information and to include all families.**

**The LEA is working on strengthening the way that we are providing information and resources to support student learning and development in the home.**

**The LEA is working towards strengthening the way in which we seek input for decision making.**

## Priority 1 - Basic Services and Conditions: Met

- Teacher misassignment - 20%
- Student access to instructional material - 100%
- Conditions of school facilities - Good

Teacher credentialing continues to be a priority. Several teachers who are in need of clearing their preliminary credential participated in the induction program, a cost for which the school pays. Several other teachers are enrolled in teacher credential programs and working as interns.

All of our students have access to standards-aligned instructional materials including technology devices and internet access for use at school and home.

We are still following CDE guidelines for safe in-person learning. Students are required to wear mask at all time when indoors, facilities are checked, sanitized and maintained throughout the day . The school created a partnership with an on-site janitorial company to provide additional daily cleaning, sanitization and maintenance services. This provides students a COVID-19 safe, healthy and inviting learning environment where they are protected from physical and emotional harm and is essential to the mission of our schools. Safe schools are not just places with advanced security procedures. They are also places that help students develop and that allow them to succeed even in difficult circumstances. # AIMS MS - Priority 2

## Priority 2 - Implementation of State Academic Standards: Met

The district conducted several needs assessments in order to determine the most appropriate strategies for in-person learning learning as well as recovering learning loss from the year of distant learning.

Teachers were provided with resources, individualized supplemental curricula, and technology to provide differentiated learning in the classrooms. Teachers were provided professional development required for implementation of State Academic standards and tools to support students in recovering their learning loss due to COVID-19 school closures.

The district conducted several needs assessments in order to determine proper ELA curriculum and teacher training required to build vertical alignment between K-12; the ultimate goal is college-readiness. Schools determined a need for more higher order thinking materials to support a college-ready literacy program. Teachers began to receive training on building higher order thinking literacy protocols to build upon a robust reading comprehension program.

The district conducted additional needs assessments in order to determine better to improve instructions in math curriculum. New math curriculum is adopted for 6th, 7th & 8th grades. Teachers required additional training in emphasizing Common Core approaches to math in order to supplement the curriculum effectively. Teachers received this training. Professional development towards Next Generation Science Standards implementation of Inspire Science curriculum from McGrawhill that focuses on hands on inquire based learning. Teachers are trained using the text and digital instructional materials from History Alive for Social Science. Mandarin and Spanish were both offered for students in the middle school.

In addition, the school applied for Measure G1 which allow students to be provided innovative courses that cover visual and performing arts. We envision a program that will offer a unique combination of rigorous curriculum and artistic immersion.

Students who required additional support in core subjects, through pull-out support, received services from instructional aids. Students with exceptional needs, as mandated by their IEP or 504, will still have access to general education classrooms based on standard compliance with IEPs. Additionally, students who are English learners either received push-in and/or pull-out services so that

## Priority 7- Access to a Broad Course of Study: Met

**3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students.**

During the 2022-23 academic school year, there were several unprecedented challenges due to school closures during Covid-19 pandemic that prevented a greater access to a broad course of study for all students, particularly as it pertained to implementing the instructions virtually via zoom and the online platforms. Students have lost great deal of learning as well as social emotional growth since 2020.

**4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students?**

During the 2022-23 school year, returning from the Covid-19 pandemic forced us to make several changes throughout the year. At the beginning of the school year, we shifted our focus in recovering the learning loss and providing social emotional support, that required us to modify our master schedules, intervention support plans. We added 30 minutes of social emotional learning for all students into their daily master schedules. Our teachers have to add additional focus on Students' social emotional well being. Our schools are also facing challenges in hiring highly qualified teachers and support staff as a result of nationwide teacher shortage.

**The school is engaging with various stakeholders to ensure that we are gathering information and to include all families.**

**The LEA is working on strengthening the way that we are providing information and resources to support student learning and development in the home.**

**The LEA is working towards strengthening the way in which we seek input for decision making.**

# AIPCS II - Priority 1

## Priority 1 - Basic Services and Conditions: Met

- Teacher misassignment -33%
- Student access to instructional material -100%
- Conditions of school facilities - Good

Non-credentialed teachers are currently enrolled in a teacher credentialing or intern program. Some teachers are in the process of clearing their credentials by participating in the induction program, a cost of which the school pays.

We ensure all of our students have access to standards-aligned instructional materials for use at home and school. Our main ELA and math textbooks/curriculum were also accessible via digital platform. 100% of our students had full access to all of the materials whether they were virtual or in person.

Facilities are checked and thoroughly maintained throughout the year. The school continues its partnership with an onsite janitorial company that provides daily cleaning and maintenance services. This service provided students with a healthy and inviting learning environment where they were protected from physical and emotional harm and is essential to the mission of our schools. Safe schools are not just places with advanced security procedures, they are also places that help students develop and that allow them to succeed even in difficult circumstances. We believe safe schools encourage healthy behaviors that help students learn about fitness, nutrition, and healthy choices.

Furthermore, we took extra precautions cleaning and thorough disinfecting of the classrooms and building. Classrooms were disinfected with a professional-grade defogger machine each night. Desks, office tables, and lunch tables were disinfected after each use. Extra time went into wiping door handles, cleaning elevators, and maintaining a clean building.

## Priority 2 - Implementation of State Academic Standards: Met

Our school made several purchases of new curriculum that were all aligned to the California Common Core State Standards, NGSS Science Standards, as well as the Social Studies standards. This curriculum provided teachers with a thorough pacing guide to make sure all of the standards were covered during the year.

Teachers were also given a tool to use to track the standards that were taught each day. Teachers were given a new list of standards to cover every 6 weeks. After, a benchmark was given to all students to determine which standards were met.

With the Pandemic came new online learning platforms. Teachers were able to align the standards from their textbooks, standards tracking tools, and lesson plans, to the standards on these online platforms. They were able to further reinforce what was taught in class with the help of the online learning platforms.

Measure G also allowed students to be provided with innovative courses that cover visual and performing arts. This grant allowed our school district to have the opportunity to excel academically and to also have the access to musical and artistic enrichment.

## Priority 6 - School Climate:

### Student Survey Results (Strongly agree or agree responses)

1: At school I am able to do my work without worrying about my physical and/or emotional safety. 84.6%

2: I feel I am part of this school. 91.7%

3: Teachers and other grown-ups at school care about me. 92.2%

### Family Survey (Strongly agree or agree responses)

1: At school my child is able to do his/her work without worrying about his/her physical or emotional safety. 87.6%

2: This school has a supportive learning environment for my child. 89.3%

## Priority 7- Access to a Broad Course of Study: Met

**1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served.**

All students were enrolled in the following courses:

- English Language Arts
- Mathematics
- Social Studies
- Science
- Physical Education
- World Languages Courses (Mandarin/Spanish)

**2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study. LEAs may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study.**

During the 2021-22 academic school year, all students were enrolled in the following courses in-person:

- English Language Arts
- Mathematics
- Social Studies
- Science
- Physical Education
- World Languages Courses (Mandarin/Spanish)

## Priority 7- Access to a Broad Course of Study: Met

**3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students.**

All course materials were accessible to all students. We were intentional in our efforts to provide access to curriculum to all students, including providing 1:1 chromebooks for students which allowed them to access materials from home.

**4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students?**

Our curriculum is available to all students in both hard copy and electronic versions. This allowed easy access to textbook lessons for school and home. All teachers received professional development on how to successfully implement the online curriculum.
