Implement a music program including instrumental music (band) (this could look like many things. For example, buy 25 keyboards and offer a beginning piano class, or so that with guitars. Another option is buy some basic band instruments and have beginning band but also intermediate or jazz or rock band for kids that can already play) and also vocal music/ choir/ rapping/ perhaps an electronic music production class. (Buy 25 MacBooks with Logic and have the kids learn music production)  
Also a drama/ dance program (hip hop dance class?) (plays, musical theater?)

Ways to be involved with other organizations or programs that can give students more programs and interns to increase their skills in areas that they want to do. More medical programs for students like medical, and more art programs for students that like art and etc. interns during summer can also help students be involved with the community and learning more while rewarding some money.

This money should be used to ensure that teachers are knowledgeable about better ways to use technology in classrooms.

Also, students need to learn about how not all change is bad and how to preserve through seemingly rough or failed states of mind.

Parents should have simple classes on how to use the systems the school teach and communicate with so they can stay abreast of how their child is doing.

AIMS College Prep High is the best example of a school that cares like a parent cares!

Chen Xing

I think AIMS should provide extra summer rigouts AP prep. course for students during summer, especially for juniors and seniors. I really think AIMS should recruit experienced teachers to teach AP course which align the course content with the AP test. At the same time, I also think it will be good that AIMS can provide more college application workshops for juniors and seniors, including their parents.
