### Buy American/California Certification Form

\*\*\*Please attach to your Proposal and provide documentation needed to support the claim

**Buy American Provision** (7 *CFR*, sections 210.21[d] and 220.16[d]; U.S. Department of Agriculture Policy Memorandum SP 38-2017)

Schools participating in the federal school meal programs are required to purchase domestic commodities and products for school meals to the maximum extent practicable. Domestic commodity or product means an agricultural commodity that is produced in the US and a food product that is processed in the US substantially (at least 51 percent) using agricultural commodities that are produced in the US.

Domestic commodities or products are defined as agricultural commodities (i.e., meat/meat alternate, grain, fruit, vegetable, and fluid milk) or processed products (i.e., processed food product that includes components that contribute to a reimbursable meal, such as a chicken patty that contains an *M/M*A and grain component) that are processed in the United States using substantial agricultural commodities that are produced in the United States. Products from Guam, American Samoa, Virgin Islands, Puerto Rico, and the Northern Mariana Islands are allowed under this provision as territories of the United States.

All **creditable** food products must comply with the Buy American Provision requirement in 7 *CFR*, sections 210.21(d) and 220.16(d). **Note:** The SFA is not required to adhere to the domestic requirement for foods that are not creditable food components, such as for spices, oils, or condiments.

Exceptions to the Buy American Provision will be used as a last resort and are only allowable for one of the two exceptions listed below and outlined in further detail in the USDA Policy Memorandum SP 38-2017: Compliance with and Enforcement of the Buy American Provision in the National School Lunch Program.

- The product is not produced or manufactured in the United States in sufficient and reasonably available quantities of a satisfactory quality, such as bananas or pineapples.
- Competitive bids reveal the costs of a United States product are significantly higher than the nondomestic product.

Vendors/distributors must document and inform the SFA of exceptions to the Buy American Provision requirement *prior* to delivery of the nondomestic commodity or product. Exceptions must be provided in writing and approved by the Child Nutrition Director prior to delivery.

The vendor must include all food products bid by the company that do not meet the definition of "domestic".

**California Senate Bill 490** is effective on January 1, 2024. This new law applies to local educational agencies (LEAs) who operate the School Nutrition Programs in California and receive more than \$1,000,000 in annual federal meal reimbursement (includes the National School Lunch Program (NSLP), School Breakfast Program (SBP), and the Afterschool meal supplement (AMS)).

The LEA and the Food Service Management Company receiving the contract award must only purchase agricultural products grown, packed, or processed domestically unless any of the following applies:

1. The bid or price of the nondomestic agricultural food product is more than 25 percent lower than the bid or price of the domestic agricultural food product.
2. The quality of the domestic agricultural food product is inferior to the quality of the agricultural food product grown, packed, or produced non-domestically.

3. The agricultural food product is not produced or manufactured domestically in sufficient and reasonably available quantities of a satisfactory quality to meet the needs of the public institution.

An "Agricultural food product" is defined as a fresh or processed product, including fruits, nuts, vegetables, herbs, mushrooms, dairy, shell eggs, honey, grains, livestock meats, poultry meats, and fish, including shellfish.

Further, **Assembly Bill 778** amends California Food and Agriculture Code (FAC) Section 58595(a) by removing the requirement that school districts must accept the bid or price of a California grown agriculture product if the price does not exceed more than 5 percent of the lowest bid or an agriculture product produced outside of the state. In addition, this law adds LEAs to FAC Section 58595(c) which requires LEAs to accept a bid or price for that agricultural food product when it is grown in California before accepting a bid or price for a domestic agricultural food product that is grown outside the state, when both of the following are met:

1. The bid or price of the California-grown agricultural food product does not exceed the lowest bid or price for a domestic agricultural food produced outside the state.
2. The quality of the California-grown agricultural food product is comparable to that domestic agricultural food product produced outside the state.

The FSMC must provide the LEA with the appropriate documentation demonstrating compliance with Senate Bill 490 and Assembly Bill 778.

This document must be signed and included as a part of the bid.
