- The CSSP must be reviewed/updated and adopted by the school site council (SSC) in a public meeting by March 1 of each year.
- The school site council may delegate this responsibility to a school safety planning committee
- The school site council must also consult with a representative from a law enforcement agency, a fire department, and other first responder entities in the writing and development of the CSSP.
 - KSL and staff worked with law enforcement to create the document
- The CSSP and any updates to the plan must be submitted to the district office and shared with the law enforcement agency, the fire department, and the other first responder entities.
