III. Committee Questions

A. Overview of the presentation questions:

Board Chair Davis: What is KMPS doing to see that the tutoring is working?

Dr. Tate: We are tracking those bubble students. There are different scores for the students and the students take an i-Ready Benchmark as well as take their tri-weekly in mastery connect. For the next Committee meeting, the team will add a column to show how students who are consistently attending tutoring are performing.

Board Chair Davis: asked to see the iReady data broken out by grade or just the 3 - 5th grade performance.

IV. CEO Comments

A. CEO Burt

- Our team is beginning to research the possibility of year round school - 200 days with longer instructional days as well.
- Our team is in contact with the DAs office for assistance with safety and security, especially for our high school. Some high school students are afraid to stay for tutoring because of the walk home later in the evening with all of the gang activity.

V. Academic Excellence Chairperson Comments

A. Committee Chair Green

Thank you Dr. Burt, Chief Brooks and Dr Tate for the presentation and information.

Some of what the committee want to focus on and be mindful of is around the issues of attendance and mobility. How we can provide a helping hand, because if they're not in the seats and in school, they can't get the learning.

VI. Closing Items

A. Adjourn Meeting

There being no further business to be transacted, and upon motion duly made, seconded and approved, the meeting was adjourned at 5:56 PM.

Respectfully Submitted,
J. Ward-Gill
