**II. Finance**

**A. Monthly Financial Reports**

Lynne narrated over the net position report and explained that we will be reimbursed by DESE grants for roughly \$500k which are not showing on the monthly financial statement as income or receivables yet. This is due to the fact that management submitted amendments for some grants which have not yet moved through the approval process so the funds are not available as of yet. Denise asked about funds that are to be transferred

from Friends and Lynne explained that funds from the Davis Foundation operating grant are still sitting in Friends.

Next, Lynne narrated over the detailed report on expenses and projections. We are on track with revenue but expenses to projections are at around 70% so we are anticipating savings which will drop to the bottom line. The report highlights the explanation for some of these areas of savings, mostly due to the efforts of management to procure goods and services in a more disciplined way. We may be able to procure items now which can help us to reduce costs next year. We expect to release the full contingency to the bottom line.

Student Recruitment expenses are higher due to work with a communications firm which are funded by the Barr Foundation. The committee discussed student attrition and the spike in attrition in November of this year, the team has explored this and thinks it is related to stabilizing post-pandemic. We are revamping strategies for recruitment and retention and expect enrollment to become more predictable in the years ahead.

The committee reviewed the cash flow reports and discussed where we may land on DESE's financial dashboard given we are trending better than budget and will drop contingency to the bottom line. We will continue to push to get to 45 days cash on hand as soon as possible, which will put us in the yellow. It may take us until the high school has been operating at full capacity for a few years before we really know our expenses. Denise brought up the age of the middle school and need to review the capital budget to ensure we are planning for all facility needs.

Grants to be expended by June 30th are all on track to be spent as planned. We have amended and will move whatever funds we can into the summer. We will spend all of our ESSER funding, as planned, by the deadline. The team came together and did it right, very proud of the work we did to spend ESSER funds strategically and use it all without facing big cuts in FY25. Great work by the management!

## **B. FY2025 Budget**

There have not been changes since last month so not much more to discuss. Denise asked about comparison to last year's budget so the board could see how we have made assumptions around revenue and expenses. Lynne will prepare that before the budget goes to the board for a discussion and vote.

Early College expense assumptions around program, transportation and staffing are becoming more clear. However, we have not received confirmations from STCC as of yet around space. We will have 60+ students at the STCC campus next year and will need a

home base. We hope that STCC will provide space for us but we are considering alternatives which would have an impact on budget.

### **C. Capital Plan**

The committee discussed the capital budget and the potential for a grant to support the middle school lobby renovation. Denise asked if we have fully anticipated the potential maintenance expenses at the middle school, wondering if there is anything above and beyond what we've included in the capital budget that could arise. Lynne suggested that we need to plan for more funding to land in the surplus for these kinds of unforeseen facility needs. Lynne shared details about the boilers and how she has been maintaining them so that they will last longer than their useful life and the fact that there are several so if one goes down we have others to sustain. This is also true of the elevators. One needs a pump but could last for a lot longer so we will wait until the pump goes given that we have two elevators. Thoughtful facility planning and maintenance by the fabulous Lynne Mills will save us lots of money!

### **D. Covenant Language Revision**

Denise spoke with David and Nicole from AAF about the problem which exists with the language of the covenant not actually depicting if we are in compliance with the covenant. The bank consistently waive sthe covenant but this would be a cleaner and more accurate depiction if we revise and correct the language. It is related to GASB 87 which is complicated and so David & Nicole need to explain the regulation to PeoplesBank so that we have a real, defined covenant that better depicts our ability and position. David and Nicole will work on preparing an explanation of GASB 87 to suggest revised language to PeoplesBank so we can agree on it and have the board approve it. We will have our annual meeting with PeoplesBank on May 9th and plan to discuss this with them.

### **E. Finance Committee (Chair) and Board Officer (Treasurer) Roles**

We will move this item to the next meeting.

## **III. Closing Items**

### **A. Adjourn Meeting**

There being no further business to be transacted, and upon motion duly made, seconded and approved, the meeting was adjourned at 5:13 PM.

Respectfully Submitted,  
R. Romano
