III. Key Business

A. Reporting Class Rank

Pamela Harkey and Josh Schaffer, ERA Guidance Counselors, presented a proposal to no longer report on or make student class rank available. Rationales presented included that class rank provides *no substantial benefit* to the majority of students, but causes a large amount of stress to many of our students as they apply personal value to their class rank. Further, the ranking system is not as clear as it once was, creating loopholes for students to manipulate their class rank. They went on to share what they are seeing at ERA:

- Class rank has become a source of obsession.
- Career & College Promise (CCP) has become a way to “game” your GPA, rather than an opportunity to grow and learn. CCP is North Carolina’s dual enrollment program for high school students. This program allows eligible NC high school

students to enroll in college classes at North Carolina community colleges and universities through their high school.

- It causes issues between students who are ALL doing well and taking hard classes (wishing bad grades upon your peers and even friends).
- It harms other programs, like arts, because students believe taking standard-level classes is detrimental to their GPA goal.

From a process perspective, weighted and unweighted GPAs would still be visible, class rank would no longer be visible on the transcript. It was noted that this is becoming the norm and many area schools have eliminated class rank such as the North Carolina School of Science and Math. They proposed utilizing another way of highlighting student academic achievements similar to colleges/universities based on the Latin Honors System of Cum Laude, Magna Cum Laude, Summa Cum Laude resulting in more students being recognized. From a college perspective, it would be noted on student's transcripts that their school did not provide class rankings but their academic record reflects their hard work and achievements.

It is noted that Board approval is not required nor requested but with Board support, a policy statement would be drafted and included in the student and parent handbook for the 2026-27 school year. The handbook would then require Board approval at that time. Following questions and discussion, there were no negative responses from Board Members.

B. School Goal #3 update: Launch STREAM Instructional Model

Lindsey Sealy provided an update on School Goal #3: Launch STREAM Instructional Model.

1. Finalize and communicate Core Values and schoolwide STREAM instructional expectations.
2. Create and pilot *STREAM lesson templates*, walkthrough tools, and data trackers across all grade bands. (*Walkthrough tool and data trackers have started, but no lesson plan templates.*)
3. Introduce strategic elements to staff via targeted summer and fall Professional Development (PD) focused on inquiry, integration, and real-world application. (*This is taking longer than expected, and we have spent the majority of this year planning this with fidelity for next school year.*)
4. Host at least one STREAM Family Info Night and student showcase.
5. Audit and update job descriptions and interview questions to align with STREAM competencies.
6. Launch schoolwide STREAM visibility practices (e.g., inquiry walls, reflection boards, lab spaces). (*Q4 Focus*)

7. Conduct facilities and equipment audit and develop a future-facing STREAM space vision.
8. Establish internal tracking of STREAM progress through PD feedback and pilot classroom data. (*Unable to do this until we have completed number #3.*)

C. School Expansion

Lindsey Sealy reported that working with her team, big ideas were collected from workstreams and a draft priority of ideas and timeline developed for presentation for Board review and discussion. There were many questions and it was determined that a separate meeting of the Board should be held to specifically look at each option and recommendation. Mrs. Sealy will work with D. Nagel to arrange.
