## II. Management Report

### A. School update and highlights

Modesto updated the team on remote learning over the past month. The team is fully implementing remote planning. Greatest focus : student engagement data. MM and his team are tracking the # of students completing assignments. 30+/- students have not logged in to complete assignments. MM conveyed that his team is reaching out to these families individually to assess what is keeping these students from engaging in the work.

Need engagement up to minimize academent slide . MW - Are the students who are not engaged due to internet? Only 3 students have internet issues and they are assisting these families. MM - Overall we are in a good place given circumstances with remote learning. Conveyed he feels strong about improving these engagement numbers going forward.

MM updated trustees on student recruitment - the second biggest focus currently. Recruitment has shifted b/c the team can't go out into the community . Thus, hosting virtual enrollments & virtual tours in an effort to continue highlighting the school. MM stated LACS is currently on track with recruitment for next year but would like to drive these numbers up.

MM- budget for next year has also been a large focus. Start to plan for future with a degree of flexibility due to the implications of COVID .

Kari - do teachers feel supported? MM - regular check ins with each staff member/teacher in an effort to assist those struggling to balance work/home life. MM - Teacher appreciation week is next week and working to do something for staff/teachers.

A. Surrette arrived.

**C. FY21 Budget Draft**

MM highlighted that the FY21 budget being presented is just a draft . We will vote on final draft at our June retreat.

Juan walked the team through the thinking behind the current draft of FY21 budget: He stressed that COVID is impacting state budgets. Rates per student projected in Jan were at: 14,500 --final per student rate will likely go down. Planning for 1% decrease for tuition rates.

Juan walked the team through our reduction in costs ( instruments that were a one time purchase, no Anet next year).. MW - do we really want to get rid of Anet? MM - Sue Walsh helping create a program for assessment for next year vs. Anet. MM to bring this issue to the academic committee for further review and discussion .

DB - what does this budget assume for fundraising dollars ? MM - 200k . DB: do we need to have different versions of a budget forecasting lower tuition rates so we are prepared?

MM and Juan to research recession cuts and draft a couple budgets for review based on different scenarios. Will discuss further and present at the May meeting. MM to also reach out to Tim N. and other charter leaders to see their projection plans.
