## **II. FIGS Report**

### **A. Updates from Friends of Intergenerational Schools Board**

S. Whitlock discussed current development goals and projects. Inbloom is putting together a strategy to increase major gifts and are working with potential prospects. S. Whitlock then discussed InBloom's current marketing strategy and expressed the importance of the board showing support by "liking and sharing" the IGS social media posts and following the pages. She discussed that there will be a few more appeals, grant applications, and invitations to each school's graduation that will be sent out. Inbloom is currently working on one page of information for all 3 schools, which will be used as additional marketing for tours and prospective donors. K. Lytle discussed all recent gifts we have received this month, and how this impacts IGS engagement. He then presented a year to year comparison showing how much we have received in donations, and why they may or may not be matching up to previous years. He discussed the plan to move forward and to improve the amount we bring in. The numbers presented today included any grants and competitive state money. A discussion took place around ideal minimal model reserves and what the actual gap is between expenses and revenues each year. The Board requested that the Finance Advisory Council be charged with identifying that gap and report back at the next meeting.

## **III. Sponsor Reports**

### **A. Sponsor Reports**

J. Lewis reminded that IGS needs to make sure all necessary people have completed their Sunshine Law training. She is going to start collecting data from test results once TIS finishes testing in May, she will also be taking data from report cards. Everything was compliant during the last site visit besides Erin's law, which she will follow up on. M. Rado stated that CMSD sent their most recent newsletter out. He mentioned the previously shared contract modifications and these will be approved in June. Spring site visits will be using focus groups and will be using surveys to gather the data. These surveys are due May 1st, and they will look and compare all the results and will give

report at the June board meeting. Mayor's Chief of Education asked to visit all schools of the district, and he is currently planning on May 15th at NWIS, and May 28th at LIS.

Miller also asked what TES is and B. King explained it's an agency that provides educational services like PT, OT, psychological testing for Special Education, etc. B. King also clarified that the current TES contract, is a 2 year contract.

B. Nicolay asked why the proposed amount for salaries in FY25 are significantly more than FY 24 at LIS. B. King stated that the discrepancy is due mainly to unfilled roles this year that we intend to fill in FY 25 (Actual 2024 vs projected 2025).

Mangen then presented the fiscal health benchmarks for all 3 schools, and compared their ratios to one another.

The board **VOTED** unanimously to approve the motion.

**B. FY25 Preliminary Budget**

M. Olson made a motion to approve FY25 preliminary budget.

S. Miller seconded the motion.

B. King presented the 5 year forecast budget to the board with updated numbers due to salary adjustments, filling vacant positions, and other additional items. The updated version does not have High Quality funds, does not have levy for TIS, and has more conservative enrollment numbers but IGS still plans to strive for enrollment stretch goal numbers. Doug Mangen talked about our strategic and carefully planned use of some reserves to invest in quality, which will hopefully lead to receiving High Quality funding in the future. Mark Olson asked what it would take to maintain all reserves, and suggested that should be considered the "gap." There was discussion around what the appropriate approach would be. Guests from FIGS shared concern of creating a goal that is impossible to achieve. It was reiterated that the Finance Advisory Council would be charged with presenting some scenarios around different levels of reserve use and identifying the operating gap in each.

The board **VOTED** unanimously to approve the motion.

**C. Revision of Contract Language in the Intergenerational Cleveland Agreement**

M. Olson made a motion to to approve the revision of contract language in the Intergenerational Cleveland agreement.

B. King discussed the current Intergenerational Cleveland agreement with the 3 schools. She presented a powerpoint showing the current expenses and the current contributions that FIGS allocates to the schools, and their current deficits/surplus. B. The next step will be for the contract to be looked over by our lawyer and signed.

The board **VOTED** unanimously to approve the motion.

**D. Approval of the Five-Year Forecast for Submission to the Ohio Department of Education**

D. Clark made a motion to approval of the five-year forecast for submission to the Ohio Department of Education.

A. Cascio presented the proposed compensation plan for building staff. A. Cascio discussed the plan to raise the salaries of full time building staff once they reach their 5th year with IGS. All the numbers are based on other local schools in an effort to make us look more competitive. The budget already factors in the incremental upgrades. We currently have offer letters out for building staff but are not sure who will be accepting at this time. IGS will keep the board updated.

The board **VOTED** unanimously to approve the motion.
