Granson thanked Carolyn Wald and Bob Nicolay for their contributions to the board.

M. Granson went over all the current grants that IGS has applied for and their current status, she would like the good news if we get anything. She also explained to the board the hardships that the development team went through this school year. She asked the board for help to connect us with any connections they may have that we can use to apply to more grants.

VII. Facilities

A. Update on Near West Lease

B. King stated that IGS is very close to closing on the NW lease, and that a lot of progress was made. The new lease will include building improvements and repairs, which is not included in our current lease. She stated that NW is waiting on the MOU for the current lease, and they are working to hopefully waive some of the fees, and the custodial pay. She let the board know that IGS is working to simplify the billing cycle that their NW lease is currently on. The company did an analysis of the utilities and it seemed to be a current rate and they have settled on the lease.

She states that originally IGS was negotiating for a shorter term with the option of being able to leave if another available building comes up. The terms settled on the terms include; if IGS decides to leave, we have to give a 6 month notice. And, if the company

decides the lease is not working anymore, they will have to give IGS a 12 month notice in order to ask them to vacate.

B. Nicolay asked if they give us a 12 month notice if it goes into effect at any point even in the middle of the school year? A. Cascio stated that it's if they need this building or if it's sold.

B. King stated that IGS has expressed interest in the other swing property, and that we are looking into H. Barbara Booker on Lorain.

Carpenter stated that we will do some investigating into the IGS overhead and what is the best staffing we can achieve. She explained IGS will not tie in the two things as requested, but we can investigate it separately. King stated that IGS has been at multiple festivals this summer, as a way to draw more families to enroll to the school. She mentioned that the interns have started and will begin the door to door enrollment pitches. She also mentioned that BrandPivot has changed the demographic that our Facebook ads were set to, in order to fit our schools better.
