II. Public Comments

A. Public Comments

No public comments at this time

III. COVID-19 Updates

A. COVID-19 Updates

Principal Brown presented high-level items:

All teachers return on Monday, doing professional development.

Broken up into 4 groups to limit contact and exposure.

2 AM Groups & 2 PM Groups (9-12)- (1-4), cleaning of the building done between 12 PM -1PM.

6 ft. distance desks and chairs set up in classrooms.

Signs and maintenance logs are posted.

All staff entering the building are completing surveys, wearing masks, and temperatures are taken.

School community checklist to be done before and during staff attendance.

Rob Granado inquired about testing and requiring people to be tested.

Testing and reporting results is still a topic of discussion.

Courtney Russell has spoken with Little Bird. Little Bird commented around the fact that it is not a mandated requirement to be tested.

Stacy Sutherland provided excerpts from a recent meeting with Chancellor, testing is not mandated but strongly recommended.

Can we ask a person to disclose the results of the test results?

Courtney Russell explained the process of communication with staff and COVID testing that has taken place at the school.

Principal Brown provided positive energy at the school this week.

Every Friday there will be feedback requested from the staff feels regarding safety.

Nikali Jones inquired:

What is the plan, if kids are in the building and someone tests positive?

Sara Jean-Jacques inquired:

Is there any information related to traveling to hot spots? Courtney Russell provided the details regarding the information presented to the staff and families regarding the 14 Day Quarantine.

Cases have been handled and with the publications and Little Bird assisting we have been moving forward acknowledging all the requirements.

Principal Brown provided direction if there is one confirmed case:

1 Case in the Same Classroom- Classroom will transition to remote learning for 14 Days.

2 Cases in the Same Classroom- Classroom will transition to remote learning for 14 Days.

NYC DOE Test & Trace Corps and DOHMH Investigation Conclusion presented as the guidelines that will be followed by the school.

Confirmed cases and symptoms:

If it is only symptoms being reported, what is the planned course of action for the school?

Sara: Favors treating the symptoms reporting as a confirmed case.

Nikali: When a teacher reported symptoms, the school closed down until testing was done and confirmed negative. In this case and most, symptoms are treated as confirmed. Test tells if you had the virus but what about if you are a carrier.

It's better to have an overabundance of caution to handle all reports related to COVID. The table presented is related to confirmed cases but if symptoms are reported, the same action should be taken as if they are confirmed cases until the tests are taken and results are confirmed.

Thoughts about the Board coming into the school for the Board Meetings:

Principal Brown confirmed that there is adequate spacing to accommodate 6 ft. distancing for a Board Meeting at the school.

Tom Wethington posed a question and would like the Board to lead by example. If the staff is being asked to return to school, the Board should consider doing the same for the Board meeting.

Hybrid meetings could work for those who will come and those who prefer to continue to participate remotely.

In Person Meetings would benefit if there are visitors who would like to attend the Board Meeting.

Sarah Jean-Jacques presented a point - Some parents may not want outside visitors in the school.

Plan that visitors are limited during a school day.

Other than COVID related sicknesses how will coverage work? Principal Brown has confirmed that the plan would be to cover from within. Everyone knows that we row together to support the school.

All bases will be covered in-house, to prevent any added risk of exposure with outside visitors attending the school.
