II. Head of School Report

A. Head of School Report

Daniel shared about recent events including the recent Plant and Bake Sale for Earth Day; practice SBAC testing is starting with SBAC in a few weeks; classroom placements for rising students will be shared with families soon; Moveathon is May 18th. Daniel shared about the current 90-91% attendance rate. Krishna shared latest enrollment expectations for the next year, currently at 372, with more applications coming in, more Intents to Return being confirmed this week, and some spots available in TK and 4th. Krishna shared an update about the process and timeline of sharing reasonable assurances or a postponement of reasonable assurances to all staff. Two Lead teachers and one Support teacher have shared with Admin that they do not intend to return. Those classrooms will get communications directly in the coming weeks. Daniel shared about charter renewal process, including the three renewal tracks, and the additional supports the school has made available for students in testing grades. Krishna commented how families with young students may have a hard time getting into their desired Kindergarten if they haven't enrolled in a TK the year prior. The board discussed messaging to families about this new younger enrollment dynamic to help ensure folks make an informed choice. Greg asked and Krishna shared that the staff who are not returning have not yet shared publicly across all staff, but may have with individuals, and that occurs just prior to

families being notified, and then students are talked to in classrooms. Daniel added that the school is hosting an info session for staff to learn about joining the training center to become lead teachers. Sarah asked about low track status and Krishna responded about overall and subgroups matching or being below the state on any indicator, and that our lack of sufficient number of ELPAC test takers years ago during COVID meant the state couldn't assign us a color. Admin is working with the state on that, and also meeting this coming week with County staff to explain and share more data. ELPAC progress was much higher than the state. Daniel added about the work ongoing to strengthen academic plans, support for teachers, and align resources to specific subgroup outcomes.

Draft activities are starting to be populated. The document remains available to all community, board, and staff to comment. School Leadership Team has reviewed and is providing feedback.

Krishna reminded the Board about its prior discussion earlier in the school year about streamlining committee report out at regular Board meetings. The board discussed the expectation of shrinking the Executive & Governance Committee's report out and referring community to the committee's minutes, bringing more of the work of the Academic Committee into the Regular Board meeting aligned to a monitoring calendar (that needs to be developed), and keeping the FAC report the same. Greg offered and the Board agreed to do a brief training at the May meeting about what effective goal monitoring can look like during a board meeting. Daniel shared about the need for the board to learn about the data it might not be as familiar with.
