These include data from various assessments, are shared in an organized format with parents, and are updated throughout the school year. The final GfS plan takes the place of the final report card so parents are clear on student performance for the year. d. CSBM Recommendations for Surplus Funds: Ms. Svetlana Gnesina presented the CSBM

recommended options for how to safely transfer money out of the operating account. Keynotes included:

- The school has accumulated the excess funds over the past five fiscal years, particularly from open positions.
- The CSBM recommendation is to not keep extra funds in the operating checking account to best protect the school's finances.
- CSBM recommends moving the excess funds to the existing Money Market account, which Ms. Gnesina confirmed is very common for schools.
- The funds will earn interest and replenish the checking account to fulfill the school's needs. Other options could earn more interest.
- The school team will decide on projects to fund to spend down the funds through next year, such as updating technology or furniture. The proposed FY25 budget will reflect the plans.

The Directors agreed that once the school team's projects are clear, the board will decide how to deal with the surplus money. Ms. Gnesina confirmed that school can have a slush fund for future investments or invest the extra money. The surplus can be questioned, but this is from years passed and the current budget is balanced; all public funds have been spent judiciously. The Directors chose to defer the decision until the June board meeting. Ms. Gnesina recommended transferring \$4M to the current Money Markey account until a final decision has been made.

James McCarthy made a motion to authorize the transfer of \$4M from the operating account to the existing Money Markey account.
