#### **F. Student Spotlight**

Ms. Geer-Hardwick presented information about Arts Integration which is a research based curricular strategy. This method uses art to teach a specific subject or lesson in the regular classroom. A recent example comes from 3rd grade where Alice in Wonderland was being studied to be able to capture recounting stories. They used installation art as the lesson to meet this competency. In the middle school grades, two students provided examples of how they are using whimsy and "get to know me" jars as part of Advanced Art.

Mr. Duncan gave a shout out to alumni who have been providing support and volunteering during the closures last week due to the modified hours from Hurricane Helene.

Mr. Gardner provided a highlight of the field trips last year. K-8 were all able to go out and see a production that involved music and art. There have been some challenges this year that they have been navigating but these are being navigated. He also shared that there are BA alumni that are doing big things and he highlighted that this is a testament to the program and shows a positive outcome.
