II. Academic Excellence Committee

A. Dissemination of Academic Excellence to Staff - Update

Humanities and Math Science are the only departments that have met. IA hasn't met, and it will be unique in that teachers are a bit isolated.

Math/Science - Standards for Mathematical Practices, Parker,

Humanities - "wrapping their brains around the activity" - top-down or bottom-up?

Foreign Language shouldn't be an add on.

We should have a time to look at this as a whole teaching staff- still needs to be uniform in design

How should the document look - Venn diagram? Bullet list? Web?
Target Categories- break it out by grade level?

Where do Essential Habits fit? - smaller working group?

Staff evaluates their projects against the rubrics/essential habits.

Shifting us back to true value of project based learning- teaching kids resilience to fail and try again. We need a more standardized/consistent view of **process** over product.

Anatomy of an Exhibition project. Formatting of the night. Students introduce the project. Questions for parents in program to ask students. Parents given information before the night of?

Organization/Executive Functioning

Entry points for parents into the Exhibition projects. - (Step-up day?)

B. Timeline

Peter - Ongoing for the next year and a half. Target share out June 2021, implement September 2021.

At the end of a 5-year program, students will be able to...
Looking to better align and track student growth.
