SCHOOL LEVEL ADMINISTRATOR RUBRIC for EDUCATOR EVALUATION

[Updated DRAFT: 2022]

The Updated School Level Administrator Rubric is available to pilot during the 2022-23 school year and will be released as the new model rubric for SY2023-24. The Updated Classroom Teacher Rubric, developed in alignment with the school level administrator rubric, will be piloted in SY2023-24 and released in SY2024-25.

The updated Educator Evaluation rubrics are grounded in a definition of effective teaching and leadership that reflects input[1] from educators, students, and families across Massachusetts on equity-centered practices that foster all students' academic achievement, cultural competence, and sociopolitical awareness.[2]

The School Level Administrator Rubric describes elements of effective practice across four Standards of Administrative Leadership:
- o   Standard I: Instructional Leadership
- o   Standard II: Management and Operations
- o   Standard III: Family and Community Engagement
- o   Standard IV: Professional Culture

> The rubrics frequently reference "all students," which represents *each and every student*, with particular focus on students who have been historically marginalized or underserved by our education systems, including but not limited to those who identify as Black, Hispanic/Latino, Asian, Indigenous, and Multiracial students, students with disabilities, English learners, LGBTQIA+ students, students experiencing homelessness and/or financial insecurity, and students who are undocumented.

These four Standards guide the development of Massachusetts administrators from preparation through employment, articulating the key knowledge, skills, and behaviors required of all administrative leaders in public schools in Massachusetts to disrupt historical patterns of inequity and well serve richly diverse student bodies with diverse educational needs.

For each Standard, there are Indicators that describe specific knowledge, skills, and performance at four levels:

Proficient
The educator's performance fully and consistently meets the requirements of a Standard. This is the expected, rigorous yet attainable level of performance for most educators.

Unsatisfactory	Needs Improvement	Exemplary
The educator's performance is consistently below the requirements of a Standard and has not shown improvement.	The educator's performance is below the requirements of a Standard but not considered to be Unsatisfactory at this time. Improvement is necessary and expected.	The educator's performance consistently and significantly exceeds the requirements of a Standard and could serve as a model.

Distinctions by performance level come from variations in quality (the ability to perform the skill, action, or behavior), scope (the scale of impact), and consistency (the frequency that skill, action, or behavior is demonstrated with quality). Continued growth and reflection are expected across all levels of performance.

The Anti-Racist Leadership Competencies, a set of guiding principles of anti-racist leadership[3], informed the revisions to the Indicators and elements that describe each Standard. These competencies are also integrated into the Guidelines for the Preparation of Administrative Leaders and the Principal Induction & Mentoring Handbook. Collectively, these competencies provide a learning trajectory designed to support administrative leaders from preparation through entry to the profession and ongoing growth and development.

We also received input and feedback from students and families through a series of Student and Family Roundtables. For more information about these contributors, please see *Acknowledgements.*

[2] This rubric applies a definition of culturally responsive practice and culturally relevant pedagogy based on the frameworks of Gloria Ladson-Billings, Geneva Gay, and other scholars.

Using the Rubric in the Educator Evaluation Process

Rubrics are designed to help educators and evaluators (1) develop a consistent, shared understanding of what Proficient performance looks like in practice, (2) develop a common terminology and structure to organize evidence, and (3) make informed professional judgments about Formative and Summative Performance Ratings on each Standard and overall. As a result, rubrics play a part in all five components of the evaluation cycle.

1. **Self-Assessment:** Educators use the rubric to examine their own practice and to identify areas of strength as well as areas for further growth and development.

2. **Analysis, Goal Setting, and Plan Development:** Educators and evaluators together review the rubric and agree on Indicators that will be the focus of their attention during the evaluation cycle. In addition, educators and their evaluators develop goals for improving professional practice and student learning. The rubric helps to paint a clear picture of what it will look like to move practice from Proficient to Exemplary in one Indicator or from Needs Improvement to Proficient in another. These distinctions are the starting point for conversation about setting specific, measurable, actionable, equity-focused goals.

3. **Implementation of the Educator Plan:** Educators and evaluators use the rubric to ensure that they are gathering evidence from multiple sources that will support a fair and comprehensive assessment of the educator's practice on each Standard. The elements of effective practice defined in each Proficient descriptor can be used as a guide for feedback, professional learning, and the collection of evidence. Given the breadth and depth of practices represented, its recommended that educators and evaluators prioritize certain Indicators aligned to educator, school and district goals for professional learning, feedback, support, and evidence collection.

   Note: The rubrics are written to support educators and evaluators in making judgments about evidence gathered across multiple measures – not from a single observation. Observations are a valuable way to gather evidence on educators' performance against many, but not all, of the Standards and Indicators, and should be paired with other sources of evidence, such as artifacts of practice, student and family feedback, and evidence of student learning. The model rubrics were not designed to be observation tools and should not be used for that purpose.

4. **Formative Assessment/Evaluation and Summative Evaluation:** The rubric serves as the organizing framework for these conferences and reports as evaluators assess the educator's performance on the continuum of practice described by the rubric.

All Students: This rubric frequently references "all students," which represents *each and every student*, with particular focus on students who have been historically marginalized or underserved by our education systems, including but not limited to, those who identify as Black, Hispanic/Latino, Asian, Indigenous, and Multiracial students, students with disabilities, English learners, LGBTQIA+ students, students experiencing homelessness and/or financial insecurity, and students who are undocumented.

Anti-racist Teacher and Leader: Believes racial groups are equals in all their differences and continually engages in self-reflective work that leads to educational policies, practices, conditions, and cultures that resist and dismantle inequities due to individual and systemic racism to advance racial equity. ([Guidelines for the Preparation of Administrative Leaders](#))

Asset-Based: Asset-based approaches intentionally build on the strengths and capacities that learners bring to school, including their languages, cultures and experiences versus deficit-based thinking that views differences as weaknesses.

Bias: A disproportionate weight that may be created intentionally or unintentionally in favor of or against an idea, thing, individual, or group. ([Guidelines for the Preparation of Administrative Leaders](#))

Cultural Broker: Individuals who act as bridges between schools and diverse families and collaborate with families to support the school's goals to improve student achievement ([Massachusetts Family, School, and Community Partnership Fundamentals 2.0](#)).

Cultural Competence: Individuals' affirmation in their own culture and identity and respect and understanding for different cultures and identities. ([Culturally Responsive Teaching and Leading)](#)

Culturally Responsive Practice: Cultural responsiveness is an approach to viewing students' culture and identity (including race, ethnicity, multilingualism, and other characteristics) as assets, and creating learning experiences and environments that value and empower them. ([Culturally Responsive Teaching and Leading)](#)

Culturally Relevant: Aligned with and affirming to students' cultures, backgrounds, and identities. Culturally relevant pedagogy promotes students' academic achievement, cultural competence, and sociopolitical awareness ([Culturally Responsive Teaching and Leading)](#)

Curriculum: a sequence of student learning experiences teachers facilitate using curricular materials as a foundation (not a script!); also called enacted or taught curriculum. ([Curriculum Matters](#))

Equity: Exists when one's identity (including but not limited to race, gender, ethnicity, language, disability and ability) can no longer be used to predict social, economic, and educational outcomes. Enacting steps towards equity means ensuring that opportunities and supports to eliminate bias and structural barriers are operationalized at every level of the education system and society. ([Guidelines for the Preparation of Administrative Leaders](#))

Evidence-based: Practices or programs that have evidence to show that they are effective at producing results and improving outcomes when implemented as supported by valid and reliable research. (US Department of Education, Every Student Succeeds Act)

Historically Marginalized Groups: Groups and communities that systematically experience discrimination and exclusion (social, political, economic and financial) because of unequal power relationships across economic, political, social, and cultural dimensions. These groups include but are not limited to race, culture, language, LGBTQ+, gender, and ability. Significant disparities exist for marginalized people.

High-quality Instructional Materials: High-quality materials exhibit a coherent sequence of target skills and knowledge, empirical evidence of efficacy, and other characteristics such as engaging content and inclusive design. Restorative Practice: A framework of processes that schools can use to prevent and address conflict and poor behavior, including, but not limited to, restorative circles, family group conferences, social and emotional learning, and informal practices such as affective questioning. Rather than implementing a program, restorative practices focus on building and maintaining healthy relationships among individuals and maintaining a sense of community. In the case of a disciplinary infraction, restorative practices allow individuals to take full responsibility for their behavior by addressing the individual(s) affected by the behavior. Through these practices, individuals come to understand how their behavior affected others, recognize that their behavior was harmful to others, move toward repairing the harm, and work on not repeating that behavior again. (National Center on Safe and Supportive Learning Environments)

Sociopolitical Awareness: The ability to identify, analyze, and work to solve real-world problems by thinking critically and drawing conclusions about complex issues related to equity, identity, power, or bias. (Culturally Responsive Teaching and Leading)
