## II. Facilities Task Force

### A. Design Discussion

- Review current building plans based on Brad, Ariane and Christian's ideas
  - Warehouse expansion
    - Scope
      - Single or multiple phases?
        - FTF to explore both options with the understanding that cost will likely be deciding factor (in order to estimate costs, will need full understanding/readout of proposed expansion)
    - Areas included
      - Additional classrooms at exterior of building
      - Science lab (and potential theatre)
        - Could theatre be a means of bringing additional revenue into school? Worth including space to explore this possibility
  - Additional areas to be aware of as we explore expansion
    - Roof
      - Immediate need for repairs over current school area
      - Need for roof above warehouse (this could, if funds dictate, be second phase of repair)
    - Community Room

- Possibility of making current 4th grade classroom(s) into music room, enabling walls to open up to community room for performances
- Skylight is dated
- Will need to be aware of code regarding sprinkler systems (especially those around skylight, which currently has piece of plexiglass beneath)

## **B. Identify Next Steps**

- Building Design
  - FTF members to begin creating alternative building plans to evaluate options for warehouse expansion
- Buildout of additional workspaces (7th grade area)
  - Will yield 4 new spaces, to be completed Summer '21

## **III. Closing Items**

### **A. Adjourn Meeting**

There being no further business to be transacted, and upon motion duly made, seconded and approved, the meeting was adjourned at 8:30 PM.

Respectfully Submitted,  
Rebecca Whidden
