**II. Academic Excellence Committee**

**A. December Board Presentation**

- Teaching tool in addition to assessing progress
- This more comes from the instructional end, compared with something like MCAS
- The document is to shape the learning experience

Need to align with the Board on the purpose of this document

Potentially a two-step process

1. Background, reasoning, status update on drafts, example performance tasks
2. Next steps

What are we looking for out of this document as far as an assessment tool/data collection?

Our vision aligns with Board's vision

What questions do we want to be able to answer with the data?

- How closely do the experiences we give students align with the standards?
- How many kids can successfully complete?
-
