II. Board Training

A. Board Training

- Please see attached for full training presentation
- Summary
 - Introduction
 - Kathy asked that each Board member share his/her name and a bit about where where he/she attended 8th grade and what the school was like
 - Noted difference between public versus private board- all decisions are accountable to the public and processes must be transparent
 - True or False
 - Kathy reviewed some basic Board responsibilities
 - Board members are special state employees
 - No gifts of more than \$50
 - Board is subject to public meetings
 - Minutes must be kept and made available to public (both committee and Board)
 - Exec. Session is permissible in certain instances (personnel, contract issues, etc.)
 - Amendments to Charter DESE must be submitted by 8/1
 - Allows
 - Financial Disclosure forms must be submitted to Town Clerk, DESE, and Ethics Committee
 - History of Charter Schools
 - Began in the 1980s, developed model of receiving funding directly from state rather than town superintendent
 - Public schools are still reimbursed for each pupil taken by Charter school
 - Governance
 - The Board defines the school's mission, approves school policies, hires and holds accountable the executive director, formulate a long range plan ensuring the viability of the school, and serve as financial stewards of the school
 - Kathy and the Board discussed fundraising & foundation options

- Kathy discussed the concept of a Foundational Board and methods for managing public and private funds
- Board Approved Annual Functions
 - Include Accountability Plan, Annual Audit, Annual Report, Charter Renewal & Amendments, CORI Checks, Fire Inspections, and many more
- School Authorization and Oversight
 - Faithfulness to charter, academic program success, culture and family engagement, and org. viability
 - Kathy and the board discussed common misconceptions about Charter schools and the role of Charter schools in serving the needs of special ed students
 - Noted that MCCPS received a glowing review from the state this year regarding its special ed. services
 - Kathy recommended that the Board set aside time during Sept. Board meeting to review policies and DESE's questions in advance of their October site visit
 - Kathy also recommended that the next strategic plan be developed after DESE's October visit, as their findings will inform strategic plan
 - Board would vote to approve during June, 2025 meeting
- School finances
 - State dashboards available showing DESE's view of a school's finances
 - Can be accessed online through the DOE (navigate to Board of Ed site, lookup charter schools and you'll find financial dashboards)
 - Assessment based on money in the bank, debts, enrollment
- Access and equity
 - Kathy reviewed access and equity information and shared links on the topic for the Board to review, and also noted the importance of understanding the perspectives of the community, their circumstances, and their experiences
- Strategic Plan
 - Kathy walked through guiding principles for the development of a strategic plan
- Finances
 - Kathy reviewed financial differences between public and Charter schools
 - Public schools' facilities are paid for by their municipality, whereas Charter facilities are not
 - This makes it much easier for public schools to provide higher salaries, as these capital expenses aren't a concern

- Kathy and the Board reviewed the four components of Charter tuition (foundation rate, above financial rate, facilities, and transportation)
- Recommendation for looking at finances
 - Look at admission and understand who you want to serve
 - If you have foundation holding money for school you use a compound audit
 - Foundation could raise funds and allocate it without public interference (but these must be private funds)
- Scenarios
 - Kathy and the Board walked through several scenarios
 - Takeaways included notes that texts shouldn't be used for any official business, the importance of not providing opinions on school matters/procedures outside meetings, the role of Board members as mandatory reporters, and the requirement of CORI test for all Board members
 - This is especially important because Board members, as state employees, can have their cell phones and records taken in the event of a lawsuit
- Kathy concluded and offered to help with the development of the next strategic plan in the future

III. 10 Minute Break

A. 10 Minute Recess

- The Board took a brief break for food and coffee

VIII. Board and HOS Goals

A. Review SY23-24 Goals

- Note: SY23-24 Goal 1: Conduct a thorough process and documentation review and establish standard operating procedures (“SOPs”) for documents and archives, ensuring complete OML compliance and easy access to important information for both internal and external stakeholders on the school website, BoardOnTrack and other avenues.
 - Katie acknowledged that this was overall a success, as students enjoyed their year, recruitment improved, and the staff appears energized
 - Jess added that SOPs are a work in progress, as it sometimes feels like the Board repeats itself on several processes (ex: Board member onboarding) and Katie mentioned that this is likely a multi-year goal
 - The Board noted that great progress was made on MCCPS website and cited Meg Upton's work on this
- Note: SY23-24 Goal 2: Build and promulgate the MCCPS brand through community engagement, events, and digital and print messaging.
 - Katie noted that great progress was made on this, as Rose, Kim, Stephanie, Meg, and others have put great effort into this with great success
 - Board members mentioned the importance of ongoing engagement from Board members, whether that is attending events, advocating for the school, or volunteering
 - The Board also discussed the role of DevCom and Kim mentioned that she, Stephanie, and Katie would meet to sharpen the focus of this committee
 - Kim noted that Stephanie invested in paid advertising that was incredibly well executed and felt that this provided a lot of value
 - Stephanie also mentioned the effectiveness of the second round of mailing
- Rudi asked the teachers on the Board about the in-school environment and whether there is anything more the Board can be doing
 - Jess mentioned that there's a systemic exodus of teachers from the profession and that they're certainly short staffed... that said, morale is good and the staff feels empowered to do great work
 - Nick mentioned that he feels there's a recognition of ways to grow and how to make things better among the staff

B. SY24-25 Goals

- Katie opened by recommending goals centered on enrollment and engagement and reiterated Kathy's point made during the training that we as a Board can do a lot to engage with the larger community outside MHD
 - Lindsay mentioned that she's considered visibility as a goal and felt this is encompassed in the broader engagement/enrollment idea

- The Board discussed ways of making itself more visible, with Polly raising the possibility of the Board introducing itself during Exhibition
- Stephanie mentioned Board attendance at the upcoming class-by-class dinners she'll be holding during the year
- Nick also mentioned having Committee/Board attendance at Exhibition, potentially having a table set up, and/or having Board members at the school in the morning
 - The Board gave kudos to Kim and Lindsay for their constant presence at MCCPS
- Emily noted development of MCCPS Foundation as worthy of being a goal
- Polly added the development of a student handbook as a goal
- The Board then discussed current and future-facing composition of the school, as MCCPS isn't currently at 80% of required in-district students
 - The Board then talked about 7-8th grade enrollment, citing a trend of Village School students coming to MCCPS instead of MVMS
- Will to draft Board goals and share next month
