II. Staff Presentation: Academic Data

A. IReady Spring 2025 Data

KD MacDonald gave an introduction to her new role at MCCPS and prepared a presentation regarding the iReady data from Spring of 2025.

Purpose: Provide context on how our students are performing. We need to remember that our goal is not to only measure growth but equity across student data.

Understand student performance

- FYI: i-ready is a nationally administered assessment that is designed to meet students where they are.
 - Test is administered 3x times a year (Fall, Winter, Spring)
 - i-Ready is aligned with MA state standards
 - 2x ways that i-ready measures growth
 - Typical: 1-year of expected progress
 - Stretch growth: More of an ambitious target for students who is falling below grade level.
 - 3-year window of growth needed and projected growth
 - Provides us data to push students to how much they need to grow
- Math:
 - 60% of students are on or above grade level
 - 1/2 of students with disabilities and FEL are at or above grade level
 - MLL students are falling behind 28% of these students are on or above grade level
 - There is still a group of students are are below grade level
 - These students will be identified and will have extra support this coming school year
 - Growth this past school year
 - Typical: more than 1/2 students have met or exceeded their typical growth for the year
 - 1/4 students made very little progress
 - This will be a subgroup of students that teachers will look close at this group during this coming school year.
 - Stretch growth:

- 28% of students with disabilities have met their strength growth
 - MLL students are performing lower than most sub groups
- Proficiency by domain:
 - 4th Grade:
 - Measurement and Data was that highest performing domain
 - Algebra & Algebraic thinking is a 4th grade teaching standard that needs to be improved on
 - This will be a target for the 25/26 SY
 - 5th Grade:
 - Measurement and Data was that highest performing domain
 - This is a priority set of standards for Grade 5 (volume)
 - Majority of 5th grade standards is Numbers & Operations
 - This is a low group given the i-ready data.
 - This will be a target for the 25/26 SY
 - 6th Grade:
 - Measurement and Data was that highest performing domain
 - Not a primary domain for this grade level
 - Highest priority domain
 - Numbers & Operations
 - 7th Grade
 - Measurement and Data was that highest performing domain
 - Not a primary domain for this grade level
 - Algebra & Algebraic Thinking should be the focus at this level
- PALS Data:
 - Overall PALS showed good increase
 - 26% increase on/above grade level
 - 27% decrease below grade level
 - 21% decrease far below grade level
 - 36% increase with students with disabilities on/above grade level
 - MLL students made significant growth
 - 300% increase on/above grade level
- Reading
 - End of last year
 - 64% on/above grade level
 - 1/2 students with disabilities or FEL students are on or above grade level
 - 14% of MLL on/above grade level
 - Typical growth
 - 1/2 of the school is meeting their growth
 - MLL students are struggling to make growth
 - This will be a focus for the 25/26 SY
 - Stretch Growth

- 27% Students with disabilities or FEL are meeting this growth
- MLL learners are not making significant growth
 - This will be a focus for the 25/26 SY
- 4th Grade
 - Students struggled with Phonics
 - This is a skill that should be mastered by the end of 3rd grade
 - High-Frequency words
 - there are still some students that are below grade level - This is a skill that should be mastered at the end of 2nd Grade
- 5th Grade
 - Similar finding that we saw with 4th grade
 - Comprehension domains scored low
 - HQIM will be a focus in this area this year
- 6th Grade:
 - Phonics and High-Frequency words improved
 - We will lean on HQIM for the SY 25/26
- 7th Grade
 - We see improvement on the Comprehension domains in i-ready
 - Lean on this teacher to share resources that made students so successful
- 8th Grade
 - Work needed on planning literature with an appropriate amount of rigor
 - Grade level that could require HQIM
 - Need a scope and sequence that relate to MA Standards
- The longer that the students are enrolled at MCCPS we see improvement in getting students on/above grade level

Takeaways

- As a school we are closing gaps
- MLL students are an area of focus
- Focus on equity of instruction
- Recommendations
 - Focus on stretch growth vs. Typical growth
 - Prioritize small group instruction

IV. Board Retreat Follow Up

A. Board Retreat Discussion

Lindsay wanted a space for feedback on the retreat was:

- Overall positive feedback
- Good focus for strategic growth for the board
- Case scenarios were useful

This will be an annual retreat

Takeaway:

- This year is a fresh start to build strong practices
- This is an area of focus that DESE wanted us to focus on

V. Head of School Report

A. August 2025 Report

- School is fully staffed with 4x person team at each grade level
- 4th & 8th grades will have teachers acting as a classroom teacher and inclusion teacher
 - This is a model that we used last year and will continue to use at these two grade levels
- Enrollment is currently at 226

- It is anticipated that we will reach 230 to reach max enrollment
- Wait list in 5, 6 & 7
- 66% to 57% students are from sending districts SY 25/26
 - This is expected to happen from our last renewal findings as we accept more students from non-sending districts
- Teachers returned to school today 8/26
 - PD has a focus on instructional shifts that will be made for SY 25/26
 - UDL
 - MTSS
 - Pals shifts with addition of ELA
- HIQM rolled out in Math & Science
- CSL to be rolled out to the entire school
- Continue with Parent Dinners starting 9/4
