**A. 2025 Student MCAS Data Review**

KD MacDonald provided a detailed review of the latest DESE MCAS results. MCCPS data was compared against state and local Marblehead school district. In addition, an analysis was shared comparing data with pre-pandemic results. Analysis was also shared on SWD and MLL populations. The presentation also explored the schools' strategies to continue to improve MCAS scores in underperforming categories.

Key questions from the board included clarifying questions on SWD and MLL and how they compare to state averages. The board also noted that the presenting 5th grade was somewhat of an outlier in a number of categories. The board discussed remediation strategies to help this cohort. Staff ability to onboard a number of new curriculum was also explored. The presenter and HoS acknowledged this was a lot, but staff were being supported by the MCCPS LT with training. Finally, the board explored how the school continued to monitor how student growth momentum was maintained in advance of the next DESE readout.
