III. Superintendent's Report

A. Lease Agreement

Darshan T. reported that the lease has not yet been finalized. He had hoped it would be completed by today's meeting, but that has not occurred.

He provided a summary of lease discussions to date: the fund has agreed that the 8 Bradford Place parking lot will be included in the lease and requested a tax map of the properties. The school has opted to conduct a survey instead, as tax maps can be unreliable, and has requested a placeholder in the lease for the survey. LFD has requested that the survey be completed before the lease is signed, which will take a couple of weeks and delay the signing process.

Linette P. requested clarification on the location of 8 Bradford Place. Darshan T. explained that the school has been using the space for parking. Initially, LFD did not permit this use, but has since allowed it.

The fund has requested oversight due to past concerns about unpermitted work. Darshan T. clarified that all alterations, deferred maintenance, and construction at the STEM Center since July 1 have been properly permitted. Any prior unpermitted work would have occurred before the school assumed control. He has asked LFD to investigate and provide evidence of any unpermitted work.

Darshan T. also reported that LFD has allowed the school to use the lot across from 34 West Street for parking for one year, which is not a concern given the school's intent to purchase the properties within that timeframe.

Regarding the option to purchase and right of first refusal, LFD is offering six months for financing and six months for closing. The school may need additional time depending on when the property evaluation begins.

The school has requested that the valuation be based on school use, reflecting the intended purpose of the campus. LFD, however, insists on an open-market valuation. Its Board has rejected the school-use limitation, which could prolong the valuation process and potentially affect the six-month financing and six-month closing timeline.

Mark V. noted that the legal description will form the basis for the purchase option, making accuracy critical.

LFD has requested that the lease remain open and unsigned until the school completes the survey.

The survey, which will cost \$32,000, has been approved by the Finance Committee. Mark V. emphasized that it is worthwhile to wait an additional month before signing the lease in order to obtain an accurate legal description of the buildings.

B. Audit Firm Updates

At the beginning of September, the school engaged a new auditing firm, AAFCPAs. AAFCPAs provided a schedule of the work to be completed along with associated costs. The audit must be finalized by the end of November. The firm has experience working with charter schools in the state and also audits the Massachusetts Charter School Association.

The audit fees are \$39,000, with a one-time additional fee for testing and balancing transfers estimated between \$3,000 and \$5,000.

Mark V. shared that the firm provided a list of required documents. As this is their first time working with the school, they are reviewing additional information. The school recently acquired access to NetSuite financial systems, which will need updating and will play a significant role in the audit.

Darshan T. noted that AAFCPAs has been in operation for over 30 years and works with many charter schools.

Chris N. reported that a special Audit Committee meeting is scheduled for October 29 to approve the audit in time for submission to the state by November 1.

IV. Assistant Superintendent's Report

A. Updates from the Assistant Superintendent

Sally-Ann S. provided an update to the board. She reports that Stacey O'Brien, our grants manager, has been leading the preparation and submission of the ESSA federal grant application, which includes Titles I, IIA, IIIA, and IVA. The grant funds are planned to support our Title I program in math and ELA, the Extended Day and summer programs, staff professional development, and a curriculum review for mathematics. Following the ESSA submission on September 9, 2025, Stacey will begin the IDEA grant application for special education funding, due September 29, 2025.

Digital learning initiatives, led by Anna Yuen, included onboarding new staff in August on Schoology, ActivPanel, and updated curriculum programs, with ongoing support through coaching and feedback sessions.

Hallie Laroque has ensured compliance with all DESE data reporting requirements for 2024–2025 and is preparing additional data submissions for October. Current enrollment stands at 920 students with approximately 350 on the K1-4 waitlist.

The Extended Day program is at full capacity with 113 students, enhanced staffing, new enrichment positions, and a new online registration and payment system. Fall and year-long clubs include Math Olympiad, Choir, LEGO Robotics, and a new Counselor in Training program for 7th and 8th graders, with three club catalogs planned for the year. Darshan T. provided an update on the interpreter grant. DESE determined that, although the school has many bilingual staff members, certain domain-specific vocabulary and context require specialized knowledge. The course consists of three levels, and currently three LFDCS staff members have completed it.

This year's interpreter grant application aimed to support the participation of two additional staff members. The state is also developing a database on its website to list individuals who have completed the program.

V. Principal's Report

A. Professional Development Week Recap

School Principal Hali Castleman provided the Board with an update on in-service week for new and returning staff in August. The school welcomed 22 new teachers, one paraprofessional, and one new occupational therapist.

Highlights for new staff included sessions on the Mentor Program, Classroom Management/SEL, Family Engagement, and other key topics. Daily surveys showed that 90% or more of new staff found the sessions impactful or highly impactful. Staff also provided feedback on areas for improvement, including educational platforms and technology support.

During the all-staff professional development week, which included new staff, sessions covered topics such as the Crisis Prevention Institute, Vertical Teams, and a presentation by Dr. Brian Dinkins. Over 90% of staff reported that the information shared was helpful to their roles. Feedback for future PD included requests for additional sessions on classroom behavior management, social-emotional learning, and hands-on technology instruction.

Dave D. noted that behavioral management support is a recurring topic in AAC discussions and expressed his appreciation that many of the recent sessions addressed these concerns.

He asked Hali Castleman about positions that remain unfilled. Hali C. reported that the school is still seeking a K1 ESL teacher, a K1 classroom teacher, and four Spanish teachers. Additionally, a School Adjustment Counselor has been hired and is now working at the Academy.

VI. Other Business

A. Banking

Mark V. reported that the Fund currently manages the school's scholarship accounts and proposed opening two new accounts with the same bank.

The first account would be dedicated to managing funds raised through Jeans Day and other school fundraising activities, giving the school full access and control over these funds rather than the Fund.

The second proposal involves creating a sweep account to support the school's existing accounts, a checking account, and a money market account. Currently, the money market earns 2.57% interest, while the checking account earns none. The sweep account would fund the checking account, provide FDIC protection, and allow the school to accrue interest on available funds.

Mark V. requested a Board vote to authorize the creation of these two new accounts.

D. DeFillippo made a motion to create the two new accounts, scholarship and sweep account to benefit the school. Chris N. and Germinudy L. and Darshan T. and Mark V. will be signers and Yulissa R. has access.

J. Tejada seconded the motion.

Robin Hatfield will be doing all of the reconciliation allowing Mark V. to be a signer.

The board **VOTED** to approve the motion.
