V. Development Committee

A.

Volunteer Database Update

S. Scott shared updates on volunteer database timing and development:

- We can develop the software and own it via a school foundation, or look to Leaders Building Leaders to own this
 - This method is cheaper in the long run as we will not have to pay annual fees
- Database can be used not only for volunteer efforts, but also for donations
- By targeting people based on their backgrounds, careers, and interests, database can promote lesser known volunteer needs that fit the individual
- Database would play an important role in Development, continue to grow the network of contacts, donors, alumni and families
- Meeting with the PTO netted positive feedback and questions about ownership of database and how info will be used, as well as overall cost
- Decentralized ownership of the database allows for each segment of the community to be involved (PTO, Board, Administration, Staff)
- Board discussed launch date and potential to coincide launch with 8/23 Open House
 - Timing is tight, but product could be delivered within the first month of the school year given sign off and approval
 - Board will further discuss cost in Closed Session
