B. Charter Renewal

- The 2023-2024 Audit Report that was approved in the October Board meeting was submitted for charter renewal.
- This was the last document requested of us.
- We expect to hear a decision January or February 2025

V. Policy Committee

A. Behavior Threat Assessment and Management Policy - Approve

- BACKGROUND - NC lawmakers passed a bill to require schools to safety threats. HB 605 requires assessment of and intervention with an individual whose behavior poses a risk to the safety of school staff, students, or self, including suggested definitions of threat levels with examples of behavior that would be considered a threat under given definitions.
- Ms. Zagorski has put forward a procedure that complies with the guidance issued by the Center of Safer Schools. This procedure is attached for reference.
- Erica Womer asked about the last sentence regarding "developing these policies". Malik said that the Board did technically develop the policy as required but then the administration pulled information from the Center of Safer Schools. The requirement from the Center of Safer Schools was confusing regarding the wording. Daniela and Malik explained the details of the decisions more specifically.

E. Womer made a motion to Approve the Behavior Threat Assessment and Management Policy.

M. Dixon seconded the motion.

The board **VOTED** to approve the motion.

B. Collaboration with Other Committees on Relevant Policy Updates

- FYI - We have inquired with the other committees about the need to update certain policies and ask that they include policy edits on their various committee agendas so that we can provide assistance if needed, as necessary (i.e. Media policy etc).

C. Video Surveillance Policy - First Read

- Our school will benefit from having a policy outlining the appropriate use of video surveillance in our school within the boundaries of the Family Educational Rights and Privacy Act (FERPA).
- The Governance Committee has prepared a policy attached for the first read to the Board.
- Policy requirement - Need to establish parameters on retention, who can use the information, and who can request the video footage.
- The school will then determine the procedures behind the policy. The committee met with the administration to discuss different scenarios.
- Will be asking the Board to approve at the next meeting.
- Enrique asked about the time frame and whether or not it is adequate. The committee did discuss with the administration and agree that the time frame is adequate. However, there is language in the policy where additional time can be requested.
- Enrique asked if we have the ability to blur faces and/or redact portions of the video if needed. Malik said that these items were discussed and researched to appropriately include within the policy.
- Erica asked if the retention periods are mandated by law. Malik said they are not but they based that retention time on the system space/memory limitations.
