- One of the key actions identified is the review of the external webpage, including the School's Equity Statement and DEI Equity Plan (links below) that may otherwise be subject to scrutiny from the federal government. (Refer to Policy Committee and Governance update on DEI Certification).

VI. Policy Committee

A. Committee Work on Policy Updates and Best Practices for Policy Publication

- The committee continues to work on reviewing policies.
- The committee is also looking into best practices for efficiently publishing policies once they have been approved by the Board.
- A federal court in Maryland has issued a preliminary injunction against the Department of Education, essentially preventing the DoE from enforcing the certification that schools were required to sign this month. For now, this means that the DoE cannot enforce that certification and or withhold funds to public schools pursuant to that certification. It also puts on hold the False Claims Act use as a tool against public schools in this context.
