

Compass Charter Schools
Scholar Leadership Council 2021-22 Scholar Survey
Options Scholars - If you were given one thing you could change about Compass, what would that be?

- Nothing
- To focus also more on us scholars who are in elementary I see a lot of the cool field trips are for middle school and high school scholars.
- That each individual teacher can pick a scholar of the month for her individual class
- The way we test... we need MAP testing not the crappy Star test that doesn't diagnose where problems are
- Be on the lookout for their ST's and see if they're doing their work. Because don't you think that not replying to someone's email for more than a week is not professional?
- The monthly check in. Quarterly is more than enough
- Use different platform to turn in work samples.
- We wish they were better organized, had better communication, that the start of the school year wasn't such a disaster ever year and that all the ST's were on the same page in regards to work samples and the PLP.
- I don't know.
- More tutoring options. I would like to have someone I can talk to about homework who isn't my parent.
- have a robotics class so we can build robots and learn about how they work.
- Also an engineering club.
- I wouldn't change anything about Compass at this time.
- 1) Substitute the coach that runs the cooking club.
- 2) offer field trips we can attend in Contra Costa County!
- The ccs link is very complicated took several phone calls and a long time
- Nothing.
- More clarity/detailed instruction on the fine details of materials ordering/PO systems.
- More funding for clubs to acquire materials for projects
- I wouldn't change anything they're on top of it
- More communication on things like Scholar of the month, what is avid? These things are listed in the MMU but the information is not readily available. More opportunities/resources for Gifted and Talented students! We need support and resources to fulfill our potential too!
- I would get rid of the Tuberculosis testing for vendors. I was originally going to take figure skating classes (paid through Compass) at Icetown Carlsbad, but now I can't because Compass wants ALL of the Icetown employees to get a Tb test done. No offense but I think there should be a change on whoever is running the rules for the vendors.
- None
- Add a Library
- Accountability. Disappointed in Compass's lack of taking responsibility for their mistakes over the last 3 years of learning and growing as a school and "only looking to the future,

while telling parents how well the school performs” doesn’t make us feel better for re-enrolling yet again. A simple acknowledgment of mistakes made, and attempt to not do them again moving forward is all that is needed.

- Different ST’s request more samples than what is in the MA which causes a lot of confusion and scholars to leave Compass.
- Having appropriate groups and not having class with 5th graders or less
- I wouldn't change anything.
- More vendors in our area - Vista, Oceanside, Carlsbad
- Offer more electives
- I feel like compass is a really great school all around, but sometimes I feel a little restrained by the funds, so I would want a little more funds.
- Choosing electives
- I would like more virtual field trips because I live far away from the in person ones.
- The ordering process in the begging of the school year. if possible to order earlier to have school curriculum
- To be more flexible and open minded
- Turning in so many samples
- Detailed paperwork adhering to standards.
- Difficult to use the platform of funds, Order materials and services.
- Nothing
- more meet up opportunities for similar grade levels in my area
- More Reading Tutoring Sessions a week.
- Start Kahoot! Zoom Sessions. I want the instructors in Lego class to actually teach us something, like how to build something with Legos step by step. Because we don't actually do anything in Lego Zoom Sessions, we just show whatever we have already made on our own by ourselves, and we don't really need a Zoom class for that.
- I'd like more live classroom options, like a mix of the online program and options program.
- The masks
- More help for families
- maybe organized more events in person to connect
- i dont know
- More vendors, and field trips for people in smaller locations
- More activities in Contra Costa
- School competitions - like reading or math challenges
- Everything starting with the man at the top
- Not sure
- Nothing - I like everything about Compass
- He has nothing useful to say
- Replace Cooking Club leader. She's not reliable.
- Including other online courses like k-12 which I use and pay for myself
- Have more vendors for extra curricular activities
- More guidance when starting off for the first time
- A third day in the classroom OR an outside physical education daily

- It would be cool to meet other Compass kids in my area for play dates
- More dynamic clubs. Some are falling flat.
- I would like an app to input daily activities
- More instructors and staff that spoke English and Spanish
- 1. Trim the grass at the grass field. 2. Provide vendor information for after school care services.
- nothing really
- Less problems with programs
- I would not want TK to 3rd graders to do online classes everyday.
- Need to spend more time with new parents and students how to work in all the apps and systems for they can be successful.
- It would be nice for my peers to participate more and voicing their thoughts and opinion.
- Can't think of anything... we love the program!!
- More spots for the Safari zoo field trip would be great.
- I will make the vendor rules less strict (EXAMPLE: The said vendor doesn't need to take a TB test)
- Nothing at the time
- I don't know
