We are happy scholars and families choose to make Compass their school of choice. I am proud to be the Superintendent & CEO of Compass. I look forward to working with our faculty and staff to provide a quality personalized learning program to every scholar we serve. Everyone at Compass is committed to creating a nurturing environment as we work with our scholars (students) to meet their unique learning needs. There are a few

vocabulary words that we use that make our school culture unique from many others.

Compass Vocabulary

Like any school, Compass has its own unique culture. To help you understand part of the culture of Compass, it is important you understand our use of the following key terms:

Learning Coach

Parents/guardians are known as the “Learning Coach” for their children and they are an integral part of their children’s success at Compass. Since we are an independent study virtual public charter school, much of the learning is facilitated by the learning coach.

Scholar

At Compass, we choose to refer to students as “scholars.” A scholar is defined as a person who is highly educated or has an aptitude for study; a distinguished academic. We refer to students as scholars because we want to emphasize our commitment to helping every individual be academically successful.

Supervising Teacher

At Compass, we assign a credentialed staff member to support and guide each scholar on their educational journey. These staff members are referred to as “Supervising Teachers” or STs.

We look forward to being part of our scholars’ educational journey, and invite you to learn more about us through this School Accountability Report Card and by visiting us online at www.compasscharters.org!

online and home study learning programs authorized by Mountain Empire USD for scholars in grades TK-12 who reside in San Diego County and its adjacent counties, and wish to pursue high-quality, rigorous instructional programs via virtual learning.

In our Online Learning Program, our scholars use Accelerate Education as their curriculum. They are assigned a credentialed ST who acts as the Teacher of Record and supports the scholar by providing both synchronous and asynchronous instruction to personalize scholar learning. Scholars enrolled in the Online Learning Program participate in learning labs each day where they interact with their teachers and peers. During these labs, scholars participate in research-based instructional activities designed by the teacher to engage in their learning. Our independent study model provides flexibility with scholar schedules, so each learning lab is recorded for scholars to view if they cannot attend live. The Online Learning Program teachers also provide Q&A office hours, small group instruction, and one on one sessions to further support scholars. Further, the Online supervising teachers (STs) meet monthly in a connection meeting with scholars and learning coaches to review scholar progress, provide an opportunity for scholars to showcase their learning, and address learning coach and/or scholar concerns.

In our Options Learning Program, the learning coach is the primary instructor for their scholars and commits to providing a well-rounded education for their child. They are assigned an ST who acts as the teacher of record and is there to support and guide the learning coach with curricular options, order requests, and academic guidance. Options supervising teachers offer live homeroom instruction covering enrichment activities, social-emotional learning, and core subjects. They also meet at least once a month with the learning coach for a connection meeting, to review their personalized learning plans, the scholar’s submitted body of work, the

progression of grade-level standards, and address any questions the learning coach may have. Scholars also use this time to showcase their knowledge and any projects they have been working on. Compass provides additional support for scholars through our Counseling Services and Academic Support Departments.

Mission Statement

Our mission is to inspire and develop innovative, creative, self-directed learners, one scholar at a time.

Vision Statement

Our vision is to create a collaborative virtual learning community, inspiring scholars to appreciate the ways in which arts and sciences nurture a curiosity for lifelong learning, and prepare scholars to take responsibility for their future success.

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned to based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

Note: Where it was the most viable option, in 2020–21, LEAs were required to administer the statewide summative assessment in ELA and mathematics and where a statewide summative assessment was not the most viable option for the LEA, LEAs were permitted to report results from a different assessment that meets the criteria established by the California State Board of Education on March 16, 2021. The 2020–21 data cells for the school, district, state have N/A values because these data are not comparable to 2021–22 data.

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students

by Student Group

who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Use this space to provide information about Career Technical Education (CTE) programs as follows:

- A list of programs offered by the school district in which pupils at the school may participate and that are aligned to the model curriculum standards adopted pursuant to Education Code Section 51226; and
- A list of program sequences offered by the school district. The list should identify courses conducted by a regional occupational center or program, and those conducted directly by the school district; and
- A listing of the primary representative of the district's CTE advisory committee and the industries represented on the committee.

Compass offered individual career technical education electives across several industry sectors. These electives were offered to scholars in grades 9 through 12 to support the acquisition of knowledge and exploration in potential career pathways. Scholars wishing to advance in identified pathways are supported through concurrent enrollment at their local community college to continue their education and skill development.

School Facility Good Repair Status

Pupil Outcomes

Learn more about some of these opportunities below:

Parent Advisory Council (PAC)

The PAC serves to provide learning coach feedback on school policies and procedures at Compass to ensure that they are consistent with our mission, vision, and values. Members act as a committed group of advisors to the staff and administration, regarding issues that affect the scholars and Compass. They provide feedback and insight from the learning coach’s perspective on the school process, policies, and initiatives to ensure that the needs of learning coaches and their families are included as decisions are made. They also serve as an advisory, not a decision-making body, that makes recommendations, encourages brainstorming, and provides opportunities for parent involvement on committees.

Virtual Suggestion Box

There is a Virtual Suggestion Box for learning coaches, located on the homepage of our website. The link is also shared in our weekly Monday Morning Update (MMU) to families and during Parent Town Halls. Suggestions to enhance and expand the Compass Experience are shared and discussed with our PAC, Cabinet, and Staff Advisory Committee on a regular basis.

Program Orientation & Weeks of Welcome

Weeks of Welcome are a programmed set of offerings to onboard new and returning families at the start of the school year. Sessions are held virtually and include topics such as

program orientations, department open houses, and social hours. For those families who are unable to attend, the session slides and recordings are shared and available as a resource throughout the school year. There is also a mid-year refresher series of offerings called Mini-WOW for learning coaches as they embark on the second semester of the school year.

Program Orientations are held virtually as part of our Weeks of Welcome offerings as well as held weekly for families that enroll during the school year. In these sessions, program specific staff welcome families and scholars to Compass, introduce the position of the supervising teacher, overview staff teams, and highlight important news and information for the school year. For those families who are unable to attend, the session slides and recordings are shared and available as a resource throughout the school year.

Coffee with Compass

The Superintendent & CEO hosts Coffee with Compass once a month whereby all stakeholders are invited to virtual coffee to discuss school and non-school related topics to connect with other Compass families and staff. While these have been in person previously, they are now held virtually due to the COVID-19 pandemic.

Learning Coach Surveys

Surveys are sent to Compass stakeholders through the PAC. The results from this survey are reviewed by the PAC and Leadership Team and provide stakeholder feedback for continued program improvement.

Learning Coach Academy is a virtual offering designed to provide relevant and meaningful training along with a collaborative community of learning coaches. Learning coaches are able to attend live sessions every week that alternate between topic focused sessions and social sessions. Learning coaches that complete 10 Academy Sessions are provided certificates to acknowledge the time and effort put forth to complete the requirements of the Learning Coach Academy. Topics covered in Learning Coach Academy include Learning Coach responsibilities, ClassLink, tips for personalizing education, staying organized, SMART goals, and more.

Data collected between July through June, each full school year respectively

Note: The 2019–20 suspensions and expulsions rate data are not comparable to other year data because the 2019–20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019–20 school year compared to other school years.

Note: Data collected during the 2020–21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

Policy Manual. For the 2022-2023 school year, Compass implemented a Safety Committee that gathered the feedback of various educational partners as well as local fire, police, and first responders. The document includes 12 parts containing pertinent information to support and ensure the safety of scholars and staff. The following safety procedures are addressed:

- Child abuse reporting
- Routine and natural disasters
- Suspension/expulsion policies
- Dangerous pupils
- Discrimination and harassment
- Ingress and egress
- Orderly learning environment
- Tactical response to criminal incidents
