CCS is a virtual independent study charter school serving grades TK-12. In 2012, CCS began with a small team of educators in Southern California committed to providing a safe, family-centered alternative to the traditional brick and mortar school for scholars throughout the state. While CCS has evolved over the years, the desire to provide excellent educational options has remained strong with our online and homeschool programs. Over the past five years, we have educated the highly gifted, the bullied, the athlete, the actor, the academically-challenged, the chronically ill, and many other scholars who sought a personalized educational experience outside traditional classroom walls.

“CCS is excited to host our first Family Fun Day in San Diego this year,” said J.J. Lewis, CCS President & CEO. “We are truly passionate about creating a strong sense of community and this free, local event is sure to do just that for families in and around the San Diego area. Our staff is looking forward to meeting families and spending the afternoon with them. I am grateful that several local, family-friendly businesses have agreed to attend Family Fun Day and I am truly looking forward to meeting families at this exciting community event.”

CCS believes that a well-connected community is an essential part of successful learning for scholars and their families and continues to organize community-focused events in order to play a leading role in San Diego’s public school community.
