

Part Two:

1. Please outline your experience working with a board and professional staff structure on prior boards.
 - a. My passion is working with people and making a difference in their lives. I have over 20 years of experience in the education sector, providing expertise in out-of-school time, interacting and making a difference in the lives of many students, parents, teachers, and administrators. I am currently the Deputy Director for the California Teaching Fellows Foundation, a non-profit organization that serves over 230 schools and 30,000 students on a daily basis. In this capacity, I oversee the programming structure and implement continuous improvement processes to ensure high-quality programs for the many school districts served. Additionally, I have experience in bringing together partners from the community to deliver high-quality educational programs, especially in schools that serve minority and low-income students. As a board member, I tend to bring a perspective on how to bridge different opinions and varied ideas. My talent to predict how people understand and react to me, as well as my ability to handle conflict will enhance the Compass Charter Schools board when dealing with difficult topics. I believe in working as a team, and I am a person that clarifies tasks - harnessing everyone's strengths to reach our collective goals.
