1. Using *days cash on hand* for the measure on KPI's is a better measure than what was being considered previously. This measure better matches what is being looked at instead of an arbitrary number.
2. ESSER funds have been finalized with no further considerations.
3. Almost \$900k receivable from the District, which will offset the cost of the parking lot and leave days cash on hand where it is at the moment.

4. Update to the parking lot: Concrete was poured, asphalt will be poured next week to be fully completed in August. Budget is on track, expected to be in the \$900k, will save on some of the contingency, get back the 2 escalations of weather and asphalt.
