B. Staff Report: Athletics

Dave Logan presented an update on athletics and the activities busing pilot:

- 175 middle school and high school students participated in fall sports
- 21 student athletes are participating at different district high schools in tennis, golf, football, and flag football
- The Finance Committee was involved in busing discussions. Plans are preliminary, as the school needs further study and documentation. Meetings were held with local and national charter busing services. Charter buses work in 5-8 hour windows; we need at least 8 hours to provide transportation to and from games. District prices are also expensive, and we only have limited access - mostly only on Saturdays.
- The pilot program will operate for high school basketball season and spring sports with the potential to expand if things go well. The threshold for providing a bus is currently for games that are at least 30 miles from the school. The shortest trip in the upcoming basketball schedule would cost \$1,200-\$1,500, totaling about \$10,000 for basketball season and \$20,000 for the school year with current plans. The pilot program will be reevaluated throughout season as several logistical issues will need to be considered.

C. Staff Report: IT and Data Access

Stargate email accounts are given to all employees, including coaches. The school can have as many emails as determined to be necessary. Our account has a finite amount of space in Google.

With CORA requests, if committee and community members are given emails, then we have to produce those records.

Inactive accounts are disabled, not deleted. If deleted, all data is also deleted.

A recent audit of the Board drive was completed to ensure only Board members have access.

Discussed potential liability for giving committee members Stargate email accounts.

Discussed possibility of liaison and committee chair using a shared account.

Discussed concern about committee members using Stargate email to communicate outside of their scopes.

In absence of school policies, we defer to Adams 12 policy.

Suggested creating committee emails with a shared password versus creating individual accounts for committee chairs.
