II. Education Committee

A. K - 8 Principal Update

Kurt Davidson prepared his K - 8 Principal presentation. The school is tracking multiple metrics around success. The school is steady with participation and attendance. Approximately 75% of students are attending 100% of live zoom sessions during the week; average daily attendance is at 86%. 10% of scholars are on a "red flag" list where additional supports are needed for scholars and families.

In terms of hiring and retention, Kurt shared scholar and parent data around online learning is positive; teachers are reporting similarly positive feelings about support, preparation, and more.

Finally, Kurt provided an update regarding summer school plans.

T. Bryan made a motion to approve the three candidates (Brittney Becerra, Ciara Leonard, and Emmanuel Raudales).

A. Bothner seconded the motion.

The board **VOTED** unanimously to approve the motion.

B. 9 - 11 Principal Update

Tyra Williams presented her 9 - 11 Principal report. The CPA has been trending at 70 - 75% of scholars who are actively attending Zoom sessions. There has been a dip. The school has been putting a number of supports in place for scholars in need and their families. Tyra described her leadership team and how they are dividing responsibilities to speak to individual scholars and their families and why this time is so critical in their educational career.

Last month, virtual Interim Assessments were administered. These were Regents based. The results were strong. In terms of reliability and validity the school hopes these are a good indication of how scholars would perform on the Regents exams.

The class with the lowest pass rate is the project-based Algebra class. These are struggling scholars. The school is dedicated to ensuring all scholars have what they need. Scholars are participating in small group sessions for additional support. All teachers offer these groups on Mondays, Wednesdays, and Fridays.

The school will host a virtual summer school this summer, Monday through Thursday.

C. Education Committee Report

Ellen Chen provided an update on behalf of the Education Committee. The team continues to do a great job collecting and recording as much data as possible during this time. As we continue on this path data will change and shift. Much of this has to do with how we analyze month by month. We are working towards inputting all the COVID-19 data into the data dashboard.

III. LHA Updates

A. Enrollment Update

Melissa Alston provided an update regarding scholar enrollment for 20 - 21. Things are progressing as expected. 51 Kindergarten scholars are enrolled and registered; three more are needed to hit the budget number of 54. There is a robust wait list. Intent to return processes are underway. This helps to inform numbers to open up seats for, particularly in 9th grade. There are currently eight confirmed eighth graders who will not be returning for 9th grade. There is also one second grader leaving.

Lottery preferences for scholars with IEPs and scholars who may be English Language Learners are being accounted for. The school will continue to make progress towards meeting the DOE's goals around these subpopulations.

The team is currently ahead of schedule.

There have been many updates to the program in the recent weeks. There will be a further update available on June 1. Categories for use include areas such as payroll, mortgage interest, utilities, and more. The treasury announced there will be a good faith stipulation for those organizations accepting less than 2 million which MetLCS falls under.
