- College acceptance rates-There continues to be a hold on many cuny schools so many students are still waiting to hear back. This month we are about 2/3 of college applications completed.
- Plans of financial aid assistance- K. Davidson and K. Webb are working with the scholars to find extra help for aid.

E. Chen asked if we have a part of the budget for financial aid help? S. Pressley said that we have covered the SAT fees and maybe a first year scholarship for scholars. M. Russell would like to fundraise for next year. About 97% of scholars have filled out their financial aid, now we need to support them on other scholarships.

Under 50% of our K-8 have opted in to Hybrid instruction. The school is offering 4 days in person for scholars who are struggling. Many scholars are taking up on that offer. The High school have a 30% rate on hybrid instruction.

K. Davidson shared that on Friday March 19th, he shared with the staff about test prepping. The week after spring break the school will have an ELA mock test and the goal is to have 100% of scholars come in and take the exam. The team has really developed a comprehensive plan to get the scholars in the building. E. Chen asked "what happens to scholars that opt out of the exam?" 98-99% of the families will be taking the exam. K. Davidson and A. John-Shiman have been working on a safety plan to make sure all scholars are safe in the building. S. Pressley also asked "if the state gave a number on how many scholars have to take the exam?" Also, will the test results have to be presented especially since our renewal will be coming up." K. Davidson said that he spoke with D. Pasek and he shared that testing results can be used as an asset if we do well but that state said that it will not count.

A. Bothner asked if there's any updates in the data dashboard? K. Davidson said that next month we will be able to see all the test data. This month only the attendance updates are up.

C. Operations Health Dashboard

M. Alston will be sharing the staff retention data and the next steps as leaders to dive into that. The next thing is this month the operations data will be presented differently this month. M. Alston will be presenting her data on as a dashboard. No big changes are going to be provided this month except for a compliance report that is due in the next few months. For academic updates working on smaller projects like library audit for the classrooms.

The Nuasin name has been approved. The data migration will be coming soon, changing emails and new data transfers.

Talent Acquisition and Marketing updates:

- Posted positions for the new school year
- Resume Updates

K. Perez will give the monthly enrollment numbers and facilities updates. There are no new updates from last months facilities update.

A. Bothner asked how does M. Alston feel about the staff retention data and how does it compare to last years? M. Alston shared that Lighthouse was in charge of that last year. Overall, there were a couple of surprises but staff members are pretty honest and we want to ensure that everyone gets what they deserve. M. Alston also stated that they have plans already in place for some staff members that have said they are undecided. M. Russell also shared that he will also be adding certainty to the uncertain staff member as well as K. Davidson and M. Alston.

E. Chen asked if compensation is a conversation to have soon to bring in new strong staff members. M. Alston shared that they have reassessed all staff members resumes looking at the experience piece to ensure that we are still competitive and also fair.
