## II. Education

### A. Kurt: attendance overview for school opening with data; team called every family who were not present in person -> increased attendance average 10 pupil.

Malik suggested to break out of the grades, and to keep providing this moving forward. Anuj asked how are attendance being viewed during renewal. Dan: round 2 Covid visit may not be the same as round 1; more importantly, how did we respond to Covid (Sep 21 visit), and what does NNG look like post Covid.

### B. NNG Brand

Dan:

Brand Basics: pay close attention to what the authorizers say about the charter. When the results are similar from the district, as we are, we need to present how we are different. Many schools have brand as success; cannot just be different.

Malik: Brand options - college readiness, culturally responsive and representation throughout learning; student centric and community focused - rigor, self advocacy, and community

Measurements for college readiness:

Dan: from regular HS to college readiness - authorizers will want the school to prove it.

Adjusting the literal schedule when they enter CPA (start with this freshman class) - regents; cultural mindset of how to get staff to encourage pupils to take specific tests and courses

Malik: our org chart will also look like college readiness program; starting with the CPA  
Anuj suggests when bringing this to the board, define rigor.

Malik:

Dan: when faced with the question "what's the point of doing this?"

When to start scheduling transformation? Malik: start with CPA, complete re-do will take time - and ready for fall semester

IEPs - strong theory and qualified people are the focus
