Mission

At Nuasin Next Generation, we believe in the unlimited talent and intellectual potential of our scholars and our community. We cultivate this talent and intellectual potential through a progressive education that focuses on deep exploration, thoughtful questioning, relentless curiosity and critical thinking. Nuasin Next Generation Charter School implements a progressive K-12 educational program and an unyielding commitment to cultivating our scholars' innate intellectual talents to empower our graduates to achieve excellence in their postsecondary paths and make positive impacts on the broader community. Every single one of our scholars have the potential to be great and change the world, at Nuasin Next Generation we prepare our scholars for that opportunity.

3 Pillars

The Mission of Nuasin Next Generation stands firmly on the foundation of our three pillars: Rigor, Self-Advocacy, and Community. These three pillars are the guiding principles for our school and culture. Please find a deeper explanation of our pillars below.

Rigor:

We use the word "rigor" not in the stringent or inflexible sense, but in the sense of an unyielding need to challenge and push our scholars because we understand and believe in the potential,

talent, and ability of our scholars and community. We challenge our scholars to build their confidence and help them realize what they can achieve.

Self-Advocacy:

Our scholars are empowered to advocate for themselves, their families, and their communities. As our scholars come to understand that their voices are valued and needed, they learn to advocate for themselves. Our scholars are seen and valued; they understand that not only do they have the right to express their opinions, views, and perspectives, but it is their obligation to do so.

Community:

Our scholars will embrace community and understand that as a member of a community you have certain

inalienable rights, the right to be seen, the right to be heard, the right to be protected and the right to be loved and

cherished. Our scholars will also learn of their obligations. As a member of a community you have the obligation to

respect, listen, support and only want and assume the best in all others. Every member of our community must understand that they are active participants in the Nuasin community and the community goes as we go.

M. R. discussed the goals we are expecting to hit; 60% of scholars above proficiency (ELA), 90% pass rate (regents), 90% of scholars reading at least 30 minutes a night.

M. R. discussed how we should apply what we are seeing at the middle school level to the whole school. M. R. discussed the turnover and how M. A. is being proactive in their approach. Sustainable fixes need to be our answer.

M. R. discussed the path forward and next steps from now to January and onward.

M. R. discussed Staff Attendance and how health in NYC and having good plans in place to tackle call-outs.

M. R. discussed Scholar attendance; we are still not where we want to be at however this is an overall city issue. Middle School Scholars are typically the ones who suffer most

with attendance but we are not seeing that drop off as much in our scholars. HS attendance should be at 90% everyday.

Expansion Timeline; M. R. discussed a new location on Jerome Ave and that we are in a good space for it. We have one chance to get this right and we want to make sure we do it well. Draft proposal to be sent by 12.02. Discussions with the broker and landlord are in the works.

Also in math, we are shifting an eye and plan launch in January for mastery season. Plan was initially shared with staff on Dec. 9

Questions: A. B. spoke on how K- how would you characterize where you were to where you are now and what is your plan for the next six months?

Continual growth needs to be done in several different ways, especially in pedagogy and leadership. M. R. shared the book that K. R. recommended. M.R. mentioned the importance speaking and fluent speech and the importance of decoding. The places that we don't think we need are the places we look to look into the most. If our goal is to create great culture then we need to look into it and reflect and implement it. When we think it is going well, that is when we need to look even more closely into what we are doing because that is when we overstep lines. M. R. stated that we need to be deliberate.
