#### Mission

At Nuasin Next Generation, we believe in the unlimited talent and intellectual potential of our scholars and our community. We cultivate this talent and intellectual potential through a progressive education that focuses on deep exploration, thoughtful questioning, relentless curiosity and critical thinking. Nuasin Next Generation Charter School implements a progressive K-12 educational program and an unyielding commitment to cultivating our scholars' innate intellectual talents to empower our graduates to achieve excellence in their postsecondary paths and make positive impacts on the broader community. Every single one of our scholars have the potential to be great and change the world, at Nuasin Next Generation we prepare our scholars for that opportunity.

#### 3 Pillars

The Mission of Nuasin Next Generation stands firmly on the foundation of our three pillars: Rigor, Self-Advocacy, and Community. These three pillars are the guiding principles for our school and culture. Please find a deeper explanation of our pillars below.

#### Rigor:

We use the word "rigor" not in the stringent or inflexible sense, but in the sense of an unyielding need to challenge and push our scholars because we understand and believe in the potential,

talent, and ability of our scholars and community. We challenge our scholars to build their confidence and help them realize what they can achieve.

**Self-Advocacy:**

Our scholars are empowered to advocate for themselves, their families, and their communities. As our scholars come to understand that their voices are valued and needed, they learn to advocate for themselves. Our scholars are seen and valued; they understand that not only do they have the right to express their opinions, views, and perspectives, but it is their obligation to do so.

**Community:**

Our scholars will embrace community and understand that as a member of a community you have certain inalienable rights, the right to be seen, the right to be heard, the right to be protected and the right to be loved and cherished. Our scholars will also learn of their obligations. As a member of a community you have the obligation to respect, listen, support and only want and assume the best in all others. Every member of our community must understand that they are active participants in the Nuasin community and the community goes as we go.

## **A. Executive Director Update**

MR opens up with the journey and joyous excellence. Reminds everyone to enjoy our journey. Discusses our PD's and the different spaces we are in. Priority areas are always part of the focus within the pillars. We focus on differentiation, ICT model for K-12. Understanding where every child is to support them. Assessments are not only used to see but to support each scholar. Writing is an important and part of our focus for all scholars. Family engagement is our last important focus. Our brand, removing all obstacles and excellence is our only option. We are mindful about each grade level in determining their needs in each space. We have specialized grade team leads, to increase parent engagement. MR encourages board members to attend the family engagement events. We are engaging Perkman Eastman.

AB reminds everyone about the new structure process and discusses how we will move forward with this new process.

MR reports that we have screened 3 applicants, have had over 100 applicants. MR has a meeting with a contact that runs the charitable donations for Goldman Sachs. MR has also taken the initiative to reach out to his contact at NBA to do the same. Encourages the board members to do the same, reminds everyone to retell the compelling story as a strategy to engage in conversations with contacts.

AB requests a script or sample for Board Members to use with their contacts. MR responds that he will provide something but reminds everyone to "be natural". Asks for those that are not comfortable to just facilitate the introduction to him, encouraging everyone to participate in every level. AB appreciates the sample script and reminds everyone that this is about telling our story and having people invest in us.

MR responds that it is useful to find a connection to everyday life and what we do for our school.

Discusses the major transition during 2020 to the present. He reminds that job has never been a challenge for our scholars. Our baseline for passing was very low in comparison to today's numbers. Discusses how our name is mentioned with other schools and we strive to be on top. He discusses how the difference in teaching methods are changing the quality of our scholars. Recalls different scholars, their personal story of struggle and success. MR brings up how many teachers are laser focused on building relationships and this is creating the joyous excellence. Developing our staff, having them experience success with their scholars also drives our organizational retention. Different organizations are taking notice in our programs. We are piloting a program for a PD we participated in HIVE, they will be filming in October and performing a case study. MR responds that the partners are using us to market their product. Their products are impacting our scholars and creating joyous excellence. TFA partnership is driving our retention and brings great marketing value.
