B. Record Attendance and Guests Shawnna Lawson

C. Public Comment Discuss Lori Butler 15 m

Board meetings are meetings of the Board of Directors and will be held in a civil, orderly and

respectful manner. All public comments or questions should be addressed to the Board through the Chair of the Board. To ensure an orderly meeting and an equal opportunity for each speaker, persons wishing to address the Board must request a speaking slot via email. Please email Matt Brown, Chief Operating Officer of TEACH Public Schools at mbrown@teachps.org if you wish to address the Board. The email must contain speaker name, contact number or email, and subject matter and be submitted to the COO or Superintendent prior to the start of the meeting.

Members of the public may address the Board on any matter within the Board's jurisdiction and have three (3) minutes each to do so. The total time for each subject will be fifteen (15) minutes, unless additional time is requested by a Board Member and approved by the Board. The Board may not deliberate or take action on items that are not on the agenda. However, the Board may give direction to staff following a presentation.

The Chair is in charge of the meeting and will maintain order, set the time limits for the speakers and the subject matter, and will have the prerogative to remove any person who is disruptive of the Board meeting. The Board of Directors may place limitations on the total time to be devoted to each topic if it finds that the numbers of speakers would impede the Board's ability to conduct its business in a timely manner. The Board of Directors may also allow for additional public comment and questions after reports and presentations if it deems necessary.

II. CONSENT ITEMS 6:19 PM

A. Consent Items Vote Lori Butler 3 m

Consent Items - Items under Consent Items will be voted on in one motion unless a member of the Board requests that an item be removed and voted on separately, in which case the Board Chair will determine when it will be called and considered for action. Due to the set-up of BoardOnTrack, approval of any board meeting minutes will be done through consent and listed as items B-Z (as needed) under "Consent Items".

FINANCE	Jun-01	Executive School Leadership Review Evaluation – The board of directors is responsible for hiring and establishing the compensation (salary and benefits) of the executive director by identifying compensation that is "reasonable and not excessive". The board conducting the review should document who was involved and the process used to conduct the review, as well as the disposition of the full board's decision to approve the executive director's compensation (minutes of a meeting are fine for this). The documentation should demonstrate that the board took the comparable data into consideration when it approved the compensation. Late applications will NOT be accepted.  The SB740 Program is intended to provide grants to charter schools to assist with facilities' rent and lease costs associated with the school. FINANCE	Jun-15	Submit Charter Schools Annual Information Survey - The Charter Schools Annual Information Survey has 5 sections: location and school contact information, authorizing agency, site, curriculum and governance information, facilities, retirement and services information, and funding. The funding selection impacts how your school receives revenue payments. All charter schools must be either directly or locally funded. For example: LCFF apportionment funds for a locally funded charter school flow through its local chartering authority whereas funds for a direct funded charter school may flow directly to the county treasurer and then to the charter school. However, the funding type decision may impact the amount of other state and federal funds that a charter school receives, outside the LCFF. This decision may be reconsidered on an annual basis. Executive Order N-56-20 requires that all LEAs complete a written report to explain the changes to program offerings that the LEA has made in response to school closures to address the COVID-19 emergency, the major impacts of such closures on students and families, and a description of how the LEA is meeting the needs of its unduplicated students.  The California Department of Education (CDE) is currently developing a COVID-19 Written Report form that may be used for this purpose. TEACH Tech Charter High School	Dr. Monique Woodley Principal	mwoodley@teachps.org 323-872-0707	June 17, 2020

Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of the changes your LEA has put in place. LEAs are strongly encouraged to provide descriptions that do not exceed 300 words.

Provide an overview explaining the changes to program offerings that the LEA has made in response to school closures to address the COVID-19 emergency and the major impacts of the closures on students and families.

EACH Tech is still offering high quality instruction as a result of the COVID-19 closure. Many of our 9th and 10th grade students did not have computer access and wifi to access our distance learning platform. However, we distributed 138 loaner computers to families in need. We have also maintained communication with 97% of our families.

Our professional development has continued during the school closures once per week via Zoom. We have 100% teacher attendance and participation, and our instructional coach leads these meetings. The topics address pedagogy that is relevant to distance learning and technology that supports it. We have also addressed social and emotional learning needs, which we included as a priority during this time. A complete list of the professional development topics are shown below.

Provide a description of how the LEA is meeting the needs of its English learners, foster youth and low-income students.

Our largest areas of concern for EL's, foster and low-income students has been their access to laptops and wifi. We quickly spring into action by providing students with laptops to access their online curriculum. We also referred parents to the free Wifi services that were available to them.

Our EL teacher held multiple Zoom classes per week to check in with students and continue to sharpen their language skills. Our EL teacher will also hold summer school classes for EL beginning EL students to continue their learning.

Our counselor also holds weekly Zoom meetings with students to work with foster and low-income students that are experiencing trauma or depression during this time.

Provide a description of the steps that have been taken by the LEA to continue delivering high-quality distance learning opportunities.

TEACH Tech has distributed the following distance learning flyer on our school website, on Facebook and Instagram, teacher Google Classrooms and Parent Square. The general questions number at the bottom of the flyer is Dr. Woodley's direct cell phone number and Mr. Ramirez our Parent Liason's cell phone number.

We have distributed 138 laptops to families in need. We will continue to distribute laptops per family need.

We are currently using the following Digital Platforms: Google Classroom, Zoom, TEACH Website and PowerSchool to instruct students.

We are communicating with parents on a regular basis via, Parent Square and personal phone calls, social media and our school website. Our school website is our newest addition to our mode of communication https://tech.teachpublicschools.org/ In an effort of transparency, teachers have added their weekly digital agendas and assignments for public review. Here is a sample teacher digital plan. Our Instructional Coach is reviewing all teacher lesson plans and digital agendas as well as providing professional development for distance learning. Our assistant principal is joining Zoom meetings and supporting student behavior and learning.

We are also tracking students' participation (in assignments and Zoom) on a school-wide spreadsheet weekly. The first week we had the following student participation: 9th Grade: 52%, 10th Grade: 59%, 11th Grade: 19%, 12th Grade 22%. All of our teachers and office staff continue to actively seek contact with any students who have not yet checked in with them.

Provide a description of the steps that have been taken by the LEA to provide school meals while maintaining social distancing practices.

TEACH provided Grab-and-Go food service for our 3 schools centralized at its 10045 S. Western Ave. site starting March 18, 2020, including during TEACH's spring break through June 12, 2020. TEACH offered 750 meals a day for our community and it has been very successful through different forms of communication (ParentSquare, Facebook/Instagram, phone blasts, etc.).

Provide a description of the steps that have been taken by the LEA to arrange for supervision of students during ordinary school hours.

TEACH Public Schools contacted the Department of Social Services EL Segundo Regional Office for guidance on the Emergency Childcare Waiver Option 1 & 2. Option 1 involves using school sites as pop up child care programs. Option 2 allows for LEA's to partner with local resources and referral agencies to connect families with care, and provide families with a list of programs that remain open. Ultimately, TEACH was unable to get sufficient guidance and support to develop on site pop up childcare. The Department of Social Services did provide weblinks for connecting families with childcare. We posted these weblinks on the TEACH website and provided directions to TEACH families on how to access.

Students have been assigned varying instructional sessions through Google Classroom and accomplished virtually through Zoom, Hangouts and other platforms at the classroom teacher's discretion, with the emphasis on what works best for their students. The classroom sessions and teacher office hours are closely regulated by teachers and administration. Students are required to wear their uniforms when on Zoom, etc. for class and appropriate behavior is required at all times, as it would be in a traditional classroom setting.

#### Go Guardian

TEACH uses Go Guardian as an essential tool in monitoring student focus and behavior while online. Any inappropriate activity conducted by a student using a TEACH issued laptop is flagged by the Go Guardian software and generates an email that goes to directly to school administration. Parents are contacted immediately, and any further inappropriate activity receives progressive disciplinary steps as outlined in our school-

wide discipline policies.

#### Teachers report misbehavior

Any inappropriate behavior that occurs during any aspect of distance learning; emails, zoom, posted assignments, chat threads, is reported to administration directly by the classroom teacher, and is logged as a behavior incident in our school information system (PowerSchool). If the unwanted behavior isn't corrected, or continues, the progressive steps of our school wide discipline policies are engaged.

#### Monitor Zoom classrooms

The academic effectiveness and appropriateness of all Zoom classrooms at TEACH are closely monitored by administration, classroom teachers, instructional aides and other support staff.

Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of the changes your LEA has put in place. LEAs are strongly encouraged to provide descriptions that do not exceed 300 words.

Provide an overview explaining the changes to program offerings that the LEA has made in response to school closures to address the COVID-19 emergency and the major impacts of the closures on students and families.

Since the school closure due to COVID 19, TEACH Preparatory Elementary School has implemented the following steps: 1. We notified parents of school closing doors for not meeting in person via Parent Square as well as through paper notification. 2. Teachers created standards based 2 week packets to be picked up between Monday- Thursday from 9am-12pm. We had a sign in table with workbook packets and a box with classroom labels to return finished works. Families were informed via Parent Square as well as through phone calls reminding them when packets were ready for pick up and for them to hand in assignments as students finished. 2. Chromebooks were passed out to all the 2nd grade students as well as for our Resource students who needed Chromebook to make sure their services were met by our providers. Our providers contacted our parents to schedule set times to have their services met.

Provide a description of how the LEA is meeting the needs of its English learners, foster youth and low-income students.

Students who needed access to technology was provided with a Chromebook if families did not have technology at home. For our English Learners student work was explained individually by teacher, accommodations were made if needed, and ELA Coordinator attended zoom meetings with teachers and held separate lessons on zooms on scheduled times to meet student needs.

Provide a description of the steps that have been taken by the LEA to continue delivering high-quality distance learning opportunities.

1. Standards based packets were created by teachers and provided for parents to pick up at school every two weeks from Monday-Thursdays. Packets were accommodated and modified for those students who needed extra support and extra work at higher grade level were provided for students who were advanced to work on on top of their given classwork. 2. Students in 2nd grade were provided with Chromebook and any resource students who needed a Chromebook for their services were also given one. Whole class as well as small group meetings were provided by classroom teachers to go over lessons as well as checking in with students each week. Teachers in each

grade had set dates and times and these were provided to all families via Parent Square. 3. Workbooks were sent home as well so students could work on assignments given and teachers would log into zoom to go over lessons as whole class, small groups, or individually to meet all student needs. 4. Teachers also created Youtube Channels so students can always check lesson taught in case they missed a Zoom Meeting. 5. Directions and QRL Codes were provided to all students to access Clever so they can work on online programs for ELA and Math at home as well. 6. Our office communication was open for parents to ask any questions or concerns from 9am-12pm Monday-Thursday each week.

Provide a description of the steps that have been taken by the LEA to provide school meals while maintaining social distancing practices.

TEACH provided Grab-and-Go food service for our 3 schools centralized at its 10045 S. Western Ave. site starting March 18, 2020, including during TEACH's spring break through June 12, 2020. TEACH offered 750 meals a day for our community and it has been very successful through different forms of communication (ParentSquare, Facebook/Instagram, phone blasts, etc.).

Provide a description of the steps that have been taken by the LEA to arrange for supervision of students during ordinary school hours.

TEACH Public Schools contacted the Department of Social Services EL Segundo Regional Office for guidance on the Emergency Childcare Waiver Option 1 & 2. Option 1 involves using school sites as pop up child care programs. Option 2 allows for LEA's to partner with local resources and referral agencies to connect families with care, and provide families with a list of programs that remain open. Provide an overview explaining the changes to program offerings that the LEA has made in response to school closures to address the COVID-19 emergency and the major impacts of the closures on students and families.

The school broadened its digital platform (Google Classroom) to include video conferences, pre-recorded instructional videos, expanded use of Digital Agendas linking students to increased digital resources. These resources include: No Red Ink, IXL, Common Lit, DreamBox, Eureka math, Khan Academy, Illuminate. Additionally, teachers and support staff were assigned cohorts of students for which they were responsible to provide weekly checkins for any social emotional needs student or family may have. Teachers are transforming their Digital Agendas in Google Classroom to a Weebly webpage in order to have a Digital Classroom environment. We continue to iterate on our platform to assure incorporation of UDL elements.

Provide a description of how the LEA is meeting the needs of its English learners, foster youth and low-income students.

Alongside the increase of digital resources, English learners, foster youth and low-income students are provided with opportunities for 1:1 tutoring with their teachers or the content coaches as well as the counselors and the support staff to support their completion of and mastery of work. Students without technology were provided with a school computer. Parents are provided with technical support so that they can better understand the use of the digital platforms.

Provide a description of the steps that have been taken by the LEA to continue delivering high-quality distance learning opportunities.

Each Saturday lesson plans for the following week are reviewed by the instructional coaches and feedback is given to the teachers. Each Monday the instructional coaches and the principal meet to discuss instructional experiences for the week, resources, student outcomes and next steps as informed by available data. Additionally, The counselors, the student services coordinator and the principal meet to discuss additional education support necessary based on student participation during video conferences and completion of work as it is reported. By end of week, all teachers report student participation and completion of work for follow-up by counseling department and student service coordinator. Feedback from parents and students is given to the teachers to inform digital learning iterations.

Provide a description of the steps that have been taken by the LEA to provide school meals while maintaining social distancing practices.

#### CharterSAFE Insurance and Risk Management | 2020-2021 Renewal

Dear CharterSAFE member,

For the last 15+ years, CharterSAFE has been the only nonprofit, membership organization founded by charter leaders with the sole purpose of serving California charter schools. We provide high-quality insurance coverage and risk management services to over 270 member schools representing 180,000+ students and work as partners to ensure member schools are safe and sustainable.

As a nonprofit risk pool, CharterSAFE is designed as a long-term solution that can weather difficult insurance market conditions. Based on our program size, strong financial position, and successful results from ongoing risk management efforts, we have solutions and support services that are not available to schools that purchase a stand-alone policy from a for-profit insurance company. As a member of CharterSAFE, you are not only insured, you are an owner.

Each year, in addition to helping our member schools stay safe, CharterSAFE's team diligently evaluates all of the coverage programs and negotiates with our insurance carrier partners to provide members with the best possible pricing and coverage terms. Joint Power Authorities (JPAs) like CharterSAFE harness the power of group purchasing to obtain competitive pricing. By leveraging our size, we are able to negotiate terms with dozens of leading domestic and international insurance and reinsurance companies, which no individual school or insurance broker could access through the direct market. This ongoing due diligence on member schools' behalf is a valuable benefit of your ownership.

Thank you for your continued membership in the CharterSAFE insurance and risk management program. The 2019-2020 program year is nearing an end, and the renewal process for the upcoming 2020-2021 program year is now well underway. Enclosed for your review is your 2020-2021 renewal proposal.

#### **CharterSAFE's Strategy to Maintain Stable Rates and Superior Coverage**

Across the country, and especially in California, extraordinary events like wildfires and floods, increases in litigation, large settlements, and new laws have negatively impacted the cost and availability of coverage for all schools. As a result, the insurance market forecasts a cycle in which premiums and deductibles would, and are, exponentially rising for schools.

Coupled with these rising costs, coverage is becoming more restrictive and many insurers are leaving California altogether (this is known as a "hard market" in technical insurance terms). The current insurance climate for California schools has become increasingly unfavorable as outlined below; all schools, both public and private are experiencing increases in their 2020-2021 insurance-related costs.

As a JPA, CharterSAFE is able to shift between group-purchasing and self-insuring claims. Simply put, that means that when insurance rates and terms are unfavorable, CharterSAFE is able to leverage its assets to protect our members from the full effects of the fickle for-profit insurance industry. **CharterSAFE has been able to negotiate significantly lower increases on your behalf than current industry trends in the direct insurance market.** 

That said, while CharterSAFE was able to drastically shield our members from the 300+% increases we are seeing in the direct insurance market, members should still plan for a substantial increase in insurance costs in their 2020-2021 budget. More than ever, schools need to combine their efforts and resources to successfully protect their people and assets.

With that in mind, on May 20, 2020, the CharterSAFE Board of Directors voted to join Schools Excess Liability Fund (SELF). SELF is an excess liability JPA school risk pool created in 1986 in response to an insurance crisis like the one we face today. As one of the largest school pools in California, SELF covers more than 3 million students statewide for excess liability coverage. SELF's program provides \$50M in per-occurrence excess insurance limits to member schools above an underlying \$5M in coverage. CharterSAFE's membership in SELF means members will now be afforded \$55M of liability limits at the same cost that members would have to pay for less than \$25M available in the market if not participating in SELF. These generous limits will be provided at a time when other insurance programs are reducing limits and restricting coverage.

The key drivers for insurance costs, their effects on rates and coverage, and CharterSAFE's strategy to minimize those impacts are outlined below. *Please review your renewal proposal for specific insurance costs to your organization:* 

Cost driver	Description	Effect on 2020-2021 Rates	Effect on 2020-2021 Coverage	CharterSAFE Strategy
Property Insurance Claims	Cost and availability of comprehensive property coverage continues to be negatively impacted by multiple consecutive years of catastrophic property losses due to natural disasters. This has caused dramatic increases in premiums and many insurance companies have abandoned long-standing customers, with or without a history of claims. Wildfire threats in California continue to be a grave concern for insurers and water damage claims due to inadequate maintenance and faulty repairs continue to be a problematic and expensive cost driver for schools.	Property program rates will be increasing for the 2020-2021 coverage period.	Terms will remain the same as they were in 2019-2020.  Property limits are your individual school's scheduled total insured value, based on the replacement cost of your property, up to \$100M per occurrence in 2020-2021.  This is a decrease from a maximum limit of \$150M in 2019-2020.  Wildfire claims will be subject to increased deductibles for multiple losses.	Restructured cost-sharing with our insurance company partners.  Incentivizing and supporting members to eliminate avoidable losses.

Employment Practices Liability (EPL) Claims	As the number of employment claims related to workplace discrimination, wage and hour disputes, and wrongful termination have increased, the cost of these claims has also risen. Additionally, COVID-19 has disrupted the workplace in ways that could not have been anticipated. High unemployment, large scale layoffs, and furloughs have historically and are expected to adversely impact employment-related claims.	Rates for EPL coverage were already increasing; uncertainty created by COVID-19 will likely accelerate those increases. EPL rate increases are reflected in overall liability program rates for the 2020-2021 coverage period.	For the 2020-2021 coverage period, limits will increase to \$55M per occurrence for claims of wrongful termination, discrimination, and sexual harassment. All other employment-practices related claims will have limits of \$5M per occurrence.  Members with high claims activity will be subject to higher deductibles.	Restructured cost-sharing with our insurance company partners.  HR support, consultation, and training to continue to drive down claim occurrences.  CharterSAFE's HR Certification Program provides charter school professionals with custom training to increase competency and reduce claims.

Cost unvei	Description	Rates	Coverage	Strategy
Sexual Abuse and Molestation (SAM) Claims	Unfortunately, SAM claims and the cost of claims are on the rise nationally in all youth-serving organizations. California's public schools have not been immune to this reality. Furthermore, on January 1, 2020, AB 218 went into effect extending the time limits in which survivors of childhood sexual assault, including abuse and molestation, can bring a civil claim against their perpetrator. If the assault or abuse was covered up, the victims may be entitled to up to triple the awarded damages. In addition to the psychological and reputational damage caused by these claims, California-based schools must deal with the effects of exponentially higher litigation, settlement, and award costs. As a result of these unexpected expenses, insurers are severely limiting or not offering SAM coverage in California.	SAM coverage is the most significant driver of rate increases for the 2020-2021 renewal. The increases are reflected in the overall rate increases for the liability program.	Based on current trends and the passage of AB 218, it is more vital than ever that schools are properly protected for SAM claims. This was a significant factor in the decision for CharterSAFE to join SELF (as described above).  Coverage limits will be increased from \$30M to \$55M and broad coverage terms for SAM will continue to be provided. This coverage is secured at a cost that would only purchase \$25M of coverage from the for-profit reinsurance marketplace.	CharterSAFE has developed superior resources and policies with the goal of promoting a zero-tolerance culture at all member schools.  Mandatory Sexual Abuse Training for all staff at member schools proactively mitigates exposure to SAM claims.  By joining SELF JPA CharterSAFE will provide members with limits of \$55M with no exclusion for SAM claims.

COVID-19 Pandemic	Like the pandemic itself, how insurance will ultimately respond to COVID-19 is unpredictable, Impacts to the insurance industry will likely be widespread as there is a potential for increased claims against multiple lines of insurance coverage.	N/A for 2020-2021. However, we expect rates for EPL and workers' compensation to increase in 2021-2022 and are continually monitoring potential effects on rates in future years.	Exclusions for communicable diseases will become absolute for most coverage lines.  Workers' compensation coverage for certain COVID-19 infections has been mandated by the Governor's Executive Order.	Provide members with comprehensive webinars, resources, and consultations on the Governor's Executive Order & Workers' Compensation, Hiring/Firing Best Practices, Employee Leave Policies, and the Safe Re-opening of School Campuses and Workplaces.

#### **Summary of 2020-21 Specific Coverage Changes**

- Under the Core Liability Program:
  - Higher limits of general liability coverage will be afforded to all members. As discussed above, by joining SELF,
     CharterSAFE's liability limits for the core liability program will be increased from \$30M to \$55M.
  - The Sexual Abuse Prevention Staff Training Mandate that was implemented for the 2019-2020 policy period will be revised. The mandate continues to require that staff at all member schools complete the training once every 2 years. In the 2020-2021 coverage period, members who fulfill the training requirement will maintain \$55M in coverage limits with no deductible. Members who fail to meet the requirement will also maintain \$55M in coverage limits, but each Sexual Abuse and Molestation (SAM) claim will be subject to a \$100K deductible. Proof of meeting the mandate has been revised to require members to prove that at least 90% of their employees have completed the training within 90 days of coverage renewal and a written promise that all new employees of the school will complete the training within 6 weeks of the start of their employment. Upon receiving proof of completion, CharterSAFE will endorse the member's policy certifying the member's deductible. New CharterSAFE members will have 90 days from the date of membership to meet the training requirement. This policy further strengthens CharterSAFE's commitment to keeping students safe and allows CharterSAFE to obtain and maintain broad coverage and appropriate limits to keep our members safe.
  - Employment Practices Liability (EPL) and Director's & Officers (D&O) claims will be subject to a tiered deductible schedule. Based on claims experience beginning five years prior to the inception of the period of coverage up to the date of loss, one or more claims on your loss history will increase the deductible as follows:

0 Prior Claims: \$15,000 per occurrence 1 Prior Claim: \$25,000 per occurrence 2 Prior Claims: \$50,000 per occurrence 3 or more Prior Claims: \$100,000 per occurrence

- Under the Property Program
  - The maximum limit per occurrence for property damage claims will be \$100,000,000 during the 2020-2021 coverage period. The per-occurrence limit was \$150,000,000 during the expiring coverage period.

 Damage resulting from wildfires will be subject to a tiered deductible schedule. Based on claims experience beginning five years prior to the inception of the period of coverage up to the date of loss, one or more claims on your loss history will increase the deductible as follows:

0 Prior Claims: \$1,000 per occurrence
1 Prior Claim: \$5,000 per occurrence
2 Prior Claims: \$10,000 per occurrence
3 or more Prior Claims: \$20,000 per occurrence

- Under All Coverages:
  - Claims resulting from certain high-risk activities are subject to a \$500 deductible for all lines of coverage and have been outlined in previous years' Memorandum of Coverage (MOC). Beginning with the 2020-2021 coverage period, fireworks, shooting ranges and underwater activities have been added to the list.
  - Claims from the use of trampolines, which are currently on the high-risk activities list will now be limited to \$5M in total coverage limits when the use is not in conjunction with an individualized education plan (IEP).
  - Communicable disease exclusions are being clarified, these exclusions currently exist in the CharterSAFE Memorandum of Coverage (MOC), but, based on COVID-19, the language has been amended to avoid any ambiguity.

#### **2020-2021 Rates Summary**

As a nonprofit risk pool, CharterSAFE is designed as a long-term solution that can weather difficult insurance market conditions. Unfortunately, in our current reality, the cost of coverage has increased exponentially, while the need for that coverage has never been greater. However, CharterSAFE's long-standing relationships with our insurance partners have effectively minimized the increases for our members, and we are well below the industry average rate of increase for this year which is commonly between 100%, and 300%!

The CharterSAFE Team and our broker-partner Gallagher Insurance and Risk Management have worked tirelessly and creatively to design a coverage program for the 2020-2021 program year that offers the most stable pricing possible and includes all coverage that is essential to protecting our member schools each and every day.

Expect the average 2020-2021 coverage renewal rate changes below for the CharterSAFE membership:

- Workers' compensation renewal rates, which make up approximately half of member contributions, are largely unchanged.
- The cost for property coverage is expected to increase approximately 25% due to disaster-related property damage
  including wildfires and hurricanes nationally and internationally as described above. Water damage claims due to
  faulty construction and inadequate maintenance and repairs continue to add to the cost increases.
- The largest increases will be to liability insurance rates which are expected to increase approximately 65% due
  primarily to employment practices claims, sexual abuse claims, and the passing of Assembly Bill 218, which lifts the
  statute of limitations for sexual abuse reporting with retroactive reporting provisions.

The average increase in total the cost of coverage for CharterSAFE members will be approximately 29%. Please review your renewal proposal for specific insurance costs to your organization.

As a member of CharterSAFE, you have access to no-cost resources to help mitigate your school's risk including human resources consulting, claims and risk management support, contract review, site inspections, robust online training, and a dedicated service team. Please continue to tap into these resources; **the safer each of our schools are, the lower our claims and insurance costs will be. It is a fruitful collective effort.** We are here to answer any questions you may have regarding your renewal. Thank you for your membership and partnership.

We look forward to serving you in the 2020-2021 year.

The CharterSAFE Team

#### **EXECUTIVE SUMMARY**

Spectrum Enterprise ("Spectrum"), a commercial brand of Charter Communications, Inc. is pleased to provide this response illustrating our ability to provide Teach Public Schools with broadband services. We take pride in being an innovative resource for businesses, schools and communities. Our reliable and economical service is a natural fit with your mission.

# Bring Advanced and Affordable Technology to Your Schools

Advanced communications services and computing technologies in the classroom have become vital to education. Unfortunately, today's challenging economic environment has put education and technology budgets under tremendous pressure. It is a challenge for schools to get access to technologies that help drive greater student achievements.

The Federal Government created the E-rate Program to help with the need for communications services and budgeting problems. Funded by the Universal Service Administrative Company (USAC), this program offers 20-90 percent off standard retail rates on eligible communications services to eligible schools, libraries, and their districts. Federally funded E-rate discounts have made today's technology more affordable.

# Spectrum's Solution

Since 1998, Spectrum has worked with thousands of E-rate accounts. We understand the E-rate program and how best to benefit from it. Our experience in this area will provide E-rate specialists who understand:

- rules and regulations to participate in the program
- billing and standard discounts

Technology and education have converged, and your communications needs are growing rapidly.

#### Get Powerful Services with the Financial Benefits of E-rate

Research shows that technology use is a top-five indicator of better discipline, better attendance, and increases in college enrollment. Educational organizations are leveraging E-rate by partnering with Spectrum to reduce cost and implement technology for greater student achievement. We have invested the time and effort to ensure our sales and support teams have the expertise to help you get the best services through the E-rate program.

#### Unsurpassed Expertise and Customer Support

A network of specially trained, industry experts supports Spectrum. We have around-the-clock, U.S.-based business support centers and knowledgeable, locally based technicians who are specifically trained to help with your unique needs. Our dedicated work ethic, shared knowledge, and proprietary systems allow us to ensure that the solutions we are quoting Teach Public Schools will match your specific and discrete needs.

When you collaborate with Spectrum for communications services, we assign a dedicated account team who will support your services:

- Account Executive: a dedicated, local market expert who is available for your consultation needs
- Sales Engineering: trained technical experts who customize designs based on your needs
- **E-rate Specialists:** experienced with E-rate rules and regulations and are billing and standard discounts experts
- Project Management: customer focused experts who manage your build and communicate with you every step of the way
- ► Account Manager: your point of contact; responsible for providing you with accurate billing and consultation on future growth needs
- ▶ Network Operations Center: Spectrum staff that continuously monitors the network

# Implementation Plan

Upon award of the project, Spectrum will meet with your technical staff to create the project work plan. The work plan will include an assessment of site readiness with specific recommendations based upon site visits. Spectrum will jointly prepare a project work schedule with Teach Public Schools, identifying key project milestones.

We will assign a team experienced in designing, implementing, and maintain large-scale networks to this project. We dedicate in-house project managers who will be the point of contact for the project life cycle. Our project managers understand the importance of meeting deadlines and satisfying customer expectations.

Spectrum operates with a team concept. We ensure work is crosschecked and resources are available to provide backup support, as needed, and that are knowledgeable in the processes and procedures used in this project.

Upon completion of the construction, the project will be handed off to a local Network Technician who will install the Spectrum equipment, as applicable, at each respective Teach Public Schools' site. The Network Technician will work with the Network Operations Center to verify connectivity and to provision the correct bandwidth. We will notify you once installation and testing are complete, and service is available for use.

Spectrum's implementation plan is an estimate only. Actual dates and periods may vary due to, but not limited to, inclement weather. The estimate for your service delivery is expected to be 90 days.

<sup>\*</sup> MRCs and NRCs are subject to taxes, fees and surcharges as described in Section 7(b) (Taxes, Surcharges and Fees) of Spectrum's Commercial Terms of Service.

Pricing is provided only for the sites shown in the Pricing Proposal. Pricing for additional sites which the parties may agree to add under the resulting contract shall be determined upon Spectrum's receipt of site information for the new service location, evaluation of the requested services, performance of surveys, and other site information that may be required. In the event a Service Location is under an existing contract with Spectrum, the new contract term would go into effect upon the expiration of the then-current Service term under such existing contract.

In the event a Service Location is under an existing Spectrum Service Agreement, pricing and Service(s) (if different from those currently being provided by Spectrum) proposed under this proposal are not available until the existing Order Term has been fulfilled under the terms of such existing Service Agreement and the applicable Service Order.

# CATEGORY 1: TELECOMMUNICATIONS AND WIDE AREA NETWORK (WAN) CONNECTIVITY

# **Internet Access Request**

# **Lit Fiber**

TEACH Public Schools, hereafter referred to as Applicant, is requesting proposals for Leased Lit Fiber Service. Pricing should include dedicated, consistent symmetrical bandwidth. The new service is expected to begin on July 1, 2020, which represents the expiration of the current service.

Please review Spectrum's Service Proposal for pricing, Order Term, Service Location and bandwidth information.

Spectrum shall endeavor to meet the July 1, turn-up date for Universal Service Administrative Company (USAC) funding. However, due to time constraints which are required for construction, designs, permits, and various other factors, Spectrum may not be able to meet the USAC funding date. Therefore, Spectrum encourages new customers to file for funding at the earliest availability within USAC's guidelines and obtain a Funding Commitment Decision Letter, to allow Spectrum as much time as possible to meet the July 1, turn-up date. Additionally, it may be in the best interest of Spectrum's new customers to file through USAC for temporary funding for their current provider for a period sufficient to cover Spectrum's implementation timeline. Spectrum's implementation goal is 90 to 120 days, however, upon award, a more accurate estimate will be provided once a project team has been assigned.

## Information Requested

 Bid Format: Two copies of the bid in hard copy plus one copy available electronically or via Google Drive or Dropbox with all the files of the bid electronically.

Spectrum understands and has complied.

• Contract term: TEACH is seeking to receive multi-year [1,3,5] contract options. [3 or 5 years] contracts should allow for upgrades to quoted bandwidth throughout the terms of the contract.

Please review Spectrum's Service Proposal herein for pricing, Order Term, and bandwidth information.

The Spectrum Commercial Terms of Service, including Attachments and Service Order (collectively, the "Service Agreement") which are posted to the Spectrum Enterprise website at https://enterprise.spectrum.com/legal/seterms-and-conditions.html (or any successor url), are incorporated into the response by reference and made a part thereof, shall govern the contractual relationship between the parties and the provision of the services (the "Services") under the Service Agreement. The exceptions to the RFP sections set forth herein shall apply to the parties should the Services be awarded to Spectrum.

Customer shall have the option to add Services and increase speed and bandwidth during the Order Term of the Service Agreement. Customer will notify Spectrum of its desired additional Services or increased speed and bandwidth and, provided that Spectrum is able and willing to provide the requested change in Services, Customer shall be responsible for the corresponding increase in Monthly Recurring Charges for such additional Services or increased speed and bandwidth, as well as construction and installation costs (if applicable). Customer shall not reduce Services or decrease speed and bandwidth from those set forth in the Service Agreement except as provided in the terms and conditions or as otherwise agreed to in

writing by Spectrum. Added services may be coterminous if the parties agree upon appropriate Monthly Recurring Charges and any non-recurring charges to correspond with the decreased initial term for such additional Services.

- The cost to provide Internet Access (Bandwidth). Bidder's price shall include the following:
  - The available bandwidth should be a minimum of 500 Mbps and up to 10 Gbps
  - The service hand-off shall be direct to the Owner's supplied Local Area Network.
  - Internet access availability of 24 hours, 7 days a week, 365 days a year.

Please review Spectrum's Service Proposal herein for pricing, Order Term, Service Location, and bandwidth information.

Spectrum's obligation is to provide Communications Services to the customer-accessible interface device or equipment installed by Spectrum at the Spectrum Network Demarcation Point at the Service Location. The "Demarcation Point" is the point of interconnection between the Spectrum Equipment or other facilities and the wiring at the Service Location. Additional charges may be applicable to extend the demarc for any sites identified as a Type II Service Location.

Unless otherwise set forth in an Attachment or service level agreement, Spectrum will use commercially reasonable efforts to provide the Services to Customer twenty-four (24) hours per day, seven (7) days per week. It is possible, however, that there will be interruptions of Service. The Service may be unavailable from time-to-time either for scheduled or unscheduled maintenance, technical difficulties, or for other reasons beyond Spectrum's reasonable control. Temporary service interruptions or outages for such reasons, as well as service interruptions or outages caused by Customer, its agents and employees, or by a Force Majeure Event, shall not constitute a failure by Spectrum to perform its obligations under this Service Agreement.

Include any one-time and recurring costs.

Please review Spectrum's Service Proposal herein for pricing, Order Term, and bandwidth information.

Support agreements, including response times.

Spectrum has included its SLAs as part of its response. Please review for specific information related to Spectrum's service metrics, outages, maintenance and applicable remedies.

• Timeline stating the number of days that services will be operational from the date of order.

So long as Customer properly performs all necessary site preparation and provides Spectrum with all required consents, Spectrum shall endeavor to meet the Customer's desired installation date. However, due to time constrains which are required for construction, designs, permits and various other factors, Spectrum will only commit to an estimated timeframe for delivery of Service. Spectrum's implementation goal is typically 90-120 days, however, upon award, a more accurate estimation will be provided once a project team has been assigned.

The "Initial Order Term" is the time period starting on the date the Services are functional in all material respects and available for use (the "Billing Start Date"), and continuing for the period of time specified in the Service Order(s). Upon expiration of the Initial Order Term, the applicable Service Order shall automatically renew for successive one-month terms (each a "Renewal Order Term", collectively with the Initial Order Term, the "Order Term"), unless either Spectrum or Customer elects to not renew the Service Order by notice provided to the other at least thirty (30) days in advance of the expiration of the then-current Order Term.

Upon award of the project, Spectrum will meet with your technical staff to create the project work plan. The work plan will include an assessment of site readiness with specific recommendations based upon site visits. Spectrum will jointly prepare a project work schedule with Teach Public Schools, identifying key project milestones.

We will assign a team experienced in designing, implementing, and maintain large-scale networks to this project. We dedicate in-house project managers who will be the point of contact for the project life cycle. Our project managers understand the importance of meeting deadlines and satisfying customer expectations.

Spectrum operates with a team concept. We ensure work is crosschecked and resources are available to provide backup support, as needed, and that are knowledgeable in the processes and procedures used in this project.

Upon completion of the construction, the project will be handed off to a local Network Technician who will install the Spectrum equipment, as applicable, at each respective Teach Public Schools' site. The Network Technician will work with the Network Operations Center to verify connectivity and to provision the correct bandwidth. We will notify you once installation and testing are complete, and service is available for use.

Spectrum's implementation plan is an estimate only. Actual dates and periods may vary due to, but not limited to, inclement weather. The estimate for your service delivery is expected to be 90 days.

 Provide a minimum of three (3) K-12 public school district and/or charter school organizations references within California.

Spectrum references are provided subject to obtaining the prior applicable consents from relevant references. Customer Proprietary Network Information (CPNI) considerations prohibit Spectrum from publicly disclosing customer specific service information.

#### **Instructions to Vendors General Information**

All responses shall conform to instructions provided in this Request for Proposal (RFP) document.

Spectrum understands.

## **Deadline for RFP Submittal**

Vendors must submit all required documents before the deadline (see the timeline for exact dates). All proposals shall be complete and final with no additional information required after the close of the submittal date unless specifically requested by TEACH. Responses received after the deadline will be returned unopened as not meeting the RFP requirements.

All proposals shall be firm offers subject to acceptance by TEACH and may not be withdrawn for a period of 90 calendar days following the last day to submit bids. Proposals may not be amended once submitted to TEACH, except as permitted by TEACH.

It is the sole responsibility of the person submitting the proposal to ensure that it is delivered on time.

Two (2) hard copies of the proposal and 1 electronic copy must be received by 02/07/2020 3:00 PM local time (PST) at the following address:

**TEACH Public Schools** 

Attn: Enrique Robles, Director of Operations, Data & Technology 1846 W. Imperial Hwy. Los Angeles, CA 90047 <a href="mailto:erate@teachps.org">erate@teachps.org</a>

Proposals received after the exact time and date noted will NOT be considered for the bid process.

Spectrum understands.

TEACH shall not be responsible for, nor accept as a valid excuse for a late proposal delivery, any delay in mail service, or other methods of delivery used by the proposer.

Spectrum understands.

#### **Request for Proposal Preparation Cost**

Costs for preparing responses and any other related material are the responsibility of the vendor and shall not be chargeable in any manner to

TEACH. TEACH will not be held liable for any cost incurred by vendors in responding to the RFP.

Spectrum understands.

## **Vendor Qualifications**

The vendor must be in business, providing the services requested for a minimum of three (3) years and have an office within 50 miles of Los Angeles.

Spectrum understands and complies and has an office in Cerritos California.

## Right to Reject Any and All Quotes

TEACH reserves the right to reject any or all quotation submissions and to waive any informalities or regularities. The Service Provider's quotation submission is recognition of this right.

In addition, TEACH reserves the right to fund, (proceed with project or purchase) or not to fund, regardless of E-Rate approval.

This proposal may assume a certain minimum level of acceptance of our bid. In the event only a portion of Spectrum's proposal is accepted, our offer may be affected requiring Spectrum to review any such partial acceptance before final bid acceptance.

Customer's Service Order will include the following E-rate Contingency Language:

#### **E-RATE FUNDING CONTINGENCY**

Customer may submit this Service Order and the Services Agreement to the Schools and Libraries Division of the Universal Service Administrative Company, (i.e., the entity appointed by the Federal Communications Commission to administer the Universal Service Program with respect to Schools and Libraries ("E-Rate") funding) as part of any application seeking a federal subsidy or funding.

Customer is responsible for notifying Spectrum of its election of either the Service Provider Invoice ("SPI") or Billed Entity Applicant Reimbursement ("BEAR") discount method by May 15<sup>th</sup> prior to the applicable funding year. Customer must complete and return an "E-Rate Discount Election Form" to Spectrum prior to such date, or Customer will be deemed to have chosen the BEAR discount method for the funding year.

Upon Spectrum's receipt of appropriate notice that Customer is an approved E-Rate program participant for a Service, Spectrum will invoice Customer for the Service in accordance with E-Rate guidelines and/or rules. If Spectrum invoices Customer for

a Service pursuant to any E-Rate program rates, discounts or credits in advance of receiving such notice and Customer's request for E-Rate program funding is denied, limited or reduced, Spectrum will invoice Customer and Customer will pay the difference between such invoiced amount(s) and the actual amount of the Service Charges, as described in this Service Order. Notwithstanding anything herein to the contrary, Customer's obligations under this Service Order shall remain in full force and effect in the event Customer withdraws or is removed from the E-Rate program, receives E-Rate program funding that is less than Customer's requested funding amount, or is denied E-Rate program funding for any Service described in this Service Order. For the avoidance of doubt, Customer is solely responsible for all Service Charges, as described in this Service Order, that were installed prior to the E-Rate program funding year start date.

Spectrum will provide discounts via the Service Provider Invoice (SPI) Form 474 as long as the customer has been funded through the E-rate program, in which case discounts will be applied to the billing account via credit adjustments. The District may also choose to file a form 472, the Billed Entity Applicant Reimbursement (BEAR) Form. Spectrum will only invoice Universal Service Administration Company (USAC) via SPI Form 474 once funding has been committed and the applicant has filed the form 486 and Receipt of Service Confirmation Form with USAC.

Upon award, Spectrum will make recommendations to The District to assist with the applicable paperwork.

#### **Bid Protests**

Any bidder who submitted a proposal to TEACH may file a protest if each and all of the following are complied with:

- The protest is in writing;
- The protest is filed and received by the Chief Operating Officer not more than three (3) calendar days following the date of the District's selection of the apparent lowest responsible bidder;
- The written protest sets forth, in detail, all grounds for the protest, including without limitation all facts, supporting documentation, legal authorities, and arguments in support of the grounds for the protest; any matters not outlined in the written protest shall be deemed waived. All factual contentions must be supported by competent, admissible and credible evidence.

Any protest not conforming to the foregoing shall be rejected by the District as invalid. Provided that a protest is filed in strict conformity with the foregoing, the Chief Operating Officer or such individual(s) as may be designated in his/her discretion, shall review and evaluate the basis of the protest, and shall provide a written decision to the bidder submitting the

protest concurring with or denying the protest. The District's written decision shall be final and not subject to reconsideration or appeal. No bidder shall seek judicial relief, in any form, relative to TEACH's intent to award the Contract, or the protest thereof, unless the foregoing protest procedure has been strictly and timely complied with by the bidder. The issuance of a written decision by TEACH shall be an express condition precedent to the institution of any legal proceeding relative to the proposal process, TEACH's intent to award the Contract, or TEACH's determination to reject all proposals.

Spectrum reserves the right to any remedy that it may have available in law or equity with regards to the RFP response.

## TEACH PUBLIC SCHOOLS E-RATE SUPPLEMENTAL TERMS AND CONDITIONS

## E-rate YR 23 (2020/2021) E-rate Requirements

#### E-rate Requirements

The Telecommunications Act of 1996 established a fund by which Schools and Libraries across the Country could access discounts on eligible telecommunications products and services. The program is commonly known as the E-rate Program. The eligibility for discounts on internet access, telecommunications products and services, internal connection products, services and maintenance is determined by the Federal Communications Commission (FCC). Funding is made available upon application approval by the Schools and Libraries Division (SLD) of the Universal Service Administrative Company (USAC), which was established by the Act. The amount of discount is based on the numbers of students receiving free and reduced price meals.

#### 1) E-RATE CONTINGENCY

The project herein [is/may be] contingent upon the approval of funding from the Universal Service Fund's Schools and Libraries Program, otherwise known as E-rate. Even after award of contract(s) and/or E-rate funding approval is obtained, the District may or may not proceed with the project, in whole or in part. Execution of the project, in whole or in part, is solely at the discretion of the District.

This proposal may assume a certain minimum level of acceptance of our bid. In the event only a portion of Spectrum's proposal is accepted, our offer may be affected requiring Spectrum to review any such partial acceptance before final bid acceptance.

Spectrum's applicable Service Order will include the following clause:

E-RATE FUNDING CONTINGENCY. Customer may submit this Service Order and the Agreement to the Schools and Libraries Division of the Universal Service Administrative Company, (i.e., the entity appointed by the Federal Communications Commission to administer the Universal Service Program with respect to Schools and Libraries ("E-rate") funding) as part of any application seeking a federal subsidy or funding.

Customer is responsible for notifying Spectrum of its election of either the Service Provider Invoice ("SPI") or Billed Entity Applicant Reimbursement ("BEAR") discount method by May 15th prior to the applicable funding year. Customer must complete and return an "E-rate Discount Election Form" to Spectrum prior to such

date, or Customer will be deemed to have chosen the BEAR discount method for the funding year.

Upon Spectrum's receipt of appropriate notice that Customer is an approved E-rate program participant for a Service, Spectrum will invoice Customer for the Service in accordance with E-rate guidelines and/or rules. If Spectrum invoices Customer for a Service pursuant to any E-rate program rates, discounts or credits in advance of receiving such notice and Customer's request for E-rate program funding is denied, limited or reduced, Spectrum will invoice Customer and Customer will pay the difference between such invoiced amount(s) and the actual amount of the charges for the Service as described in this Service Order. Notwithstanding anything herein to the contrary, Customer's obligations under this Service Order shall remain in full force and effect in the event Customer withdraws or is removed from the E-rate program, receives E-rate program funding that is less than Customer's requested funding amount, or is denied E-rate program funding for any Service described in this Service Order. For the avoidance of doubt, Customer is solely responsible for all charges for Services, as described in this Service Order, that were installed prior to the E-rate program funding year start date.

## 2) SERVICE PROVIDER REQUIREMENTS

The District expects Service Providers to make themselves thoroughly familiar with any rules or regulations regarding the E-rate program.

a. Service Providers are required to be in full compliance with all current requirements and future requirements issued by the SLD throughout the contractual period of any contract entered into as a result of this RFP.

Spectrum understands.

Service Providers are responsible for providing a valid SPIN (Service Provider Identification Number). More information about obtaining a SPIN may be found at this website:

http://www.usac.org/sl/service-providers/step01/default.aspx

Charter Communications Operating, LLC SPIN is 143050436.

Service Providers are responsible for providing a valid Federal Communications Commission (FCC) Registration Number (FRN) at the time the bid is submitted. More information about obtaining an FRN may be found at this website: <a href="https://fjallfoss.fcc.gov/coresWeb/publicHome.do">https://fjallfoss.fcc.gov/coresWeb/publicHome.do</a>

Charter Communications Operating, LLC FRN is 0002526580.

Service Providers are responsible for providing evidence of FCC Green Light Status at the time the bid is submitted. Any potential bidder found to be in Red Light Status must provide an explanation of the steps it is undertaking to be removed to Red Light Status and the expected timeframe for resolution. A Service Provider's sustained Red Light Status may be grounds for contract termination as it could prohibit the Service Provider from providing E-rate discounts in a timely manner which would cause harm to the Applicant. More information about FCC Red and Green Light Status may be found at this website:

http://www.fcc.gov/debtcollection/welcome.html

As displayed below, Spectrum is in good standing with the FCC.

Products and services must be delivered before billing can commence. At no time may the Service Provider invoice before July 1, 2020.

Spectrum shall endeavor to meet the July 1, turn-up date for Universal Service Administrative Company (USAC) funding. However, due to time constraints which are required for construction, designs, permits, and various other factors, Spectrum may not be able to meet the USAC funding date. Therefore, Spectrum encourages new customers to file for funding at the earliest availability within USAC's guidelines and obtain a Funding Commitment Decision Letter, to allow Spectrum as much time as possible to meet the July 1, turn-up date. Additionally, it may be in the best interest of Spectrum's new customers to file through USAC for temporary funding for their current provider for a period sufficient to cover Spectrum's implementation timeline. Spectrum's implementation goal is 90 to 120 days, however, upon award, a more accurate estimate will be provided once a project team has been assigned.

ORDER TERM. The "Initial Order Term" is the time period starting on the date the Services are functional in all material respects and available for use (the "Billing Start Date"), and continuing for the period of time specified in the Service Order(s). If no Initial Order Term is specified in a Service Order, the Initial Order Term is twelve (12) months from the Billing Start Date. Upon expiration of the Initial Order Term, the applicable Service Order shall automatically renew for successive one-month terms (each a "Renewal Order Term", collectively with the Initial Order Term, the "Order Term"), unless either Spectrum or Customer elects to not renew the Service Order by notice provided to the other at least thirty (30) days in advance of the expiration of the then-current Order Term.

Frices must be held firm for the duration of the associated E-rate Funding Year(s) or until all work associated with the project is complete (including any contract and USAC approved extensions).

The MRC shall remain firm throughout the Initial Order Term of the Agreement. The MRC and NRC does not include applicable taxes, surcharges and fees. Customer will be invoiced Service Charges in accordance with the Commercial Terms of Service attached. Spectrum will have the right to increase MRCs for each Service after the Initial Order Term for such Service upon thirty (30) days' notice to Customer.

Goods and services provided shall be clearly designated as "E-rate Eligible". Non-eligible goods and services shall be clearly called out as 100% non-eligible or shall be "cost allocated" to show the percentage of eligible costs per SLD guidelines.

Spectrum understands.

Within one (1) week of award, the awarded Service Provider must provide the District a bill of materials using a completed USAC "Item 21 Template". Subsequent schedules of values and invoices for each site must match Item 21 Attachment or subsequent service

Spectrum understands and will comply.

In the event of questions during an E-rate pre-commitment review, post-commitment review and/or audit inquiry, the awarded Service Provider is expected to reply within 3 days to questions associated with its proposal.

Spectrum understands and will comply.

The awarded Service Provider is required to send copies of all forms and invoices to the District prior to invoicing USAC for pre-approval. Failure to comply with this requirement may result in the District placing the vendor on

an "Invoice Check" with USAC: http://www.usac.org/sl/applicants/step06/invoice-check.aspx

Spectrum understands and will comply.

k. Services providers must comply with the FCC rules for Lowest Corresponding Price ("LCP"). Further details on LCP may be obtained at USAC's website: http://www.usac.org/sl/service-providers/step02/lowest-corresponding-price.aspx

Spectrum complies with all applicable USAC rules and regulations, and will invoice the District for the Services in accordance with E-rate guidelines. Spectrum complies with all LCP rules and applicable laws, ordinances, rules and regulations relating to its performance obligations specified in the Service Agreement.

#### 3) SERVICE PROVIDER ACKNOWLEDGEMENTS

a. The Service Provider acknowledges that no change in the products and/or services specified in this document will be allowed without prior written approval from the district and a USAC service substitution approval with the exception of a Global Service Substitutions.

Spectrum has the right, but not the obligation, to upgrade, modify, and enhance the Spectrum Network and the Service and take any action that Spectrum deems appropriate to protect or improve the Service and its facilities.

Change Requests. Any charges associated with Service and Spectrum Equipment or Customer Equipment installations, changes, or additions requested by Customer subsequent to executing a Service Order for the applicable Service Location are the sole financial responsibility of Customer. Spectrum shall notify Customer of any additional OTCs and/or adjustments to MRCs associated with or applicable to such Customer change requests prior to making any such change. Customer's failure to accept such additional charges within five (5) business days of receiving such notice shall be deemed a rejection by Customer, and Spectrum shall not be liable to perform any work giving rise to such charges. For accepted charges, Customer shall be assessed such additional OTCs and/or adjustments of the MRCs either (i) in advance of implementation of the change request or (ii) beginning on Customer's next and/or subsequent invoice(s).

b. The Service Provider acknowledges that all pricing and technology infrastructure information in its bid shall be considered as public and non-confidential pursuant to §54.504 (2)(i)(ii).

Spectrum agrees that its bid is not confidential, except to the extent any portion of the bid or response documents are marked as confidential and/or proprietary.

c. The Service Provider acknowledges that its offer is considered to be the lowest corresponding price pursuant to § 54.511(b). Should it not be the lowest

corresponding price, the service provider must disclose the conditions leading to the applicant being charged in excess of lowest corresponding price.

Spectrum understands.

This offer is in full compliance with USAC's Free Services Advisory. There are no free services offered that would predicate an artificial discount and preclude the applicant from paying its proportionate non-discounted share of costs. The service provider agrees to provide substantiating documentation to support this assertion should the applicant, USAC, or the FCC request it. <a href="http://www.usac.org/sl/applicants/step02/free-services-advisory.aspx">http://www.usac.org/sl/applicants/step02/free-services-advisory.aspx</a>

Spectrum understands.

## 4) STARTING SERVICES/ADVANCE INSTALLATION

e. The annual E-rate Funding Year begins on July 1 and expires on June 30 of each calendar year. Regardless of the contract "effective date", E-rate eligible goods and/or services requested in this RFP shall be delivered no earlier than the start of the 2020 funding year (July 1, 2020 for Category 1 Services and April 1, 2020 for Category 2). If Category 1 services (Telecommunication Services and Internet access) will begin on or shortly after July 1 of a funding year, the service provider, in some cases, may need to undertake some construction and installation work prior to the beginning of that funding year. Within the limitations indicated below, the infrastructure costs of a service provider can be deemed to be delivered at the same time that the associated Category 1 services begin. That is, if services begin on July 1, then the delivery of service provider infrastructure necessary for those services can be considered as also delivered on July 1.

So long as Customer properly performs all necessary site preparation and provides Spectrum with all required consents, Spectrum shall endeavor to meet the Customer's desired installation date. However, due to time constrains which are required for construction, designs, permits and various other factors, Spectrum will only commit to an estimated timeframe for delivery of Service. Spectrum's implementation goal is typically 90-120 days, however, upon award, a more accurate estimation will be provided once a project team has been assigned.

ORDER TERM. The "Initial Order Term" is the time period starting on the date the Services are functional in all material respects and available for use (the "Billing Start Date"), and continuing for the period of time specified in the Service Order(s). If no Initial Order Term is specified in a Service Order, the Initial Order Term is twelve (12) months from the Billing Start Date. Upon expiration of the Initial Order Term, the applicable Service Order shall automatically renew for successive one-month terms (each a "Renewal Order Term", collectively with the

Initial Order Term, the "Order Term"), unless either Spectrum or Customer elects to not renew the Service Order by notice provided to the other at least thirty (30) days in advance of the expiration of the then-current Order Term.

Upon award, Spectrum can negotiate optional renewal terms at rates mutually agreeable between the parties, in addition to Spectrum's standard month-to-month renewal terms.

## **EARLY FUNDING CONDITIONS**

## Category 1

There are four conditions that must be met in order for USAC to provide support in a funding year for Category 1 infrastructure costs incurred prior to that funding year.

- Initiation of installation cannot take place before selection of the service provider pursuant to a posted Form 470 and in any event no earlier than six months prior to July 1 of the funding year.
- The Category 1 service must depend on the installation of the infrastructure.
- The underlying Category 1 service cannot have a service start date prior to July 1 of the funding year.
- No invoices can be submitted to USAC for reimbursement prior to July 1 of the funding year.

For more information, please refer to the FCC Order involving the Nassau County Board of Cooperative Educational Services (DA 02-3365, released December 6, 2002). This FCC decision only applies to Priority 1 services (telecommunications services and Internet access). <a href="http://www.usac.org/res/documents/about/pdf/fcc-orders/2002-fcc-orders/DA-02-3365.pdf">http://www.usac.org/res/documents/about/pdf/fcc-orders/2002-fcc-orders/DA-02-3365.pdf</a>

The complete text can be found at the following URL: http://www.usac.org/sl/applicants/step05/installation.aspx

Spectrum understands.

## Category 2

There is one condition that allows USAC to provide support in a funding year for Category 2 installation costs incurred prior to that funding year.

 We also amend our rules for category two non-recurring services to permit applicants to seek support for category two eligible services purchased on or after April 1, three months prior to the start of funding year on July 1. This will provide schools with the flexibility to purchase equipment in preparation for

the summer recess and provide the maximum amount of time during the summer to install these critical networks.

For more information, please refer to the FCC Report and Order and Further Notice of Proposed Rulemaking (FCC 14-99, released July 23, 2014). This FCC decision only applies to Category 2 services (Internal Connections).

## 5) **INVOICING**

a. The Service Provider agrees to bill and receive a portion of the payment for the provisions of goods and services described herein directly from USAC via the Form 474 Service Provider Invoice (SPI). The District will only be responsible for paying its non-discounted share of costs and does not intend to use the BEAR process (Form 472). The maximum percentage the District will be liable for is the pre-discount amount minus the funded amount as shown on the FCC Form 471 Block 5 and any identified ineligible costs. Upon the successful receipt or posting of a Funding Commitment Decision Letter from the SLD and submission and certification of Form 486, the District shall pay only the discounted amount beginning with the billing cycle immediately following said approval. Alternatively, should the District decide that it is in the best interest of the District to file a Form 472, the District will inform the Service Provider of its intent.

Customer's Service Order will include the following E-rate Contingency Language:

#### E-RATE FUNDING CONTINGENCY

Customer may submit this Service Order and the Services Agreement to the Schools and Libraries Division of the Universal Service Administrative Company, (i.e., the entity appointed by the Federal Communications Commission to administer the Universal Service Program with respect to Schools and Libraries ("E-Rate") funding) as part of any application seeking a federal subsidy or funding.

Customer is responsible for notifying Spectrum of its election of either the Service Provider Invoice ("SPI") or Billed Entity Applicant Reimbursement ("BEAR") discount method by May 15<sup>th</sup> prior to the applicable funding year. Customer must complete and return an "E-Rate Discount Election Form" to Spectrum prior to such date, or Customer will be deemed to have chosen the BEAR discount method for the funding year.

Upon Spectrum's receipt of appropriate notice that Customer is an approved E-Rate program participant for a Service, Spectrum will invoice Customer for the

Service in accordance with E-Rate guidelines and/or rules. If Spectrum invoices Customer for a Service pursuant to any E-Rate program rates, discounts or credits in advance of receiving such notice and Customer's request for E-Rate program funding is denied, limited or reduced, Spectrum will invoice Customer and Customer will pay the difference between such invoiced amount(s) and the actual amount of the Service Charges, as described in this Service Order. Notwithstanding anything herein to the contrary, Customer's obligations under this Service Order shall remain in full force and effect in the event Customer withdraws or is removed from the E-Rate program, receives E-Rate program funding that is less than Customer's requested funding amount, or is denied E-Rate program funding for any Service described in this Service Order. For the avoidance of doubt, Customer is solely responsible for all Service Charges, as described in this Service Order, that were installed prior to the E-Rate program funding year start date.

All Service Provider invoicing to USAC must be completed within 120 days from the last day of service. Should the Service Provider fail to invoice USAC in a timely manner, the District will only be responsible for paying its nondiscounted share.

Charges. Spectrum invoices for monthly recurring charges specific to the Service(s) ("MRCs"), plus applicable taxes, fees, and surcharges, in advance on a monthly basis. Spectrum invoices for non-recurring, one-time charges ("OTCs") for construction or installation charges after the Billing Start Date or as specified in the Service Order. All other charges, including usage-based charges (e.g., phone usage, pay-per view charges), will be invoiced monthly in arrears. Service Charges are payable within thirty (30) days after the date appearing on the invoice. If Spectrum fails to present a Service Charge in a timely manner, such failure shall not constitute a waiver of the charges for the Services to which it relates, and Customer shall be responsible for and pay such Service Charges when invoiced in accordance with these payment terms. Spectrum shall have the right to increase MRCs for each Service after the Initial Order Term for such Service upon thirty (30) days' notice to Customer.

## 6) FCC/SLD AUDITABILITY

The E-rate program requires that all records be retained for at least ten (10) years from the last date of service provided on a particular funding request. Respondent hereby agrees to retain all books, records, and other documents relative to any Agreement resulting from this RFP for ten (10) years after final payment. The District, its authorized agents, and/or auditors reserves the right to perform or have performed an audit of the records of the Respondent and therefore shall have full access to and the right to examine any of said materials within a reasonable period of time during said period.

To the extent required by applicable law, Spectrum shall keep complete and accurate documents, information, and records concerning the Services provided to Customer in accordance with Spectrum's policy. As allowed by applicable law, Customer may audit such documents, information and records for the previous 12-month period not more than one time per year and Customer's audit rights shall be limited to documents, information and records pertaining to Services provided to Customer and not with respect to other customers. Audits undertaken by Customer shall be limited to Spectrum's operations only, and Spectrums confidential financial information, network systems, books, records, and accounts shall not be made available for audit. Spectrum may require Customer's auditors to sign a reasonable non-disclosure agreement. All audits shall be at Customer's expense.

## 7) PROCUREMENT OF ADDITIONAL GOODS AND/OR SERVICES/COTERMINOUS EXPIRATIONS

During the term of any Agreement resulting from this RFP, the District may elect to procure additional or like goods and/or services offered by the Respondent. Such services shall be negotiated and obtained via an official amendment to this Agreement and approval by the District's Governing Board. All terms, conditions, warranties, obligations, maintenance and support of said goods or services shall have a coterminous expiration date with the original date of this Agreement. The District shall not enter into a separate Agreement for said goods or services. Respondents must state in their proposal that they acknowledge, accept and are in agreement with coterminous expiration conditions.

Customer shall have the option to add Services and increase speed and bandwidth during the term of the Service Agreement. Customer will notify Spectrum of its desired additional Services or increased speed and bandwidth and, provided that Spectrum is able and willing to provide the requested change in Services, Customer shall be responsible for the corresponding increase in Monthly Recurring Charges for such additional Services or increased speed and bandwidth, along with construction and installation costs (if applicable). Customer shall not reduce Services or decrease speed and bandwidth from those set forth in the Service Agreement except as provided in the terms and conditions or as otherwise agreed to in writing by Spectrum. Added services may be coterminous if the parties agree upon appropriate Monthly Recurring Charges and any non-recurring charges to correspond with the decreased initial term for such additional Services.

<u>Change Requests</u>. Any charges associated with Service and Spectrum Equipment or Customer Equipment installations, changes, or additions requested by Customer subsequent to executing a Service Order for the applicable Service Location are the sole financial responsibility of Customer. Spectrum shall notify Customer of any additional OTCs and/or adjustments to MRCs associated with or applicable to such Customer change requests prior to making any such change. Customer's failure to accept such additional charges within five (5) business days of receiving such notice

shall be deemed a rejection by Customer, and Spectrum shall not be liable to perform any work giving rise to such charges. For accepted charges, Customer shall be assessed such additional OTCs and/or adjustments of the MRCs either (i) in advance of implementation of the change request or (ii) beginning on Customer's next and/or subsequent invoice(s).

The Service Agreement shall: (a) govern (i) the contractual relationship with Customer and (ii) Spectrum's provision of the Services; and (b) supersede and entirely replace any terms and conditions set forth in the RFP.

Spectrum has been able to arrive at mutually acceptable provisions with many school around the country, and we are optimistic that we could do so with Teach Public Schools.

I, the undersigned, as an authorized agent of <u>Charter Communications Operating, LLQ</u>Service Provider Name), hereby certify that I have read the E-rate Supplemental Terms and Conditions, am fully compliant and intend to cooperate with the E-rate process as outlined above.

#### FIBER INTERNET ACCESS SERVICE LEVEL AGREEMENT

This document outlines the Service Level Agreement ("SLA") for Fiber Internet Access ("FIA") fiber-based service (the "Service").

This SLA is a part of, and hereby incorporated by reference into the Spectrum Enterprise Service Agreement (including the terms and conditions, attachments, and Service Orders described therein, the "Agreement"). To the extent any provision of this SLA conflicts with the Agreement, this SLA shall control. All SLA Targets in the table below are measured from Customer's Service Location to the location where Spectrum Enterprise has local access to the Internet (the Spectrum Enterprise "Point of Presence" or "POP") at the individual circuit or service level, and any applicable credits are issued only for the affected FIA circuit or service (the "Affected Service"). Capitalized words used, but not defined herein, shall have the meanings given to them in the Agreement.

#### I. SLA Targets for FIA Services:

Service Availability	I and the second se	Latency / Frame Delay (Roundtrip)		Packet Loss / Frame Loss
End to End: 99.99%	Priority 1 Outages within 4 hours	45ms	<2ms	<0.1%

#### **II.** Priority Classification:

A "Service Disruption" is defined as an outage, disruption, or severe degradation, other than an Excluded Disruption, that interferes with the ability of a Spectrum Enterprise network hub to: (i) transmit and receive network traffic on Customer's dedicated access port at the Spectrum Enterprise network hub; or (ii) exchange network traffic with another Spectrum Enterprise network hub. The Service Disruption period begins when Customer reports a Service Disruption using Spectrum Enterprise's trouble ticketing system by contacting Customer Care, Spectrum Enterprise acknowledges receipt of such trouble ticket, Spectrum Enterprise validates that the Service is affected, and Customer releases the Service for testing. The Service Disruption ends when the affected Service has been restored.

"Service Degradation" means a degradation of the Service that is not a Service Disruption or a result of an Excluded Disruption, such as failure of the Service to achieve the SLA Targets for Latency / Frame Delay, Jitter / Frame Delay Variation, or Packet / Frame Loss.

"Excluded Disruptions" means (i) planned outages, (ii) routine or urgent maintenance, (iii) time when Spectrum Enterprise is unable to gain access to Customer's Service Location, if necessary, (iv) service issues arising from acts of omissions of Customer or Customer's representatives or agents, (v) Customer equipment failures, (vi) Customer is not prepared to release the Service for testing, and (vii) Force Majeure Events.

Spectrum Enterprise will classify Service problems as follows:

Priority	Criteria Criteria
Priority 1	<ul> <li>Each a "Priority 1 Outage":</li> <li>Service Disruption resulting in a total loss of Service; or</li> <li>Service Degradation to the point where Customer is unable to use the Service and is prepared to release it for immediate testing</li> </ul>
Priority 2	Service Degradation where Customer is able to use the Service and is not prepared to release it for immediate testing.
Priority 3	<ul> <li>A service problem that does not impact the Service; or</li> <li>A single non-circuit specific quality of Service inquiry.</li> </ul>

#### III. Service Availability

"Service Availability" is calculated as the total number of minutes in a calendar month less the number of minutes that the FIA Service is unavailable due to a Priority 1 Outage ("Downtime"), divided by the total number of minutes in a calendar month.

The following table contains examples of the percentage of Service Availability translated into minutes of Downtime for the 99.99% Service Availability Target:

Percentage by Days Per	Total Minutes /	Downtime
99.99% for 31 Days	44,640	4.5
99.99% for 30 Days	43,200	4.3
99.99% for 29 Days	41,760	4.2
99.99% for 28 Days	40,320	4

#### IV. Mean Time to Restore ("MTTR")

The MTTR measurement for Priority 1 Outages is the average time to restore Priority 1 Outages during a calendar month calculated as the cumulative length of time it takes Spectrum Enterprise to restore an FIA Service following a Priority 1 Outage in a calendar month divided by the corresponding number of trouble tickets for Priority 1 Outages opened during the calendar month for the FIA Service.

MTTR per calendar month is calculated as follows:

Cumulative length of time to restore Priority 1 Outage(s) per FIA Service

Total number of Priority 1 Outage trouble tickets per FIA Service

#### V. Latency / Frame Delay

Latency or Frame Delay is the average roundtrip network delay, measured every 5 minutes during a calendar month, unless measurement is not possible as a result of an Excluded Disruption, to adequately determine a consistent average monthly performance level for frame delay for each FIA Service. The roundtrip delay is expressed in milliseconds (ms).

Latency is calculated as follows:

Latency/Frame Delay = Sum of the roundtrip delay measurements for an FIA Service

Total # of measurements for an FIA Service

#### VI. Packet Loss / Frame Loss Ratio

Packet Loss or Frame Loss Ratio is defined as the percentage of frames that are not successfully received compared to the total frames that are sent in a calendar month, except where any packet or frame loss is the result of an Excluded Disruption. The percentage calculation is based on frames that are transmitted from a network origination point and received at a network destination point.

Packet Loss / Frame Loss Ratio is calculated as follows:

			Frames
Packet Loss / Frame Loss (%)	=	100 (%) —	Received (%)

#### VII. Jitter / Frame Delay Variation

Jitter or Frame Delay Variation is defined as the variation in delay for two consecutive frames that are transmitted (one-way) from a network origination point and received at a network destination point. Spectrum Enterprise measures a sample set of frames every 5 minutes during a calendar month, unless measurement is not possible as a result of an Excluded Disruption, and determines the average delay between consecutive frames within each sample set. The monthly Jitter / Frame Delay Variation is calculated as the average of all of the frame delay variation measurements during such calendar month and is expressed in milliseconds (ms).

Jitter / Frame Delay Variation is calculated as follows:

#### VIII. Network Maintenance

#### **Maintenance Notice:**

Customer understands that from time to time, Spectrum Enterprise will perform network maintenance for network improvements and preventive maintenance. In some cases, Spectrum Enterprise will need to perform urgent network maintenance, which will usually be conducted within the routine maintenance windows. Spectrum Enterprise will use reasonable efforts to provide advance notice of the approximate time, duration, and reason for any urgent maintenance outside of the routine maintenance windows.

#### **Maintenance Windows:**

Routine maintenance may be performed Monday — Friday 12 a.m. — 6 a.m. Local Time.

#### IX. Remedies

#### **Service Credits:**

If the actual performance of an FIA Service during any calendar month is less than the SLA Targets and Customer is in compliance with the terms of the Agreement and this SLA, then Customer may request credit equal to the corresponding percentage of monthly recurring charges for the Affected Service as set forth in the table below. Any credit to be applied will be off-set against amounts due from Customer to Spectrum Enterprise in the billing cycle following the date Spectrum Enterprise makes its credit determination. Credit requests must be submitted to Spectrum Enterprise within thirty (30) days of the calendar month in which the SLA Target was missed. Spectrum Enterprise will exercise commercially reasonable efforts to respond to such credit requests within thirty (30) days of receipt thereof.

Service Availability	Mean Time To Restore ("Mī		Latency / Frame Delay (Roundtrip)	and the second s	Packet Loss / Frame Loss
30%	> 4 hours ≤ 7:59:59 hours	4%	5%	5%	5%
	> 8 hours	10%			

All SLA Targets are monthly measurements, and Customer may request only one credit per SLA Target per month for the Affected Service. Should one event impact more than one SLA hereunder, Customer shall receive the single highest of the qualifying credits only. Except as set forth below, the credits described in this SLA shall constitute Customer's sole and exclusive remedy, and Spectrum Enterprise's sole and exclusive liability, with respect to any missed SLA Targets. Service Credits hereunder shall not be cumulative per Service.

#### **Chronic Priority 1 Outages:**

#### **Mission Statement**

We at Tech Verb Inc. believe that an organization should not need to pay exorbitant prices for technical expertise. Our mission is to provide clients the highest level of value for IT consulting services by offering a superior level of expertise and professionalism. We do this by attending to the needs of our employees, promoting their strengths and helping them overcome weaknesses. In turn, they gladly and willingly provide our clients with the attention and care each one of them deserves. Building strong rapport with our clients leads to long lasting relationships, which allows us to provide our services at rates often lower than industry standards. This is our mission; this is our dedication.

## **History of TechVerb Inc.**

One evening, a couple of high level network engineers got together to discuss the need of great IT Support for schools. It was noted that many schools were paying a premium to consultants with merely a mediocre level of service, both in technical knowledge and communication skills. When businesses didn't want to pay the premium, they were left to support their networks themselves, often with dire consequences. If a school was lucky to find an IT consultant that had both the technical and communication skills to adequately provide support, the consultant often lacked the availability needed to fully meet the day-to-day support requests of the school. The two decided to leverage their technical expertise along with their ability to communicate effectively, and TechVerb Inc. was formed.

Through prudent work ethic and time tested experience Tech Verb has grown to include a staff of engineers, technicians and administrators with knowledge spanning the many areas of IT. We are honored and proud to be in a position to provide an opportunity for others to advancement their careers. In treating our staff as family, and not mere employees, we are confident we can offer a full array of quality IT consulting services, providing premium service without premium prices.

## **Expertise**

Every one of our consultants has over a decade of IT experience effectively covering all areas of IT consulting services. From high level infrastructure design to technology implementation to help desk support to web hosting, we have it all. By leveraging our collective knowledge and experience we are confident we can resolve any technical obstacle. Our wealth of knowledge can even be used to provide the services of a "Technical Director/Officer" without actually having to hire one.

## The TechVerb Advantage

TechVerb is a "One-Stop-Shop" providing services ranging from telecommunication to help desk support to advanced network/project administration/consulting. As such we provide extensive

cost savings by eliminating vendor management or coordination fees associated with large deployments. For example, when companies and organizations utilize our consulting expertise to deploy telecommunication services provided by another vendor, our coordination fees are in addition to the cost of the telecommunication service. However, when our clients obtain both network and telecommunication services through us, our understanding of their existing technology and the technology we provide allows us to eliminate the coordination fees.

## TechVerb is a "Turnkey Solution" for IT Services

VM Technologies

Wireless Network Hardware

Security concerns are present in every business process, application and computer.

Partnering with Tech Verb can help you protect the availability, integrity and confidentiality of your data. Let us help your organization through Prevention, Detection and Reaction planning and implementation.

#### **Infrastructure Solutions**

Network downtime can severely disrupt your business. By offering a full range of network infrastructure solutions, TechVerb can ensure your network is flexible, resilient and scalable. Our vendor independence puts us in a position to select the best products for your needs, rather than shoehorning a single-vendor solution where it might not be best applied.

With our collective knowledge, you benefit from our extensive experience in delivering and managing complex networks.

#### **Virtual Machine Solutions**

A virtual machine is a separate and independent software instance that includes a full copy of an operating system and application software. A physical server prepared with a server virtualization hypervisor such as Microsoft Hyper-V, VMware vSphere or Citrix XenServer can host multiple VMs while maintaining logical isolation between each machine. Each instance can then share the server's computing resources -- dramatically increasing physical server hardware usage.

Server consolidation is the most compelling benefit of VMs. A typical non-virtualized application server may reach just 5% to 10% utilization. But a virtual server that hosts multiple VMs can easily reach 50% to 80% utilization. The net result is that more virtual machines can be hosted on fewer physical servers, translating into lower costs for hardware acquisition, maintenance, energy and cooling system usage.

#### **Telecommunication Services**

Tech Verb offers a full array of business-class Internet and WAN telecommunication services. With our World Class Tier1 fiber network, Tech Verb can assure you the performance and reliability today's companies and organizations demand. Whether you need Fiber or Cable, network-based MPLS or a Voice over IP solution, TechVerb is there for you.

#### **Load Balancing**

TechVerb provides load-balancing technology from leading vendors to effectively and intelligently redirect and distribute the traffic across your servers.

#### **Thin Client Solutions**

As "telecommuting" gains popularity, companies are turning to terminal services and thin clients to provide remote access to the office.

TechVerb provides planning, installation, and configuration of your organization's terminal server needs. We can help optimize the business impact of your terminal services investment through creative, customized solutions that address your organization's specific needs.

TechVerb works with companies large and small, spanning a multitude of industries, to help them leverage their intellectual capital and empower their employees through effective knowledge-sharing and communication.

With our expertise in collaborative technologies such as .net and Microsoft operating systems, coupled with a deep understanding of security management practices and business process optimization, we are uniquely positioned in our ability to provide robust, integrated terminal services solutions.

We provide easy to use solutions that harness the power of Citrix's built-in functionality and custom integration solutions to help maximize your existing technology investment.

#### **System / Network Optimization**

As an added value service TechVerb performs a full network analysis upon its first visit to a client site. The analysis reveals areas of interest, and allows for a comprehensive network diagram. We employ the latest in network analysis tools, such as Fluke testers. The Fluke shows any latency issues, shorting or bad cabling in the network. It tests for throughput and certifies that the ether network is TIA/ISO standard.

After testing the ether network we move on to the systems network. We thoroughly examine all servers, routers, switches and workstations for proper configuration, errors and current software / firmware updates. Upon completion of our analysis, we supply you with a complete report of our findings and a network diagram. We can then take the necessary steps to optimize all systems for a fast, reliable and efficient network infrastructure.

#### Microsoft Active Directory Installation/ Migration/ Upgrade

TechVerb offers certified expertise in designing, deploying and troubleshooting complex Active Directory (AD) installations, and can address common AD issues such as replication problems, multi-domain partition configurations and corrupted AD objects. This also includes clean-up of legacy beta software configuration objects in production AD environments, and repair of failed installations of AD and AD-integrated applications. In addition, we also have expertise with Microsoft 3rd party industry tools to provide a more comprehensive scope of work.

#### Remote Access/ VPN

As VPN solutions not only increase in popularity but also complexity, businesses and IT managers are faced with the challenge of deploying and maintaining a secure, efficient and scalable VPN solution – a solution that safeguards your information and provides the flexibility needed to keep your team productive, no matter where they are.

With over ten years of experience supporting and implementing advanced VPN technologies, TechVerb can provide your business with the proper VPN solution.

#### **Remote Support**

We monitor key computer functionality across all your locations down to the individual workstation.

By observing traffic patterns, capacity and general throughput we can often detect potential issues before they occur, allowing us to see service interruption down to the individual component level, and speeding up recovery time by identifying specific points of failure.

Monitoring your network is just the beginning. Having the ability to observe trends within your business system allows us to make important recommendations as your company grows. It also allows us to adapt quickly to changing conditions with your business model.

No matter what level of network support you select, someone is always there to help. More often than not, assistance can be performed remotely; saving you time and money. Peace of mind comes from knowing our qualified staff of engineers is watching over your network. Questions get answered, problems get solved, and that's the Solution.

Remote support is an Internet-based desktop sharing technology that allows TechVerb to provide offsite technical support. We can either show you what steps to take through screen sharing, or with your permission, we can take control of your desktop and remotely perform tasks.

Tech Verb utilizes a **BOMGAR** Remote Support Appliance and **WebEx** for industry leading remote computer access.

Remote support is provided in conjunction with phone support. This service eliminates waiting for an onsite visit, providing you a more timely solution to your problems.

Bottom line – if you depend on your information systems to propel your business and serve your clients, then remote support is critical. In short, resolution times are lessened, our team is able to troubleshoot the issue as it occurs and you are back online and running at full speed in less time.

#### **Server Migration**

The migration service provided by TechVerb is designed for those businesses that have been using a Server Based Computing solution and now wish to migrate their existing platform to a newer, more robust platform.

TechVerb is in tune with the various reasons for deploying a migration, and during the process it is our goal to ensure uninterrupted service of the business applications throughout the upgrade.

Whether the migration is due to a software publisher overhauling their applications or an inherent platform migration for functionality improvements, TechVerb can provide the planning and deployment know-how to make the transition a smooth one.

#### **Automated Update Management**

Today more than ever, timely critical update response is key to protect against vulnerabilities and maintain the operational availability, confidentiality, and integrity of IT systems.

TechVerb can build your organization a comprehensive, fully automated critical update management solution by addressing the following:

#### Strategy

Understanding how critical update management fits into your organization¹s overall security strategy.

#### **Policy Development**

Developing critical update policies and procedures that fulfill your organization's security goals.

#### **Implementation**

Using automated tools to discover your system's vulnerabilities, monitoring compliance with your updating policies, determining test procedures, and creating contingency plans for network conflicts.

#### **Data Storage**

One of the most critical components of a network's foundation is storage. The amount of legacy and Internet data will only be controllable if care and attention is given to planning scalable storage. TechVerb has experience in designing both large and small storage solutions for all types of businesses in many industry sectors.

We consider the requirements of the entire environment in designing a data storage solution, taking a holistic view rather than just building a separate storage network.

Your organization's requirements for a data storage solution may be symptomatic of a larger issue within the network, and the network infrastructure will significantly impact the design and implementation of a solution.

From a workgroup to an enterprise wide solution, TechVerb never simply recommends a one-size-fits-all product. In addition to researching, analyzing and documenting the network infrastructure our engineers look at current data storage trends, and future business and strategic goals, using this information to provide a turnkey solution.

TechVerb Engineers, after verifying all requirements are met, review the plan with your organization, and then proceed with procurement and implementation. Our engineers conduct solution testing and benchmarking, followed by installation at your site. Finally, the engineers conduct training and relay any information necessary for your administrators, and turn over the configuration and training documentation.

We can provide solutions for:

Network Attached Storage Storage Area Networks Direct Attached Storage RAID Software Solutions RAID Hardware Solutions Tape Solutions Disk Solutions Offsite Backup Optical Storage Disaster Recovery

Successful storage solutions do not just happen; they are well planned and executed. At TechVerb, we are clearly focused on meeting all of the storage needs of our clients.

#### **Email Systems**

Email is an integral part of business communications; in fact, most businesses would come to a grinding halt without their business email systems. Although email has become the medium of choice for sending and receiving business correspondence, it is not well suited to the task of transmitting information that should remain private or confidential.

At TechVerb we recognize this fact and work with the world's leading secure email system providers to offer a comprehensive solution to provide your business with secure email services.

Client further acknowledges that if Client, or its subsidiaries or affiliates, breach this section, Client agrees to pay to Tech Verb, as liquidated damages, an amount equal to three (3) times the yearly compensation earned by said person as of such person's termination of employment with Tech Verb. Notwithstanding the above, such invalid provision shall be construed, to the extent possible, in accordance with the original intent of Tech Verb and Client.

# **Finance Committee**

#### **General Purpose**

The finance committee is commissioned by and responsible to the Board of Trustees. It has the responsibility for working with the CEO and Chief Financial Officer (CFO) to create the upcoming fiscal year budget; presenting budget recommendations to the Board; monitoring implementation of the approved budget on a regular basis and recommending proposed budget revisions; recommending to the Board appropriate policies for the management of TEACH Public Schools assets. The finance committee shall be assisted by the CEO and CFO.

#### **Appointments and Composition**

- The members of the finance committee shall be the treasurer of the Board who shall serve
  as chair, the Chair who shall serve as an ex-officio member, together with other trustees
  appointed by the Chair with the advice and consent of the Board in accordance with the
  bylaws.
- 2. Both the CEO and the CFO will be members of the finance committee.
- 3. Additional committee members may be appointed and need not be members of the Board of Trustees.

#### Responsibilities

- 1. Prepare an annual budget for the organization in collaboration with the CEO and CFO.
- 2. Also in collaboration with the CEO and CFO, develop and annually revise a five-year financial forecast and develop long-range financial plans based on the forecast.
- 3. Arrange for an annual audit to be provided to the Board of Trustees.
- 4. Provide oversight of the procurement process.
- 5. Review monthly financial statements and variances from budget, and recommend action to the Board, as appropriate.
- 6. Create specific measurable board-level goals for the year as part of the full board planning process.
- Develop and implement a board-level training program to ensure that all trustees (especially those without a financial background) can be effective stewards of the organization's financial resources.
- 8. Report to the Board of Trustees at regular meetings of the Board in a manner determined by the Board.
- 9. Annually evaluate its work as a committee and the objectives it has committed itself to and report on same to the Board of Trustees.

#### What the Finance Committee Should Not Do

- Formally adopting budgets, LCAP or fiscal policies, this is the responsibility of the TEACH Board of Directors.
- Interacting with families or students on a regular basis (i.e., daily or weekly)
- Interacting with teachers or other staff members on a regular basis (i.e., daily or weekly)
- Presenting themselves as an outlet for staff, family or student complaints or concerns that have not first been formally addressed to the CEO/CFO.

# **Academic Excellence Committee**

#### **Duties**

The main purpose of the Academic Excellence Committee is to measure the academic results of the organization against the goals laid out in the organization's charter, accountability plan, and annual goals. In one sense, the Academic Excellence Committee is similar to the Finance Committee: both exist to monitor performance against stated goals. For the Finance Committee, this means measuring financial results against the budgeted goals. For the Academic Excellence Committee, this means measuring organizational outcomes against stated goals for metrics such as:

- Performance on state tests
- Performance on normed standardized tests (e.g., ACT, SAT, NWEA, UCLA MDTP, AP Exams)
- A-G Completion and college application/acceptance
- Attendance
- · Surveys of family, student or staff satisfaction
- Student and staff retention
  - The overall role of the Academic Excellence Committee is to ensure that:
- The board, CEO/Superintendent and TEACH Leadership have a clear and shared definition of "academic excellence" for the organization. (It should be written down and understood by all trustees.)
- The board, CEO/Superintendent and TEACH Leadership have a clear and shared sense of how well the organization is currently performing in reaching that definition of excellence.
- The board, CEO/Superintendent and TEACH leadership agree on

- what the next steps the organization will take in order to reach that goal of excellence.
- All trustees understand the promises in the charter and accountability plan and understand how well the organization is currently performing against those promises.
- All trustees understand what standardized assessments the school administers, what each one assesses, when each one is administered, and how the data from each is used to inform teaching and programmatic changes.
- The board, CEO/Superintendent and TEACH leadership have a clear and structured process for updating the board on the organization's performance on key academic outcomes on a regular basis (at least four times per year).
- When academic-outcome data is presented to the board, it is presented in a comparative context (e.g., against comparables of how the organization has performed in the past, how other schools in the area have performed, and how other high performing schools have performed) so that trustees can assess the organization's overall strength of performance meaningfully.
- Work with CEO/Superintendent to provide board training, as necessary, to understand how the organization is achieving the board approved goals.

# What the Academic Excellence Committee Should Not Do

One of the biggest pitfalls for Academic Excellence Committees is to engage over *inputs*—the means by which the organization pursues its mission—rather than *outcomes*—the objective data used to assess how well the organization is meeting its mission. Inputs are management level issues, which should be handled by the CEO/Superintendent. Outcomes are what the board should be focused on and governing towards. The best Academic Excellence Committees help CEO/SUPERINTENDENTs set clear goals for the year of outcomes that are related to the mission and then set up checkpoints throughout the year at which they meet with the CEO/Superintendent to monitor progress towards those goals.

Other activities Academic Excellence Committees should NOT be involved in:

- Evaluating teachers
- Selecting, designing, or reviewing the quality of curricula
- Planning professional development for teachers
- Interacting with teachers or other staff members on a regular basis (i.e., daily or weekly)
- Interacting with families or students on a regular basis (i.e., daily or weekly)
- Presenting themselves as an outlet for staff, family, or student complaints or concerns that have not first been formally addressed to the CEO/Superintendent

## **Committee Membership**

While it can be useful for some members of the Academic Excellence Committee to have a background in education, it is by no means necessary in order to be an effective committee member. Many effective Academic Excellence Committees do not have educators on the committee. We find that the key functions of the committee—helping the CEO/Superintendent to set ambitious goals and then monitoring data to assess progress towards those goals—are often well met by people with strong analytical skills; these people need not be educators.

## What questions should the committee be asking?

- What is the ultimate goal of our organization? (must be measurable)
- How we will know, on an annual basis, that our students are making progress towards this goal?
- How will we know during the course of the year that our students are making progress towards our annual goals?
- When will the board receive updates on students' academic progress this year?
- What data will the board receive at each of these check-in points?
- What results does the CEO/Superintendent expect to see at each check-in point that would tell us we are on track to meet our annual

### goals?

• Is there an evaluation/feedback process in place for all staff members under which they receive a formal written evaluation,
