INDEPENDENT STUDY BOARD POLICY

TEACH Public Schools (the “School”) may offer independent study to meet the short or long-term educational needs of pupils enrolled in the School. Independent study is an optional educational alternative in which no pupil may be required to participate and is designed to teach the knowledge and skills of the core curriculum. The School shall provide appropriate existing services and resources to enable pupils to complete their independent study successfully. The following policies apply to all pupils participating in independent study at the School:

Each student’s independent study shall be coordinated, evaluated, and carried out under the general supervision of an assigned certificated employee.

Maximum Length of Assignment: For students in all programs of independent study, the maximum length of time that may elapse between the time an independent study assignment is made and the date by which the student must complete the assigned work shall be as follows:

- For pupils in kindergarten and grades one through three, **15 school days**
- For pupils in grades four through eight, **15 school days**
- For students in grades nine through twelve, **15 school days**

When special or extenuating circumstances justify a longer time for individual students, the Executive Director or their designee may approve a period not to exceed **30 school days**.

Evaluation to Determine Best Interests: The Principal or designee shall conduct an evaluation to determine whether it is in the best interests of the pupil to remain in independent study upon the following triggers:

- When any pupil fails to complete **2 assignments** during any period of **15 school days**.
- In the event pupil’s educational progress falls below satisfactory levels as determined by the School’s MTSS Policy which considers ALL of the following indicators:
 - i. The pupil’s achievement and engagement in the independent study program, as indicated by the pupil’s performance on applicable pupil-level measures of pupil achievement and pupil engagement set forth in Education Code Section 52060(d) paragraphs (4) and (5).
 - ii. The completion of assignments, assessments, or other indicators that evidence that the pupil is working on assignments.
 - iii. Learning required concepts, as determined by the supervising teacher.
 - iv. Progressing toward successful completion of the course of study or individual course, as determined by the supervising teacher.

A written record of the findings of any evaluation made pursuant to this policy shall be treated as a mandatory interim pupil record and maintained for a period of three years from the date of the evaluation and, if the pupil transfers to another California public school, the record shall be forwarded to that school.

Grade Level Standards: The School shall provide content aligned to grade level standards that is provided at a level of quality and intellectual challenge substantially equivalent to in-person instruction. For high school grade levels this shall include access to all courses offered by the School for graduation and approved by the UC or CSU as credible under the A-G admissions criteria.

Tiered Re-Engagement Strategies: The School has adopted tiered reengagement strategies for all pupils who are not generating attendance for more than three (3) school days or 60% of the instructional days in a school week, or who are in violation of the written agreement pursuant to Education Code Section 51747(g). These procedures are as follow:

- Verification of current contact information for each enrolled pupil;
- Notification to parents or guardians of lack of participation within one school day of the absence or lack of participation;
- Outreach from the School to determine pupil needs including connection with health and social services as necessary;
- When the evaluation described under paragraph iv. in the “*Missed Assignments*” section above is triggered to consider whether remaining in independent study is in the best interest of the pupil, a pupil-parent-education conference shall be required to review a pupil’s written agreement and reconsider the independent study program’s impact on the pupil’s achievement and well-being. This conference shall be a meeting involving, at a minimum, all parties who signed the pupil’s written independent study agreement.¹

Synchronous Instruction and Live Interaction: The following plan shall be in place in accordance with Education Code Section 51747(e) for synchronous instruction and live interaction:

For pupils in transitional kindergarten through grade 3, inclusive, the plan to provide opportunities for daily synchronous instruction for all pupils throughout the school year by each pupil’s assigned supervising teacher shall be as follows:

- All independent study students will receive daily synchronous instruction with teachers from 8:10am - 2:30pm via Zoom. Students will be expected to follow the in person bell schedule while working independently via computer. Teachers will instruct the independent studies students at the same time as the in person students. Students will also have access to teacher PowerPoint, lessons and resources on Schoology.

For pupils in grades 4-8, inclusive, the plan to provide opportunities for daily live interaction between the pupil and a certificated or non-certificated employee of the School and at least weekly synchronous instruction for all pupils throughout the school year by each pupil’s assigned supervising teacher shall be as follows:

- Daily live interaction will be provided during Advisory via Zoom. The Student is expected to log into their Advisory Zoom class promptly at the beginning of the day for the duration

¹ The tiered reengagement strategies shall not apply to pupils who participate in an independent study program for fewer than 15 school days in a school year.

of Advisory, 8:00 a.m. - 8:30 a.m. The Student is expected to follow the school policies and procedure regarding school uniform, classroom expectations and Zoom protocols and be prepared for academic engagement.

- Weekly synchronous instruction will be provided via Zoom during instructional hours. The Student is expected to adhere to classroom and school policies and procedures as related to school uniform, classroom expectations and Zoom protocols and be prepared for academic engagement. Students are expected to independently follow the appropriate Bell Schedule and arrive to the Zoom session on time. Students will have access to the instructional materials on teachers' Weebly websites and are expected to access and complete the assignment on a daily basis.

For pupils in grades 9-12, inclusive, the plan to provide opportunities for at least weekly synchronous instruction for all pupils throughout the school year by each pupil's assigned supervising teacher shall be as follows:

- All independent study students will receive daily synchronous instruction with teachers from 8am - 3:30pm via Zoom. Students will be expected to follow the in person bell schedule while working independently via computer. Teachers will instruct the independent studies students at the same time as the in person students. Students will also have access to teacher PowerPoint, lessons and resources on Schoology.

Plan for Transition: The following plan shall be utilized to transition pupils whose families wish to return to in-person instruction from independent study expeditiously, and, in no case, later than five instructional days²: If at any time a family wants to return to in person instruction they can do so via written request to the school principal. The school principal will arrange for the student to return to in person learning within five instructional days.

Agreement: (5 C.C.R. § 11702) A current written agreement for each independent study pupil shall be maintained on file for each participating student. Each agreement shall be signed, dated and in effect prior to the start of reporting attendance (ADA) pursuant to that agreement. The independent study agreement for a student will require and cover a study plan that represents the same amount of study that would be required of a student in the classroom and be consistent with the School curriculum and course of study of students participating in the regular classroom setting.

Agreement Content: Each independent study written agreement shall contain all of the following provisions:

- The manner, time, frequency, and place for submitting a pupil's assignments, for reporting the pupil's academic progress, and for communicating with a pupil's parent or guardian regarding a pupil's academic progress.
- The objectives and methods of study for the pupil's work, and the methods used to evaluate that work.
- The specific resources, including materials and personnel that will be made available to the pupil. These resources shall include confirming or providing access to all pupils to the connectivity and devices adequate to participate in the educational program and complete assigned work.

² The plan to transition pupils whose families wish to return to in-person instruction shall not apply to pupils who participate in an independent study program for fewer than 15 school days in a school year.

- A statement of the policies adopted pursuant to Education Code Section 51747, subdivisions (a) and (b) regarding the maximum length of time allowed between the assignment and the completion of a pupil's assigned work, the level of satisfactory educational progress, and the number of missed assignments allowed before an evaluation of whether or not the pupil should be allowed to continue in independent study.
- The duration of the independent study agreement, including the beginning and ending dates for the pupil's participation in independent study under the agreement. No independent study agreement shall be valid for any period longer than one school year.
- A statement of the number of course credits or, for the elementary grades, other measures of academic accomplishment appropriate to the agreement, to be earned by the pupil upon completion.
- A statement detailing the academic and other supports that will be provided to address the needs of pupils who are not performing at grade level, or need support in other areas, such as English learners, individuals with exceptional needs in order to be consistent with the pupil's individualized education program or plan pursuant to Section 504 of the federal Rehabilitation Act of 1973 (29 U.S.C. Sec. 794), pupils in foster care or experiencing homelessness, and pupils requiring mental health supports.
- The inclusion of a statement in each independent study agreement that independent study is an optional educational alternative in which no pupil may be required to participate. In the case of a pupil who is referred or assigned to any school, class, or program pursuant to Section 48915 or 48917, the agreement also shall include the statement that instruction may be provided to the pupil through independent study only if the pupil is offered the alternative of classroom instruction.
- Each written agreement shall be signed, before the commencement of independent study, by the pupil, the pupil's parent, legal guardian, or caregiver, if the pupil is less than 18 years of age, the certificated employee who has been designated as having responsibility for the general supervision of independent study, and all persons who have direct responsibility for providing assistance to the pupil. For purposes of this paragraph "caregiver" means a person who has met the requirements of Part 1.5 (commencing with Section 6550) of Division 11 of the Family Code.

Written agreements may include subsidiary agreements, such as course contracts and assignment and work records.

The School shall comply with the Education Code sections 51745 through 51749.3 and the provisions of the Charter Schools Act of 1992 and the State Board of Education regulations adopted thereunder. The Executive Director shall establish regulations to implement these policies in accordance with the law.

Senate Bill 187: Comprehensive School Safety Plan Purpose

The California Education Code (sections 32280-32288) outlines the requirements of all schools operating any kindergarten and any grades 1 to 12, inclusive, to write and develop a school safety plan relevant to the needs and resources of that particular school.

In 2004, the Legislature and Governor recast and renumbered the Comprehensive School Safety Plan provisions in SB 719 and AB 115. It is the intent of the Legislature in enacting the provisions to support California public schools as they develop their mandated comprehensive safety plans that are the result of a systematic planning process, that include strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses.

The historical requirement of the Comprehensive School Safety Plan was presented in Senate Bill 187, which was approved by the Governor and chaptered in 1997. This legislation contained a sunset clause that stated that this legislation would remain in effect only until January 1, 2000. Senate Bill 334 was approved and chaptered in 1999 and perpetuated this legislation under the requirement of the initial legislation.

Comprehensive School Safety Plans are required under SB 719 & AB 115 and contains the following elements:

Assessment of school crime committed on school campuses and at school-related functions

- Child abuse reporting procedures
- Disaster procedures
- Suspension and expulsion policies
- Procedures to notify teachers of dangerous pupils
- Discrimination and harassment policies
- School wide dress code policies
- Procedures for safe ingress and egress
- Policies enacted to maintain a safe and orderly environment
- Rules and procedures on school discipline
- Hate crime reporting procedures

The Comprehensive School Safety Plan will be reviewed and updated by March 1st every year. In July of every year, the school will report on the status of its school safety plan including a description of its key elements in the annual school accountability report card.

A copy of the Comprehensive School Safety Plan is available for review at 10616 S. Western Avenue, Los Angeles.

Safety Plan Vision

TEACH Public Schools is committed to maintaining safe and secure campuses for all of its pupils and staff. To that end, this Comprehensive School Safety Plan covers TEACH's policies and expectations regarding the practices of each school in maintaining the security of the physical campus, responding appropriately to emergencies, increasing the safety and protection of students and staff, and creating a safe and orderly environment that is conducive to learning.

All school employees should receive training in the Comprehensive School Safety Plan upon joining the school, and should review any changes to the Plan annually.

CAMPUS SAFETY AND SECURITY

Each school and its staff members will maintain policies, practices and procedures so that the campus is physically secure and safe.

School seeks to create a challenging learning environment that encourages high expectations for success through development-appropriate instruction that allows for individual differences and learning styles. Our school promotes a safe, orderly, caring, and supportive environment. Each student's self-esteem is fostered by positive relationships with students and staff. We strive to have our parents, teachers, and community members actively involved on our students' learning

32280. It is the intent of the Legislature that all California public schools, in kindergarten, and grades 1 to 12, inclusive, operated by school districts, in cooperation with local law enforcement agencies, community leaders, parents, pupils, teachers, administrators, and other persons who may be interested in the prevention of campus crime and violence, develop a comprehensive school safety plan that addresses the safety concerns identified through a systematic planning process. For the purposes of this section, law enforcement agencies include local police departments, county sheriffs' offices, school district police or security departments, probation departments, and district attorneys' offices. For purposes of this section, a "safety plan" means a plan to develop strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on the school campus.

32281. (a) Each school district and county office of education is responsible for the overall development of all comprehensive school safety plans for its schools operating kindergarten or any of grades 1 to 12, inclusive.

(b) (1) Except as provided in subdivision (d) with regard to a small school district, the schoolsite council established pursuant to former Section 52012, as it existed before July 1, 2005, or Section 52852 shall write and develop a comprehensive school safety plan relevant to the needs and resources of that particular school.

(2) The schoolsite council may delegate this responsibility to a school safety planning committee made up of the following members:

(A) The principal or the principal's designee.

(B) One teacher who is a representative of the recognized certificated employee organization.

- (C) One parent whose child attends the school.
- (D) One classified employee who is a representative of the recognized classified employee organization.
- (E) Other members, if desired.
- (3) The schoolsite council shall consult with a representative from a law enforcement agency in the writing and development of the comprehensive school safety plan.
- (4) In the absence of a schoolsite council, the members specified in paragraph (2) shall serve as the school safety planning committee.
- (c) Nothing in this article shall limit or take away the authority of school boards as guaranteed under this code.
- (d) (1) Subdivision (b) shall not apply to a small school district, as defined in paragraph (2), if the small school district develops a districtwide comprehensive school safety plan that is applicable to each schoolsite.
- (2) As used in this article, "small school district" means a school district that has fewer than 2,501 units of average daily attendance at the beginning of each fiscal year.
- (e) (1) When a principal or his or her designee verifies through local law enforcement officials that a report has been filed of the occurrence of a violent crime on the schoolsite of an elementary or secondary school at which he or she is the principal, the principal or the principal's designee may send to each pupil's parent or legal guardian and each school employee a written notice of the occurrence and general nature of the crime. If the principal or his or her designee chooses to send the written notice, the Legislature encourages the notice be sent no later than the end of business on the second regular work day after the verification. If, at the time of verification, local law enforcement officials determine that notification of the violent crime would hinder an ongoing investigation, the notification authorized by this subdivision shall be made within a reasonable period of time, to be determined by the local law enforcement agency and the school district. For purposes of this section, an act that is considered a "violent crime" shall meet the definition of Section 67381 and be an act for which a pupil could or would be expelled pursuant to Section 48915.
- (2) Nothing in this subdivision shall create any liability in a school district or its employees for complying with paragraph (1).
- (f) (1) Notwithstanding subdivision (b), a school district or county office of education may, in consultation with law enforcement officials, elect to not have its schoolsite council develop and write those portions of its comprehensive school safety plan that include tactical responses to criminal incidents that may result in death or serious bodily injury at the schoolsite. The portions of a school safety plan that include tactical responses to criminal incidents may be developed by administrators of the school district or county office of education in consultation with law enforcement officials and with a representative of an exclusive bargaining unit of employees of that school district or county office of education, if he or she chooses to participate. The school district or county office of education may elect not to disclose those portions of the comprehensive school safety plan that include tactical responses to criminal incidents.
- (2) As used in this article, "tactical responses to criminal incidents" means steps taken to safeguard pupils and staff, to secure the affected school premises, and to apprehend the criminal perpetrator or perpetrators.
- (3) Nothing in this subdivision precludes the governing board of a school district or county office of education from conferring in a closed session with law enforcement officials pursuant to Section 54957 of the Government Code to approve a tactical response plan developed in consultation with those officials pursuant to this subdivision. Any vote to approve the tactical response plan shall be announced in open session following the closed session.
- (4) Nothing in this subdivision shall be construed to reduce or eliminate the requirements of Section 32282.

- (IV) A program to ensure that pupils and both the certificated and classified staff are aware of, and properly trained in, the earthquake emergency procedure system.
- (ii) Establishing a procedure to allow a public agency, including the American Red Cross, to use school buildings, grounds, and equipment for mass care and welfare shelters during disasters or other emergencies affecting the public health and welfare. The school district or county office of education shall cooperate with the public agency in furnishing and maintaining the services as the school district or county office of education may deem necessary to meet the needs of the community.

For those purposes, the comprehensive school safety plan shall define "gang-related apparel." The definition shall be limited to apparel that, if worn or displayed on a school campus, reasonably could be determined to threaten the health and safety of the school environment. A schoolwide dress code established pursuant to this section and Section 35183 shall be enforced on the school campus and at any school-sponsored activity by the principal of the school or the person designated by the principal. For purposes of this paragraph, "gang-related apparel" shall not be considered a protected form of speech pursuant to Section 48950.

The Department of Justice and the State Department of Education shall work in cooperation with regard to the workshops coordinated and presented pursuant to the contracts. Implementation of this section shall be contingent upon the availability of funds in the annual Budget Act.

Earthquake Procedures

Actual Earthquake

Tremors and shaking of the earth are the signals of an earthquake. The initial shock is likely to be not more than ninety seconds duration. Emergency action to be taken when children are inside the building is:

When inside a building, stay inside: Do not run outside because you may be hit by falling debris. Drop to the floor on your knees and make the body as small as possible. Cover yourself under a desk, table or bench, in a hall, or stand against an inside wall. You should be facing away from: windows; door; glass; skylights; brick or rock faced walls; large moveable objects, such as bookcases; or outside doors and walls. With one arm, hold on to a desk leg so that it will protect your head and neck and so that the desk will not move away from covering you. Rest your head on one arm and place your other arm over the base of the head and neck. When it is safe, proceed to the assembly areas in the same manner as for Evacuation Procedures.

When outdoors, stay outside: Do not run inside because you may be hit by falling debris. Move away from buildings and overhead structures. Drop to the ground on your knees and make the body as small as possible. Face position away from: buildings, power poles and lines, trees or other overhead hazards, roads and streets, as cars may go out of control. Cover as much skin surface as possible, close your eyes, and cover your ears. If you have a book or other similar object, place it over the base of your head and neck to protect you from flying debris. When it is safe, proceed to the assembly areas in the same manner as for Evacuation Procedures.

Walking to or from school facilities: If students are walking to or from school when an earthquake occurs, they should stay away from all buildings, trees, exposed wires, or other hazards that may fall. The safest place is in the open. Students should assume "drop, cover, and hold" position until the quake is over. After the earthquake, if on the way to school facilities, continue to school. If on the way home, continue home or return to school.

Environmental Hazards

Biochemical or Chemical Release

A biological or chemical release is an incident involving the discharge of a biological or chemical substance in a solid, liquid or gaseous state. Such incidents may also include the release of radioactive materials. Common chemical threats within or adjacent to schools include the discharge of acid in a school laboratory, and overturned truck of hazardous materials in proximity of the school, or an explosion at a nearby oil refinery or another chemical plant.

The following indicators may suggest the release of a biological or chemical substance: Multiple victims suffering from:

- Watery eyes
- Twitching
- Chocking or loss of coordination
- Trouble breathing

Other indicators may include the presence of distressed animals or dead birds.

This procedure deals with three possible scenarios involving the release of biochemical substances: Scenario 1: Substance released inside a room or a building

Scenario 2: Substance released outdoors and localized

Scenario 3: Substance released in the surrounding community

It is necessary to first determine which scenario applies and then implement the appropriate response procedures listed below:

Scenario 1: Substance Released Inside a Room or Building

1. Direct or assist individuals who have come into direct contact with hazardous substances, to wash with soap and water. Do not use bleach or other disinfectants on potentially exposed skin
2. Remove and contain all contaminated clothes
3. Segregate individuals that have been contaminated "topically" by a liquid from unaffected individuals (isolation does not apply to widespread airborne releases)
4. Provide additional medical attention as needed

Threats or Disturbances

Animal disturbance

This procedure should be implemented when the presence of a dog, coyote, mountain lion or any other wild animal threatens the safety of students and staff.

General Procedures

1. Notify office and administration
2. Keep students away from the animal (return to classroom, secure all entrances to classroom, etc.)

IC Responsibilities

1. Call 911 and/or Animal Control
2. Attempt to isolate the animal from students, if it is safe to do so. If the animal is outside, students will be kept inside. If the animal is inside, students will remain outside in an area away from the animal Disruptive Student

General Procedures

1. At the beginning of each school year, every teacher is to develop a "Clear the Room" procedure. This procedure includes step-by-step instructions of what to do should a student begin to throw things or attach other students or staff.

6. Review each plan and require that the plan be practice so that students will know what to do

Teacher/Staff Responsibilities

1. In concert receiving teachers, develop the "Clear the Room" plan.
2. Develop and alternate plan for when receiving teacher is not in the room.
3. Instruct students as to their roles if plan is implemented.
4. Stay with the out-of-control student.

3. Secure the area until an administrator arrives on the scene
4. Once Relieved, teacher responds to his or her classroom and maintains order Rumors

1. Treat all verbal and written threats as a serious matter
2. Immediately notify the IC about the information
3. Assist in the evaluation of the threat with other staff

Trespasser in building General Procedures

Charter School shall provide due process for all students, including adequate and timely notice to parents/guardians and students of the grounds for all suspension and expulsion recommendations and decisions and their due process rights regarding suspension and expulsion, including rights of appeal.

Charter School shall ensure that its policies and procedures regarding suspension and expulsion will be periodically reviewed, and modified as necessary, in order to conform to changes in state law.

Charter School shall ensure that its staff is knowledgeable about and complies with the District’s Discipline Foundation Policy and/or current equivalent policy, as required by the Modified Consent Decree. Charter School shall comply with the terms of the School Discipline Policy and School Climate Bill of Rights resolution adopted by the LAUSD Board of Education on May 6, 2013.

Charter School shall be responsible for the appropriate interim placement of students during and pending the completion of Charter School’s student expulsion process and shall facilitate the post- expulsion placement of expelled students.

STUDENTS WITH DISABILITIES

Charter School shall establish and implement policies and procedures to ensure full compliance with federal and state laws and regulations regarding the discipline of students with disabilities. If a student is recommended for expulsion and the student receives or is eligible for special education, Charter School shall identify and provide special education programs and services at an appropriate interim educational placement, pending the completion of the expulsion process, to be coordinated with the LAUSD Special Education Service Center.

In the case of a student who has an Individualized Education Program (“IEP”), or a student who has a 504 Plan, Charter School shall ensure that it follows correct disciplinary procedures to comply with the mandates of state and federal laws, including IDEA and Section 504 of the Rehabilitation Plan of 1973. As set forth in the MOU regarding special education between the District and Charter School, an IEP team will meet to conduct a manifestation determination and to discuss alternative placement utilizing the District’s Special Education Policies and Procedures Manual. Prior to recommending expulsion for a student with a 504 Plan, Charter School’s administrator will convene a Link Determination meeting to ask the following two questions:

A. Was the misconduct caused by, or directly and substantially related to the student’s disability? B. Was the misconduct a direct result of the Charter School’s failure to implement 504?

NOTIFICATION OF THE DISTRICT

Upon expelling any student, Charter School shall notify the Charter Schools Division by submitting an expulsion packet to the CSD immediately or as soon as practicable, which shall contain:

expulsion IEP. If the student is eligible for Section 504 accommodations, documentation that Charter School conducted a Link Determination meeting to address two questions:

A. Was the misconduct caused by, or directly and substantially related to the student's disability?

B. Was the misconduct a direct result of Charter School's failure to implement 504 Plan?

Notwithstanding the documentation sent to the Charter Schools Division as indicated above, if the student is a resident of a school district other than LAUSD, Charter School must notify the superintendent of the student's district of residence within 30 days of the expulsion. Terms of expulsion should be reasonable and fair with the weight of the expelling offense taken into consideration when determining the length of expulsion. Therefore, the rehabilitation plan should include a date not later than one (1) year from the date of expulsion when the pupil may apply to Charter School for readmission. Charter School shall inform parents in writing of its processes for reinstatement and applying for expungement of the expulsion record.

READMISSION

This Pupil Suspension and Expulsion Policy has been established in order to promote learning and protect the safety and well being of all students at the Charter School. In creating this policy, the Charter School has reviewed Education Code Section 48900 et seq., which describes the noncharter schools' list of offenses and procedures, to establish its list of offenses and procedures for suspensions and expulsions. The language that follows closely mirrors the language of Education Code Section 48900 et seq. The Charter School is committed to annual review of policies and procedures surrounding suspensions and expulsions and, as necessary, modification of the lists of offenses for which students are subject to suspension or expulsion.

When the Policy is violated, it may be necessary to suspend or expel a student from regular classroom instruction. This policy shall serve as the Charter School's policy and procedures for student suspension and expulsion and it may be amended from time to time without the need to amend the charter so long as the amendments comport with legal requirements. Charter School staff shall enforce disciplinary rules and procedures fairly and consistently among all students. This Policy and its Procedures will be printed and distributed as part of the Student Handbook and will clearly describe discipline expectations. Corporal punishment shall not be used as a disciplinary measure against any student. Corporal punishment includes the willful infliction of or willfully causing the infliction of physical pain on a student. For purposes of the Policy, corporal punishment does not include an employee's use of force that is reasonable and necessary to protect the employee, students, staff or other persons or to prevent damage to school property. The Charter School administration shall ensure that students and their parents/guardians are notified in writing upon enrollment of all discipline policies and procedures. The notice shall state that this Policy and Procedures are available on request at the Executive Director's office.

Suspension shall be preceded, if possible, by a conference conducted by the Executive Director or the Executive Director's designee with the student and his or her parent and, whenever practical, the teacher, supervisor or Charter School employee who referred the student to the Executive Director or designee.

The conference may be omitted if the Executive Director or designee determines that an emergency situation exists. An "emergency situation" involves a clear and present danger to the lives, safety or health of students or Charter School personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student's right to return to school for the purpose of a conference.

At the conference, the pupil shall be informed of the reason for the disciplinary action and the evidence against him or her and shall be given the opportunity to present his or her version and evidence in his or her defense. This conference shall be held within two school days of when the student was suspended, unless the pupil waives this right or is physically unable to attend for any reason including, but not limited to, incarceration or hospitalization. No penalties may be imposed on a pupil for failure of the pupil's parent or guardian to attend a conference with Charter School officials.

Reinstatement of the suspended pupil shall not be contingent upon attendance by the pupil's parent or guardian at the conference.

2. Notice to Parents/Guardians

At the time of the suspension, an administrator or designee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension and the date of return following suspension. This notice shall state the specific offense committed by the student. In addition, the notice may also state the date and time when the student may return to school. If Charter School officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may request that the parent/guardian respond to such requests without delay.

3. Suspension Time Limits/Recommendation for Expulsion

Suspensions, when not including a recommendation for expulsion, shall not exceed five (5) consecutive school days per suspension. Upon a recommendation of expulsion by the Executive Director or Executive Director's designee, the pupil and the pupil's guardian or representative will be invited to a conference to determine if the suspension for the pupil should be extended pending an expulsion hearing. This determination will be made by the Executive Director or designee upon either of the following: 1) the pupil's presence will be disruptive to the education process; or 2) the pupil poses a threat or danger to others. Upon either determination, the pupil's suspension will be extended pending the results of an expulsion hearing. The student will have the opportunity, at the discretion of the Executive Director and/or the classroom teacher, to complete instructional activities missed due to his or her suspension and will be able to communicate with designated school staff for any questions and for evaluation of work.

D. Authority to Expel

A student may be expelled by an Administrative Panel following a hearing before it, and preceded by recommendation from the Executive Director. The Administrative Panel shall consist of at least three members who are certificated employees and neither a

teacher of the pupil or a Board member of the Charter School's governing board. The Charter School's Board will appoint an Administrative Panel. The Administrative Panel may expel any student found to have committed an expellable offense. A student and his or her parents may appeal an expulsion decision by the Administrative Panel to the Charter School's Board, which will make the final determination.

E. Expulsion Procedures

Students recommended for expulsion are entitled to a hearing to determine whether the student should be expelled. If requested by the student, and unless postponed for good cause, the hearing shall be held within thirty (30) school days after the Executive Director or designee determines that the student has committed an expellable offense and recommends the student for expulsion. The Administrative Panel will hold a hearing on the case, and will make a determination whether to expel. The hearing shall be held in closed session (complying with all pupil confidentiality rules under FERPA) unless the student makes a written request for a public hearing three (3) days prior to the hearing.

Written notice of the hearing shall be forwarded to the student and the student's parent/guardian at least ten (10) calendar days before the date of the hearing. Upon mailing the notice, it shall be deemed served upon the pupil. The notice shall include:

1. The date and place of the expulsion hearing;
2. A statement of the specific facts, charges and offenses upon which the proposed expulsion is based;
3. A copy of the Charter School's disciplinary rules which relate to the alleged violation;
4. Notification of the student's or parent/guardian's obligation to provide information about the student's status at the Charter School to any other school district or school to which the student seeks enrollment;
5. The opportunity for the student or the student's parent/guardian to appear in person or to employ and be represented by counsel or a non-attorney advisor;
6. The right to inspect and obtain copies of all documents to be used at the hearing;
7. The opportunity to confront and question all witnesses who testify at the hearing;
8. The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf including witnesses.

F. Special Procedures for Expulsion Hearings Involving Sexual Assault or Battery Offenses

The Charter School may, upon a finding of good cause, determine that the disclosure of either the identity of the witness or the testimony of that witness at the hearing, or both, would subject the witness to an unreasonable risk of psychological or physical harm. Upon this determination, the testimony of the witness may be presented at the hearing in the form of sworn declarations that shall be examined only by the Charter School or the hearing officer. Copies of these sworn declarations, edited to delete the name and identity of the witness, shall be made available to the pupil.

1. The complaining witness in any sexual assault or battery case must be provided with a copy of the applicable disciplinary rules and advised of his/her right to (a) receive five days notice of his/her scheduled testimony, (b) have up to two (2) adult support persons of his/her choosing present in the hearing at the time he/she testifies, which may include a parent, guardian, or legal counsel, and (c) elect to have the hearing closed while testifying.
2. The Charter School must also provide the victim a room separate from the hearing room for the complaining witness' use prior to and during breaks in testimony.
3. At the discretion of the Administrative Panel, the complaining witness shall be allowed periods of relief from examination and cross-examination during which he or she may leave the hearing room.
4. The Administrative Panel may also arrange the seating within the hearing room to facilitate a less intimidating environment for the complaining witness.
5. The Administrative Panel may also limit time for taking the testimony of the complaining witness to the hours he/she is normally in school, if there is no good cause to take the testimony during other hours.
6. Prior to a complaining witness testifying, the support persons must be admonished that the hearing is confidential. Nothing in the law precludes the person presiding over the hearing from removing a support person whom the presiding person finds is disrupting the hearing. The Administrative Panel may permit any one of the support persons for the complaining witness to accompany him or her to the witness stand.
7. If one or both of the support persons is also a witness, the Charter School must present evidence that the witness' presence is both desired by the witness and will be helpful to the Charter School. The person presiding over the hearing shall permit the witness to stay unless it is established that there is a substantial risk that the testimony of the complaining witness would be influenced by the support person, in which case the presiding official shall admonish the support person or persons not to prompt, sway, or influence the witness in any way. Nothing shall preclude the presiding officer from exercising his or her discretion to remove a person from the hearing whom he or she believes is prompting, swaying, or influencing the witness.
8. The testimony of the support person shall be presented before the testimony of the complaining witness and the complaining witness shall be excluded from the courtroom during that testimony.
9. Especially for charges involving sexual assault or battery, if the hearing is to be conducted in public at the request of the pupil being expelled, the complaining witness shall have the right to have his/her testimony heard in a closed session when testifying at a

public meeting would threaten serious psychological harm to the complaining witness and there are no alternative procedures to avoid the threatened harm. The alternative procedures may include videotaped depositions or contemporaneous examination in another place communicated to the hearing room by means of closed-circuit television.

10. Evidence of specific instances of a complaining witness' prior sexual conduct is presumed inadmissible and shall not be heard absent a determination by the person conducting the hearing that extraordinary circumstances exist requiring the evidence be heard. Before such a determination regarding extraordinary circumstance can be made, the witness shall be provided notice and an opportunity to present opposition to the introduction of the evidence. In the hearing on the admissibility of the evidence, the complaining witness shall be entitled to be represented by a parent, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of the complaining witness is not admissible for any purpose.

G. Record of Hearing

A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made.

H. Presentation of Evidence

While technical rules of evidence do not apply to expulsion hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. A determination by the Administrative Panel to expel must be supported by substantial evidence that the student committed an expellable offense. Findings of fact shall be based solely on the evidence at the hearing. While hearsay evidence is admissible, no decision to expel shall be based solely on hearsay. Sworn declarations may be admitted as testimony from witnesses of whom the Board or Administrative Panel determines that disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm.

If, due to a written request by the expelled pupil, the hearing is held at a public meeting, and the charge is committing or attempting to commit a sexual assault or committing a sexual battery as defined in Education Code Section 48900, a complaining witness shall have the right to have his or her testimony heard in a session closed to the public.

The decision of the Administrative Panel shall be in the form of written findings of fact.

If the Administrative Panel decides not to recommend expulsion, the pupil shall immediately be returned to his/her educational program.

I. Written Notice to Expel

The Executive Director or designee, following a decision of the Administrative Panel to expel, shall send written notice of the decision to expel, including the Administrative Panel's adopted findings of fact, to the student or parent/guardian. This notice shall also include the following: (a) Notice of the specific offense committed by the student; and (b) Notice of the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status with the Charter School.

The Executive Director or designee shall send a copy of the written notice of the decision to expel to the authorizer. This notice shall include the following: (a) The student's name; and (b) The specific expellable offense committed by the student.

J. Disciplinary Records

The Charter School shall maintain records of all student suspensions and expulsions at the Charter School. Such records shall be made available to the authorizer upon request.

K. Right to Appeal

The pupil shall have the right to appeal an expulsion decision from the Administrative Panel to the Charter School Board. The Charter School Board's decision to expel shall be final.

L. Expelled Pupils/Alternative Education

Pupils who are expelled shall be responsible for seeking alternative education programs including, but not limited to, programs within the County or their school district of residence. The Charter School shall work cooperatively with parents/guardians as requested by parents/guardians or by the school district of residence to assist with locating alternative placements during expulsion.

M. Special Procedures for the Consideration of Suspension and Expulsion of Students with Disabilities

1. Notification of SELPA

The Charter School shall immediately notify the SELPA and coordinate the procedures in this policy with the SELPA of the discipline of any student with a disability or student who the Charter School or SELPA would be deemed to have knowledge that the student had a disability.

2. Services During Suspension

Students suspended for more than ten (10) school days in a school year shall continue to receive services so as to enable the student to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the child's IEP/504 Plan; and receive, as appropriate, a functional behavioral assessment and behavioral intervention services and modifications, that are designed to address the behavior violation so that it does not recur. These services may be provided in an interim alternative educational setting.

3. Procedural Safeguards/Manifestation Determination

Within ten (10) school days of a recommendation for expulsion or any decision to change the placement of a child with a disability because of a violation of a code of student conduct, the Charter School, the parent, and relevant members of the IEP/504 Team shall review all relevant information in the student's file, including the child's IEP/504 Plan, any teacher observations, and any relevant information provided by the parents to determine:

- a. If the conduct in question was caused by, or had a direct and substantial relationship to, the child's disability; or
- b. If the conduct in question was the direct result of the local educational agency's failure to implement the IEP/504 Plan.

If the Charter School, the parent, and relevant members of the IEP/504 Team determine that either of the above is applicable for the child, the conduct shall be determined to be a manifestation of the child's disability.

If the Charter School, the parent, and relevant members of the IEP/504 Team make the determination that the conduct was a manifestation of the child's disability, the IEP/504 Team shall:

- a. Conduct a functional behavioral assessment and implement a behavioral intervention plan for such child, provided that the Charter School had not conducted such assessment prior to such determination before the behavior that resulted in a change in placement;
- b. If a behavioral intervention plan has been developed, review the behavioral intervention plan if the child already has such a behavioral intervention plan, and modify it, as necessary, to address the behavior; and
- c. Return the child to the placement from which the child was removed, unless the parent and the Charter School agree to a change of placement as part of the modification of the behavioral intervention plan.

If the Charter School, the parent, and relevant members of the IEP/504 Team determine that the behavior was not a manifestation of the student's disability and that the conduct in question was not a result of the failure to implement the IEP/504 Plan, then the Charter School may apply the relevant disciplinary procedures to children with disabilities in the same manner and for the same duration as the procedures would be applied to students without disabilities.

4. Due Process Appeals

The parent of a child with a disability who disagrees with any decision regarding placement, or the manifestation determination, or the Charter School believes that maintaining the current placement of the child is substantially likely to result in injury to the child or to others, may request an expedited administrative hearing through the Special Education Unit of the Office of Administrative Hearings or by utilizing the dispute provisions of the 504 Policy and Procedures.

When an appeal relating to the placement of the student or the manifestation determination has been requested by either the parent or the Charter School, the student shall remain in the interim alternative educational setting pending the decision of the hearing officer or until the expiration of the forty-five (45) day time period provided for in an interim alternative educational setting, whichever occurs first, unless the parent and the Charter School agree otherwise.

5. Special Circumstances

Charter School personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a change in placement for a child with a disability who violates a code of student conduct.

The Executive Director or designee may remove a student to an interim alternative educational setting for not more than forty-five (45) days without regard to whether the behavior is determined to be a manifestation of the student's disability in cases where a student:

- a. Carries or possesses a weapon, as defined in 18 USC 930, to or at school, on school premises, or to or at a school function;
- b. Knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function; or
- c. Has inflicted serious bodily injury, as defined by 20 USC 1415(k)(7)(D), upon a person while at school, on school premises, or at a school function.

6. Interim Alternative Educational Setting

The student's interim alternative educational setting shall be determined by the student's IEP/504 Team.

7. Procedures for Students Not Yet Eligible for Special Education Services

A student who has not been identified as an individual with disabilities pursuant to IDEIA and who has violated the Charter School's disciplinary procedures may assert the procedural safeguards granted under this administrative regulation only if the Charter School had knowledge that the student was disabled before the behavior occurred.

The Charter School shall be deemed to have knowledge that the student had a disability if one of the following conditions exists:

- a. The parent/guardian has expressed concern in writing, or orally if the parent/guardian does not know how to write or has a disability that prevents a written statement, to Charter School supervisory or administrative personnel, or to one of the child's teachers, that the student is in need of special education or related services.
- b. The parent has requested an evaluation of the child.
- c. The child's teacher, or other Charter School personnel, has expressed specific concerns about a pattern of behavior demonstrated by the child, directly to the director of special education or to other Charter School supervisory personnel.

If the Charter School knew or should have known the student had a disability under any of the three (3) circumstances described above, the student may assert any of the protections available to IDEIA- eligible children with disabilities, including the right to stay-

put.

If the Charter School had no basis for knowledge of the student's disability, it shall proceed with the proposed discipline. The Charter School shall conduct an expedited evaluation if requested by the parents; however the student shall remain in the education placement determined by the Charter School pending the results of the evaluation.

The Charter School shall not be deemed to have knowledge that the student had a disability if the parent has not allowed an evaluation, refused services, or if the student has been evaluated and determined to not be eligible.

(D) Procedures to Notify Teachers of Dangerous Pupils (EC 49079)

In order to fulfill the requirements made by Education Code 49079 and Welfare and Institutions Code 827 that state teachers must be notified of the reason(s) a student has been suspended. TEACH Public Schools has incorporated this notification into the existing "Attendance Reporting Screen". On the daily attendance report, when a student is suspended, will show an "S" next to the students name. The teacher can access the suspension by looking at the student's discipline screen. The information provided is for the student's current teachers only. All information regarding suspension and expulsion is CONFIDENTIAL, is not to be shared with any student(s) or parent(s). Teachers are asked to secure the list so students and others may not view it.

Pursuant to Welfare & Institution Code 827(b) and Education Code 48267, the Court notifies the Superintendent of the The TEACH Public School District regarding students who have engaged in certain criminal conduct. This information is forwarded to the site Principal. The site Principal is responsible for prompt notification of the student's teachers. Per Education Code 49079, this information must be kept confidential. This information is also forwarded to all administrators and the student's counselor.

(E) Sexual Harassment Policies (EC 212.6 [b])

Employee Prohibited Unlawful Sexual Harassment

TEACH Public Schools is committed to providing a workplace that is free of sexual harassment and considers such harassment to be a major offense, which may result in disciplinary action, up to, and including dismissal, of the offending employee.

Sexual harassment consists of sexual advances, request for sexual favors and other verbal or physical conduct of a sexual nature, regardless of whether or not the conduct is motivated by sexual desire, when: (1) submission to the conduct is either made explicitly or implicitly a term or condition of an individual's employment; (2) an employment decision is based upon an individual's acceptance or rejection of that conduct; (3) that conduct interferes with an individual's work performance or creates an intimidating, hostile or offensive working environment.

It is also unlawful to retaliate in any way against an employee who has articulated a good faith concern about sexual harassment against him or her or against another individual.

All supervisors of staff will receive sexual harassment training within six (6) months of their assumption of a supervisory position and will receive further training once every two (2) years thereafter. Such training will include information about the negative effects that abusive conduct has on both the victim of the conduct and others in the workplace, as well as methods to prevent abusive conduct undertaken with malice a reasonable person would find hostile, offensive, and unrelated to an employer's legitimate business interests. Abusive conduct includes but is not limited to repeated infliction of verbal abuse, such as the use of derogatory remarks, insults, and epithets, verbal or physical conduct that a reasonable person would find threatening, intimidating, or humiliating, or the gratuitous sabotage or undermining of a person's work performance. Supervisors shall also be trained on how to appropriately respond when the supervisor becomes aware that an employee is the target of unlawful harassment.

Other staff will receive sexual harassment training and/or instruction concerning sexual harassment in the workplace as required by law. Each employee has the responsibility to maintain a workplace free from any form of sexual harassment. Consequently, should any individual, in particular those with supervisory responsibilities, become aware of any conduct that may constitute sexual harassment or other prohibited behavior, immediate action should be taken to address such conduct.

Any employee who believes they have been sexually harassed or has witnessed sexual harassment is encouraged to immediately report such harassment to the Executive Director. See Appendix A for the

"Harassment Complaint Form." See Appendix B for the general "Complaint Form."

Sexual harassment may include, but is not limited to:

- Physical assaults of a sexual nature, such as:
- Rape, sexual battery, molestation or attempts to commit these assaults and
- Intentional physical conduct that is sexual in nature, such as touching, pinching, patting, grabbing, brushing against another's body, or poking another's body.

- Unwanted sexual advances, propositions or other sexual comments, such as:

Sexually oriented gestures, notices, remarks, jokes, or comments about a person's sexuality or sexual experience.

- Preferential treatment or promises of preferential treatment to an employee for submitting to sexual conduct, including soliciting or attempting to solicit any employee to engage in sexual activity for compensation or reward or disparate treatment for rejecting sexual conduct.
- Subjecting or threats of subjecting an employee to unwelcome sexual attention or conduct or intentionally making performance of the employee's job more difficult because of the employee's sex.
- Sexual or discriminatory displays or publications anywhere at the workplace by employees, such as:
- Displaying pictures, cartoons, posters, calendars, graffiti, objections, promotional materials, reading materials, or other materials that are sexually suggestive, sexually demeaning or pornographic or bringing to work or possessing any such material to read, display or view at work.
- Reading publicly or otherwise publicizing in the work environment materials that are in any way sexually revealing, sexually suggestive, sexually demeaning or pornographic; and
- Displaying signs or other materials purporting to segregate an employee by sex in an area of the workplace (other than restrooms or similar rooms).

The illustrations of harassment and sexual harassment above are not to be construed as an all inclusive list of prohibited acts under this policy. Moreover, please note that while in most situations a personal relationship is a private matter, these relationships are not appropriate in a professional setting, particularly where one of the parties has management or supervisory responsibilities. As such, consensual relationships in the workplace may violate LA Leadership policy.

Complainants and witnesses under these policies will be protected from further harassment and will not be retaliated against in any aspect of their employment due to their participation in an investigation, filing of a complaint, or reporting harassment.

TEACH Public Schools will investigate complaints promptly and provide a written report of the investigation and decision as soon as practicable. The investigation will be handled in as confidential a manner as possible consistent with a full, fair, and proper investigation. TEACH Public Schools is committed to remediating any instances where investigation findings demonstrate unlawful harassment has occurred.

Following exhaustion of the TEACH Public Schools complaint procedures outlined herein, employees who believe they have been harassed or discriminated against may contact state or federal agencies to file a complaint. Employees who wish to contact the California Department of Fair Employment and Housing (“DFEH”) may do so by calling (800) 884-1684 (or, TTY, (800) 700-2320). For more information about or from the DFEH, visit www.dfeh.ca.gov or you can contact the Fair Employment Housing Commission at www.fehc.ca.gov. Employees who wish to contact the U.S. Equal Employment Opportunity Commission (“EEOC”) may do so by calling (800) 669-4000 (or, TTY, (800) 669-6820). For more information about or from the EEOC, visit www.eeoc.gov. Both the DFEH and EEOC will investigate complaints of discrimination or harassment, and may attempt to resolve such complaints either by prosecuting, conciliating or settling the matter on the employee’s behalf. TEACH Public Schools will not retaliate against any employee who files a complaint with, or otherwise participates in an investigation, proceeding or hearing conducted by, the DFEH or EEOC.

Student Unwanted Sexual Harassment

1. Submission to such conduct is made either explicitly or implicitly a term or condition of a student’s academic status or progress.
2. Submission to or rejection of such conduct by a student is used as the basis of academic decisions affecting the individual.
3. Such conduct has the purpose or effect of unreasonably interfering with the individual’s academic performance or creating an intimidating, hostile or offensive educational environment.

It is the responsibility of TEACH Public Schools to:

1. Implement this policy through regular meetings with all administrators, ensuring that they understand the policy and its importance;
2. Make all faculty, staff, students, and parents aware of this policy and the commitment of the school toward its strict enforcement;
3. Remain watchful for conditions that create or may lead to a hostile or offensive school environment;
4. Establish practices designed to create a school environment free from discrimination, intimidation, or harassment.

4. Report all incidents of discrimination or harassment to the Principal;
5. If informed he/she is perceived as engaging in discriminatory, intimidating, harassing or unwelcome conduct, to discontinue that conduct immediately.

Complaint filing and investigation procedures

The following procedures must be followed for filing and investigating a harassment claim:

1. The student may first choose to tell the individual causing the harassment that his/her conduct is offensive and must stop. If the objectionable behavior does not cease immediately, the student must report the harassment to the Principal.
2. The student alleging harassment will be asked to complete a formal, written complaint. The claim will be investigated thoroughly, involving only the necessary parties. Confidentiality will be maintained as much as possible.
3. The investigation will include a meeting with the person alleged to have harassed, sharing with that person the nature of the allegations as well as the name of the person bringing the allegations. If appropriate, the alleged harasser will be placed on administrative leave during the course of the investigation.
4. Once the facts of the case have been gathered, the Principal, in consultation with the Superintendent, will decide what, if any, disciplinary action is warranted. The disciplinary action will relate to the nature, context, and seriousness of the harassment and can include all disciplinary actions up to and including immediate expulsion or termination.

5. If the complaint is against a non-employee or non-student, such as a parent, volunteer, or vendor, the school will take steps, within its power, to investigate and eliminate the problem.

(I) School Discipline Rules and Consequences (EC 35291 and EC 35291.5)

TEACH TECH Charter High School Student Conduct Code

STUDENT DISCIPLINE

The fundamental belief that was operating at the creation of TEACH and its discipline structure is that one of the major functions of education is the preparation of youth for responsible citizenship. TEACH Public Schools shall foster a learning environment that reinforces self-discipline and the acceptance of personal responsibility. In addition, all TEACH schools shall work with students and families to provide a safe school environment that provides students with the opportunity to have a quality education.

The following policies and procedures are designed to guide TEACH schools and personnel in dealing with student discipline issues, while providing students and parents with a clear set of expectations regarding student behavior and an understanding of the consequences of misconduct.

As provided in TEACH charter petition, the policies and procedures for suspension and expulsion of TEACH students set forth in this document comply with the policies and procedures identified in the California Education Code. These policies and procedures will be periodically reviewed and the lists of offenses for which students are subject to suspension or expulsion will be modified as necessary.

These policies and procedures will be enforced fairly, uniformly, and consistently without regard to sex, ethnic group, religion, sexual orientation, color, race, national origin and physical or mental disability

Discipline in General

Each school should develop a process for handling, and if necessary escalating, individual cases of student misbehavior. Strategies may include but are not limited to:

- Relocating the student’s desk to a different part of the classroom;
- Assigning different or additional work appropriate to the infraction;
- Utilizing a peer mediation or student conflict resolution program;
- Individual conversation with the classroom teacher about behavior and consequences;

- Utilizing a written referral framework;
- Designating selected classrooms and teachers (typically, lead teachers or advisors) as places for “time out”;
- Referring students to the principal or a designee;

Suspension

Suspension is the temporary removal of a student from class instruction for adjustment or disciplinary reasons. A suspension does not mean any of the following:

1. Reassignment to another class at the same school where the student will receive continuing instruction for the school day.
2. Referral to an advisor assigned that role by the Principal.

While on suspension from school, the student is not to loiter on or about any school grounds at any time, nor to attend any TEACH school activity at any time, no matter where such activity may be taking place. Violation may result in further disciplinary action.

Except in cases where suspension for a first offense is warranted in accordance with law, each school site shall consider suspension from school only when other means have not been successful or where the student’s presence would constitute a danger to persons or property or seriously disrupt the educational process.

Authority to Suspend:

1. A teacher may suspend a student only from his/her classroom for the day of the suspension plus the following school day. A teacher's suspension must be related to student safety and is subject to the approval of the principal.
2. The Principal or his/her designee may suspend a student from class, classes or the school campus for a period not to exceed five school days.
3. The President or his/her designee may extend a student’s suspension pending final decision by the School Board of Directors on a recommendation for expulsion.
4. A Special Education student being considered for expulsion may be suspended for ten (10) consecutive days pending assessment and an IEP Team meeting. The suspension may also be extended pending final decision by the School Board of Directors on a recommendation for expulsion.

A pupil may not be suspended or expelled for any of the acts enumerated unless the act is related to school activity or school attendance occurring within a school under the jurisdiction of the President or principal or occurring within any other school district. A pupil may be suspended or expelled for acts that are enumerated in the section and related to school activity or attendance that occur at any time, including, but not limited to any of the following:

Expulsion

Expulsion is the involuntary removal of a student from all schools and programs of TEACH for an extended period of time for acts of specified misconduct. Except for single acts of a grave nature, expulsion is used only when there is a history of misconduct, when other forms of discipline, including suspension, have failed to bring about proper conduct, or when the student's presence causes a continuing danger to other students. Final action is only taken by vote of the TEACH Board of Directors – Executive Committee ("TEACH Executive Committee").

In the event that a student is recommended for expulsion from TEACH Tech, he or she is entitled to a hearing and, among other things, advance written notice of the rights and responsibilities enumerated in Education Code section 48918. Written notice of these due process rights shall be provided at least 10 days in advance of the date set for the hearing. (Ed. Code 48918)

Expulsion proceedings for a currently identified Special Education student require additional due process procedures. TEACH will follow all due process procedures for Special Education students included in this document and in the Education Code.

While under expulsion, a student cannot enroll in another California school district without approval of that district's Board of Education. Certain expelled students may enroll only in Juvenile Court Schools, County Community Schools, or District operated Community Day Schools (AB922) during the duration of the expulsion.

The School Board of Directors, upon voting to expel a pupil, may suspend the enforcement of the expulsion order for a period of not more than one calendar year and may, as a condition of the suspension of enforcement, assign the pupil to a school, class, or program that is deemed appropriate for the rehabilitation of the pupil. The rehabilitation program to which the pupil is assigned may provide for the involvement of the pupil's parent or guardian in his or her child's education in ways that are specified in the rehabilitation program. A parent or guardian's refusal to participate in the rehabilitation program shall not be considered in the School Board of Directors determination as to whether the pupil has satisfactorily completed the rehabilitation program. (Ed. Code 48917)

Expellable Offenses:

Category I – Mandatory Expulsion

Under the mandatory provisions of Education Code 48915(c), a student who has committed one or more of the following acts must be recommended for expulsion and the School Board of Directors must expel the student.

- ? Possessing, selling or otherwise furnishing a firearm when an TEACH School employee verified firearm possession,
- ? Brandishing a knife at another person,
- ? Unlawfully selling a controlled substance listed in Chapter 2 (commencing with Section 11053) of Division 10 of the Health and Safety Code, or
- ? Committing or attempting to commit a sexual assault or committing sexual battery

Category II – Mandatory Recommendation for Expulsion

Under the mandatory provision of Education Code 48915(a), a student who has committed one of the following acts of misconduct must be recommended for expulsion unless particular circumstances render it inappropriate.

- ? Causing serious physical injury to another person, except in self-defense;
- ? Possession of any knife, explosive, or other dangerous object of no reasonable use to the student;
- ? Unlawful possession of any controlled substance listed in Chapter 2 (Commencing with Section 11053) of Division 10 of the Health and Safety Code, except for the first offense for the possession of not more than one avoirdupois ounce of marijuana, other than concentrated cannabis;
- ? Robbery or extortion;
- ? Assault or battery upon a school employee.

Category III – Expulsion May Be Recommended

In accordance with Education Code 48915 and by direction of the California Board of Education, a student may be considered for expulsion for committing any act not listed in Category I or II and enumerated in Education Code sections 48900, 48900.2, 48900.3, 48900.4, or 48900.7.

Note: The School Board of Director's decision to expel a student for violations included in Categories II and III must be based on a Comprehensive School Safety Plan

finding of one or both of the following:

1. Other means of correction are not feasible or have repeatedly failed to bring about the proper conduct.
2. Due to the nature of the act, the presence of the pupil causes a continuing danger to the physical safety of the pupil or others. (Ed. Code 48915(b) and 48915(e).)

Note: If the Discipline Review Board chooses not to recommend the expulsion of the student, TEACHmay, at its discretion, impose a lesser form of disciplinary action which may include assigning the student to another school or program. Such transferred students will not be permitted to re-enroll in their former school of assignment. (Ed. Code 48918(e).)

We recognize that the ultimate objective of education is to enable students to become successful, self-directed learners. This goal is best achieved in a culture of acceptance, high expectation, encouragement, support, and positive motivation. Teachers have a responsibility to maintain a positive learning environment. Discipline is a process by which students are helped to develop an understanding of, and an appreciation for appropriate behavior toward a sound learning experience. The process includes positive behavioral interventions. Any student who interferes with their right or the right of others to learn is engaging in inappropriate behavior. Inappropriate behavior is subject to disciplinary consequences. Students engaging in inappropriate behavior, or students who have conflict with another, is subject to disciplinary consequences. Our students are taught and encouraged to manage and resolve conflict on their own through positive communication skills. If after doing so, students feel that the problem is not resolved, the conflict should be reported to the teacher.

Students accomplish this through a cooperative process that includes all stakeholders, which can lead to a transformation of people, relationships, and communities.

Conduct Code Procedures

General disciplinary problems may result in disciplinary action by teachers and/or by the principal. The Principal has primary responsibility for defining the school's culture to ensure that student discipline is implemented in a fair, effective manner. Teachers handle discipline. Instructional aides and staff may assist with discipline. Instructional aides and school staff members will make every effort, individually, collectively, and cooperatively to help each student gain acceptable self-discipline standards. Students with repeated behavior problems are referred to the Student Success Team. This team includes the student, parent, teacher, principal and counselor. An action plan is developed to help the student develop constructive behavior patterns.

Administrative Consequences

Consequences are developed to accomplish the following:

- To stop the misbehavior.
- To help a student recognize that he/she can do things differently.

- f. The principal or other administrator will notify the complainant and his/her parent/guardian of the investigation's progress. (1) Unless a crime or potential criminal act is involved, the complainant may request the investigation to stop at any time. Where TEACH PS is required by law to continue, or where sufficient information has been gathered to show a problem, TPS shall move forward with appropriate corrective action without the complainant's participation. - a. A written warning
 - b. A formal written apology from the PCQ to the complainant

Safety Plan Review, Evaluation and Amendment Procedures

How was the previous plan monitored?

The plan was monitored by administration with discussion at the PBIS team meetings, team meetings, and School Site Council meetings.

What progress was made on Component I (People and Programs)?

What does the data show?

The goal for component 1 was: Students will understand and consistently follow the behavioral expectations. This included two objectives: 1) Tier 1 and Tier 2 strategies for social emotional issues will be defined and in use. 2) 70% of students receiving Tier 2 services will indicate improvement in the area of need.

Our major focus has been on defining, teaching, and reinforcing Tier 1 expectations. To do this, the following measures have been taken in the past year:

* A PBIS team was created using categorical funds to cover release days and some extra hourly costs.

* This team revised the Tier 1 expectations to: Be honorable. Be sensible. Be safe. A matrix was created that defined these expectations in all areas of the school including classrooms, common areas, hallways, and restrooms. Signs will be designed, procured and hung in all areas of campus.

* Referral processes were reviewed and revised and presented to the staff at large.

* Classroom lessons were developed to be facilitated by teachers during SSR at the beginning of the school year and to be reinforced mid-year.

* Videos were produced to review these expectations and were shared at the beginning and mid-year during SSR.

* An initial system of positive recognition was developed including "Way To Go Wednesdays" with monthly assemblies and Postcards home.

In December, a "universal assessment" was shared with the staff to identify students exhibiting externalized and internalized signs of distress in the classroom. This assessment was consolidated to identify 5 students needing Tier 2 support. We have begun to identify appropriate interventions for some of these students. These include: Check In, Check Out for two students, (one has since enrolled at another site), a boys group, and a group to support executive functioning. These have not been in place long enough to determine impact.

What progress was made on Component II (Physical Safety)?

What does the data show?

Our physical safety goal was to ensure appropriate posting was done for emergency procedures and that these were communicated to substitutes. We have met this goal. All classrooms have emergency procedure posters. We provide guest teachers a badge, and folder containing emergency procedures and general school information such as a map of the school and bell schedule when they arrive.

Component: Creating a Caring and Connected Community

People and Programs

Goal:

Goal #1 (2018-2019) Our goal is to continue to refine Tier 1 and Tier 2 strategies for Social/Emotional Issues

Objective:

Measurable Objective (2018-2019)

1. Seventy percent of students receiving receiving Tier 2 services will show improvement in the area of need
2. Student recognition assemblies will take place a minimum of twice a year

Incident Command Team Responsibilities

Standardized Emergency Response Management System Overview

The California Standardized Emergency Management System (SEMS) is designed to centralize and coordinate emergency response through the use of standardized terminology and processes. This greatly facilitates the flow of information and resources among the agencies participating in response to an emergency. SEMS consists of five functions:

A.1 INCIDENT COMMANDER

Primary Dr. Monique Woodley

Alternate Shane Ellis

The Incident Commander (IC) is responsible for emergency and/or disaster operations and shall remain at the Command Post (CP) to observe and direct all operations. You are responsible to ensure the safety of students, staff and others on campus. Lead by example; your behavior and decisions set the tone for staff and students.

Start up actions:

- Obtain your personal safety equipment; i.e. hardhat, vest, clipboard with job description sheet
- Access type and scope of emergency.
- Determine threat to human life and structures.
- Implement the Emergency Operations Plan and relevant hazard specific procedures.
- Assume the duties of ALL incident positions until staff is assigned and available.
- Activate functions (assign positions) as needed. Appoint a backup or alternate for IC.
- Assign staff to initiate check-in procedures.
- Ensure that an incident organization and staffing chart is posted and arriving staff are assigned by name.
- Ensure the Incident Command Post is properly set up and ready for operation.
- Ensure that telephone and/or radio communication with other facilities are established and tested.
- In conjunction with the Planning Section Chief, develop and communicate an incident action plan with objectives and a time frame to meet those objectives.

Ongoing operational Duties:

- Continue to monitor and assess total school situation.
- View site map periodically for Search and Rescue progress and damage assessment information.

- Establish contact with Los Angeles Unified School District, local law enforcement and/ or fire department and other agencies, as needed, to provide assistance and/ or to keep informed of school disaster status.
- Develop and communicate with Planning Section revised incident action plans as needed.
- In conjunction with the Public Information Officer, conduct press briefings and review media releases as required. Establish procedures for information releases and press briefings with other agencies who may be involved.
- Begin student release when appropriate. NOTE: No student should be released until student accounting is complete. Never send students home before the end of the regular school day unless directed by the Superintendent or his/her designee, except individuals on request of parent/ guardian.
- Utilize your alternate; plan and take regular breaks, 5-10 minutes per hour away from CP.
- Plan regular breaks for all staff and volunteers. Take care of your caregivers.
- Thoroughly brief relief staff upon shift change.
- If incident becomes a Unified Command, thoroughly brief your Co-Incident Commander(s).
- Release teachers as appropriate. By law, during a disaster, teachers become "disaster workers." Stagger teachers and staff appropriate release time to check on family and loved ones when possible.
- Remain on and in charge of your campus until redirected or released by the Superintendent or his/ her designee.

Closing Down:

- Authorize deactivation of sections, branches or units when they are no longer required.

- Suspected Contamination of Food and/ or Water
- Unlawful Walkout/Demonstration
- Windstorm
- First Aid Guidelines

Each procedure is described in detail and utilizes the school emergency management team for emergency procedures. Not every position may need to be activated on every incident. Each incident needs to be evaluated individually with appropriate response initiated depending on the complexity.

It is important to note that school administrators are responsible for the health and safety of students and staff during an emergency. Although the following procedures refer to specific actions, school administrators must exercise discretion in implementing standardized procedures, and should consider modifications as necessary to assure the health and safety of all personnel during an emergency.

Management

During an emergency, the Incident Commander directs response actions from a designated Command Post. To effectively do this, the Incident Commander must constantly assess the situation, and develop and implement appropriate strategies. The Incident Commander must be familiar with the available resources, accurately document all response actions, and effectively communicate response strategies to others participating in the response. This function is typically filled by the school principal. The principal is assisted in carrying out this function by a Public Information & Liaison Officer and Safety Officer.

Planning & Intelligence

Planning and Intelligence involves the use of various methods to efficiently gather information, weigh and document the information for significance, and actively assess the status of the emergency. This understanding and knowledge about the situation at hand is vital to the effective management of a response. These activities are performed by a single person who reports directly to the Incident Commander.

Operations

All response actions are implemented under by Operations. This includes staff performing first aid, crisis intervention, search and rescue, site security, damage assessment, evacuations, and the release of students.

Logistics

Logistics supports the response by coordinating personnel; assembling and deploying volunteers; providing supplies, equipment, and services; and facilitating communications among emergency responders.

Finance & Administration

Finance & Administration involves the purchasing of all necessary materials, tracking financial records, timekeeping for emergency responders, and recovering school records following an emergency. These activities are performed by a single person who reports directly to the Incident Commander.

Emergency Response Guidelines

Step One: Identify the Type of Emergency

Assess the situation carefully yet quickly. Is there immediate danger to staff or students? Is the danger within the building or outside the building? What is the magnitude of the event?

Step Two: Identify the Level of Emergency

What is the magnitude of the event? Is it life threatening? What needs to be done immediately to protect safety while further information is gathered?

Step Three: Determine the Immediate Response Action

Do not delay in calling 911 and the District Office. It is better to have emergency responders arrive and not be needed than to delay calling them and risk injury or harm.

Step Four: Communicate the Appropriate Response Action

Communicate clearly to staff and students what they should do immediately. Activate the emergency response team at the school as needed.

Types of Emergencies & Specific Procedures

Aircraft Crash

This procedure addresses situations involving an Aircraft Crash on or in proximity to school property. If a crash results in a fuel or chemical spill on school property, refer Biological or Chemical Release. If a crash results in a utility interruption, refer to Loss or Failure of Utilities.

Procedure

1. The School Administrator will initiate appropriate Immediate Response Actions, which may include DROP, COVER and HOLD ON, SHELTER-IN-PLACE, EVACUATE BUILDING, or OFF-SITE EVACUATION.
2. If the School Administrator issues the EVACUATE BUILDING action, staff and students will evacuate the buildings using prescribed routes or other safe routes to the Assembly Area.
3. In the event of an evacuation, teachers will bring their student roster and take attendance at the Assembly Area to account for students. Teachers will notify the Assembly Area Team of missing students.
4. The School Administrator will call "911" and the Los Angeles County Sheriff and provide the exact location (e.g., building or area) and nature of emergency. The School Administrator will call the office of the District Superintendent.
5. If on school property, the Security/Facilities Team will secure the crash area to prevent unauthorized access.
6. The School Administrator will direct the Fire Suppression and HazMat Team to organize fire suppression activities until the Fire Department arrives.
7. The First Aid/Medical Team will check injuries to provide appropriate first aid.
8. Any affected areas will not be reopened until the Fire Department or County HazMat or appropriate agency provides clearance and the School Administrator issues authorization to do so.
9. The Psychological First Aid Team will convene onsite and begin the process of counseling and recovery as appropriate.
10. If it is unsafe to remain on campus, the School Administrator will initiate an OFF-SITE EVACUATION, if warranted by changes in condition.

Animal Disturbance

Intruders/ Vicious Animals

1. Call the school main office and office staff will check out the situation and take appropriate action (i.e., contact Police or animal control agency).
2. Administration should initiate a code to alert staff of a potential suspicious intruder.
3. Keep the students in the classroom until the threat is cleared.
4. Implement shelter in place if necessary; lock classroom doors and windows, move away from windows, draw curtains, remain silent.
5. Notify office of who is with you, if possible.
6. All students outside of the building are to be quietly and cautiously led into the building.
7. Wait for further instructions from administration and/or police/animal agency.

Armed Assault on Campus

Armed Assault on Campus

Armed Assault on Campus involves one or more individuals who attempt to take hostages or cause physical harm to students and staff. Guns, knives or other harmful devices may be involved.

Procedure

1. Upon first indication or armed assault, school personnel immediately call 911. School site security team are to be notified via radio or cell phone.
2. School Administrator is notified. School Administrator assures or designates a person to remain online with Police/Sheriff if safe to do so.

3. If suspect is seen, do not engage. This could generate a hostage situation. Give 911 operator a detailed description of suspect(s). If suspect is outside, try to keep suspect outside.
4. School Administrator initiates Lockdown Procedures
5. Staff keeps everyone in an area under cover and as concealed as possible. Stay behind solid walls and doors; keep away from windows.
6. If students are in class at time of Lockdown, staff will:
 - a. Explain that there is an emergency
 - b. Lock all classroom doors
 - c. Have students lie on floor, behind or underneath solid objects
 - d. Close blinds stay away from windows
 - e. Control all cell phone activity
 - f. Remain in classroom until personally advised to move by administration or law enforcement
7. If students are not in class at time of Lockdown, staff will:
 - a. Move students to nearest available safe building, without drawing attention to self or students. If doors are locked, continue to look for a safe area.
 - b. Once inside, lock doors if possible; if lock is on outside of door, attempt secure door from inside
 - c. Follow remaining steps in item 6 above
8. Staff takes steps to calm and control students, and if safe to do so, attempt to maintain separation between students and suspect(s)
9. Maintain order in all areas of assembly or shelter, await arrival of law enforcement. Be prepared for lengthy stay of 2-4 hours.
10. All Clear signal will be made by personal notification only, after consultation with Law Enforcement Administrative Personnel on scene
11. Staff is not to act upon bells or PA messages without this personal notification

Biological or Chemical Release

Chemical Spill/ Incident

If Indoors:

1. Block or rope off area – DO NOT TOUCH ANYTHING.
2. Evacuate room and TURN OFF air conditioning system.
3. Notify school office and Head Custodian of the incident - contact 911 if necessary.
4. Head Custodian should check for chemical safety data to determine clean up procedure.

If Outdoors:

1. Upon hearing of a chemical leak (usually from the fire department or other city office) the principal will determine if students should be evacuated.
2. Move away from buildings, poles and overhead wires.
3. Close doors and windows and TURN OFF air conditioning system.
4. If it is necessary to leave the site, move crosswind, never more directly with or against the wind which may carry fumes.
5. Give first aid.
6. Staff to follow the emergency procedures previously described.

A biological or chemical release is an incident involving the discharge of a biological or chemical substance in a solid, liquid or gaseous state. Such incidents may also include the release of radioactive materials. Common chemical threats within or adjacent to schools include the discharge of acid in a school laboratory, an overturned truck of hazardous materials in proximity of the school, or an explosion at a nearby oil refinery or other chemical plant. This procedure deals with three possible scenarios involving the release of biochemical substances:

Scenario 1: Substance released inside a room or a building

Scenario 2: Substance released outdoors and localized

Scenario 3: Substance released in the surrounding community

It is necessary to first determine which scenario applies and then implement the appropriate response procedures listed below:

Scenario 1: Substance Released Inside a Room or Building

General Procedures

1. Evacuate the building
2. Notify Main Office Administration
3. Turn off all fans in the area of the release; close the windows and doors, shut down the building's air handling system

IC Responsibilities

1. Signal for the building to be evacuated
2. Call 911
3. Contact the Alliance Home Office
4. Direct School Emergency Response Team members (search & rescue team) to isolate and restrict access to potentially contaminated areas
5. Direct School Emergency Response Team members (search & rescue team) to turn off local fans in the area of the release, close the windows and doors, and shut down the building's air handling system
6. Ensure persons who have come in direct contact with the hazardous substances are washed and cleaned. See First Aid Team responsibilities.
7. Complete the Biological and Chemical Release Response Checklist
8. The School, or affected areas, will not reopen until the County HazMat or appropriate agency provides clearance to do so

Teacher/Staff Responsibilities

1. Evacuate classroom in a calm and orderly fashion. Follow general evacuation procedures.

2. Remove and contain all contaminated clothes
3. Segregate individuals that have been contaminated "topically" by a liquid from unaffected individuals (isolation does not apply to widespread airborne releases)
4. Provide additional medical attention as needed

Scenario 2: Substance Released Outdoors and Localized

General Procedures

1. Notify Main Office/Administration
2. Turn off all fans in the area of the release; close the windows and doors, shut down the building's air handling system

7. Nobody leaves their secure sites until emergency crew members escort them to safety.
8. Assigned person(s) will control and organize media.
9. Assigned person(s) will ensure that counseling services are available as soon as possible.

Bomb Threat

There are two primary ways a bomb threat may arise. One is through a phone call or written letter in which a bomb is discussed. The other is through a citing of a suspicious object. Threats should be handled quickly and efficiently as if they were real and life threatening.

If there is a phone call or written threat of a bomb on campus, the person who took the call or read the note will:

1. Notify Principal immediately.
2. Try to obtain information from the caller such as where the bomb is, where it is set to explode, what it looks like, what kind of bomb it is, why it is there and who the caller is. Note any identifying features about the caller (i.e. gender, speech patterns).

If there is a citing of a suspicious object, the person would:

1. Notify Principal immediately.
2. Do not touch the object but note any identifying features to describe it to the Principal and emergency crews.

In all cases:

1. If Principal determines to evacuate, staff follows emergency procedures previously described.
2. Before emergency crews are on campus, do not search for any bomb, or explosive. Search only for people who should be evacuated.
3. If you see any suspicious object, steer clear of it and report it to the Principal and the emergency crew chief. Follow all emergency crew and bomb squad directives.
4. Use radios, walkie-talkies and phones only if absolutely necessary as the frequencies may set off the bomb(s).

Explosion

If indoors:

1. All drop down to the floor and duck and cover.
2. Turn away from the windows.
3. Take cover under a desk or table or against an interior wall.
4. Cover head with arms or hold to the cover.
5. Hold the position until directed to the building.
6. Staff to follow the emergency procedures previously described.

If outdoors:

1. Move away from buildings, poles and overhead wires.
2. Lie down or crouch low to the ground.
3. Look out for dangers that demand movement.
4. Staff to follow emergency procedures previously described.

Death/Suicide

1. Principal will be notified in the event of a death or suicide on campus.
2. Assigned person(s) will phone 911.
3. Assigned person(s) will phone TEACH headquarters.
4. Principal will notify teachers to keep students in their classrooms until informed otherwise.
5. Assigned person(s) will control and organize media.
6. Assigned person(s) will notify relatives where the victim(s) have been taken and not divulge unnecessary details.
7. Assigned person(s) will ensure that counseling services are available as soon as possible.

Suicide Prevention

Assisting students who express suicidal wishes or engage in suicidal behaviors is essential to maintaining a safe and healthy environment for students.

1. An administrator who serves as the head of the school site shall respond to reported incidents of students expressing suicidal wishes or engaging in suicidal behaviors.
2. A preliminary assessment and referrals, as appropriate, will be completed by the designated "administrator", including a review of risk factors.
3. Parents must be informed of the student's actions or expressions of intent.

Responses to Bomb Threat is initiated upon the discovery of a suspicious package on campus grounds or receipt of a threatening phone call that present risk of an explosion.

General Procedures

1. Evacuation route should be posted in every classroom

2. Use Bomb Threat Checklist to record information about telephone bomb threats. Listen to the message without interrupting the caller. Write down the message, noting time of call, unusual background noises, and estimated age of caller, and try to keep the caller talking. Attempt to ascertain from the caller the type of bomb, location placed, time of detonation, and reason school has been targeted.
3. After caller has concluded his or her threat, hang up and immediately lift the receiver and press *69 (call trace)
4. If school has caller ID, note the number from which call was made
5. Notify Main Office Administration
6. If threat is written, place it in an envelope or plastic bag
7. Prepare media statement and flyer to inform parents

IC Responsibilities

1. Evaluate the bomb threat and determine if building evacuation is necessary
 2. If threat is deemed valid:
 - a. Call 911 – advise building is being evacuated because of a bomb threat
 - b. Activate SERT
 - c. Turn off school bell system
 - d. Don't use PA system
 - e. Turn off all two-way radios
 3. Dispatch SERT to notify each classroom of the need to evacuate the school. While completing this task, conduct a limited search of common areas of the school.
 4. In consultation with police/fire officials, determine when it is safe to reenter the school
- NOTE: Do not utilize the fire alarm system to evacuate the building

Teacher/Staff Responsibilities

1. Upon receipt of notification to evacuate the school, conduct a limited search of classrooms to determine if any strange or unknown objects are in the room
2. Proceed to pre-designated evacuation point with emergency back pack
3. Maintain control of students and advise SERT of any missing children
4. Do not reenter the building until directed to do so by a SERT member or someone in authority

Device Found

Upon discovery of a suspicious device, immediately send word to the IC. If the device is found in a classroom with students, immediately, but in an orderly manner, evacuate the classroom. UNDER NO CONDITION ATTEMPT TO TOUCH OR MOVE THE DEVICE.

IC Responsibilities

1. Upon notification of a device found:
 - a. Call 911 – advise building is being evacuated because a suspected bomb has been discovered. If possible, give a description of the device.
 - b. Activate the SERT
 - c. Turn off the school bell system
 - d. Turn off all two-way radios
 - e. Do not use the fire alarm system to evacuate the building
2. Dispatch SERT to begin the evacuation process. The order of evacuation should be:
 - a. Classroom in which the device is located
 - b. Classrooms on either side of, across the hall from, that back up to, or are directly above or below the classroom containing the device. Continue increasing the size of the evacuation until all students and staff are at a safe distance.
3. The evacuation must be conducted in an orderly and controlled manner so as not to create an unstable environment which may exacerbate the situation
4. In consultation with police/fire/bomb disposal officials, determine when it is safe to reenter the building

Teacher/Staff Responsibilities

1. Upon receipt of notification to evacuate the classroom, proceed to pre-designated evacuation location with emergency back pack
2. Maintain control of students and advise SERT of any missing or unaccounted for students
3. Do not enter the school until directed to do so by an SERT or police/fire authority

Bus Disaster

TEACH Tech Charter High School does not provide buses. In situations where buses are provided to students independent contractors are hired and responsible for student safety. TEACH PS provides the following guidelines for bus emergencies: Emergencies occur without warning and vary in their level of risk and severity. During any emergency situation bus drivers must be able to focus on all of the interrelated pieces of a particular emergency. While each situation will be different and could have many parts, the driver will need to stay focused on their responsibility and work towards providing a safe environment for all passengers regardless of their involvement in the emergency.

Use this Emergency Plan as a guide as you assess the emergency situation. It will help you determine the courses of action that will best address the threat or hazard you are facing. Bus drivers are empowered to deviate from the roles described in this plan including the order of these actions, whenever doing so is likely to reduce the risk of serious injury or death. These procedures apply to student activity trips and regular school bus routes.

Disorderly Conduct

Disorderly conduct may involve a student or staff member exhibiting threatening or irrational behavior.

Procedure

1. Upon witnessing Disorderly Conduct, staff will immediately notify the School Administrator.
2. The School Administrator will initiate the appropriate Immediate Response Actions, which may include SHELTER-IN-PLACE, LOCKDOWN, EVACUATE BUILDING or OFF-SITE EVACUATION.
3. The School Administrator will call Los Angeles County Sheriff and or other response agencies, PET Team, depending upon the assessed need and provide the exact location and nature of the incident. If determined to be appropriate, the School Administrator will call "911."
4. If an immediate threat is not clearly evident, the School Administrator or a staff member may attempt to diffuse the situation. Approach the perpetrator in a calm, non-confrontational manner and request he or she leave the campus. Avoid any hostile situations.
5. If the perpetrator is a student, an attempt should be made to notify the family. (Family members may provide useful information on handling the situation.)
6. The School Administrator will notify the District Superintendent of the situation.

Earthquake

Earthquake

If indoors:

1. DUCK or DROP to the floor on your knees and make the body as small as possible. COVER yourself under a sturdy desk, table or bench, in a hall, or stand against an inside wall.
 - a. You should be facing away from: windows; doors; glass; skylights; brick or rock faced walls; large moveable objects, such as bookcases; or outside doors and walls.
 - b. With one arm, HOLD on to a desk leg so that it will protect your head and neck and so that it will not move away from covering you; be prepared to move with it. STAY in this position for at least one minute or, in a real situation, until shaking stops. When it is safe, proceed to the assembly areas in the same manner as for Evacuation Procedures.
 - c. Rest your head on one arm and place your other arm over the base of the head and neck.
2. Turn away from windows.
3. Take cover under a desk or table or against an interior wall.
4. Cover head with arms or hold to the cover and be prepared to move with it.
5. Hold the position until the ground stops shaking.
6. When initial shaking stops, principal or office manager sounds alarms to evacuate the building.
7. Staff to follow emergency procedures previously described.

When outdoors, stay outside.

Tremors and shaking of the earth are the signals of an earthquake. The initial shock is likely to be not more than ninety seconds duration.

1. Move away from buildings and overhead wires or structures

2. Lie down or crouch low to the ground. Drop to the ground on your knees and make the body as small as possible
 - a. Face position away from: buildings, power poles and lines, trees or other overhead hazards, roads and streets, as cars may go out of control.
 - b. Cover as much skin surface as possible, close your eyes, and cover your ears. If you have a book or other similar object, place it over the base of your head and neck to protect you from flying debris.
3. When it is safe, proceed to the assembly areas in the same manner as for Evacuation Procedures
4. Look out for dangers that demand movement.
5. Be prepared to duck and cover again due to after shocks.

Staff to follow emergency procedures previously described

Walking to or from school facilities

If students are walking to or from school when an earthquake occurs, they should stay away from all buildings, trees, exposed wires, or other hazards that may fall. The safest place is in the open. Students should assume “drop, cover, and hold” position until the quake is over. After the earthquake, if on the way to school facilities, continue to school. If on the way home, continue home or return to school.

Teacher responsibilities during the evacuation

The teacher may render immediate first aid if necessary. Students with major injuries and are unable to move are to remain in the classroom (search & rescue team members or first responders will remove injured students/staff). Students with minor injuries are to be moved out of the classroom with the class.

1. Teachers check primary evacuation route for blockage and dangers such as fallen trees or electrical wires
2. If primary route is blocked, check alternate route. Do not walk under covered walkways unless absolutely necessary.
3. If both routes are blocked do not risk injury to yourself or students. Wait for help to arrive!
4. When evacuating classroom, take your emergency backpack and folder with you.
5. Check with your buddy teacher during an evacuation to ensure everyone is evacuating and assist or evacuate the class yourself if necessary
6. Door is to be left open during an earthquake disaster

Always DUCK, COVER, and HOLD when an earthquake occurs. Assess the situation and remain calm. When alerted to evacuate or have made a decision to evacuate, look for the safest route, take your emergency backpack and ID card, and escort your children to the assembly area. Check the adjacent classroom(s) and assist if necessary or evacuate the class(es). Wedge the door open if possible. Take the attendance with the Emergency Attendance Form to the evacuation site and display appropriate ‘alert card’ (Green Card = all students accounted for, Red Card = missing students and/or need assistance) from the emergency backpack.

1. Anyone who is ‘injured but mobile’ should be escorted to the assembly area
2. Anyone who is ‘severely injured and not mobile’ should be left for the search and rescue team or first responders
3. Leave all ‘dead’ where they are

All classified and support staff are to escort their students to the assembly area and return to their teacher. They will then await instruction from the IC. Office personnel are to take emergency cards, radios, and key sets with them and report to the Incident Commander for instructions.

Explosion or Risk Of Explosion

This section addresses four possible scenarios involving an explosion or risk of explosion:

Scenario 1: Explosion on school property

Scenario 2: Risk of explosion on school property

Scenario 3: Explosion or risk of explosion in a surrounding area

Scenario 4: Nuclear blast or explosion involving radioactive materials

(a nuclear blast is characterized by a sequence of intense light and heat, air pressure wave, expanding fireball, and subsequent radioactive fallout)

It is important to first determine which scenario applies and then implement the appropriate response procedures.

Scenario 1: Explosion on School Property

General Procedures

1. Call 911
2. Initiate Duck, Cover and Hold procedures
3. Consider the possibility of another imminent explosion and take appropriate action
4. After the explosion, the IC will initiate the appropriate response signal, which may include a Lockdown or Evacuation. Evacuation may be warranted in some buildings and other buildings may be used as shelter.
5. In the event of an evacuation, sound the fire alarm and everyone in the school should leave the building in a calm, orderly manner with classes led by teachers.
6. Any students separated from their classes should be incorporated into any adult-led group
7. Follow the evacuation routes established in the fire drill plan. Create a safety zone -- at least 300 feet from the building.
8. Staff without classes should monitor crosswalks or other posts to locate children that may have been separated from adult supervisors
9. Teachers should have class rosters so that each student can be accounted for once the evacuation is completed. Names of any students unaccounted for or students that have joined groups other than their own classes in the evacuation process should immediately be given to the IC.
10. The IC should formulate a list of students that could still be in danger with the assistance of other administrators or staff
11. Limit the use of electronic and motorized devices – no open flames
12. Attempt to suppress fires with extinguishers
? Note: Ensure the use of proper type of extinguishers, i.e. Class A, B or C for ordinary combustibles; Class B or C for fires involving flammable liquids; or Class C only for fires involving electrical equipment.
13. Contact the Utility company with any damage to water lines, sewers, power lines or other utilities
14. Any areas affected by the explosion will not be reopened until the City/County HazMat or appropriate agency provides clearance and authorization

Scenario 2: Risk of Explosion on School Property

General Procedures

1. Call 911
2. Determine the appropriate response signal: Lockdown (Soft) or Evacuation
3. If an evacuation is warranted, follow standard evacuation procedures in Evacuation Procedures
4. If an explosion occurs follow the procedures outlined in Bomb Threats

Scenario 3: Explosion or Risk of Explosion in Surrounding Area

General Procedures

1. The IC will initiate a Lockdown (Soft)
2. Call 911
3. Do not declare an All Clear until the appropriate authorities have given authorization to do so

Scenario 4: Nuclear Blast or Explosion Involving Radioactive Materials

General Procedures

1. The IC will initiate a Lockdown (Soft)
2. Call 911
3. Staff members should attempt to establish an adequate barrier or shielding (e.g. concrete walls, metal doors) between themselves and the source of the blast or explosion. Move students away from exterior windows.
4. After the initial blast, remove students from rooms with broken windows, extinguish fires, provide first aid, and relocate students from upper floors if possible
5. Turn off the school's main gas supply, local fans in the area, lock doors and windows, shut down all buildings' air handling systems, seal gaps under doors and windows with wet towels or duct tape, seal vents with aluminum foil or plastic wrap, and turn off sources of ignition, such as pilot lights
6. Monitor radio or television announcements and initiate further action as appropriate
7. Do not declare an All Clear until the City/County HazMat or appropriate agency provides clearance

Fire in Surrounding Area

IC will determine whether the students and staff should leave the premises, or any further action should be implemented.

Burning Clothes

If a student's or staff member's clothing catches fire, don't allow them to run! Smother the fire with a blanket, coat, rug, curtain, or other heavy fabric material. If wrapping material is not available, drop the victim to the ground and attempt to smother the fire by rolling the victim on the ground. After the fire is out treat the victim for shock (lying down, feet raised, neck supported) and cover the burned area with soaking wet cloth, sheet or blanket.

When appropriate and directed by the IC, SERT member may:

1. Turn off the gas and electricity service
2. Direct emergency vehicles to the scene
3. Make sure fire lanes are clear and gates are open

IMPORTANT: ALL SEARCH AND RESCUE, FIRE FIGHTING, OR ANY OTHER ACTIVITIES WILL CEASE IF TOXIC OR HAZARDOUS MATERIALS ARE INVOLVED. ALL PERSONNEL ARE TO EVACUATE IMMEDIATELY.

Fire on School Grounds

Fires may occur at any time in almost any structure and usually are totally unexpected. The longer a fire is undetected the more severe and dangerous it can become. A definite plan of action is needed for each occupied area to ensure that the maximum effort is made to protect the occupants and the buildings involved.

The Principal of each school shall develop a route of egress and an alternate route to be used in case of fire. These route signs shall be posted in each occupied area in a conspicuous place, preferably near the door to be used during the evacuation (place at student's eye level). Clearly identify the primary escape route.

Fire extinguishers should be used only after notifying the Fire Department and only if feasible. Fire extinguishers are intended for small fires only. In addition, the user should make sure the fire extinguisher is of the proper type for the fire before using it.

General Fire Safety

1. Ensure that all exits are clearly marked and free of clutter (this includes classroom exits)
2. Ensure the location of all fire extinguishers and pull stations is indicated on the evacuation map posted in every classroom and office.

Passage and Aisle Widths

A minimum of 36 inch free and clear passage width shall be maintained in all doorways and aisles within each classroom and office. Equipment, furniture, or materials which reduce these passageways to less than 36 inches must be relocated.

Turning off the Fire Alarm System

If for any reason it is determined that the fire alarm bell system must be silenced, a trained member of the staff must maintain a watch at the systems panel to monitor for activations of the systems detection devices. This person should have radio communications to others who can: sound an alert for evacuation if necessary; be dispatched to the area where the device has been activated to verify a fire or emergency; and to ensure that they system is not silenced and forgotten.

Fire Procedures

1. Any person discovering a fire will activate the fire alarm, call 911, evacuate the area, close doors and windows to confine the fire, or extinguish it if possible. Take your Emergency Backpack and ID card when evacuating.
2. Check with your buddy teacher during an evacuation to ensure everyone is evacuating and assist or evacuate the class yourself if necessary. All staff are to report to the assembly area and display the appropriate 'alert card' (Green Card = all students accounted for, Red Card = missing students and/or need additional assistance) in the emergency backpack.
3. The IC is to be notified immediately
4. Members of the Search Team or IC designees will report to the evacuation site before any students arrive. Team members will look for any suspicious objects or behavior (i.e. abandoned cars or objects in evacuation site) and report findings to IC. In the event of a suspicious object, team member will redirect teachers and students to alternate evacuation site.

5. The IC will form a Command Post at the evacuation site.

a. Direct that the necessary agency contacts be made

b. Teachers will immediately take roll and report any missing students to the Search Team Coordinator by using the card system. If problems exist, hold up appropriate colored card:

? Red Card - Missing Students/Need Assistance

? Green Card - All Students Present

6. The Search Team Coordinator will manage the reconciliation of all students and staff. The Search Team Coordinator is responsible for bringing the Visitor's Log and Early Dismissal Log (and any additional entry logs) to the evacuation site and reconciling attendance with these documents.

7. First aid is rendered as necessary

8. Use fire extinguisher if appropriate. While attempting to extinguish the fire, the user should keep a free exit path to his/her back to prevent being trapped by the fire. If one extinguisher does not put out the fire, do not go searching for additional extinguishers. Close off the area as best as possible, and exit the building immediately.

9. Access roads are kept open for emergency vehicles

10. IC in consultation with first responders will determine if students and staff should be moved to another area and/or begin the early release procedures

11. Students and staff will not return to the school building until fire department officials declare the area safe

Flooding

Flood/ Severe Weather

Warnings of severe weather are usually received via public radio or the State Warning Center. If time and conditions permit, students may be sent home. However, if the weather conditions develop during school hours, without sufficient warning, students should be held at school.

The principal will assess the situation and make an announcement over the PA or megaphone to A) evacuate, B) stay in classes or C) release students to go home.

See emergency procedures previously described for evacuation directions.

Loss or Failure Of Utilities

This procedure addresses situations involving a loss of water, power or other utility on school grounds. This procedure should also be used in the event of the discovery of a gas leak, an exposed electrical line, or a break in sewer lines.

General Procedures

1. Communicate with school administration when a power failure or loss of utilities in any part of the school building occurs.

2. Call 911 and provide them with location and nature of the emergency.

3. Inform the custodial staff of the situation.

4. Check elevators affected by the outage for stranded occupants. If there are stranded elevator passengers, a staff member should be assigned to stand outside on the nearest floor to facilitate communication with the person(s) inside.

5. Locate flashlights with batteries to use until power comes back on. Do not use candles – this can cause a fire.

6. Turn off sensitive electronic equipment such as computers, VCRs, and televisions.

7. Turn off major electric appliances that were on when the power went off. This will help to prevent power surges when electricity is restored.

8. Check the status of the fire alarm system. The system should have a secondary back up power supply and should be operating. This is important, as the cause of the electrical failure may be the result of an electrical fire condition.

9. Assess need for further assistance. Contact the appropriate utility company.

10. Consider the need for evacuation or early dismissal of the school on the basis of the time it will take to restore power to windowless areas, heat or air conditioning, meal preparation facilities, and water services.

11. Should the school be without electricity for an extended period, notify appropriate individuals/agencies (charter board, media)

12. As needed, school emergency supplies will be utilized to compensate for the loss of a utility

13. If the loss of utilities may generate a risk of explosion, such as a gas leak, refer to Explosion/Risk of Explosion section

Electrical Failure

1. Principal and/or custodian notify the electrical company.

2. Office staff and classroom teachers turn off computers and other equipment that might be damaged by a power surge when the service is restored.

Gas Line Break

1. Principal and/or custodian notify Local Gas Company.
2. Principal and/or custodian notify the Fire Department.
3. Staff to follow the emergency procedures previously described.

Water Main Break

1. Principal and/or custodian notifies the water department.
2. Custodian shuts off water.
3. Principal or notifies the police.
4. Principal determines if it is necessary to follow the emergency procedures on page 6 to evacuate students and staff.

Water Contamination

1. Instruct teachers to move students away from drinking fountains and sinks.
2. Notify school office and TEACH headquarters.
3. Have custodian turn off pressure to drinking fountains and sinks.

Motor Vehicle Crash

This procedure addresses situations involving a motor vehicle crash on or immediately adjacent to school property. If a crash results in a fuel or chemical spill on school property, refer to the Biochemical or Chemical Release section.

General Procedures

1. Based on the location and extent of the crash, the IC will declare a Lock Down – Response or evacuation
2. If an evacuation is declared, students and staff will follow standard evacuation procedures. IC will determine safest location for evacuation site.
3. Call 911
4. The IC will direct members of the School Emergency Response Team (search & rescue) will secure the area surrounding the crash to prevent unauthorized access, until the police arrive
5. The IC will direct the search & rescue team to perform fire suppression activities, if necessary, until the fire department arrives
6. The IC will direct the first aid team to check for injuries and provide appropriate first aid

Psychological Trauma

Crisis management at TEACH PS specifies actions during and subsequent to any emergency that may have a psychological impact on students and staff. Emergencies like those described above usually produce one or more of the following conditions:

- Temporary disruption of regular school functions and routines.
- Significant interference with the ability of students and staff to focus on learning.
- Physical and/or psychological injury to students and staff.
- Concentrated attention from the community and news media.

As a result of such emergencies, students and staff may exhibit a variety of psychological reactions. As soon as the physical safety of those involved has been insured, attention must turn to meeting the emotional and psychological needs of students and staff. Contact the Director of Student Services at the TEACH Tech for specific procedures relating to crisis management.

Procedure

1. The School Administrator will activate the School Psychological First Aid Team, (Principal, School Counselor, Parent?Family Coordinator, RSP Teacher) which has primary responsibility for providing necessary assistance after all types of crises.
2. The Psychological First Aid Team will assess the range of crisis intervention services needed during and following an emergency. The Team may determine the need for additional psychological support and will contact the Superintendent to request additional mental health support.
3. The Psychological First Aid Team will provide direct intervention services.
4. The Psychological First Aid Team will advise and assist the School Administrator to restore regular school functions as efficiently and as quickly as possible.
5. In performing their duties, the Psychological First Aid Team members will limit exposure to scenes of trauma.
6. The Psychological First Aid Team should isolate students demonstrating externalized behavior.
7. The Psychological First Aid Team will provide ongoing assessment of needs and follow-ups services as required for both student and staff.

Suspected Contamination of Food or Water

This procedure should be followed if site personnel report suspected contamination of food or water. This procedure applies where there is evidence of tampering with food packaging, observation of suspicious individuals in proximity to food or water supplies, or if notified of possible food/water contamination by District staff or local agencies. Indicators of contamination may include unusual odor, color, taste, or multiple employees with unexplained nausea, vomiting, or other illnesses.

Procedure

1. The School Administrator will isolate the suspected contaminated food/water to prevent consumption, and will restrict access to the area.
2. The School Administrator will notify the District Office, Director of Food and Nutrition Services(Office Manager). Administrator will determine if they need to call "911."
3. The School Administrator will make a list of all potentially affected students and staff, and will provide the list to responding authorities.
4. The First Aid/Medical Team will assess the need for medical attention and provide first aid as appropriate.
5. The School Administrator will maintain a log of affected students and staff and their symptoms, the food/water suspected to be contaminated, the quantity and character of products consumed, and other pertinent information.
6. The School Administrator will notify the District Superintendent to determine necessary follow-up actions including the need to notify other potentially affected district facilities.
7. The School Administrator and the District Superintendent will confer with the County Department of Health Services before the resumption of normal operations.
8. The School Administrator will notify parents of the incident, as appropriate.

Water Contamination

1. Instruct teachers to move students away from drinking fountains and sinks.
2. Notify school office and TEACH headquarters.
3. Have custodian turn off pressure to drinking fountains and sinks.

Unlawful Demonstration or Walkout

Principal stays on site to supervise students

- Talk to students as they leave campus if this is manageable--do you understand that you will be marked absent? Do your parents know you are leaving campus and will be unsupervised?
- AP or APs, and campus supervisor(s) depending on the size of the crowd walk with students to protect their safety.

Board of Directors

The Board of Directors of TEACH Public Schools is a policy-making board which oversees the fundamental aspects of the School. ANNUAL NOTIFICATION AND GUIDELINES

This Student Family Handbook enumerates sections of the Education Code that require annual parent guardian notification. (Education Code 48980[a])

California state law governs the basic operation of public schools, and the legislature regularly passes new laws affecting the quality and availability of education, as well as laws mandating that local school districts undertake new responsibilities.

These laws often require that TEACH adequately inform parents of the opportunities and protection to which they are entitled. TEACH complies with this by providing families with this Annual Notification in the Student Family Handbook at the beginning of each school year and by issuing the same publication to new families as they enter TEACH schools during the year.

The following contains a summary of state law provisions with which all parents and guardians should be familiar. In some cases, the laws have been summarized, and the precise code number has been provided should parents require more detailed information. "Education Code" is the area of state law that affects education most directly.

The Student Family Handbook will be published annually. All registered families of TEACH Public Schools will indicate their willingness to be governed by the Student Family Handbook by signing annually a written statement to that effect. The Administration reserves the right to amend the Handbook at any time for just cause. Parents of TEACH Public Schools students will be notified of the changes, in writing, in a timely manner.

From the Principal

Dear TEACH Tech Students, Parents, Teachers and Community Members,

My name is Dr. Monique Woodley and I am excited to serve as principal at TEACH Tech Charter High School! I am committed to executing our mission of providing students with the tools for personal and academic success in a safe, technologically-focused learning environment.

I am beginning my thirteenth year in Education, I have eight years of school administration experience (as a principal and an assistant principal). I also have experience as a teacher and a professor. I am a Los Angeles (L.A) native. My parents migrated to L.A from Belize in Central America. From a young age they instilled diligence and perseverance in me. I received both my Bachelor's degree in English and my Master's degree in Education from USC. After seeing a small percentage of minorities at USC I decided to give back to my community by becoming a teacher and help more minority students become prepared to enter four-year universities.

I strongly believe in lifelong learning and its ability to shape, transform and strengthen individuals - so you can count on me to ensure that your son/daughter is prepared for college and beyond. More specifically, by the time your child graduates we will have:

1. Prepared him/her for academic success in high school; as well as, post-secondary education
2. Prepare him/her to be responsible and active participants in their community
3. Enable him/her to become life-long learners

This school year our instructional focus will be on critical thinking. Ideally, we want your child to be able to state a claim and justify their reasoning with evidence. They will need these skills in college and in their career.

We will also be implementing Project Based Learning into your child's learning experience. Project-based learning (PBL) is a student-centered pedagogy that involves a dynamic classroom approach in which it is believed that students acquire a deeper knowledge through active exploration of real-world challenges and problems.

To accomplish all of our school goals I will be reviewing teacher lessons and conducting daily teacher observations. I look forward to working with all stakeholder groups to accomplish our school's vision and mission. Please contact me if you have any questions or concerns my email is mwoodley@teachps.org and my phone number is (213) 800-2526.

Dr. Monique Woodley
Principal
TEACH Tech Charter High School

Sincerely,

Monique Woodley
Principal

To ensure the safety of students and staff as well as to minimize interruption of the instructional program, the school has established the following procedures, pursuant to California Penal Code Sections 627, ET. seq., to facilitate visits during regular school days:

1. Visits during school hours should first be arranged with the teacher, Principal, or designee, at least three days in advance. Parents seeking to visit a classroom during school hours must first obtain the written approval of the classroom teacher, Principal, or designee.

3. The Principal, or designee, may refuse to register an outsider if he or she has a reasonable basis for concluding that the visitor's presence or actions would disrupt the school, its students, its teachers, or its other employees; and/or would result in damage to property; would result in the distribution or use of unlawful or controlled substances.
4. The Principal or designee may withdraw consent to be on campus even if the visitor has a right to be on campus whenever there is reasonable basis for concluding that the visitor presence on school grounds would interfere or is interfering with the peaceful conduct of the activities of the school, or would disrupt or is disrupting the school, its students, its teachers, or its other employees.
5. The Principal or designee may request that a visitor who has failed to register, or whose registration privileges have been denied or revoked, promptly leave school grounds. 2. Further conduct of this nature by the visitor may lead to the school's pursuit of a restraining order against such visitor, which would prohibit him/her from coming onto school grounds or attending school activities for any purpose for a period of three (3) years.

Volunteers

Volunteers must come to the office and sign in and sign out when volunteering. A volunteer badge must be worn while on campus. Additionally, all volunteers are required to take a TB test prior to volunteering on campus and have the results on file with the Office.

Telephone and Cell Phones

The telephone is to be used for business only. If a student needs to place a call, he/she may do so with the permission of a teacher or other adult in the office. If it is necessary for a parent/guardian to call, the message will be relayed to the student as soon as possible. No student will be called out of class to talk on the phone, except in cases of a life or death emergency. All students carrying cellular phones to school will be responsible for leaving their phone in a locked "cell phone bin" which is kept in a secure location, before the start of the school day. All students are subject to random search upon entry to the TTCHS campus. Please be aware that students will not be excused for any tardiness due to this policy. Phones can then be retrieved at the conclusion of the school day. Students in possession of any personal electronic device, including but not limited to: cellular phones, smartphones, smartwatches, tablets, game systems, laptops, are not permitted on campus during the school day without the express prior permission of TTCHS administration. Any student who brings an electronic device to school without following the proper procedure for electronic devices, will have their electronic device confiscated. Confiscated devices will only be released to a parent/guardian or another adult already listed on the student's emergency card the first time the student violates the policy. A second violation results in an in-person parent, student, administration conference to discuss the TTCHS electronic device policy. A third violation will result in the student's device being held by TTCHS administration until the last day of the current semester.

Infractions and consequences are based on a school year unless otherwise noted.

Physical Education

Students are required to participate in daily physical education activities. A varied program provides for participation geared toward individual growth and development. If a student is recovering from a minor illness, he/she may be excused from physical education for one to three days in a semester at the parent's request. Parents will sign off at the beginning of the school year (see insert at the end of the handbook)

Students must wear the TTCHS physical education uniform during all physical education classes.

Students excused from physical education, due to medical reasons, will be required to complete and to submit written work assigned by the physical education instructor.

Students excused from physical education, due to medical reasons, may not participate in an athletic event that day.

Student Code of Internet Conduct

The Internet is an exciting and powerful tool for students to research for both academic assignments as well as their own personal interests. As part of our curriculum, pupils have controlled access to the Internet and learn how to use libraries, databases and informational sources on a wide variety of topics. We recognize that some inappropriate material on the Internet may be accessed intentionally or by accident. To guard against this we will use a filtered service from a reliable software provider which regularly monitors web sites.

We will teach students the importance of responsible use of the web and e-mail as well as providing basic rules to maintain the privacy of students. At all times, pupils must agree to follow the Student Code of Internet Conduct summarized below.

1. Access to the Internet at TEACH is for educational purposes.
2. Students will not use the internet system here at TEACH to access material in violation of the following standards:
 - Prohibited Material: any material that appeals to a prurient interest and material that promotes or advocates illegal activities.
 - Restricted Material: sites that contain personal advertisements or facilitate making online connections with other people are restricted unless the school has approved such sites.
 - Limited Access Material: material that is generally considered to be non-educational or entertainment.
 - Limited Access Material may be accessed in the context of specific learning activities that are directed by a teacher or during periods of time that a school may designate as "open access" time. This includes such material as electronic commerce, games, jokes, recreation, entertainment, sports and investments.
3. Students will not disclose your full name or any other personal contact information for any purpose.
4. Students will not disclose names, personal contact information, or any other private or personal information about other students under any circumstances.
5. Students will promptly disclose to their teachers or other school staff any message they receive that is inappropriate or makes them feel uncomfortable. Students should not delete such messages until instructed to do so by a staff member.

Student Recruitment

Students are considered for admission without regard to ethnicity, national origin, gender, disability or sexual orientation. With the exception of proof of immunizations (or acceptable legal alternative), an enrollment application, and birth certificate, no requirements for admission exist. There will be no test or interview as a condition to enrollment in School Name Charter School. No Tuition will be charged. School Name is nonsectarian.

Application Process

The application process is as follows:

1. Parent attendance at a school orientation meeting
2. Completion of the student enrollment forms
3. Parent signature of School Contract
4. Proof of Immunizations

Applications of Admission

Applications will be accepted during a publicly advertised open enrollment period each spring for the following school year. Following the open enrollment period each year, applications shall be counted to determine whether any grade level has received more applications than availability. In the event that this happens, School Name will hold a public random drawing to determine enrollment for the impacted grade level, with the exception of existing students (2nd year forward) who are guaranteed enrollment in the following school year. All individuals who have contacted School Name regarding enrollment will be notified of the time and place of the lottery and will be encouraged to attend. All prospective students who have completed the enrollment process will have their names entered into the lottery. Names will be drawn at random until the grade level is filled. Once a grade level is drawn to capacity, applications will continue to be drawn for position on a wait list. This wait list will allow students the option of enrollment in the case of an opening during the school year. In no circumstance will a wait list carry over to the following school year. In all situations, siblings will have first consideration.

Academic Program

Our academic program offers a fully inclusive curriculum that puts all students on track for academic proficiency and eventual college success. The school's curriculum framework is developed for 9-12 grades with the explicit purpose of helping all students reach grade-level proficiency and beyond by the end of 12th grade. The school model pulls together curricular and instructional practices proven most effective with a strong emphasis on low achieving students who are struggling academically in the traditional school setting. All teaching and learning is directed toward student mastery of the California State Standards as well as key college-prep skills, learning strategies, and work habits crucial for long-term academic success.

Our students will move through an age-appropriate curriculum for English-Language Arts, Mathematics, History- Social Studies, Science, and Visual/Performing Arts at each grade level. Spanish, French, and Visual Arts will be among electives

available to students who have gone through the remediation courses and subsequently need significantly less time for literacy and numeracy remediation.

Our Extended Day- Extended Year

Our extended daily schedule offers additional academic programming and culture-building, character-building, personalized support systems, and activities to help students develop the personal skills and resilience they need for college and life success.

- Tutoring - After –school classes where students receive individual guided practice and homework assistance from teachers and tutors. The Tutoring period is explicitly designed to respond to student achievement data and target student areas of difficulty. Students will also be coached and given the opportunity to practice the learning strategies and work habits that they encounter in their regular course work. For those students needing further intervention, one-on-one tutoring and supplementary remedial instruction may be provided.
- Saturday Academies - students receive additional coaching and practice time to learn school culture and master key standards. The Saturday sessions will occasionally include team-building and college-related activities, along with arts and enrichment programs including practices reflecting Howard Gardner's 'eight intelligences', as well as restorative programs for behavior intervention.
- Summer Session _ Summer programs will provide critical support for struggling students as well as acceleration and enrichment opportunities for students who have reached grade-level proficiency.

Report Cards & Progress Reports

All grades can be accessed through our online grading system, and parents can contact teachers to request any one on one meeting to discuss the student’s grades and assignments. Progress Reports will be prepared for each student twice a semester, with a Final Semester Report cards will be printed twice a school year.

Grading System

TEACH Tech follows standards-based grading practices to determine the student’s overall final grade that is recorded at the end of each semester. Students will be evaluated on their overall proficiency of the high-priority standards associated with this course. The teacher will evaluate student work and assessments to determine their skill level and assign a score of 1-4 based on the scale below. The overall grade will be determined by averaging the scores on the high-priority standards.

- Evidence of student learning can be captured using classroom work (formative) and benchmark tests (summative).
- Students are graded on mastery of the required California Standards. The comprehensive report cards at the end of each academic semester is information to parents about the student's performance in the core curriculum subjects and related elective courses.

Incident reports and records shall not identify the student who reported the possession. The strategy shall also include means of informing staff, students and parents/guardians that students who report the presence of injurious objects on school campuses are to be protected and their identity shielded.

Discipline

TEACH Tech Charter High School (TTCHS) believes that learning best occurs in an environment that consistently incorporates Character Education, and Discipline into a sound academic program. With that in mind, all students and their parents must sign the TTCHS PBIS contract which holds our students to a high standard of personal conduct. We believe that discipline and learning are directly related. Given the proper environment, we believe that children exhibit their best learning in appropriate ways. In a joint effort of parents and school, students of School Name are taught and expected to follow the discipline guides as set forth by the School 's Board of Directors:

TTCHS believes that all children can learn when taught well. We recognize that the ultimate objective of education is to enable students to become successful, self-directed learners. This goal is best achieved in a culture of acceptance, high expectation, encouragement, support, and positive motivation. Teachers have a responsibility to maintain a positive learning environment. Discipline is a process by which students are helped to develop an understanding of, and an appreciation for appropriate behavior toward a sound learning experience. The process includes positive behavioral interventions. Any student who interferes with their right or the right of others to learn is engaging in inappropriate behavior. Inappropriate behavior is subject to disciplinary consequences. Students engaging in inappropriate behavior, or students who have conflict with another, is subject to disciplinary consequences. Our students are taught and encouraged to manage and resolve conflict on their own through positive communication skills. If after doing so, students feel that the problem is not resolved, the conflict should be reported to the teacher.

General disciplinary problems may result in disciplinary action by teachers and/or by the principal. The Principal has primary responsibility for defining the school's culture to ensure that student discipline is implemented in a fair, effective manner. Teachers handle discipline. Instructional aides and staff may assist with discipline. Instructional aides and school staff members will make every effort, individually, collectively, and cooperatively to help each student gain acceptable self-discipline standards. Students with repeated behavior problems are referred to the Student Success Team. This team includes the student, parent, teacher, principal and counselor. An action plan is developed to help the student develop constructive behavior patterns.

Restorative Justice

At TEACH, we believe in working with students in order for them to repair any harm that they may have caused to others through words or actions. Students accomplish this through a cooperative process that includes all stakeholders, which can lead to a transformation of people, relationships, and communities.

Health and Safety

Emergency Numbers

For the safety of every child, it is very important that parents complete the Emergency Card providing the school with an emergency telephone number so that someone may be notified in case of an emergency. This card should be signed and dated. The card will be maintained on file to use in the event of an emergency.

If no telephone is in the home, a telephone number of a relative or family friend must be provided. Any change in address, telephone number, parent's work, physician, or name of the person or persons authorized to pick the child up if the parent is ill or injured should be reported to the office immediately.

Accidents

Although School Name makes every reasonable effort to prevent student accidents and injuries, accidents occur. The Principal or designee shall develop procedures to ensure that first aid and/or medical attention is provided as quickly as possible and that parents/guardians are notified of accidents. Universal precautions shall be observed whenever it is possible that students, employees or others may have contact with blood or body fluids as a result of the accident. School Name staff shall appropriately report and document student accidents.

Health Services

TEACH Tech Charter High School is regulated by the State Department of Health Services. All facility inspection reports are available upon request. The health and safety of each student is the foremost responsibility of the school. Health services will be made available to any student needing it. If a student becomes ill at school, and needs assistance, he/she should inform the teacher to receive a referral to go to the office. All injuries must be reported to the teacher. If injuries occur after school they must be reported to the After School Director, after school aide or to the Principal.

Physical Examinations

All pupils are to have completed a health screening examination on or before the day after the pupil's entrance into first grade or such pupils must have obtained a waiver pursuant to Health and Safety Code Section 124085. This examination can be obtained from your family physician or possibly through the services provided by your County Health Department. Information and forms are distributed to pupils enrolled in kindergarten.

Failure to obtain an examination for your child or a waiver will result in your child being denied enrollment.

If your child's medical status changes, please provide the office with a physician's written verification of the medical issue, especially if it impacts in any way your child's ability to perform schoolwork.

Communicable, Contagious, or Infectious Disease Prevention Policy

TEACH Tech Charter High School recognizes its shared responsibility with the home and the community to promote appropriate disease prevention procedures in the handling and the cleaning up of blood and body fluids.

The Board desires to protect the entire school community without segregation, discrimination or stigma. Accordingly, infectious disease prevention shall be taught regardless of whether a student or adult is known to have an identified infectious disease. All students and employees shall be provided appropriate periodic instruction in basic procedures recommended by the State Department of Education and other public health agencies and associations.

Incidence and transmission of communicable diseases will be further limited through a rigorous program of immunization and health screening required of all students, faculty, and staff. (See "Immunizations I Physical Exams" Policy) Students found to have communicable diseases will be included in all activities deemed by a physician to present no hazard of infection to other students.

Science Laboratory Instruction

Students involved in science laboratory experiences shall be protected from contamination from body fluids of other persons and from contaminated instruments. Whenever possible, laboratory experiences involving body fluids will be conducted by way of teacher demonstration rather than by student participation.

Injuries and Accidents

Whenever exposed to blood or other body fluids through injury or accident, students and staff should follow the latest medical protocol for disinfecting procedures. (See "Blood borne Pathogen Exposure Control Program" Policy)

Illness

If a child is ill he or she **MUST NOT BE SENT TO SCHOOL**. Students who contract a contagious disease such as pink eye, chicken pox, ringworm, impetigo, head lice or other such conditions **SHALL NOT ATTEND SCHOOL**. The child must remain at home until he or she is no longer contagious and declared healthy by a health professional. A doctor's note is required for the student to return to school.

Medication at School

Students are not permitted to carry medication (including inhalers for asthma). If a doctor's note is on file, the Office manager will be permitted to dispense the medication to the student.

The Office Manager and the student's teacher must be informed of any prescription medication that a student is required to take at school. To dispense prescription medication to students, the school must receive a written order from the student's doctor and a permission slip from the student's parent. These notifications must remain on file at the school for duration of time that the student is required to take the medication. All medication should be brought to the office manager by the parent/guardian in its original prescription container, labeled with the student's name, the name of the medication, the date of expiration, and the proper dosage. If medication needs to be administered to the child when the Office manager is not present, a trained staff member will administer the medication.

Administration of Medications

TEACH Tech Charter High School (TTCHS) staff is responsible for the administration of medication to students attending school during regular school hours. It is imperative that practices followed in the administration of medication be carefully delineated to ensure the safety of our students and the legal protection of our employees. Any pupil who is required to take, during the regular school day, medication prescribed for him or her by a physician or surgeon, may be assisted by designated school personnel or may carry and self-administer prescription auto-injectable epinephrine if the School Name receives the appropriate written statements

In order for a pupil to carry and self-administer prescription auto-injectable epinephrine, TTCHS shall obtain both a written statement from the physician or surgeon detailing the name of the medication, method, amount, and time schedules by which the medication is to be taken, and confirming that the pupil is able to self-administer auto-injectable epinephrine, along with a written statement from the parent, foster parent, or guardian of the pupil consenting to the self-administration, providing a release for the designated school personnel to consult with the health care provider of the pupil regarding any questions that may arise with regard to the medication, and releasing TTCHS and school personnel from civil liability if the self-administering pupil suffers an adverse reaction as a result of self-administering medication.

In order for a pupil to be assisted by designated school personnel, School Name shall obtain both a written statement from the physician detailing the name of the medication, method, amount, and time schedules by which the medication is to be taken and a written statement from the parent, foster parent, or guardian of the pupil indicating the desire that School Name assist the pupil in the matters set forth in the statement of the physician.

Guidelines:

- The primary responsibility for the administration of medication rests with the parent/guardian, student and medical professional.
- Medication shall be administered only during school hours if determined by a physician to be necessary.
- Designated staff shall keep records of medication administered at the school.
- All medication will be kept in a secure and appropriate storage location and administered per physician's instructions by appropriately designated staff.
- Designated staff shall return all surplus medication to the parent/guardian upon completion of the regimen or prior to summer holidays.
- Designated staff shall establish emergency procedures for specific medical conditions that require an immediate response (i.e. allergies, asthma, diabetes).
- The written statements specified in this policy shall be provided at least annually and more frequently if the medication, dosage, frequency of administration, or reason for administration changes.
- A pupil may be subject to disciplinary action if that pupil uses auto-injectable epinephrine in a manner other than as prescribed.

Medication Policy

The following procedures will be in effect for the monitoring and use of medication at school:

- Medication will only be allowed at school when failure to take medication could jeopardize the health and/or educational abilities of the student.
- Medication is restricted to students with long-term chronic illnesses or disabilities including, but not limited to, diabetes, attention disorders, asthma, seizure activity, epilepsy, cystic fibrosis, cardiac, neurological, and endocrine disorders. Any other medications should be given by parents/guardians before and/or after school hours.
- No medicines may be administered at school unless directed by a doctor.

- The student must have a medical form completed by the attending physician and his/her parents or guardian on file with the school office.
- All medicine must be in a labeled prescription container and must be kept in the designated place in each building. All asthma inhalers should be kept in the office (labeled) unless a note from a doctor states the inhaler should be kept on the person
- Instructions for dispensing, as well as a date, must be on the container
- Students are expected to take their medication during passing times or lunch times.
- Students are to remember the conditions under which they are to request their medicine.
- Teachers or other personnel are not required to administer the medicine. They may, however, supervise the student taking the medicine.

Guidelines to Help Promote a Healthy Environment

Children are most vulnerable to contracting diseases while in school because of the close contact they maintain. While we cannot prevent this from occurring, with your help we can implement some simple guidelines to help promote a healthy environment.

1. Teach your child the importance of correct hand washing as a means of preventing the spread of germs.
2. Proper disposal of tissues and covering one's mouth when coughing also prevents germs from circulating.
3. If your child is coughing excessively, keep him or her home to prevent exposure to other children.
4. A child should be fever free for 24 hours before returning to school. Temperature may indicate the onset of an illness.
5. A child should remain home if he or she has vomited or experienced diarrhea within a 24-hour period.
6. Communication is essential to maintaining a healthy environment. Please report any contagious diseases your child has been diagnosed to have (e.g., strep throat, chicken pox, pink eye, etc.). The more we know, the better prepared we are to keep your child on the road to good health. When necessary, notices containing information regarding health matters will be sent home

First Aid, CPR, and Health Screening

TEACH Tech Charter High School (TTCHS) recognizes the importance of taking appropriate preventive or remedial measures to minimize accidents or illness at school or during school-sponsored activities. To this end, TTCHS expects parents/guardians to provide emergency information and keep such information current in order to facilitate immediate contact with parents/guardians if an accident or illness occurs.

Within the TTCHS facilities, a First Aid Kit containing appropriate supplies will be present. First aid will be administered whenever necessary by trained staff members. When necessary, the appropriate emergency personnel will be called to assist.

All teachers are to be certified in adult and pediatric CPR and First Aid and be recertified prior to expiration of certificates. Opportunities for adult and pediatric CPR and First Aid training will be offered to all support staff and volunteers.

Resuscitation Orders

School employees are trained and expected to respond to emergency situations without discrimination. If any student needs resuscitation, staff shall make every effort to resuscitate him/her. Staff members are prohibited from accepting or following any parental or medical "do not resuscitate" orders. School staff should not be placed in the position of determining whether such orders should be followed, and such Advance Directives shall not be communicated to staff. The Executive Director, or designee, shall ensure that all parents/guardians are informed of this policy.

Head Lice

To prevent the spread of head lice infestations, TEACH Tech Charter High School employees shall report all suspected cases of head lice to the school nurse or designee as soon as possible. The nurse, or designee, shall examine the student and any siblings of affected students or members of the same household. If nits or lice are found, the student shall be excluded from attendance and parents/guardians informed about recommended treatment procedures and sources of further information.

The Principal, or designee, shall send home the notification required by law for excluded students. If there are two or more students affected in any learning center, an exposure notice with information about head lice shall be sent home to all parents/guardians of those students.

Staff shall maintain the privacy of students identified as having head lice and excluded from attendance. Excluded students may return to school when reexamined by the nurse, or designee, shows that all nits and lice have been removed.

Releasing Students

If a student becomes too ill to remain in school, a staff member will contact the parents by telephone. The parent is required to pick the child up or arrange for the child to be picked up by an authorized person. Parents must have the name and contact telephone number of an authorized person on the emergency card.

TEACHERS ARE NOT PERMITTED TO RELEASE CHILDREN WITHOUT OFFICE APPROVAL.

Parents or guardians who wish to take students home before regular dismissal time must come to the school's office for an official release from class. If a student has a specific medical condition, health problem or security need, this information must be reported in writing at the time of enrollment or as soon as it is known, so that appropriate accommodations can be made for the student.

Fire and Earthquake Drills

Fire and earthquake drills will be conducted throughout the year. Students are expected to follow teacher instructions.

Student Supports and Protections

Section 504 Plan

Section 504 of the Rehabilitation Act of 1973, states that no otherwise qualified handicapped individual in the United States...shall, solely by reason of his handicap, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance. (29 USC 794)

- Compliance monitored by the Office of Civil Rights.
- Applies to all institutions receiving federal financial assistance, such as public schools.
- Schools are obligated to provide a "free appropriate public education" (FAPE) to children with a disability.

Section 504 prohibits discrimination while assuring that disabled students have educational opportunities and benefits equal to those provided to non-disabled students. If you would like to know more about 504 Plans or other types of assistance available to your student, please contact your Principal.

Special Education Determination for eligibility for special education and services may come from teachers, parents, agencies, appropriate professional persons, and from other members of the public. Special Education referrals will be coordinated with school site procedures for referral of students with needs that cannot be met with modifications of the regular instructional program, including referrals from student intervention teams, such as the Student Study Team (SST). A student shall be referred for special education and services after the resources of the regular education program have been considered and, where appropriate, utilized.

Student Study Team (SST)
 The Student Study Team is an efficient and effective way to bring together all resources, human and programmatic, to support students having difficulties in regular classes. This is a concentrated solution-seeking meeting where all the needed persons, including the student and parent, are present at the same time. The SST is an expression of the school's concern for students and provides a supportive atmosphere for students to become actively involved in determining their own needs and in implementing strategies designed to help them. The SST meets to determine what assistance is needed for students who have learning difficulties or who have repeated behavior problems. The team consists of the principal, teacher, parent and others associated with the student's area of need.

Parents

Parent Involvement

A key piece of the school culture to support achievement for all students is a process of continuous communication and collaboration with families. As the student moves through the school year, his/her progress toward individual goals is carefully tracked and shared monthly with families through the means of a Personalized Learning Plan.

Therefore, parental involvement at TEACH Tech Charter High School is required. Our Parents are encouraged to participate individually and as a group for the benefit of the school.

Parent Participation

- Enhances the quality of education children receive
- Provides for greater integration of the educational program
- Promotes better understanding between parent and teacher, between parent and child; between home and school; and between school and the community.
- Parental involvement plays an important role in the life of the school and in the resolution of classroom behavior issues.

Required Parental Attendance

The Board of Directors of School Name believes that parental involvement plays an important role in the life of the school and in the resolution of classroom behavior problems. The Board expects that teachers will communicate with parents/guardians when behavior problems arise.

Whenever a student is removed from a class because he/she committed an obscene act, engaged in habitual profanity or vulgarity, disrupted school activities or otherwise willfully defied valid school authority, the teacher of the class from which the student was removed may provide that the student's parent/guardian attend a portion of a school day in that class. After completing the classroom visit and before leaving school premises, the parent/guardian shall also meet with the school Principal or designee.

The Board of Directors encourages teachers, before requiring parental attendance, to make reasonable efforts to have the parent/guardian visit the class voluntarily. The teacher may also inform the parent/guardian about available resources and parent education opportunities. Teachers should reserve the option of required parental attendance for cases in which they have determined that it is the best strategy to promote positive interaction between the student and the parent/guardian and to improve classroom behavior.

The teacher shall apply this policy uniformly to all students within the classroom. This policy shall apply only to a parent/guardian who lives with the student.

Parental attendance may be requested on the day the student returns to class or within one week thereafter. The Principal

or designee shall contact any parents/guardians who do not respond to the request to attend school. The Board recognizes that parental compliance with this policy may be delayed, modified or prevented for reasons such as serious illness/injury/disability, absence from town, or inability to get release time from work.

ii. A security deposit, or other payment, that a pupil is required to make to obtain a lock, locker, book, class apparatus, musical instrument, uniform or other materials or equipment.

iii. A purchase that a pupil is required to make to obtain materials, supplies, equipment or uniforms associated with an educational activity.

c. A pupil fees complaint may be filed anonymously if the complaint provides evidence or information leading to evidence to support an allegation of noncompliance with laws relating to pupil fees. A complaint of noncompliance with laws relating to pupil fees may be filed with the Principal or the Compliance Officer.

d. If the TEACH finds merit in a pupil fees complaint TEACH shall provide a remedy to all affected pupils, parents, and guardians that, where applicable, includes reasonable efforts by TEACH to ensure full reimbursement to all affected pupils, parents, and guardians, subject to procedures established through regulations adopted by the state board.

e. Nothing in this section shall be interpreted to prohibit solicitation of voluntary donations of funds or property, voluntary participation in fundraising activities, or school districts, school, and other entities from providing pupils prizes or other recognition for voluntarily participating in fundraising activities.

(4) Complaints of noncompliance with the requirements governing the Local Control Funding Formula or Sections 47606.5 and 47607.3 of the Education Code, as applicable.

(5) Complaints of noncompliance with the requirements of Education Code Section 222 regarding the rights of lactating pupils on a school campus. If TEACH finds merit in a complaint, or if the Superintendent finds merit in an appeal, TEACH shall provide a remedy to the affected pupil.

TEACH acknowledges and respects every individual's rights to privacy. Unlawful discrimination, harassment, intimidation or bullying complaints shall be investigated in a manner that protects (to the greatest extent reasonably possible) the confidentiality of the parties and the integrity of the process. TEACH cannot guarantee anonymity of the complainant. This includes keeping the identity of the complainant confidential. However, TEACH will attempt to do so as appropriate. TEACH may find it necessary to disclose information regarding the complaint/complainant to the extent necessary to carry out the investigation or proceedings, as determined by the Superintendent or designee on a case-by-case basis.

TEACH prohibits any form of retaliation against any complainant in the complaint process, including but not limited to a complainant's filing of a complaint or the reporting of instances of unlawful discrimination, harassment, intimidation or bullying. Such participation shall not in any way affect the status, grades or work assignments of the complainant.

Compliance Officers

The Board of Directors designates the following compliance officer(s) to receive and investigate complaints and to ensure TEACH's compliance with law:

Superintendent
TEACH Public Schools
1846 W. Imperial Hwy.
Los Angeles, CA 90047

The Superintendent or designee shall ensure that employees designated to investigate complaints are knowledgeable about the laws and programs for which they are responsible. Designated employees may have access to legal counsel as determined by the Superintendent or designee.

Should a complaint be filed against the Superintendent, the compliance officer for that case shall be the President of TEACH Board of Directors.

Notifications

The Superintendent or designee shall annually provide written notification of TEACH's uniform complaint procedures to employees, students, parents and/or guardians, advisory committees, private school officials and other interested parties (e.g., Adult Education).

The annual notice shall be in English, and when necessary, in the primary language, pursuant to section 48985 of the Education Code if fifteen (15) percent or more of the pupils enrolled in TEACH speak a single primary language other than English.

The Superintendent or designee shall make available copies of TEACH's uniform complaint procedures free of charge.

The annual notice shall include the following:

- (a) A statement that TEACH is primarily responsible for compliance with federal and state laws and regulations.
- (b) A statement that a pupil enrolled in a public school shall not be required to pay a pupil fee for participation in an educational activity.
- (c) A statement identifying the responsible staff member, position, or unit designated to receive complaints.
- (d) A statement that the complainant has a right to appeal TEACH 's decision to the CDE by filing a written appeal within 15 days of receiving TEACH decision.
- (e) A statement advising the complainant of any civil law remedies that may be available under state or federal discrimination, harassment, intimidation or bullying laws, if applicable, and of the appeal pursuant to Education Code § 262.3.
- (f) A statement that copies of the local educational agency complaint procedures shall be available free of charge.

Procedures

The following procedures shall be used to address all complaints which allege that TEACH has violated federal or state laws or regulations governing educational programs. Compliance officers shall maintain a record of each complaint and subsequent related actions.

All parties involved in allegations shall be notified when a complaint is filed, when a complaint meeting or hearing is scheduled, and when a decision or ruling is made.

- **Step 1: Filing of Complaint**

Any individual, public agency, or organization may file a written complaint of alleged noncompliance by TEACH.

A complaint alleging unlawful discrimination, harassment, intimidation or bullying shall be initiated no later than six (6) months from the date when the alleged unlawful discrimination, harassment, intimidation or bullying occurred, or six (6) months from the date when the complainant first obtained knowledge of the facts of the alleged unlawful discrimination, harassment, intimidation or bullying. A complaint may be filed by a person who alleges that he/she personally suffered unlawful discrimination, harassment, intimidation or bullying or by a person who believes that an individual or any specific class of individuals has been subjected to unlawful discrimination, harassment, intimidation or bullying.

Pupil fee complaints shall be filed not later than one (1) year from the date the alleged violation occurred.

The complaint shall be presented to the compliance officer who shall maintain a log of complaints received, providing each with a code number and date stamp.

If a complainant is unable to put a complaint in writing due to conditions such as a disability or illiteracy, TEACH staff shall assist him/her in the filing of the complaint.

- **Step 2: Mediation**

Within three (3) days of receiving the complaint, the compliance officer may informally discuss with the complainant the possibility of using mediation. If the complainant agrees to mediation, the compliance officer shall make arrangements for this process.

Before initiating the mediation of an unlawful discrimination, harassment, intimidation or bullying complaint, the compliance officer shall ensure that all parties agree to make the mediator a party to related confidential information.

If the mediation process does not resolve the problem within the parameters of law, the compliance officer shall proceed with his/her investigation of the complaint.

The use of mediation shall not extend TEACH's timelines for investigating and resolving the complaint unless the complainant agrees in writing to such an extension of time.

- **Step 3: Investigation of Complaint**

The compliance officer is encouraged to hold an investigative meeting within five (5) days of receiving the complaint or an unsuccessful attempt to mediate the complaint. This meeting shall provide an opportunity for the complainant and/or his/her representative to repeat the complaint orally.

The complainant and/or his/her representative shall have an opportunity to present the complaint and evidence or information leading to evidence to support the allegations in the complaint.

A complainant's refusal to provide TEACH's investigator with documents or other evidence related to the allegations in the complaint, or his/her failure or refusal to cooperate in the investigation or his/her engagement in any other obstruction of the investigation, may result in the dismissal of the complaint because of a lack of evidence to support the allegation.

TEACH's refusal to provide the investigator with access to records and/or other information related to the allegation in the complaint, or its failure or refusal to cooperate in the investigation or its engagement in any other obstruction of the investigation, may result in a finding, based on evidence collected, that a violation has occurred and may result in the imposition of a remedy in favor of the complainant.

- **Step 4: Response**

Unless extended by written agreement with the complainant, the compliance officer shall prepare and send to the complainant a written report of TEACH's investigation and decision, as described in Step #5 below, within sixty (60) days of TEACH's receipt of the complaint.

- **Step 5: Final Written Decision**

TEACH's decision shall be in writing and sent to the complainant. TEACH's decision shall be written in English and in the language of the complainant whenever feasible or as required by law.

The decision shall include:

1. The findings of fact based on evidence gathered.
 2. The conclusion(s) of law.
 3. Disposition of the complaint.
 4. Rationale for such disposition.
 5. Corrective actions, if any are warranted.
 6. Notice of the complainant's right to appeal TEACH's decision within fifteen (15) days to the CDE and procedures to be followed for initiating such an appeal.
 7. For unlawful discrimination, harassment, intimidation or bullying complaints arising under state law, notice that the complainant must wait until sixty (60) days have elapsed from the filing of an appeal with the CDE before pursuing civil law remedies.
 8. For unlawful discrimination, harassment, intimidation or bullying complaints arising under federal law such complaint may be made at any time to the U.S. Department of Education, Office for Civil Rights.
- If an employee is disciplined as a result of the complaint, the decision shall simply state that effective action was taken and that the employee was informed of TEACH's expectations. The report shall not give any further information as to the nature of the disciplinary action.

Appeals to the California Department of Education

If dissatisfied with TEACH's decision, the complainant may appeal in writing to the CDE within fifteen (15) days of receiving TEACH's decision. The appeal should be sent to:

California Department of Education
1430 N Street
Sacramento, CA 95814
Telephone: (916) 319-0800

When appealing to the CDE, the complainant must specify the basis for the appeal of the decision and whether the facts are incorrect and/or the law has been misapplied. The appeal shall be accompanied by a copy of the locally filed complaint and a copy of TEACH's decision.

Upon notification by the CDE that the complainant has appealed TEACH's decision, the Superintendent or designee shall forward the following documents to the CDE:

1. A copy of the original complaint.
2. A copy of the decision.
3. A summary of the nature and extent of the investigation conducted by TEACH, if not covered by the decision.
4. A copy of the investigation file, including but not limited to all notes, interviews, and documents submitted by all parties and gathered by the investigator.
5. A report of any action taken to resolve the complaint.
6. A copy of TEACH's complaint procedures.
7. Other relevant information requested by the CDE.

The CDE may directly intervene in the complaint without waiting for action by TEACH when one of the conditions listed in Title 5, California Code of Regulations, Section 4650 exists, including cases in which TEACH has not taken action within sixty (60) days of the date the complaint was filed with TEACH.

Civil Law Remedies

A complainant may pursue available civil law remedies outside of TEACH's complaint procedures. Complainants may seek assistance from mediation centers or public/private interest attorneys. Civil law remedies that may be imposed by a court include, but are not limited to, injunctions and restraining orders. For unlawful discrimination, harassment, intimidation or bullying complaints arising under state law, however, a complainant must wait until sixty (60) days have elapsed from the filing of an appeal with the CDE before pursuing civil law remedies. The moratorium does not apply to injunctive relief and is applicable only if TEACH has appropriately, and in a timely manner, apprised the complainant of his/her right to file a complaint in accordance with 5 CCR § 4622.

General Complaints

The Board of Directors of TEACH Public Schools (“TEACH”) has adopted this General Complaint Policy to address concerns about TEACH generally or regarding specific employees. For complaints regarding harassment or perceived violations of state or federal laws, please refer to the TEACH Anti-Discrimination, Sexual Harassment, Harassment, and Bullying Policy and/or TEACH Uniform Complaint Procedures. For all other complaints, the General Complaint form and accompanying procedures will be appropriate.

Internal Complaints

(Complaints by Employees against Employees)

This section of the policy is for use when an TEACH employee raises a complaint or concern about a co-worker.

If reasonably possible, internal complaints should be resolved at the lowest possible level, including attempts to discuss/resolve concerns with the immediate supervisor. However, in the event an informal resolution may not be achieved or is not appropriate, the following steps will be followed by the Superintendent or designee:

1. The complainant will bring the matter to the attention of the Superintendent as soon as possible after attempts to resolve the complaint with the immediate supervisor have failed or if not appropriate; and
2. The complainant will reduce his or her complaint to writing, indicating all known and relevant facts. The Superintendent or designee will then investigate the facts and provide a solution or explanation;
3. If the complaint is about the Superintendent, the complainant may file his or her complaint in a signed writing to the Chair of the TEACH Board of Directors, who will then confer with the Board of Directors and may conduct a fact-finding or authorize a third-party investigator on behalf of the Board of Directors. The Chair or investigator will report his or her findings to the Board of Directors for review and action, if necessary.

This policy cannot guarantee that every problem will be resolved to the employee’s satisfaction. However, TEACH values each employee’s ability to express concerns and the need for resolution without fear of adverse consequence to employment.

Policy for Complaints Generally

(General Complaints and Complaints by Third Parties against Employees)

This section of the policy is for use when either a complaint does not fall under other complaint procedures or a third party (non-employee) raises a complaint or concern about TEACH generally, or an TEACH employee.

If complaints cannot be resolved informally, complainants may file a written complaint with the office of the Superintendent or Chair of the TEACH Board of Directors (only if the complaint concerns the Superintendent) as soon as possible after the events that give rise to the complainant’s concerns. The written complaint should set forth in detail the factual basis for the complaint.

In processing the complaint, the Superintendent (or designee) shall abide by the following process:

1. The Superintendent or designee shall use his or her best efforts to ascertain the facts relating to the complaint. Where applicable, the Superintendent or designee shall talk with the parties identified in the complaint or persons with knowledge of the particulars of the complaint to ascertain said facts.

2. In the event that the Superintendent (or designee) finds that a complaint is valid, the Superintendent (or designee) may take appropriate action to resolve the problem. Where the complaint is against an employee of TEACH, the Superintendent may take disciplinary action against the employee. As appropriate, the Superintendent (or designee) may also simply counsel/reprimand employees as to their conduct without initiating formal disciplinary measures.

3. The Superintendent's (or designee's) decision relating to the complaint shall be final unless it is appealed to the TEACH Board of Directors. The decision of the Board of Directors shall be final.

General Requirements

1. Confidentiality: All complainants will be notified that information obtained from the complainants and thereafter gathered will be maintained in a manner as confidential as possible, but in some circumstances absolute confidentiality cannot be assured.

2. Non-Retaliation: All complainants will be advised that they will be protected against retaliation as a result of the filing of any complaints or participation in any complaint process.

3. Resolution: The TEACH Board of Directors (if a complaint is about the Superintendent) or the Superintendent or designee will investigate complaints appropriately under the circumstances and pursuant to the applicable procedures, and if necessary, take appropriate remedial measures to ensure effective resolution of any complaint.

SFA Wellness Policy

Due to children’s need to access healthy foods and opportunities to be physically active in order to grow, learn, and thrive; TEACH Schools is committed to providing school environments that promote and protect children's health, well-being, and ability to learn by supporting healthy eating and physical activity. Therefore, it is the policy of TEACH SFA that:

- The schools will engage students, parents, teachers, food service professionals, health professionals, and other interested community members in developing, implementing, monitoring, and reviewing TEACH SFA school-wide nutrition and physical activity policies.
- All students in grades 9-12 will have opportunities, support, and encouragement to be physically active on a regular basis.
- Qualified child nutrition professionals will provide students with access to a variety of affordable, nutritious, and appealing foods that meet the health and nutrition needs of students; will accommodate the religious, ethnic, and cultural diversity of the student body in meal planning; and will provide clean, safe, and pleasant settings and adequate time for students to eat.
- Schools will provide nutrition education and physical education to foster lifelong habits of healthy eating and physical activity, and will establish linkages between health education and school meal programs, and with related community services.

TO ACHIEVE THESE POLICY GOALS:

Creation of Wellness Committee

TEACH SFA has created, strengthened, or worked within existing school advisory councils developing, implementing, monitoring, reviewing, and, as necessary, revising school nutrition and physical activity policies. The councils serve as resources to school sites for implementing those policies. (A school health council consists of a group of individuals representing the school and community, and should include parents, students, and representatives of the school food authority, members of the school board, school administrators, teachers, health professionals, and members of the public.)

Nutrition and Physical Activity Promotion and Food Marketing

Meals served through the National School Lunch and Breakfast Programs will:

- be appealing and attractive to children;
- be served in clean and pleasant settings;
- meet, at a minimum, nutrition requirements established by local, state, and federal statutes and regulations;
- offer a variety of fruits and vegetables;²
- calories and sodium will be specific for grade levels
- no more the 10% of total calories from saturated fat, averaged over a week;
- serve only low-fat (1%) and fat-free milk³ and nutritionally-equivalent non-dairy alternatives (to be defined by USDA); and
- ensure that grains are whole grain.^{3,4}

Schools should engage students and parents, through taste-tests of new entrees and surveys, in selecting foods sold through the school meal programs in order to identify new, healthful, and appealing food choices. In addition, schools should share information about the nutritional content of meals with parents and students. Such information can be made available on menus, a website, on cafeteria menu boards, placards, or other point-of-purchase materials.

Breakfast

To ensure that all children have breakfast, either at home or at school, in order to meet their nutritional needs and enhance their ability to learn:

- Schools will, to the extent possible, operate the School Breakfast Program.
- Schools will, to the extent possible, arrange bus schedules and utilize methods to serve school breakfasts that encourage participation, including serving breakfast in the classroom, "grab-and-go" breakfast, or breakfast during morning break or recess.
- Schools that serve breakfast to students will notify parents and students of the availability of the School Breakfast Program.
- Schools will encourage parents to provide a healthy breakfast for their children.

Free and Reduced-priced Meals

Schools will make every effort to eliminate any social stigma attached to, and prevent the overt identification of, students who are eligible for free and reduced-price school meals⁵.

Meal Times and Scheduling

Schools:

- will provide students with enough time to consume their meal after it has been served.
- should schedule meal periods at appropriate times, *e.g.*, lunch should be scheduled between 11 a.m. and 1 p.m.;
- should not schedule tutoring, club, or organizational meetings or activities during mealtimes, unless students may eat during such activities;
- will encourage students to wash or hand sanitize hands before they eat meals or snacks; and
- should take reasonable steps to encourage the tooth-brushing regimens of students with special oral health needs (*e.g.*, orthodontia or high tooth decay risk).

Qualifications of School Food Service Staff

Qualified nutrition professionals will administer the school meal programs. As part of TEACH SFA it is our responsibility to operate a food service program, we will provide continuing professional development for all nutrition professionals in schools. Staff development programs should include appropriate certification and/or training programs for child nutrition directors, school nutrition managers, and cafeteria workers, according to their levels of responsibility.⁶

Sharing of Foods and Beverages

Schools should monitor students sharing their foods or beverages with one another during meal or snack times, given concerns about allergies and other restrictions on some children's diets.

Middle/Junior High and High Schools

In middle/junior high and high schools, all foods and beverages sold individually outside the reimbursable school meal programs (including those sold through a la carte [snack] lines, vending machines, student stores, or fundraising activities) during the school day, or through programs for students after the school day, will meet the following nutrition and portion size standards:

- **Beverages**

Allowed:

- Fruit or Vegetable juice:
 - 100% juice (can be diluted with water, no dilution limit)
 - No added sweeteners
 - 12 fl. oz. serving size or less
- Milk:

- 12 fl oz. serving size or less
- Water:

- A food item sold individually:
- will have no more than 35% of its calories from fat (excluding nuts, seeds, peanut butter, and other nut butters) and 10% of its calories from saturated and trans fat combined;
- will have no more than 35% of its *weight* from added sugars;⁸
- will contain no more than 230 mg of sodium per serving for chips, cereals, crackers, French fries, baked goods, and other snack items; will contain no more than 480 mg of sodium per serving for pastas, meats, and soups; and will contain no more than 600 mg of sodium for pizza, sandwiches, and main dishes.
- It is encouraged to offer a choice of two fruits and/or non-fried vegetables for sale at any location on the school site where foods are sold. Such items could include, but are not limited to, fresh fruits and vegetables; cooked, dried, or canned fruits (canned in fruit juice or light syrup), juice; and cooked, dried, or canned vegetables (that meet the above fat and sodium guidelines).⁹

Snacks

Snacks served during the school day or in after-school care or enrichment programs will make a positive contribution to children's diets and health, with an emphasis on serving fruits and vegetables as the primary snacks and water as the primary beverage. Schools will assess if and when to offer snacks based on timing of school meals, children's nutritional needs, children's ages, and other considerations. The TEACH SFA will disseminate the guidelines for compliant snacks.

- If eligible, schools that provide snacks through after-school programs will pursue receiving reimbursements through the National School Lunch Program.

Rewards

Schools are encouraged not to use foods or beverages, especially those that do not meet the nutrition standards for foods and beverages sold individually (above), as rewards for academic performance or good behavior,¹⁰ and will not withhold food or beverages (including food served through school meals) as a punishment.

Celebrations

Schools should limit celebrations that involve food during the school day to no more than one party per class per month. It is encouraged that each party include no more than one food or beverage that does not meet nutrition standards for foods and beverages sold individually (above).

School-Sponsored Events

(such as, but not limited to, athletic events, dances, or performances)

It is encouraged that foods and beverages offered or sold at school-sponsored events outside the school day meet the nutrition standards for meals or for foods and beverages sold individually (above).

Nutrition and Physical Activity Promotion and Food Marketing

Nutrition Education and Promotion

TEACH SFA aims to teach, encourage, and support healthy eating by students. It's encouraged that schools provide nutrition education and engage in nutrition promotion that:

- is offered at each grade level as part of a sequential, comprehensive, standards-based program designed to provide students with the knowledge and skills necessary to promote and protect their health;
- is part of not only health education classes, but also classroom instruction in subjects such as math, science, language arts, social sciences, and elective subjects;
- includes enjoyable, developmentally-appropriate, culturally-relevant, participatory activities, such as contests, promotions, taste testing, farm visits, and school gardens;
- promotes fruits, vegetables, whole grain products, low-fat and fat-free dairy products, healthy food preparation methods, and health-enhancing nutrition practices;
- emphasizes caloric balance between food intake and energy expenditure (physical activity/exercise);
- links with school meal programs, other school foods, and nutrition-related community services;
- teaches media literacy with an emphasis on food marketing; and
- includes training for teachers and other staff.

Integrating Physical Activity into the Classroom Setting

For students to receive the nationally-recommended amount of daily physical activity (*i.e.*, at least 60 minutes per day) and for students to fully embrace regular physical activity as a personal behavior, students need opportunities for physical activity beyond physical education class. Toward that end:

- classroom health education will complement physical education by reinforcing the knowledge and self-management skills needed to maintain a physically-active lifestyle and to reduce time spent on sedentary activities, such as watching television;
- opportunities for physical activity will be incorporated into other subject lessons; and
- classroom teachers will provide short physical activity breaks between lessons or classes, as appropriate.

Communications with Parents

The TEACH SFA/school will support parents' efforts to provide a healthy diet and daily physical activity for their children. The TEACH SFA will, send home nutrition information, post nutrition tips on school websites, and provide nutrient analyses of school menus when available. Schools should encourage parents to pack healthy lunches and snacks and to refrain from including beverages and foods that do not meet the above nutrition standards for individual foods and beverages.

The TEACH SFA/school will provide information about physical education and other school-based physical activity opportunities before, during, and after the school day; and support parents' efforts to provide their children with opportunities to be physically active outside of school.

Food Marketing in Schools

School-based marketing will be consistent with nutrition education and health promotion. As such, schools will limit food and beverage marketing to the promotion of foods and beverages that meet the nutrition standards for meals or for foods and beverages sold individually (above).¹¹ School-based marketing of brands promoting predominantly low-nutrition foods and beverages¹² is prohibited. The promotion of healthy foods, including fruits, vegetables, whole grains, and low-fat dairy products is encouraged.

Examples of marketing techniques include the following: logos and brand names on/in vending machines, books or curricula, textbook covers, school supplies, scoreboards, school structures, and sports equipment; educational incentive programs that provide food as a reward; programs that provide schools with supplies when families buy low-nutrition food products; free samples or coupons; and food sales through fundraising activities. Marketing activities that promote healthful behaviors (and are therefore allowable) include: sales of healthy food for fundraisers.

Staff Wellness

TEACH SFA highly values the health and well-being of every staff member and will encourage that support personal efforts by staff to maintain a healthy lifestyle.

Physical Education and Physical Activity Opportunities

Daily Physical Education (P.E.) 5-10

All students in grades 9-10, including students with disabilities, special health-care needs, and in alternative educational settings, will receive weekly physical education for the entire school year. All physical education will be taught by a certified physical education teacher. Student involvement in other activities involving physical activity (*e.g.*, interscholastic or intramural sports) will not be substituted for meeting the physical education requirement. Students will spend at least 50 percent of physical education class time participating in moderate to vigorous physical activity.

- A minimum of 400 minutes for every 10 school days for students in grades 9-12
- Schools shall be encouraged to annually administer the physical fitness test designated by the State Board of Education to students in grades 5, 7, and 9.

Physical Activity Opportunities Before and After School

All middle and high schools will offer when appropriate extracurricular physical activity programs, such as physical activity clubs or intramural programs. All high schools, and middle schools, when appropriate, will offer, interscholastic sports programs. Schools will offer, when feasible, a range of activities that meet the needs, interests, and abilities of all students, including boys, girls, students with disabilities, and students with special health-care needs.

After-school child care and enrichment programs when appropriate will provide and encourage – verbally and through the provision of space, equipment, and activities – daily periods of moderate to vigorous physical activity for all participants.

Physical Activity and Punishment

Teachers and other school and community personnel will not use physical activity (*e.g.*, running laps, pushups) or withhold opportunities for physical activity (*e.g.*, recess, physical education) as punishment.

Safe Routes to School

TEACH SFA will assess and, if necessary and to the extent possible, make needed improvements to make it safer and easier for students to walk, skate and bike to school. When appropriate, TEACH SFA will work together with local public works, public safety, and/or police departments in those efforts. TEACH SFA will explore the availability of federal "safe routes to school" funds, administered by the state department of transportation, to finance such improvements. TEACH SFA will encourage students to use public transportation when available and appropriate for travel to school, and will work with the local transit agency to provide transit passes for students.

Use of School Facilities Outside of School Hours

School spaces and facilities should be available to students, staff, and community members before, during, and after the school day, on weekends, and during school vacations. These spaces and facilities also should be available to community agencies and organizations offering physical activity and nutrition programs. School policies concerning safety will apply at all times.

Monitoring

The Wellness Committee will ensure compliance with established TEACH SFA school-wide nutrition and physical activity wellness policies. In each school, the principal or designee will ensure compliance with those policies in his/her school and will report on the school's compliance to the TEACH SFA Wellness Committee.

School food service staff, at the school level, will ensure compliance with nutrition policies within school food service areas and will report on this matter to the Wellness Committee (or if done at the school level, to the school principal). In addition, TEACH SFA will report on the most recent USDA Administrative Review findings and any resulting changes. The Wellness Committee will develop a summary report periodically on TEACH SFA school-wide compliance with TEACH Schools established nutrition and physical activity wellness policies, based on input from schools within TEACH SFA. That report will be provided to the school board and also distributed to all school health councils, parent/teacher organizations, school principals, and school health services personnel in TEACH SFA schools.

Monitor and Policy Review

Policy Review

To help with the initial development of the TEACH SFA wellness policies, each school in the TEACH SFA will conduct a baseline assessment of the school's existing nutrition and physical activity environments and policies.¹³ The results of those school-by-school assessments will be compiled by the Wellness Committee level to identify and prioritize needs. Assessments will be repeated periodically to help review policy compliance, assess progress, and determine areas in need of improvement. As part of that review, TEACH SFA will review our nutrition and physical activity policies; provision of an environment that supports healthy eating and physical activity; and nutrition and physical education policies and program elements. TEACH SFA, and individual schools within TEACH SFA, will, as necessary, suggest revisions to the wellness policies and develop work plans to facilitate their implementation.

Footnotes

² To the extent possible, schools will offer at least two non-fried vegetable and two fruit options each day and will offer five different fruits and five different vegetables over the course of a week. Schools are encouraged to source fresh fruits and vegetables from local farmers when practicable.

³ As recommended by the *Dietary Guidelines for Americans 2010*

⁴ A whole grain is one labeled as a "whole" grain product or with a whole grain listed as the primary grain ingredient in the ingredient statement. Examples include "whole" wheat flour, cracked wheat, brown rice, and oatmeal.

⁵ It is against the law to make others in the cafeteria aware of the eligibility status of children for free, reduced-price, or "paid" meals.

⁶ School nutrition staff development programs are available through the USDA, School Nutrition Association, and National Food Service Management Institute.

⁷ Surprisingly, seltzer water may not be sold during meal times in areas of the school where food is sold or eaten because it is considered a "Food of Minimal Nutritional Value" (Appendix B of 7 CFR Part 210).

⁸ If a food manufacturer fails to provide the *added* sugars content of a food item, use the percentage of weight from total sugars (in place of the percentage of weight from *added* sugars), and exempt fruits, vegetables, and dairy foods from this total sugars limit.

⁹ Schools that have vending machines are encouraged to include refrigerated snack vending machines, which can accommodate

¹⁰ Unless this practice is allowed by a student's individual education plan (IEP).

¹¹ Advertising of low-nutrition foods and beverages is permitted in supplementary classroom and library materials, such as newspapers, magazines, the Internet, and similar media, when such materials are used in a class lesson or activity, or as a research tool.

¹² Schools should not permit general brand marketing for food brands under which more than half of the foods or beverages do not meet the nutrition standards for foods sold individually or the meals are not consistent with school meal nutrition standards.

¹³ Useful self-assessment and planning tools include the *School Health Index* from the Centers for Disease Control and Prevention (CDC), *Changing the Scene* from the Team Nutrition Program of the U.S. Department of Agriculture (USDA), and *Opportunity to Learn Standards for Elementary, Middle, and High School Physical Education* from the National Association for Sport and Physical Education.

SU ESCUELA PUEDE AYUDAR A UNIR TODAS LAS PIEZAS

El Distrito Escolar Unificado de Los Ángeles está comprometido con atender las necesidades educativas de cada uno de sus estudiantes.

Los niños aprenden de diversas maneras, y la mayoría de nuestros estudiantes pueden aprender eficazmente en un entorno tradicional. No obstante, a veces los niños necesitan ayuda adicional. Los niños con discapacidades podrían calificar para recibir servicios de educación especial. Estos servicios fueron diseñados para satisfacer sus necesidades educativas y serán provistos sin cargo adicional para sus familias. En algunas circunstancias, los servicios de educación especial pueden comenzar en el nacimiento y continuar hasta los veintidós años.

¿Cómo puedo averiguar más acerca de los derechos de mi hijo y mis derechos como padre/madre?

Bajo la Ley de Educación para Individuos con Discapacidades (IDEA, por sus siglas en inglés), un niño con discapacidades podría tener el derecho a una educación pública diseñada para satisfacer sus necesidades únicas. Para averiguar más acerca de los derechos de su hijo, solicite una copia de la publicación del Distrito, *Una Guía para Padres sobre los Servicios de Educación Especial*, en su escuela u oficina local. Este folleto brinda información detallada sobre sus protecciones bajo la ley.

¿Adónde llamo para obtener más información?

Llame a su escuela pública local o al siguiente número del Distrito si necesita asistencia adicional:

¿ESTÁ DESCONCERTADO CON LAS NECESIDADES ESPECIALES DE SU HIJO?

Información sobre los servicios de educación especial para padres

Publicado por el Distrito Escolar Unificado de Los Ángeles

Revisado en septiembre de 2016

CC # 966-52-60274 Spanish

¿Cómo sé si mi hijo necesita servicios de educación especial?

Su hijo podría tener dificultades que interfieren con su capacidad de asistir a la escuela o el aprendizaje. Estas dificultades podrían darse en una de estas áreas generales:

Desarrollo del habla y el lenguaje

Algunos niños podrían tener una gran dificultad para aprender a hablar con claridad y/o comprender lo que se les dice.

Problemas de visión

Algunos niños podrían tener una gran dificultad para ver los objetos y/o palabras impresas a pesar de que ya estén usando anteojos.

Problemas de audición

Algunos niños podrían tener dificultad para escuchar y/o distinguir sonidos y voces, aún con audífonos.

Desarrollo físico

Algunos niños podrían tener problemas para aprender a caminar, moverse o trabajar con objetos pequeños.

❖ Desarrollo académico

Algunos niños podrían tener una gran dificultad para aprender a leer, escribir o hacer aritmética. Los niños pequeños podrían tener problemas con los conocimientos de preescolar, tales como el aprendizaje de formas y colores.

❖ Capacidad de razonamiento/memoria

Algunos niños podrían tener más dificultad que otros para recordar lo que ven o escuchan. Como resultado, podría costarles resolver problemas de la vida cotidiana o la tarea escolar.

❖ Capacidad de atención/percepción

Algunos niños podrían tener dificultad para procesar o comprender la información. Como consecuencia, les podría costar prestar atención o seguir las indicaciones.

❖ Desarrollo social/emocional

Algunos niños podrían tener problemas para lidiar con sus sentimientos y/o comportamiento. Les podría resultar muy difícil llevarse bien con los demás. Les podría costar hacer amigos o hacer frente a los cambios en sus vidas.

❖ Aptitudes necesarias para la vida

Algunos niños podrían tener impedimentos con las actividades diarias como vestirse, alimentarse o atender sus necesidades básicas de salud y aseo.

❖ Otras condiciones de salud

Algunos niños tienen afecciones médicas graves o crónicas que podrían interferir con la asistencia escolar o el aprendizaje.

¿Qué debo hacer si creo que mi hijo necesita educación especial?

Llame a su escuela pública local para recibir ayuda. Si su hijo necesita una evaluación para los servicios de educación especial, a usted se le pedirá que conceda su permiso para la evaluación por escrito.

¿Qué implica una evaluación para los servicios de educación especial?

Una evaluación implica reunir información sobre su hijo para determinar si tiene una discapacidad. La evaluación podría incluir pruebas individuales, observaciones, entrevistas y revisiones de registros escolares, informes o muestras de tareas realizadas.

¿Cuánto tiempo llevará la evaluación?

Cuando la escuela está en sesión, el Distrito debe responder por escrito su solicitud de evaluación dentro de los 15 días. Usted deberá firmar un Plan de Evaluación. Una vez que el Distrito haya recibido su Plan de Evaluación firmado, deberá completarse la evaluación y deberán compartir los resultados con usted en una reunión del Programa de Educación Individualizado (IEP, por sus siglas en inglés) dentro de los 60 días.

¿Qué puedo esperar en una reunión del IEP?

Lo invitarán a una reunión del Programa de Educación Individualizado (IEP), que se celebrará para compartir los resultados de la evaluación de su hijo y determinar si su hijo tiene necesidades especiales que lo califican para recibir servicios de educación especial. Si su hijo reúne los requisitos, el IEP describirá los servicios y programas que podría necesitar. Si el Distrito determina que su hijo no califica, usted tiene derecho a apelar la decisión.

YOUR SCHOOL CAN HELP PUT ALL THE PIECES TOGETHER

The Los Angeles Unified School District is committed to serving the educational needs of each of its students. Children learn in a variety of ways and most of our students can learn effectively in a traditional setting. However, sometimes children need additional help. Children with disabilities may be eligible to receive special education services. These services are designed to meet their educational needs and will be provided at no additional cost to their families. In some circumstances, special education services can begin at birth and continue until age twenty-two.

How do I find out more about my child's rights and my rights as a parent?

Under the Individuals with Disabilities Education Act (IDEA), a child with disabilities may have the right to a public education designed to meet their unique needs. To find out more about your child's rights, ask for a copy of the District's publication, *A Parent's Guide to Special Education Services*, at your local school or office. This booklet provides detailed information about your protections under the law.

Where do I call for more information?

Call your local public school or the following District number if you require additional assistance:

ARE YOU PUZZLED BY YOUR CHILD'S SPECIAL NEEDS?

Special Education Services Information For Parents

Published by the
Los Angeles Unified School District

Revised September 2016
CC # 966-52-60273 English

How do I know if my child needs special education services?

Your child may have difficulties that interfere with his/her ability to go to school or to learn. These difficulties may be in one of these general areas:

❖ Speech and language development

Some children may have a very difficult time learning to speak clearly and/or understand what is said to them.

❖ Vision problems

Some children may have great difficulty seeing objects and/or printed words even though they may already be wearing glasses.

❖ Hearing problems

Some children may have difficulty hearing and/or distinguishing sounds and voices, even with hearing aids.

❖ Physical development

Some children may have trouble learning to walk, move, or work with small objects.

❖ Academic development

Some children may have great difficulty learning to read, write, or do arithmetic. Young children may have trouble with pre-school skills such as learning shapes and colors.

❖ Thinking/Memory skills

Some children may have more difficulty than others in remembering what they see or hear. As a result, it may be a challenge for them to solve problems in daily living or schoolwork.

❖ Attention/Perception skills

Some children may have difficulty processing or understanding information. As a result, it may be hard for them to pay attention or follow directions.

❖ Social/Emotional development

Some children may have trouble managing their feelings and/or behavior. They may find it very difficult to get along with others. It may be hard for them to make friends or to cope with changes in their lives.

❖ Living skills

Some children may be challenged by day-to-day activities such as dressing, feeding themselves, or taking care of their basic health and grooming needs.

❖ Other health conditions

Some children have serious or chronic medical conditions that may interfere with school attendance or learning.

What should I do if I believe my child needs special education?

Call your local public school for assistance. Should your child need assessment for special education services, you will be asked to give permission for assessment in writing.

What is involved in an assessment for special education services?

An assessment involves gathering information about your child to determine whether your child has a disability. An assessment may include individual testing, observations, interviews, and reviews of school records, reports, or work samples.

How long will the assessment take?

When school is in session, the District must respond in writing to your request for an assessment within 15 days. You will be asked to sign an Assessment Plan. Once the District has received your signed Assessment Plan the assessment must be completed and the results shared with you at an Individualized Education Program (IEP) meeting within 60 days.

What can I expect at an IEP meeting?

You will be invited to an Individualized Education Program (IEP) meeting which will be held to share the results of your child's assessment and determine if your child has special needs which make him or her eligible for special education services. If your child is eligible, the IEP will describe the services and programs they may need. If the District determines that your child is not eligible, you have the right to appeal the decision.

SECTION 504 OF THE REHABILITATION ACT OF 1973 IS A FEDERAL CIVIL RIGHTS LAW THAT:

- prohibits discrimination/harassment against individuals with mental or physical disabilities in programs and activities that receive Federal financial assistance from the U.S. Department of Education.
- requires that students with disabilities be provided a free appropriate public education.

WHAT IS DISABILITY-BASED DISCRIMINATION/HARASSMENT?

Disability-based discrimination/harassment is intimidation or abusive behavior toward a student based on disability that interferes with or denies a student participation in or receipt of benefits, services, or opportunities in District programs and activities.

HOW DOES SECTION 504 APPLY TO STUDENTS WITH DISABILITIES?

Under Section 504, a plan may be developed to assist those students with disabilities who do not qualify for special education services but who may need accommodations that can be provided to them within the general education program.

HOW DOES SECTION 504 DEFINE “DISABILITY?”

A student is considered to have a disability if he/she has a physical or mental impairment that substantially limits one or more major life activities.

WHAT IS A “SUBSTANTIAL LIMITATION?”

A student is considered to have a substantial limitation when the student is “unable to perform a major life activity that the average student in the general population can perform.” The impairment must be somewhat unique when compared to the average student of approximately the same age.

WHAT ARE “MAJOR LIFE ACTIVITIES?”

Major life activities may include, but are not limited to, functions such as caring for oneself, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, working, eating, sleeping, standing, lifting, bending, reading, concentrating, thinking, and communicating.

HOW IS A STUDENT EVALUATED UNDER SECTION 504?

A school team will conduct a Section 504 evaluation for a student who, because of a disability, may need accommodations in the general education program. The team will:

- (2) evaluate the nature of the student’s disability and the impact of the disability upon the student’s education;
- (3) consider all available relevant information about the student drawn from a variety of sources; and
- (4) develop a Section 504 Plan if the student meets the criteria and accommodations are needed.

SOME EXAMPLES OF ASSISTANCE THAT CAN BE PROVIDED IN A SECTION 504 PLAN ARE:

EL ARTÍCULO 504 y los Estudiantes Discapacitados

Artículo 504

"A ninguna persona acreditada que tenga alguna discapacidad ... y simplemente por razón de su discapacidad, se le excluirá de participar, se le negarán beneficios ni será discriminada en cualquier programa o actividad financiado con fondos federales."

EL ARTÍCULO 504 GARANTÍAS PROCESALES DE LOS PADRES OTUTORES LEGALES INCLUYE:

- prohíbe la discriminación o el acoso contra las personas con discapacidades mentales o físicas que participen en los programas y actividades financiadas con fondos federales, provenientes de la Secretaría Federal de Educación.

¿QUÉ ES LA DISCRIMINACIÓN O EL ACOSO BASADO EN UNA DISCAPACIDAD?

La discriminación o el acoso basado en una discapacidad se trata del comportamiento intimidatorio o abusivo en contra de un estudiante con base en su discapacidad, el cual interfiere o niega al estudiante la participación o la recepción de beneficios, servicios u oportunidades de los programas y actividades del Distrito.

¿CÓMO SE APLICA EL ARTÍCULO 504 A LOS ESTUDIANTES DISCAPACITADOS?

Bajo el Artículo 504, se debe crear un plan para ayudar a los estudiantes discapacitados que no reúnen los requisitos para Educación Especial pero que puedan necesitar modificaciones proporcionadas en el programa educativo general.

¿CÓMO DEFINE EL ARTÍCULO 504 A LA “DISCAPACIDAD”?

Se considera que un estudiante es discapacitado si tiene un impedimento físico o mental que limite considerablemente una o más de las actividades principales para desenvolverse en la vida diaria.

¿QUÉ ES “LIMITAR CONSIDERABLEMENTE”

Un estudiante está limitado considerablemente cuando “es incapaz de desempeñar las actividades principales para desenvolverse en la vida diaria que puede desempeñar un estudiante regular del público en general.” El impedimento debe ser hasta cierto punto singular al comparar al estudiante con otro estudiante promedio que tenga una edad aproximada.

Actividades principales de la vida diaria pueden incluir (pero no limitarse) a funciones tales como: autosuficiencia, desempeñar trabajos manuales, caminar, ver, escuchar, hablar, respirar, aprender, trabajar, comer, dormir, mantenerse de pie, levantar cosas en peso, agacharse, leer, concentrarse, razonar y comunicarse.

¿CÓMO SE EVALÚA A UN ESTUDIANTE BAJO EL ARTÍCULO 504?

Un comité escolar llevará a cabo la evaluación bajo el artículo 504 de un estudiante que, debido a una discapacidad, pueda necesitar modificaciones en el programa de educación regular. El comité deberá:

- (1) conocer la situación del estudiante.
- (2) evaluar la naturaleza de la discapacidad del estudiante y cómo afecta dicha discapacidad a la educación del estudiante.
- (3) considerar toda la información importante disponible sobre el estudiante, proveniente de diferentes fuentes.
- (4) elaborar un plan según el Artículo 504 si el estudiante cumple con los criterios establecidos y si necesitara modificaciones.

Senate Bill 187: Comprehensive School Safety Plan Purpose

The California Education Code (sections 32280-32288) outlines the requirements of all schools operating any kindergarten and any grades 1 to 12, inclusive, to write and develop a school safety plan relevant to the needs and resources of that particular school.

In 2004, the Legislature and Governor recast and renumbered the Comprehensive School Safety Plan provisions in SB 719 and AB 115. It is the intent of the Legislature in enacting the provisions to support California public schools as they develop their mandated comprehensive safety plans that are the result of a systematic planning process, that include strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses.

The historical requirement of the Comprehensive School Safety Plan was presented in Senate Bill 187, which was approved by the Governor and chaptered in 1997. This legislation contained a sunset clause that stated that this legislation would remain in effect only until January 1, 2000. Senate Bill 334 was approved and chaptered in 1999 and perpetuated this legislation under the requirement of the initial legislation.

Comprehensive School Safety Plans are required under SB 719 & AB 115 and contains the following elements:

Assessment of school crime committed on school campuses and at school-related functions

- Child abuse reporting procedures
- Disaster procedures
- Suspension and expulsion policies
- Procedures to notify teachers of dangerous pupils
- Discrimination and harassment policies
- School wide dress code policies
- Procedures for safe ingress and egress
- Policies enacted to maintain a safe and orderly environment
- Rules and procedures on school discipline
- Hate crime reporting procedures

The Comprehensive School Safety Plan will be reviewed and updated by March 1st every year. In July of every year, the school will report on the status of its school safety plan including a description of its key elements in the annual school accountability report card.

A copy of the Comprehensive School Safety Plan is available for review at TEACH Public Schools Home Office & at the School Site.

Safety Plan Vision

TEACH Public Schools is committed to maintaining safe and secure campuses for all of its pupils and staff. To that end, this Comprehensive School Safety Plan covers TEACH's policies and expectations regarding the practices of each school in maintaining the security of the physical campus, responding appropriately to emergencies, increasing the safety and protection of students and staff, and creating a safe and orderly environment that is conducive to learning.

All school employees should receive training in the Comprehensive School Safety Plan upon joining the school, and should review any changes to the Plan annually.

Safe School Planning Education Codes

200. It is the policy of the State of California to afford all persons in public schools, regardless of their disability, gender, gender identity, gender expression, nationality, race or ethnicity, religion, sexual orientation, or any other characteristic that is contained in the definition of hate crimes set forth in Section 422.55 of the Penal Code, equal rights and opportunities in the educational institutions of the state. The purpose of this chapter is to prohibit acts that are contrary to that policy and to provide remedies therefor.

201. (a) All pupils have the right to participate fully in the educational process, free from discrimination and harassment.

(b) California's public schools have an affirmative obligation to combat racism, sexism, and other forms of bias, and a responsibility to provide equal educational opportunity.

(c) Harassment on school grounds directed at an individual on the basis of personal characteristics or status creates a hostile environment and jeopardizes equal educational opportunity as guaranteed by the California Constitution and the United States Constitution.

(d) There is an urgent need to prevent and respond to acts of hate violence and bias-related incidents that are occurring at an increasing rate in California's public schools.

(e) There is an urgent need to teach and inform pupils in the public schools about their rights, as guaranteed by the federal and state constitutions, in order to increase pupils' awareness and understanding of their rights and the rights of others, with the intention of promoting tolerance and sensitivity in public schools and in society as a means of responding to potential harassment and hate violence.

(f) It is the intent of the Legislature that each public school undertake educational activities to counter discriminatory incidents on school grounds and, within constitutional bounds, to minimize and eliminate a hostile environment on school grounds that impairs the access of pupils to equal educational opportunity.

234. (a) This article shall be known, and may be cited, as the Safe Place to Learn Act.

(b) It is the policy of the State of California to ensure that all local educational agencies continue to work to reduce discrimination, harassment, violence, intimidation, and bullying. It is further the policy of the state to improve pupil safety at schools and the connections between pupils and supportive adults, schools, and communities.

234.1. The department, pursuant to subdivision (b) of Section 64001, shall monitor adherence to the requirements of Chapter 5.3 (commencing with Section 4900) of Division 1 of Title 5 of the California Code of Regulations and this chapter as part of its regular monitoring and review of local educational agencies, commonly known as the Categorical Program Monitoring process. The department shall assess whether local educational agencies have done all of the following:

(a) Adopted a policy that prohibits discrimination, harassment, intimidation, and bullying based on the actual or perceived characteristics set forth in Section 422.55 of the Penal Code and Section 220 of this code, and disability, gender, gender identity, gender expression, nationality, race or ethnicity, religion, sexual orientation, or association with a person or group with one or more of these actual or perceived characteristics. The policy shall include a statement that the policy applies to all acts related to school activity or school attendance occurring within a school under the jurisdiction of the superintendent of the school district.

(b) Adopted a process for receiving and investigating complaints of discrimination, harassment, intimidation, and bullying based on any of the actual or perceived characteristics set forth in Section 422.55 of the Penal Code and Section 220 of this code, and disability, gender, gender identity, gender expression, nationality, race or ethnicity, religion, sexual orientation, or association with a person or group with one or more of these actual or perceived characteristics. The complaint process shall include, but not be limited to, all of the following:

(1) A requirement that, if school personnel witness an act of discrimination, harassment, intimidation, or bullying, they shall take immediate steps to intervene when safe to do so.

(2) A timeline to investigate and resolve complaints of discrimination, harassment, intimidation, or bullying that shall be followed by all schools under the jurisdiction of the school district.

(3) An appeal process afforded to the complainant should he or she disagree with the resolution of a complaint filed pursuant to this section.

(4) All forms developed pursuant to this process shall be translated pursuant to Section 48985.

(c) Publicized anti-discrimination, anti-harassment, anti-intimidation, and anti-bullying policies adopted pursuant to subdivision (a), including information about the manner in which to file a complaint, to pupils, parents, employees, agents of the governing board, and the general public. The information shall be translated pursuant to Section 48985.

(d) Provided, incident to the publicizing described in subdivision (c), to certificated school site employees who serve pupils in any of grades 7 to 12, inclusive, who are employed by the local educational agency, information on existing school site and community resources related to the support of lesbian, gay, bisexual, transgender, and questioning (LGBTQ) pupils. School site resources may include, but are not limited to, peer support or affinity clubs and organizations, safe spaces for LGBTQ pupils, counseling services, staff who have received anti-bias or other training aimed at supporting these pupils or who serve as designated support to these pupils, health and other curriculum materials that are inclusive of, and relevant to, these pupils, online training developed pursuant to Section 32283.5, and other policies adopted pursuant to this article, including related complaint procedures. Community resources may include, but are not limited to, community-based organizations that provide support to LGBTQ pupils and their families, and physical and mental health providers with experience or training in treating or supporting these pupils.

32280. It is the intent of the Legislature that all California public schools, in kindergarten, and grades 1 to 12, inclusive, operated by school districts, in cooperation with local law enforcement agencies, community leaders, parents, pupils, teachers, administrators, and other persons who may be interested in the prevention of campus crime and violence, develop a comprehensive school safety plan that addresses the safety concerns identified through a systematic planning process. For the purposes of this section, law enforcement agencies include local police departments, county sheriffs' offices, school district police or security departments, probation departments, and district attorneys' offices. For purposes of this section, a "safety plan" means a plan to develop strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on the school campus.

32281. (a) Each school district and county office of education is responsible for the overall development of all comprehensive school safety plans for its schools operating kindergarten or any of grades 1 to 12, inclusive.

(b) (1) Except as provided in subdivision (d) with regard to a small school district, the school site council established pursuant to former Section 52012, as it existed before July 1, 2005, or Section 52852 shall write and develop a comprehensive school safety plan relevant to the needs and resources of that particular school.

(2) The school site council may delegate this responsibility to a school safety planning committee made up of the following members:

(A) The principal or the principal's designee.

- (B) One teacher who is a representative of the recognized certificated employee organization.
- (C) One parent whose child attends the school.
- (D) One classified employee who is a representative of the recognized classified employee organization.
- (E) Other members, if desired.
- (3) The school site council shall consult with a representative from a law enforcement agency in the writing and development of the comprehensive school safety plan.
- (4) In the absence of a school site council, the members specified in paragraph (2) shall serve as the school safety planning committee.
- (c) Nothing in this article shall limit or take away the authority of school boards as guaranteed under this code.
- (d) (1) Subdivision (b) shall not apply to a small school district, as defined in paragraph (2), if the small school district develops a district wide comprehensive school safety plan that is applicable to each school site.
- (2) As used in this article, "small school district" means a school district that has fewer than 2,501 units of average daily attendance at the beginning of each fiscal year.
- (e) (1) When a principal or his or her designee verifies through local law enforcement officials that a report has been filed of the occurrence of a violent crime on the school site of an elementary or secondary school at which he or she is the principal, the principal or the principal's designee may send to each pupil's parent or legal guardian and each school employee a written notice of the occurrence and general nature of the crime. If the principal or his or her designee chooses to send the written notice, the Legislature encourages the notice be sent no later than the end of business on the second regular work day after the verification. If, at the time of verification, local law enforcement officials determine that notification of the violent crime would hinder an ongoing investigation, the notification authorized by this subdivision shall be made within a reasonable period of time, to be determined by the local law enforcement agency and the school district. For purposes of this section, an act that is considered a "violent crime" shall meet the definition of Section 67381 and be an act for which a pupil could or would be expelled pursuant to Section 48915.
- (2) Nothing in this subdivision shall create any liability in a school district or its employees for complying with paragraph (1).
- (f) (1) Notwithstanding subdivision (b), a school district or county office of education may, in consultation with law enforcement officials, elect to not have its school site council develop and write those portions of its comprehensive school safety plan that include tactical responses to criminal incidents that may result in death or serious bodily injury at the school site. The portions of a school safety plan that include tactical responses to criminal incidents may be developed by administrators of the school district or county office of education in consultation with law enforcement officials and with a representative of an exclusive bargaining unit of employees of that school district or county office of education, if he or she chooses to participate. The school district or county office of education may elect not to disclose those portions of the comprehensive school safety plan that include tactical responses to criminal incidents.
- (2) As used in this article, "tactical responses to criminal incidents" means steps taken to safeguard pupils and staff, to secure the affected school premises, and to apprehend the criminal perpetrator or perpetrators.
- (3) Nothing in this subdivision precludes the governing board of a school district or county office of education from conferring in a closed session with law enforcement officials pursuant to Section 54957 of the Government Code to approve a tactical response plan developed in consultation with those officials pursuant to this subdivision. Any vote to approve the tactical response plan shall be announced in open session following the closed session.
- (4) Nothing in this subdivision shall be construed to reduce or eliminate the requirements of Section 32282.

32282. (a) The comprehensive school safety plan shall include, but not be limited to, both of the following:

- (1) Assessing the current status of school crime committed on school campuses and at school-related functions.

 - (I) A school building disaster plan, ready for implementation at any time, for maintaining the safety and care of pupils and staff.

(II) A drop procedure whereby each pupil and staff member takes cover under a table or desk, dropping to his or her knees, with the head protected by the arms, and the back to the windows. A drop procedure practice shall be held at least once each school quarter in elementary schools and at least once a semester in secondary schools.

For those purposes, the comprehensive school safety plan shall define "gang-related apparel." The definition shall be limited to apparel that, if worn or displayed on a school campus, reasonably could be determined to threaten the health and safety of the school environment. A school wide dress code established pursuant to this section and Section 35183 shall be enforced on the school campus and at any school-sponsored activity by the principal of the school or the person designated by the principal. For purposes of this paragraph, "gang-related apparel" shall not be considered a protected form of speech pursuant to Section 48950.

The Department of Justice and the State Department of Education shall work in cooperation with regard to the workshops coordinated and presented pursuant to the contracts. Implementation of this section shall be contingent upon the availability of funds in the annual Budget Act.

Earthquake Procedures

Actual Earthquake

Tremors and shaking of the earth are the signals of an earthquake. The initial shock is likely to be not more than ninety seconds duration. Emergency action to be taken when children are inside the building is:

When inside a building, stay inside: Do not run outside because you may be hit by falling debris. Drop to the floor on your knees and make the body as small as possible. Cover yourself under a desk, table or bench, in a hall, or stand against an inside wall. You should be facing away from: windows; door; glass; skylights; brick or rock faced walls; large moveable objects, such as bookcases; or outside doors and walls. With one arm, hold on to a desk leg so that it will protect your head and neck and so that the desk will not move away from covering you. Rest your head on one arm and place your other arm over the base of the head and neck. When it is safe, proceed to the assembly areas in the same manner as for Evacuation Procedures.

When outdoors, stay outside: Do not run inside because you may be hit by falling debris. Move away from buildings and overhead structures. Drop to the ground on your knees and make the body as small as possible. Face position away from: buildings, power poles and lines, trees or other overhead hazards, roads and streets, as cars may go out of control. Cover as much skin surface as possible, close your eyes, and cover your ears. If you have a book or other similar object, place it over the base of your head and neck to protect you from flying debris. When it is safe, proceed to the assembly areas in the same manner as for Evacuation Procedures.

Walking to or from school facilities: If students are walking to or from school when an earthquake occurs, they should stay away from all buildings, trees, exposed wires, or other hazards that may fall. The safest place is in the open. Students should assume "drop, cover, and hold" position until the quake is over. After the earthquake, if on the way to school facilities, continue to school. If on the way home, continue home or return to school.

Environmental Hazards

Biochemical or Chemical Release

A biological or chemical release is an incident involving the discharge of a biological or chemical substance in a solid, liquid or gaseous state. Such incidents may also include the release of radioactive materials. Common chemical threats within or adjacent to schools include the discharge of acid in a school laboratory, and overturned truck of hazardous materials in proximity of the school, or an explosion at a nearby oil refinery or another chemical plant.

The following indicators may suggest the release of a biological or chemical substance: Multiple victims suffering from:

- Watery eyes
- Twitching
- Chocking or loss of coordination
- Trouble breathing

Other indicators may include the presence of distressed animals or dead birds.

This procedure deals with three possible scenarios involving the release of biochemical substances: Scenario 1: Substance released inside a room or a building

Scenario 2: Substance released outdoors and localized

Scenario 3: Substance released in the surrounding community

It is necessary to first determine which scenario applies and then implement the appropriate response procedures listed below:

Scenario 1: Substance Released Inside a Room or Building

General Procedures

1. Evacuate the building
2. Notify Main Office/Administration
3. Turn off all fans in the area of the release; close the windows and doors, shut down the building's air handling system

IC Responsibilities

1. Signal for the building to be evacuated
2. Call 911
3. Contact the Charter Board
4. Direct School emergency Response Team members (search and rescue team) to isolate and restrict access to potentially contaminated areas
5. Direct school Emergency Response Team members (search and rescue team) to turn off local fans in the area of the release, close the windows and doors and shut down the building's air handling system
6. Ensure person's who have come in direct contact with the hazardous substances are washed and cleaned. See First Aid Team responsibilities
7. The School, or affected areas, will not reopen until the County HazMat or appropriate agency provides clearance to do so

Teacher/Staff Responsibilities

1. Evacuate classroom in a calm and orderly fashion. Follow general evacuation procedures
2. At the evacuation site, prepare a list of all individuals in the affected room or contaminated area; specify those who may have had actual contact with the substance. Provide this information to the IC

First Aid Team

1. Direct or assist individuals who have come into direct contact with hazardous substances, to wash with soap and water. Do not use bleach or other disinfectants on potentially exposed skin
2. Remove and contain all contaminated clothes
3. Segregate individuals that have been contaminated "topically" by a liquid from unaffected individuals (isolation does not apply to widespread airborne releases)
4. Provide additional medical attention as needed

Threats or Disturbances

Animal disturbance

This procedure should be implemented when the presence of a dog, coyote, mountain lion or any other wild animal threatens the safety of students and staff.

General Procedures

1. Notify office and administration

2. Keep students away from the animal (return to classroom, secure all entrances to classroom, etc.)

IC Responsibilities

1. Call 911 and/or Animal Control
2. Attempt to isolate the animal from students, if it is safe to do so. If the animal is outside, students will be kept inside. If the animal is inside, students will remain outside in an area away from the animal

Disruptive Student

General Procedures

1. At the beginning of each school year, every teacher is to develop a "Clear the Room" procedure. This procedure includes step-by-step instructions of what to do should a student begin to throw things or attach other students or staff.
2. "Clear the Room" procedures should state to which teacher the students should report.
3. The receiving teacher will notify the office immediately.
4. The teacher must stay with the disruptive student until assistance arrives.

2. Assist the teacher with the student.
3. Involve other staff as necessary.
4. Call 911 if situation does not abate.
5. Notify the School Counselor/Psychologist or outside agency.
6. Review each plan and require that the plan be practice so that students will know what to do

Teacher/Staff Responsibilities

1. In concert receiving teachers, develop the "Clear the Room" plan.
2. Develop and alternate plan for when receiving teacher is not in the room.
3. Instruct students as to their roles if plan is implemented.
4. Stay with the out-of-control student.

Suicide or Suicide Threat or Attempt

General Procedures

1. Always assume the victim is alive!
2. Administer emergency first aid
3. Notify the IC

8. If victim has siblings in other area schools, notify their administrators
9. Be Prepared to deal with the media
10. Arrange for counselors for s students and staff
11. Make contact with parents of deceased student

Attempted

1. Assess the situation
2. Direct that appropriate notifications be made
3. If required, call 911
4. Deal with siblings set forth above

5. If Lock-Down was not called, hold an emergency staff meeting at close of school to brief staff

6. Arrange for additional counselors if needed

Teacher/Staff Responsibilities Actual/Attempted

1. Immediately notify the IC.
2. Administer first aid/CPR (if knowledgeable)
3. Secure the area until an administrator arrives on the scene
4. Once Relieved, teacher responds to his or her classroom and maintains order

Rumors

1. Treat all verbal and written threats as a serious matter
2. Immediately notify the IC about the information
3. Assist in the evaluation of the threat with other staff

Trespasser in building General Procedures

1. If the unauthorized visitor remains on the school property, notify the police, or IC of the situation, and implement Lock-Down procedures

Charter School shall provide due process for all students, including adequate and timely notice to parents/guardians and students of the grounds for all suspension and expulsion recommendations and decisions and their due process rights regarding suspension and expulsion, including rights of appeal.

Charter School shall ensure that its policies and procedures regarding suspension and expulsion will be periodically reviewed, and modified as necessary, in order to conform to changes in state law.

Charter School shall ensure that its staff is knowledgeable about and complies with the District’s Discipline Foundation Policy and/or current equivalent policy, as required by the Modified Consent Decree. Charter School shall comply with the terms of the School Discipline Policy and School Climate Bill of Rights resolution adopted by the LAUSD Board of Education on May 6, 2013.

Charter School shall be responsible for the appropriate interim placement of students during and pending the completion of Charter School’s student expulsion process and shall facilitate the post- expulsion placement of expelled students.

Charter School shall document and implement the alternatives to suspension and expulsion that Charter School utilizes in response to attendance-related concerns, e.g. truancy or excessive tardiness.

STUDENTS WITH DISABILITIES

Charter School shall establish and implement policies and procedures to ensure full compliance with federal and state laws and regulations regarding the discipline of students with disabilities. If a student is recommended for expulsion and the student receives or is eligible for special education, Charter School shall identify and provide special education programs and services at an appropriate interim educational placement, pending the completion of the expulsion process, to be coordinated with the LAUSD Special Education Service Center.

In the case of a student who has an Individualized Education Program (“IEP”), or a student who has a 504 Plan, Charter School shall ensure that it follows correct disciplinary procedures to comply with the mandates of state and federal laws, including IDEA and Section 504 of the Rehabilitation Plan of 1973. As set forth in the MOU regarding special education between the District and Charter School, an IEP team will meet to conduct a manifestation determination and to discuss alternative placement utilizing the District’s Special Education Policies and Procedures Manual. Prior to recommending expulsion for a student with a 504 Plan, Charter School’s administrator will convene a Link Determination meeting to ask the following two questions:

A. Was the misconduct caused by, or directly and substantially related to the student’s disability? B. Was the misconduct a direct result of the Charter School’s failure to implement 504?

NOTIFICATION OF THE DISTRICT

Upon expelling any student, Charter School shall notify the Charter Schools Division by submitting an expulsion packet to the CSD immediately or as soon as practicable, which shall contain:

If Law Enforcement is confiscating an item of evidence, then you must take a color photo of the evidence, obtain a property receipt from the officer, and have

the officer sign the Chain of Evidence document from the Expulsion Packet prior to relinquishing the evidence to the officer.

For cases involving Drugs, Mood Altering Substances and Unauthorized Substances, proof positive of the alleged substance must be provided within the expulsion packet as evidence to support the alleged charge. Whenever possible, have Law Enforcement complete a drug/substance kit, and/or issue a property receipt, to verify status of evidence as another specific unauthorized substances. expulsion IEP. If the student is eligible for Section 504 accommodations, documentation that Charter School conducted a Link Determination meeting to address two questions:

- A. Was the misconduct caused by, or directly and substantially related to the student's disability?
- B. Was the misconduct a direct result of Charter School's failure to implement 504 Plan?

Notwithstanding the documentation sent to the Charter Schools Division as indicated above, if the student is a resident of a school district other than LAUSD, Charter School must notify the superintendent of the student's district of residence within 30 days of the expulsion. Terms of expulsion should be reasonable and fair with the weight of the expelling offense taken into consideration when determining the length of expulsion. Therefore, the rehabilitation plan should include a date not later than one (1) year from the date of expulsion when the pupil may apply to Charter School for readmission. Charter School shall inform parents in writing of its processes for reinstatement and applying for expungement of the expulsion record.

READMISSION

Charter School's governing board shall adopt rules establishing a procedure for the filing and processing of requests for readmission and the process for the required review of all expelled pupils for readmission. This Pupil Suspension and Expulsion Policy has been established in order to promote learning and protect the safety and well being of all students at the Charter School. In creating this policy, the Charter School has reviewed Education Code Section 48900 et seq., which describes the noncharter schools' list of offenses and procedures, to establish its list of offenses and procedures for suspensions and expulsions. The language that follows closely mirrors the language of Education Code Section 48900 et seq. The Charter School is committed to annual review of policies and procedures surrounding suspensions and expulsions and, as necessary, modification of the lists of offenses for which students are subject to suspension or expulsion.

When the Policy is violated, it may be necessary to suspend or expel a student from regular classroom instruction. This policy shall serve as the Charter School's policy and procedures for student suspension and expulsion and it may be amended from time to time without the need to amend the charter so long as the amendments comport with legal requirements. Charter School staff shall enforce disciplinary rules and procedures fairly and consistently among all students. This Policy and its Procedures will be printed and distributed as part of the Student Handbook and will clearly describe discipline expectations. Corporal punishment shall not be used as a disciplinary measure against any student. Corporal punishment includes the willful infliction of or willfully causing the infliction of physical pain on a student. For purposes of the Policy, corporal punishment does not include an employee's use of force that is reasonable and necessary to protect the employee, students, staff or other persons or to prevent damage to school property.

The Charter School administration shall ensure that students and their parents/guardians are notified in writing upon enrollment of all discipline policies and procedures. The notice shall state that this Policy and Procedures are available on request at the Executive Director's office.

Suspension shall be preceded, if possible, by a conference conducted by the Executive Director or the Executive Director’s designee with the student and his or her parent and, whenever practical, the teacher, supervisor or Charter School employee who referred the student to the Executive Director or designee.

The conference may be omitted if the Executive Director or designee determines that an emergency situation exists. An “emergency situation” involves a clear and present danger to the lives, safety or health of students or Charter School personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student’s right to return to school for the purpose of a conference.

At the conference, the pupil shall be informed of the reason for the disciplinary action and the evidence against him or her and shall be given the opportunity to present his or her version and evidence in his or her defense. This conference shall be held within two school days of when the student was suspended, unless the pupil waives this right or is physically unable to attend for any reason including, but not limited to, incarceration or hospitalization. No penalties may

be imposed on a pupil for failure of the pupil’s parent or guardian to attend a conference with Charter School officials.

Reinstatement of the suspended pupil shall not be contingent upon attendance by the pupil’s parent or guardian at the conference.

2. Notice to Parents/Guardians

At the time of the suspension, an administrator or designee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension and the date of return following suspension. This notice shall state the specific offense committed by the student. In addition, the notice may also state the date and time when the student may return to school. If Charter School officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may request that the parent/guardian respond to such requests without delay.

3. Suspension Time Limits/Recommendation for Expulsion

Suspensions, when not including a recommendation for expulsion, shall not exceed five (5) consecutive school days per suspension. Upon a recommendation of expulsion by the Executive Director or Executive Director’s designee, the pupil and the pupil’s guardian or representative will be invited to a conference to determine if the suspension for the pupil should be extended pending an expulsion hearing. This determination will be made by the Executive Director or designee upon either of the following: 1) the pupil’s presence will be disruptive to the education process; or 2) the pupil poses a threat or danger to others. Upon either determination, the pupil’s suspension will be extended pending the results of an expulsion hearing. The student will have the opportunity, at the discretion of the Executive Director and/or the classroom teacher, to complete instructional activities missed due to his or her suspension and will be able to communicate with designated school staff for any questions and for evaluation of work.

D. Authority to Expel

A student may be expelled by an Administrative Panel following a hearing before it, and preceded by recommendation from the Executive Director. The Administrative Panel shall consist of at least three members who are certificated employees and neither a teacher of the pupil or a Board member of the Charter School’s governing board. The Charter School’s Board will appoint an

Administrative Panel. The Administrative Panel may expel any student found to have committed an expellable offense.

A student and his or her parents may appeal an expulsion decision by the Administrative Panel to the Charter School's Board, which will make the final determination.

E. Expulsion Procedures

Students recommended for expulsion are entitled to a hearing to determine whether the student should be expelled. If requested by the student, and unless postponed for good cause, the hearing shall be held within thirty (30) school days after the Executive Director or designee determines that the student has committed an expellable offense and recommends the student for expulsion.

The Administrative Panel will hold a hearing on the case, and will make a determination whether to expel. The hearing shall be held in closed session (complying with all pupil confidentiality rules under FERPA) unless the student makes a written request for a public hearing three (3) days prior to the hearing.

Written notice of the hearing shall be forwarded to the student and the student's parent/guardian at least ten (10) calendar days before the date of the hearing. Upon mailing the notice, it shall be deemed served upon the pupil. The notice shall include:

1. The date and place of the expulsion hearing;
2. A statement of the specific facts, charges and offenses upon which the proposed expulsion is based;
3. A copy of the Charter School's disciplinary rules which relate to the alleged violation;
4. Notification of the student's or parent/guardian's obligation to provide information about the student's status at the Charter School to any other school district or school to which the student seeks enrollment;
5. The opportunity for the student or the student's parent/guardian to appear in person or to employ and be represented by counsel or a non-attorney advisor;
6. The right to inspect and obtain copies of all documents to be used at the hearing;
7. The opportunity to confront and question all witnesses who testify at the hearing;
8. The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf including witnesses.

F. Special Procedures for Expulsion Hearings Involving Sexual Assault or Battery Offenses

The Charter School may, upon a finding of good cause, determine that the disclosure of either the identity of the witness or the testimony of that witness at the hearing, or both, would subject the witness to an unreasonable risk of psychological or physical harm. Upon this determination, the testimony of the witness may be presented at the hearing in the form of sworn declarations that shall be examined only by the Charter School or the hearing officer. Copies of these sworn declarations, edited to delete the name and identity of the witness, shall be made available to the pupil.

1. The complaining witness in any sexual assault or battery case must be provided with a copy of the applicable disciplinary rules and advised of his/her right to (a) receive five days notice of his/her scheduled testimony, (b) have up to two (2) adult support persons of his/her choosing present in the hearing at the time he/she testifies, which may include a parent, guardian, or legal counsel, and (c) elect to have the hearing closed while testifying.
2. The Charter School must also provide the victim a room separate from the hearing room for the complaining witness' use prior to and during breaks in testimony.
3. At the discretion of the Administrative Panel, the complaining witness shall be allowed periods of relief from examination and cross-examination during which he or she may leave the hearing room.

4. The Administrative Panel may also arrange the seating within the hearing room to facilitate a less intimidating environment for the complaining witness.
5. The Administrative Panel may also limit time for taking the testimony of the complaining witness to the hours he/she is normally in school, if there is no good cause to take the testimony during other hours.
6. Prior to a complaining witness testifying, the support persons must be admonished that the hearing is confidential. Nothing in the law precludes the person presiding over the hearing from removing a support person whom the presiding person finds is disrupting the hearing. The Administrative Panel may permit any one of the support persons for the complaining witness to accompany him or her to the witness stand.
7. If one or both of the support persons is also a witness, the Charter School must present evidence that the witness' presence is both desired by the witness and will be helpful to the Charter School. The person presiding over the hearing shall permit the witness to stay unless it is established that there is a substantial risk that the testimony of the complaining witness would be influenced by the support person, in which case the presiding official shall admonish the support person or persons not to prompt, sway, or influence the witness in any way. Nothing shall preclude the presiding officer from exercising his or her discretion to remove a person from the hearing whom he or she believes is prompting, swaying, or influencing the witness.
8. The testimony of the support person shall be presented before the testimony of the complaining witness and the complaining witness shall be excluded from the courtroom during that testimony.
9. Especially for charges involving sexual assault or battery, if the hearing is to be conducted in public at the request of the pupil being expelled, the complaining witness shall have the right to have his/her testimony heard in a closed session when testifying at a public meeting would threaten serious psychological harm to the complaining witness and there are no alternative procedures to avoid the threatened harm. The alternative procedures may include videotaped depositions or contemporaneous examination in another place communicated to the hearing room by means of closed-circuit television.
10. Evidence of specific instances of a complaining witness' prior sexual conduct is presumed inadmissible and shall not be heard absent a determination by the person conducting the hearing that extraordinary circumstances exist requiring the evidence be heard. Before such a determination regarding extraordinary circumstance can be made, the witness shall be provided notice and an opportunity to present opposition to the introduction of the evidence. In the hearing on the admissibility of the evidence, the complaining witness shall be entitled to be represented by a parent, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of the complaining witness is not admissible for any purpose.

G. Record of Hearing

A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made.

H. Presentation of Evidence

While technical rules of evidence do not apply to expulsion hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. A determination by the Administrative Panel to expel must be supported by substantial evidence that the student committed an expellable offense. Findings of fact shall be based solely on the evidence at the hearing. While hearsay evidence is admissible, no decision to expel shall be based solely on hearsay. Sworn declarations may be admitted as testimony from witnesses of whom the Board or Administrative Panel determines that disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm.

If, due to a written request by the expelled pupil, the hearing is held at a public meeting, and the charge is committing or attempting to commit a sexual assault or committing a sexual battery as defined in Education Code Section 48900, a complaining witness shall have the right to have his or her testimony heard in a session closed to the public.

The decision of the Administrative Panel shall be in the form of written findings of fact.

If the Administrative Panel decides not to recommend expulsion, the pupil shall immediately be returned to his/her educational

program.

I. Written Notice to Expel

The Executive Director or designee, following a decision of the Administrative Panel to expel, shall send written notice of the decision to expel, including the Administrative Panel's adopted findings of fact, to the student or parent/guardian. This notice shall also include the following: (a) Notice of the specific offense committed by the student; and (b) Notice of the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status with the Charter School.

The Executive Director or designee shall send a copy of the written notice of the decision to expel to the authorizer. This notice shall include the following: (a) The student's name; and (b) The specific expellable offense committed by the student.

J. Disciplinary Records

The Charter School shall maintain records of all student suspensions and expulsions at the Charter School. Such records shall be made available to the authorizer upon request.

K. Right to Appeal

The pupil shall have the right to appeal an expulsion decision from the Administrative Panel to the Charter School Board. The Charter School Board's decision to expel shall be final.

L. Expelled Pupils/Alternative Education

Pupils who are expelled shall be responsible for seeking alternative education programs including, but not limited to, programs within the County or their school district of residence. The Charter School shall work cooperatively with parents/guardians as requested by parents/guardians or by the school district of residence to assist with locating alternative placements during expulsion.

M. Special Procedures for the Consideration of Suspension and Expulsion of Students with Disabilities

1. Notification of SELPA

The Charter School shall immediately notify the SELPA and coordinate the procedures in this policy with the SELPA of the discipline of any student with a disability or student who the Charter School or SELPA would be deemed to have knowledge that the student had a disability.

2. Services During Suspension

Students suspended for more than ten (10) school days in a school year shall continue to receive services so as to enable the student to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the child's IEP/504 Plan; and receive, as appropriate, a functional behavioral assessment and behavioral intervention services and modifications, that are designed to address the behavior violation so that it does not recur. These services may be provided in an interim alternative educational setting.

3. Procedural Safeguards/Manifestation Determination

Within ten (10) school days of a recommendation for expulsion or any decision to change the placement of a child with a disability because of a violation of a code of student conduct, the Charter School, the parent, and relevant members of the IEP/504 Team shall review all relevant information in the student's file, including the child's IEP/504 Plan, any teacher observations, and any relevant information provided by the parents to determine:

- a. If the conduct in question was caused by, or had a direct and substantial relationship to, the child's disability; or
- b. If the conduct in question was the direct result of the local educational agency's failure to implement the IEP/504 Plan.

If the Charter School, the parent, and relevant members of the IEP/504 Team determine that either of the above is applicable for the child, the conduct shall be determined to be a manifestation of the child's disability.

If the Charter School, the parent, and relevant members of the IEP/504 Team make the determination that the conduct was a manifestation of the child's disability, the IEP/504 Team shall:

- a. Conduct a functional behavioral assessment and implement a behavioral intervention plan for such child, provided that the Charter School had not conducted such assessment prior to such determination before the behavior that resulted in a change in placement;
- b. If a behavioral intervention plan has been developed, review the behavioral intervention plan if the child already has such a behavioral intervention plan, and modify it, as necessary, to address the behavior; and
- c. Return the child to the placement from which the child was removed, unless the parent and the Charter School agree to a change of placement as part of the modification of the behavioral intervention plan.

If the Charter School, the parent, and relevant members of the IEP/504 Team determine that the behavior was not a manifestation of the student's disability and that the conduct in question was not a result of the failure to implement the IEP/504 Plan, then the Charter School may apply the relevant disciplinary procedures to children with disabilities in the same manner and for the same duration as the procedures would be applied to students without disabilities.

4. Due Process Appeals

The parent of a child with a disability who disagrees with any decision regarding placement, or the manifestation determination, or the Charter School believes that maintaining the current placement of the child is substantially likely to result in injury to the child or to others, may request an expedited administrative hearing through the Special Education Unit of the Office of Administrative Hearings or by utilizing the dispute provisions of the 504 Policy and Procedures.

When an appeal relating to the placement of the student or the manifestation determination has been requested by either the parent or the Charter School, the student shall remain in the interim alternative educational setting pending the decision of the hearing officer or until the expiration of the forty-five (45) day time period provided for in an interim alternative educational setting, whichever occurs first, unless the parent and the Charter School agree otherwise.

5. Special Circumstances

Charter School personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a change in placement for a child with a disability who violates a code of student conduct.

The Executive Director or designee may remove a student to an interim alternative educational setting for not more than forty-five (45) days without regard to whether the behavior is determined to be a manifestation of the student's disability in cases where a student:

- a. Carries or possesses a weapon, as defined in 18 USC 930, to or at school, on school premises, or to or at a school function;
- b. Knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function; or
- c. Has inflicted serious bodily injury, as defined by 20 USC 1415(k)(7)(D), upon a person while at school, on school premises, or at a school function.

6. Interim Alternative Educational Setting

The student's interim alternative educational setting shall be determined by the student's IEP/504 Team.

7. Procedures for Students Not Yet Eligible for Special Education Services

A student who has not been identified as an individual with disabilities pursuant to IDEA and who has violated the Charter School's disciplinary procedures may assert the procedural safeguards granted under this administrative regulation only if the Charter School had knowledge that the student was disabled before the behavior occurred.

The Charter School shall be deemed to have knowledge that the student had a disability if one of the following conditions exists:

- a. The parent/guardian has expressed concern in writing, or orally if the parent/guardian does not know how to write or has a disability that prevents a written statement, to Charter School supervisory or administrative personnel, or to one of the child's teachers, that the student is in need of special education or related services.
- b. The parent has requested an evaluation of the child.
- c. The child's teacher, or other Charter School personnel, has expressed specific concerns about a pattern of behavior demonstrated by the child, directly to the director of special education or to other Charter School supervisory personnel.

If the Charter School knew or should have known the student had a disability under any of the three (3) circumstances described above, the student may assert any of the protections available to IDEA- eligible children with disabilities, including the right to stay put.

If the Charter School had no basis for knowledge of the student's disability, it shall proceed with the proposed discipline. The Charter School shall conduct an expedited evaluation if requested by the parents; however the student shall remain in the education placement determined by the Charter School pending the results of the evaluation.

The Charter School shall not be deemed to have knowledge that the student had a disability if the parent has not allowed an evaluation, refused services, or if the student has been evaluated and determined to not be eligible.

(D) Procedures to Notify Teachers of Dangerous Pupils (EC 49079)

In order to fulfill the requirements made by Education Code 49079 and Welfare and Institutions Code 827 that state teachers must be notified of the reason(s) a student has been suspended. TEACH Public Schools has incorporated this notification into the existing "Attendance Reporting Screen". On the daily attendance report, when a student is suspended, will show an "S" next to the students name. The teacher can access the suspension by looking at the student's discipline screen. The information provided is for the student's current teachers only. All information regarding suspension and expulsion is CONFIDENTIAL, is not to be shared with any student(s) or parent(s). Teachers are asked to secure the list so students and others may not view it.

Pursuant to Welfare & Institution Code 827(b) and Education Code 48267, the Court notifies the Superintendent of the The TEACH Public School District regarding students who have engaged in certain criminal conduct. This information is forwarded to the site Principal. The site Principal is responsible for prompt notification of the student's teachers. Per Education Code 49079, this information must be kept confidential. This information is also forwarded to all administrators and the student's counselor. To: ALL CERTIFICATED STAFF From: Principal

(E) Sexual Harassment Policies (EC 212.6 [b])**Employee Prohibited Unlawful Sexual Harassment**

TEACH Public Schools is committed to providing a workplace that is free of sexual harassment and considers such harassment to be a major offense, which may result in disciplinary action, up to, and including dismissal, of the offending employee.

Sexual harassment consists of sexual advances, request for sexual favors and other verbal or physical conduct of a sexual nature, regardless of whether or not the conduct is motivated by sexual desire, when: (1) submission to the conduct is either made explicitly or implicitly a term or condition of an individual's employment; (2) an employment decision is based upon an individual's acceptance or rejection of that conduct; (3) that conduct interferes with an individual's work performance or creates an intimidating, hostile or offensive working environment.

It is also unlawful to retaliate in any way against an employee who has articulated a good faith concern about sexual harassment against him or her or against another individual.

All supervisors of staff will receive sexual harassment training within six (6) months of their assumption of a supervisory position and will receive further training once every two (2) years thereafter. Such training will include information about the negative effects that abusive conduct has on both the victim of the conduct and others in the workplace, as well as methods to prevent abusive conduct undertaken with malice a reasonable person would find hostile, offensive, and unrelated to an employer's legitimate business interests. Abusive conduct includes but is not limited to repeated infliction of verbal abuse, such as the use of derogatory remarks, insults, and epithets, verbal or physical conduct that a reasonable person would find threatening, intimidating, or humiliating, or the gratuitous sabotage or undermining of a person's work performance. Supervisors shall also be trained on how to appropriately respond when the supervisor becomes aware that an employee is the target of unlawful harassment.

Other staff will receive sexual harassment training and/or instruction concerning sexual harassment in the workplace as required by law. Each employee has the responsibility to maintain a workplace free from any form of sexual

harassment. Consequently, should any individual, in particular those with supervisory responsibilities, become aware of any conduct that may constitute sexual harassment or other prohibited behavior, immediate action should be taken to address such conduct. Any employee who believes they have been sexually harassed or has witnessed sexual harassment is encouraged to immediately report such harassment to the Executive Director. See Appendix A for the

"Harassment Complaint Form." See Appendix B for the general "Complaint Form."

Sexual harassment may include, but is not limited to:

- Physical assaults of a sexual nature, such as:
- Rape, sexual battery, molestation or attempts to commit these assaults and
- Intentional physical conduct that is sexual in nature, such as touching, pinching, patting, grabbing, brushing against another's body, or poking another's body.
- Unwanted sexual advances, propositions or other sexual comments, such as:

Sexually oriented gestures, notices, remarks, jokes, or comments about a person's sexuality or sexual experience.

- Preferential treatment or promises of preferential treatment to an employee for submitting to sexual conduct, including soliciting or attempting to solicit any employee to engage in sexual activity for compensation or reward or disparate treatment for rejecting sexual conduct.
- Subjecting or threats of subjecting an employee to unwelcome sexual attention or conduct or intentionally making performance of the employee's job more difficult because of the employee's sex.
- Sexual or discriminatory displays or publications anywhere at the workplace by employees, such as:
- Displaying pictures, cartoons, posters, calendars, graffiti, objections, promotional materials, reading materials, or other materials that are sexually suggestive, sexually demeaning or pornographic or bringing to work or possessing any such material to read, display or view at work.
- Reading publicly or otherwise publicizing in the work environment materials that are in any way sexually revealing, sexually suggestive, sexually demeaning or pornographic; and
- Displaying signs or other materials purporting to segregate an employee by sex in an area of the workplace (other than restrooms or similar rooms).

The illustrations of harassment and sexual harassment above are not to be construed as an all inclusive list of prohibited acts under this policy. Moreover, please note that while in most situations a personal relationship is a private matter, these relationships are not appropriate in a professional setting, particularly where one of the parties has management or supervisory responsibilities. As such, consensual relationships in the workplace may violate LA Leadership policy.

Complainants and witnesses under these policies will be protected from further harassment and will not be retaliated against in any aspect of their employment due to their participation in an investigation, filing of a complaint, or reporting harassment.

TEACH Public Schools will investigate complaints promptly and provide a written report of the investigation and decision as soon as practicable. The investigation will be handled in as confidential a manner as possible consistent with a full, fair, and proper investigation. TEACH Public Schools is committed to remediating any instances where investigation findings demonstrate unlawful harassment has occurred.

Following exhaustion of the TEACH Public Schools complaint procedures outlined herein, employees who believe they have been harassed or discriminated against may contact state or federal agencies to file a complaint. Employees who wish to contact the California Department of Fair Employment and Housing (“DFEH”) may do so by calling (800) 884-1684 (or, TTY, (800) 700-2320). For more information about or from the DFEH, visit www.dfeh.ca.gov or you can contact the Fair Employment Housing Commission at www.fehc.ca.gov. Employees who wish to contact the U.S. Equal Employment Opportunity Commission (“EEOC”) may do so by calling (800) 669-4000 (or, TTY, (800) 669-6820). For more information about or from the EEOC, visit www.eeoc.gov. Both the DFEH and EEOC will investigate complaints of discrimination or harassment, and may attempt to resolve such complaints either by prosecuting, conciliating or settling the matter on the employee’s behalf. TEACH Public Schools will not retaliate against any employee who files a complaint with, or otherwise participates in an investigation, proceeding or hearing conducted by, the DFEH or EEOC.

Student Unwanted Sexual Harassment

Includes unwelcome sexual advances and other verbal or physical conduct of a sexual nature when any or all of the following occurs:

1. Submission to such conduct is made either explicitly or implicitly a term or condition of a student’s academic status or progress.
2. Submission to or rejection of such conduct by a student is used as the basis of academic decisions affecting the individual.
3. Such conduct has the purpose or effect of unreasonably interfering with the individual’s academic performance or creating an intimidating, hostile or offensive educational environment.

It is the responsibility of TEACH Public Schools to:

1. Implement this policy through regular meetings with all administrators, ensuring that they understand the policy and its importance;
2. Make all faculty, staff, students, and parents aware of this policy and the commitment of the school toward its strict enforcement;
3. Remain watchful for conditions that create or may lead to a hostile or offensive school environment;
4. Establish practices designed to create a school environment free from discrimination, intimidation, or harassment.

It is the responsibility of the student to:

1. Conduct herself/himself in a manner, which contributes to a positive school environment;

2. Avoid any activity that may be considered discriminatory, intimidating, or harassing;
3. Consider immediately informing anyone harassing him/her that the behavior is offensive and unwelcome.
4. Report all incidents of discrimination or harassment to the Principal;
5. If informed he/she is perceived as engaging in discriminatory, intimidating, harassing or unwelcome conduct, to discontinue that conduct immediately.

Complaint filing and investigation procedures

The following procedures must be followed for filing and investigating a harassment claim:

1. The student may first choose to tell the individual causing the harassment that his/her conduct is offensive and must stop. If the objectionable behavior does not cease immediately, the student must report the harassment to the Principal.
2. The student alleging harassment will be asked to complete a formal, written complaint. The claim will be investigated thoroughly, involving only the necessary parties. Confidentiality will be maintained as much as possible.
3. The investigation will include a meeting with the person alleged to have harassed, sharing with that person the nature of the allegations as well as the name of the person bringing the allegations. If appropriate, the alleged harasser will be placed on administrative leave during the course of the investigation.
4. Once the facts of the case have been gathered, the Principal, in consultation with the Superintendent, will decide what, if any, disciplinary action is warranted. The disciplinary action will relate to the nature, context, and seriousness of the harassment and can include all disciplinary actions up to and including immediate expulsion or termination.
5. If the complaint is against a non-employee or non-student, such as a parent, volunteer, or vendor, the school will take steps, within its power, to investigate and eliminate the problem.

(F) School-wide Dress Code Relating to Gang-Related Apparel (EC 35183)

At TEACH Public Schools, employees come into frequent contact with the public. Courtesy, tact, and helpfulness are expected in order to reinforce the positive reputation TEACH Public Schools employees have worked hard to establish. Furthermore, in interactions with or in the presence of students, employees are required to speak and interact appropriately. Certificated staff must refrain from using cell phones in classrooms or in plain view unless during an approved break or conference period and should not conduct personal business during the school day. As students are asked to wear a uniform to communicate their academic seriousness, employees are likewise expected to dress in an appropriate manner that is suitable for their working conditions. Appearance must project a professional appearance that sets a tone for an environment in which learning is expected to take place and in which the public is welcomed. Students are expected to maintain good personal hygiene. Determination of appropriateness of attire will be made by the school Principal.

Student dress shall always be the prescribed uniform. Attire which can be readily associated with a criminal street gang, or criminal street organization is prohibited during school and school sponsored functions and at all times when representing TEACH Public Schools.

(G) Procedure for Safe Ingress and Egress of Pupils, Parents, and Staff to and from School (EC 35294.2)

During normal school hours our school has one entry gates (Alley off of Century Blvd., just east of Western Ave.) for all students to enter through and line up with their classroom teachers. Students may arrive at 8:00AM for breakfast. Staff will open the school and all staff will be positioned to greet the students as they enter the gates onto the enclosed school yard. Official arrival time for instruction is at 8:30AM.

The principal and staff will supervise the front of the school and school yard during morning arrival to make sure all students are either with their teacher or a substitute. The instructional day continues as scheduled.

The school day ends at 2:45pm on Mondays, Tuesdays, Thursday and Fridays. On Wednesdays, school dismissal is at 1:00pm for staff professional development. Minimum Day dismissal is at 12:30pm.

All staff members and community-based Safe Passage Organization staff monitor the safe entry and exit of students. TK and Kindergarten students will exit through the Alley gate off of Century Blvd., just east of Western Ave. and Grade 1 students exit through the Century Blvd. and Hobart Blvd. gate. The principal circulates back and forth to both exit gates during dismissal and staff uses walkie-talkies to communicate as necessary.

Strategies and procedures were developed to ensure the safe ingress/egress of students, school employees, parents, volunteers and visitors.

- Visitors must sign in and secure a Visitor’s Pass from the school office before entering the campus. They must sign out when leaving.
- Students leaving early must be signed out by parents/guardians or someone listed on the student’s emergency card.
- Walkie-Talkies assigned to designated staff will be operational throughout the day.

(I) School Discipline Rules and Consequences (EC 35291 and EC 35291.5)

TEACH Preparatory Mildred S. Cunningham & Edith H. Morris Elementary School Student Conduct Code

Conduct Code Procedures

The fundamental belief that was operating at the creation of TEACH and its discipline structure is that one of the major functions of education is the preparation of youth for responsible citizenship. TEACH Public Schools shall foster a learning environment that reinforces self-discipline and the acceptance of personal responsibility. In addition, all TEACH schools shall work with students and families to provide a safe school environment that provides students with the opportunity to have a quality education.

The following policies and procedures are designed to guide TEACH schools and personnel in dealing with student discipline issues, while providing students and parents with a clear set of expectations regarding student behavior and an understanding of the consequences of misconduct.

As provided in TEACH charter petition, the policies and procedures for suspension and expulsion of TEACH students set forth in this document comply with the policies and procedures identified in the California Education Code. These policies and procedures will be periodically reviewed and the lists of offenses for which students are subject to suspension or expulsion will be modified as necessary.

These policies and procedures will be enforced fairly, uniformly, and consistently without regard to sex, ethnic group, religion, sexual orientation, color, race, national origin and physical or mental disability

Discipline in General

Each school should develop a process for handling, and if necessary escalating, individual cases of student misbehavior. Strategies may include but are not limited to:

- Relocating the student's desk to a different part of the classroom;
- Assigning different or additional work appropriate to the infraction;
- Utilizing a peer mediation or student conflict resolution program;
- Individual conversation with the classroom teacher about behavior and consequences;
- Utilizing a written referral framework;
- Designating selected classrooms and teachers as places for "time out/calm down/cool down";
- Referring students to the principal or a designee;
- Contacting parents/guardians; and/or

All TEACH school employees will report unmanageable or unusual behavior of students to the school principal or designee as soon as possible. The school principal or designee shall investigate the report and exercise his or her discretion for purposes of notification of parents, legal guardians, law enforcement, or local child protection services.

Suspension

Suspension is the temporary removal of a student from class instruction for adjustment or disciplinary reasons. A suspension does not mean any of the following:

1. Reassignment to another class at the same school where the student will receive continuing instruction for the school day.
2. Referral to an advisor assigned that role by the Principal.

While on suspension from school, the student is not to loiter on or about any school grounds at any time, nor to attend any TEACH school activity at any time, no matter where such activity may be taking place. Violation may result in further disciplinary action.

Except in cases where suspension for a first offense is warranted in accordance with law, each school site shall consider suspension from school only when other means have not been successful or where the student's presence would constitute a danger to persons or property or seriously disrupt the educational process.

Authority to Suspend:

1. A teacher may suspend a student only from his/her classroom for the day of the suspension plus the following school day. A teacher's suspension must be related to student safety and is subject to the approval of the principal.
2. The Principal or his/her designee may suspend a student from class, classes or the school campus for a period not to exceed five school days.
3. The President or his/her designee may extend a student's suspension pending final decision by the School Board of Directors on a recommendation for expulsion.
4. A Special Education student being considered for expulsion may be suspended for ten (10) consecutive days pending assessment and an IEP Team meeting. The suspension may also be extended pending final decision by the School Board of Directors on a recommendation for expulsion.

A pupil may not be suspended or expelled for any of the acts enumerated unless the act is related to school activity or school attendance occurring within a school under the jurisdiction of the President or principal or occurring within any other school district. A pupil may be suspended or expelled for acts that are enumerated in the section and related to school activity or attendance that occur at any time, including, but not limited to any of the following:

Expulsion

Expulsion is the involuntary removal of a student from all schools and programs of TEACH for an extended period of time for acts of specified misconduct. Except for single acts of a grave nature, expulsion is used only when there is a history of misconduct, when other forms of discipline, including suspension, have failed to bring about proper conduct, or when the student's presence causes a continuing danger to other students. Final action is only taken by vote of the TEACH Board of Directors – Executive Committee ("TEACH Executive Committee").

In the event that a student is recommended for expulsion from school, he or she is entitled to a hearing and, among other things, advance written notice of the rights and responsibilities enumerated in Education Code section 48918. Written notice of these due process rights shall be provided at least 10 days in advance of the date set for the hearing. (Ed. Code 48918)

Expulsion proceedings for a currently identified Special Education student require additional due process procedures. TEACH will follow all due process procedures for Special Education students included in this document and in the Education Code.

While under expulsion, a student cannot enroll in another California school district without approval of that district's Board of Education. Certain expelled students may enroll only in Juvenile Court Schools, County Community Schools, or District operated Community Day Schools (AB922) during the duration of the expulsion.

The School Board of Directors, upon voting to expel a pupil, may suspend the enforcement of the expulsion order for a period of not more than one calendar year and may, as a condition of the suspension of enforcement, assign the pupil to a school, class, or program that is deemed appropriate for the rehabilitation of the pupil. The rehabilitation program to which the pupil is assigned may provide for the involvement of the pupil's parent or guardian in his or her child's education in ways that are specified in the rehabilitation program. A parent or guardian's refusal to participate in the rehabilitation program shall not be considered in the School Board of Directors determination as to whether the pupil has satisfactorily completed the rehabilitation program. (Ed. Code 48917)

Expellable Offenses:

Category I – Mandatory Expulsion

Under the mandatory provisions of Education Code 48915(c), a student who has committed one or more of the following acts must be recommended for expulsion and the School Board of Directors must expel the student.

- Possessing, selling or otherwise furnishing a firearm when an TEACH School employee verified firearm possession,
- Brandishing a knife at another person,
- Unlawfully selling a controlled substance listed in Chapter 2 (commencing with Section 11053) of Division 10 of the Health and Safety Code, or
- Committing or attempting to commit a sexual assault or committing sexual battery

Category II – Mandatory Recommendation for Expulsion

Under the mandatory provision of Education Code 48915(a), a student who has committed one of the following acts of misconduct must be recommended for expulsion unless particular circumstances render it inappropriate.

- Causing serious physical injury to another person, except in self-defense;
- Possession of any knife, explosive, or other dangerous object of no reasonable use to the student;

- Unlawful possession of any controlled substance listed in Chapter 2 (Commencing with Section 11053) of Division 10 of the Health and Safety Code, except for the first offense for the possession of not more than one avoirdupois ounce of marijuana, other than concentrated cannabis;
- Robbery or extortion;
- Assault or battery upon a school employee.

Category III – Expulsion May Be Recommended

In accordance with Education Code 48915 and by direction of the California Board of Education, a student may be considered for expulsion for committing any act not listed in Category I or II and enumerated in Education Code sections 48900, 48900.2, 48900.3, 48900.4, or 48900.7.

Note: The School Board of Director's decision to expel a student for violations included in Categories II and III must be based on a finding of one or both of the following:

1. Other means of correction are not feasible or have repeatedly failed to bring about the proper conduct.
2. Due to the nature of the act, the presence of the pupil causes a continuing danger to the physical safety of the pupil or others. (Ed. Code 48915(b) and 48915(e).)

Note: If the Discipline Review Board chooses not to recommend the expulsion of the student, TEACHmay, at its discretion, impose a lesser form of disciplinary action which may include assigning the student to another school or program. Such transferred students will not be permitted to re-enroll in their former school of assignment. (Ed. Code 48918(e).)

This goal is best achieved in a culture of acceptance, high expectation, encouragement, support, and positive motivation. Teachers have a responsibility to maintain a positive learning environment. Discipline is a process by which students are helped to develop an understanding of, and an appreciation for appropriate behavior toward a sound learning experience. The process includes positive behavioral interventions. Any student who interferes with their right or the right of others to learn is engaging in inappropriate behavior. Inappropriate behavior is subject to disciplinary consequences. Students engaging in inappropriate behavior, or students who have conflict with another, is subject to disciplinary consequences. Our students are taught and encouraged to manage and resolve conflict on their own through positive communication skills. If after doing so, students feel that the problem is not resolved, the conflict should be reported to the teacher.

Restorative Justice

At TEACH, we believe in working with students in order for them to repair any harm that they may have caused to others through words or actions. Students accomplish this through a cooperative process that includes all stakeholders, which can lead to a transformation of people, relationships, and communities.

Management

During an emergency, the Incident Commander directs response actions from a designated Command Post. To effectively do this, the Incident Commander must constantly assess the situation, and develop and implement appropriate strategies. The Incident Commander must be familiar with the available resources, accurately document all response actions, and effectively communicate response strategies to others participating in the response. This function is typically filled by the school principal. The principal is assisted in carrying out this function by a Public Information & Liaison Officer and Safety Officer.

Planning & Intelligence

Planning and Intelligence involves the use of various methods to efficiently gather information, weigh and document the information for significance, and actively assess the status of the emergency. This understanding and knowledge about the situation at hand is

vital to the effective management of a response. These activities are performed by a single person who reports directly to the Incident Commander.

Operations

All response actions are implemented under by Operations. This includes staff performing first aid, crisis intervention, search and rescue, site security, damage assessment, evacuations, and the release of students.

Logistics

Logistics supports the response by coordinating personnel; assembling and deploying volunteers; providing supplies, equipment, and services; and facilitating communications among emergency responders.

Finance & Administration

Finance & Administration involves the purchasing of all necessary materials, tracking financial records, timekeeping for emergency responders, and recovering school records following an emergency. These activities are performed by a single person who reports directly to the Incident Commander.

Emergency Response Guidelines

Step One: Identify the Type of Emergency

Assess the situation carefully yet quickly. Is there immediate danger to staff or students? Is the danger within the building or outside the building? What is the magnitude of the event?

Step Two: Identify the Level of Emergency

What is the magnitude of the event? Is it life threatening? What needs to be done immediately to protect safety while further information is gathered?

Step Three: Determine the Immediate Response Action

Do not delay in calling 911 and the District Office. It is better to have emergency responders arrive and not be needed than to delay calling them and risk injury or harm.

Step Four: Communicate the Appropriate Response Action

Communicate clearly to staff and students what they should do immediately. Activate the emergency response team at the school as needed.

Types of Emergencies & Specific Procedures

Aircraft Crash

This procedure addresses situations involving an Aircraft Crash on or in proximity to school property. If a crash results in a fuel or chemical spill on school property, refer Biological or Chemical Release. If a crash results in a utility interruption, refer to Loss or Failure of Utilities.

Procedure

1. The School Administrator will initiate appropriate Immediate Response Actions, which may include DROP, COVER and HOLD ON, SHELTER-IN-PLACE, EVACUATE BUILDING, or OFF-SITE EVACUATION.
2. If the School Administrator issues the EVACUATE BUILDING action, staff and students will evacuate the buildings using prescribed routes or other safe routes to the Assembly Area.
3. In the event of an evacuation, teachers will bring their student roster and take attendance at the Assembly Area to account for students. Teachers will notify the Assembly Area Team of missing students.
4. The School Administrator will call "911" and the Los Angeles County Sheriff and provide the exact location (e.g., building or area) and nature of emergency. The School Administrator will call the office of the District Superintendent.
5. If on school property, the Security/Facilities Team will secure the crash area to prevent unauthorized access.
6. The School Administrator will direct the Fire Suppression and HazMat Team to organize fire suppression activities until the Fire Department arrives.
7. The First Aid/Medical Team will check injuries to provide appropriate first aid.
8. Any affected areas will not be reopened until the Fire Department or County HazMat or appropriate agency provides clearance and the School Administrator issues authorization to do so.
9. The Psychological First Aid Team will convene onsite and begin the process of counseling and recovery as appropriate.
10. If it is unsafe to remain on campus, the School Administrator will initiate an OFF-SITE EVACUATION, if warranted by changes in condition.

Animal Disturbance

Intruders/ Vicious Animals

1. Call the school main office and office staff will check out the situation and take appropriate action (i.e., contact Police or animal control agency).
2. Administration should initiate a code to alert staff of a potential suspicious intruder.
3. Keep the students in the classroom until the threat is cleared.
4. Implement shelter in place if necessary; lock classroom doors and windows, move away from windows, draw curtains, remain silent.
5. Notify office of who is with you, if possible.
6. All students outside of the building are to be quietly and cautiously led into the building.
7. Wait for further instructions from administration and/or police/animal agency.

Armed Assault on Campus

Armed Assault on Campus involves one or more individuals who attempt to take hostages or cause physical harm to students and staff. Guns, knives or other harmful devices may be involved.

Procedure

1. Upon first indication or armed assault, school personnel immediately call 911. School site security team are to be notified via radio or cell phone.
2. School Administrator is notified. School Administrator assures or designates a person to remain online with Police/Sheriff if safe to do so.

4. School Administrator initiates Lockdown Procedures
5. Staff keeps everyone in an area under cover and as concealed as possible. Stay behind solid walls and doors; keep away from windows.

 - b. Once inside, lock doors if possible; if lock is on outside of door, attempt secure door from inside
 - c. Follow remaining steps in item 6 above
8. Staff takes steps to calm and control students, and if safe to do so, attempt to maintain separation between students and suspect(s)
9. Maintain order in all areas of assembly or shelter, await arrival of law enforcement. Be prepared for lengthy stay of 2-4 hours.
10. All Clear signal will be made by personal notification only, after consultation with Law Enforcement Administrative Personnel on scene

6. Staff to follow the emergency procedures previously described.

A biological or chemical release is an incident involving the discharge of a biological or chemical substance in a solid, liquid or gaseous state. Such incidents may also include the release of radioactive materials. Common chemical threats within or adjacent to schools include the discharge of acid in a school laboratory, an overturned truck of hazardous materials in proximity of the school, or an explosion at a nearby oil refinery or other chemical plant. This procedure deals with three possible scenarios involving the release of biochemical substances:

Scenario 1: Substance released inside a room or a building

Scenario 2: Substance released outdoors and localized

Scenario 3: Substance released in the surrounding community

It is necessary to first determine which scenario applies and then implement the appropriate response procedures listed below:

Scenario 1: Substance Released Inside a Room or Building

General Procedures

1. Evacuate the building
2. Notify Main Office Administration
3. Turn off all fans in the area of the release; close the windows and doors, shut down the building's air handling system

IC Responsibilities

Bomb Threat/ Threat Of violence

Lockdown/Shooting Incident

If a shooting takes place the first priority is to shelter students and staff. On hearing shots or an announcement from Principal:

1. Teachers close and lock all classroom doors and windows immediately.
2. Teachers take roll.
3. Teachers calmly direct students to duck under their desks.
4. Principal calls 911.
5. Principal assigned person ensure students are not in the hallways or bathrooms. Students found in these areas are immediately escorted to a secure classroom or office.
6. Office personnel close and lock all office doors and windows immediately.
7. Nobody leaves their secure sites until emergency crew members escort them to safety.
8. Assigned person(s) will control and organize media.
9. Assigned person(s) will ensure that counseling services are available as soon as possible.

Bomb Threat

There are two primary ways a bomb threat may arise. One is through a phone call or written letter in which a bomb is discussed. The other is through a citing of a suspicious object. Threats should be handled quickly and efficiently as if they were real and life threatening.

If there is a phone call or written threat of a bomb on campus, the person who took the call or read the note will:

1. Notify Principal immediately.
2. Try to obtain information from the caller such as where the bomb is, where it is set to explode, what it looks like, what kind of bomb it is, why it is there and who the caller is. Note any identifying features about the caller (i.e. gender, speech patterns).

If there is a citing of a suspicious object, the person would:

1. Notify Principal immediately.
2. Do not touch the object but note any identifying features to describe it to the Principal and emergency crews.

In all cases:

1. If Principal determines to evacuate, staff follows emergency procedures previously described.
2. Before emergency crews are on campus, do not search for any bomb, or explosive. Search only for people who should be evacuated.
3. If you see any suspicious object, steer clear of it and report it to the Principal and the emergency crew chief. Follow all emergency crew and bomb squad directives.
4. Use radios, walkie-talkies and phones only if absolutely necessary as the frequencies may set off the bomb(s).

Explosion

If indoors:

1. All drop down to the floor and duck and cover.
2. Turn away from the windows.
3. Take cover under a desk or table or against an interior wall.
4. Cover head with arms or hold to the cover.
5. Hold the position until directed to the building.
6. Staff to follow the emergency procedures previously described.

If outdoors:

1. Move away from buildings, poles and overhead wires.
2. Lie down or crouch low to the ground.
3. Look out for dangers that demand movement.
4. Staff to follow emergency procedures previously described.

Death/Suicide

1. Principal will be notified in the event of a death or suicide on campus.
2. Assigned person(s) will phone 911.
3. Assigned person(s) will phone TEACH headquarters.
4. Principal will notify teachers to keep students in their classrooms until informed otherwise.
5. Assigned person(s) will control and organize media.
6. Assigned person(s) will notify relatives where the victim(s) have been taken and not divulge unnecessary details.
7. Assigned person(s) will ensure that counseling services are available as soon as possible.

Suicide Prevention

Assisting students who express suicidal wishes or engage in suicidal behaviors is essential to maintaining a safe and healthy environment for students.

1. An administrator who serves as the head of the school site shall respond to reported incidents of students expressing suicidal wishes or engaging in suicidal behaviors.
2. A preliminary assessment and referrals, as appropriate, will be completed by the designated "administrator", including a review of risk factors.
3. Parents must be informed of the student's actions or expressions of intent.

Responses to Bomb Threat is initiated upon the discovery of a suspicious package on campus grounds or receipt of a threatening phone call that present risk of an explosion.

General Procedures

1. Evacuation route should be posted in every classroom
2. Use Bomb Threat Checklist to record information about telephone bomb threats. Listen to the message without interrupting the caller. Write down the message, noting time of call, unusual background noises, and estimated age of caller, and try to keep the caller talking. Attempt to ascertain from the caller the type of bomb, location placed, time of detonation, and reason school has been targeted.
3. After caller has concluded his or her threat, hang up and immediately lift the receiver and press *69 (call trace)
4. If school has caller ID, note the number from which call was made
5. Notify Main Office Administration
6. If threat is written, place it in an envelope or plastic bag
7. Prepare media statement and flyer to inform parents

IC Responsibilities

1. Evaluate the bomb threat and determine if building evacuation is necessary
2. If threat is deemed valid:
 - a. Call 911 – advise building is being evacuated because of a bomb threat
 - b. Activate SERT
 - c. Turn off school bell system
 - d. Don't use PA system

e. Turn off all two-way radios

3. Dispatch SERT to notify each classroom of the need to evacuate the school. While completing this task, conduct a limited search of common areas of the school.

4. In consultation with police/fire officials, determine when it is safe to reenter the school

NOTE: Do not utilize the fire alarm system to evacuate the building

Teacher/Staff Responsibilities

1. Upon receipt of notification to evacuate the school, conduct a limited search of classrooms to determine if any strange or unknown objects are in the room

2. Proceed to pre-designated evacuation point with emergency back pack

3. Maintain control of students and advise SERT of any missing children

4. Do not reenter the building until directed to do so by a SERT member or someone in authority

Device Found

Upon discovery of a suspicious device, immediately send word to the IC. If the device is found in a classroom with students, immediately, but in an orderly manner, evacuate the classroom. UNDER NO CONDITION ATTEMPT TO TOUCH OR MOVE THE DEVICE.

IC Responsibilities

1. Upon notification of a device found:

a. Call 911 – advise building is being evacuated because a suspected bomb has been discovered. If possible, give a description of the device.

b. Activate the SERT

c. Turn off the school bell system

d. Turn off all two-way radios

e. Do not use the fire alarm system to evacuate the building

2. Dispatch SERT to begin the evacuation process. The order of evacuation should be:

a. Classroom in which the device is located

b. Classrooms on either side of, across the hall from, that back up to, or are directly above or below the classroom containing the device. Continue increasing the size of the evacuation until all students and staff are at a safe distance.

3. The evacuation must be conducted in an orderly and controlled manner so as not to create an unstable environment which may exacerbate the situation

4. In consultation with police/fire/bomb disposal officials, determine when it is safe to reenter the building

Teacher/Staff Responsibilities

1. Upon receipt of notification to evacuate the classroom, proceed to pre-designated evacuation location with emergency back pack

2. Maintain control of students and advise SERT of any missing or unaccounted for students

3. Do not enter the school until directed to do so by an SERT or police/fire authority.

Bus Disaster

TEACH Prep Elementary School does not provide buses. In situations where buses are provided to students independent contractors are hired and responsible for student safety. TEACH PS provides the following guidelines for bus emergencies: Emergencies occur without warning and vary in their level of risk and severity. During any emergency situation bus drivers must be able to focus on all of the interrelated pieces of a particular emergency. While each situation will be different and could have many parts, the driver will need to stay focused on their responsibility and work towards providing a safe environment for all passengers regardless of their involvement in the emergency.

Use this Emergency Plan as a guide as you assess the emergency situation. It will help you determine the courses of action that will best address the threat or hazard you are facing. Bus drivers are empowered to deviate from the roles described in this plan including the order of these actions, whenever doing so is likely to reduce the risk of serious injury or death. These procedures apply to student activity trips and regular school bus routes.

Disorderly Conduct

Disorderly conduct may involve a student or staff member exhibiting threatening or irrational behavior.

Procedure

1. Upon witnessing Disorderly Conduct, staff will immediately notify the School Administrator.
2. The School Administrator will initiate the appropriate Immediate Response Actions, which may include SHELTER-IN-PLACE, LOCKDOWN, EVACUATE BUILDING or OFF-SITE EVACUATION.
3. The School Administrator will call Los Angeles County Sheriff and or other response agencies, PET Team, depending upon the assessed need and provide the exact location and nature of the incident. If determined to be appropriate, the School Administrator will call "911."
4. If an immediate threat is not clearly evident, the School Administrator or a staff member may attempt to diffuse the situation. Approach the perpetrator in a calm, non-confrontational manner and request he or she leave the campus. Avoid any hostile situations.
5. If the perpetrator is a student, an attempt should be made to notify the family. (Family members may provide useful information on handling the situation.)
6. The School Administrator will notify the District Superintendent of the situation.

Earthquake

Earthquake If indoors:

1. DUCK or DROP to the floor on your knees and make the body as small as possible. COVER yourself under a sturdy desk, table or bench, in a hall, or stand against an inside wall.
 - a. You should be facing away from: windows; doors; glass; skylights; brick or rock faced walls; large movable objects, such as bookcases; or outside doors and walls.
 - b. With one arm, HOLD on to a desk leg so that it will protect your head and neck and so that it will not move away from covering you; be prepared to move with it. STAY in this position for at least one minute or, in a real situation, until shaking stops. When it is safe, proceed to the assembly areas in the same manner as for Evacuation Procedures.
 - c. Rest your head on one arm and place your other arm over the base of the head and neck.
2. Turn away from windows.
3. Take cover under a desk or table or against an interior wall.
4. Cover head with arms or hold to the cover and be prepared to move with it.
5. Hold the position until the ground stops shaking.
6. When initial shaking stops, principal or office manager sounds alarms to evacuate the building.
7. Staff to follow emergency procedures previously described.

When outdoors, stay outside.

Tremors and shaking of the earth are the signals of an earthquake. The initial shock is likely to be not more than ninety seconds duration.

1. Move away from buildings and overhead wires or structures
2. Lie down or crouch low to the ground. Drop to the ground on your knees and make the body as small as possible
 - a. Face position away from: buildings, power poles and lines, trees or other overhead hazards, roads and streets, as cars may go out of control.
 - b. Cover as much skin surface as possible, close your eyes, and cover your ears. If you have a book or other similar object, place it over the base of your head and neck to protect you from flying debris.
3. When it is safe, proceed to the assembly areas in the same manner as for Evacuation Procedures
4. Look out for dangers that demand movement.
5. Be prepared to duck and cover again due to after shocks.

Staff to follow emergency procedures previously described

Walking to or from school facilities

If students are walking to or from school when an earthquake occurs, they should stay away from all buildings, trees, exposed wires, or other hazards that may fall. The safest place is in the open. Students should assume "drop, cover, and hold" position until the quake is over. After the earthquake, if on the way to school facilities, continue to school. If on the way home, continue home or return to school.

Teacher responsibilities during the evacuation

The teacher may render immediate first aid if necessary. Students with major injuries and are unable to move are to remain in the classroom (search & rescue team members or first responders will remove injured students/staff). Students with minor injuries are to be moved out of the classroom with the class.

1. Teachers check primary evacuation route for blockage and dangers such as fallen trees or electrical wires
2. If primary route is blocked, check alternate route. Do not walk under covered walkways unless absolutely necessary.
3. If both routes are blocked do not risk injury to yourself or students. Wait for help to arrive!
4. When evacuating classroom, take your emergency backpack and folder with you.
5. Check with your buddy teacher during an evacuation to ensure everyone is evacuating and assist or evacuate the class yourself if necessary
6. Door is to be left open during an earthquake disaster

Always DUCK, COVER, and HOLD when an earthquake occurs. Assess the situation and remain calm. When alerted to evacuate or have made a decision to evacuate, look for the safest route, take your emergency backpack and ID card, and escort your children to the assembly area. Check the adjacent classroom(s) and assist if necessary or evacuate the class(es). Wedge the door open if possible. Take the attendance with the Emergency Attendance Form to the evacuation site and display appropriate 'alert card' (Green Card = all students accounted for, Red Card = missing students and/or need assistance) from the emergency backpack.

1. Anyone who is 'injured but mobile' should be escorted to the assembly area
2. Anyone who is 'severely injured and not mobile' should be left for the search and rescue team or first responders
3. Leave all 'dead' where they are

All classified and support staff are to escort their students to the assembly area and return to their teacher. They will then await instruction from the IC. Office personnel are to take emergency cards, radios, and key sets with them and report to the Incident Commander for instructions.

Explosion or Risk Of Explosion

This section addresses four possible scenarios involving an explosion or risk of explosion:

Scenario 1: Explosion on school property

Scenario 2: Risk of explosion on school property

Scenario 3: Explosion or risk of explosion in a surrounding area

Scenario 4: Nuclear blast or explosion involving radioactive materials (a nuclear blast is characterized by a sequence of intense light and heat, air pressure wave, expanding fireball, and subsequent radioactive fallout)

It is important to first determine which scenario applies and then implement the appropriate response procedures.

Scenario 1: Explosion on School Property

General Procedures

1. Call 911
2. Initiate Duck, Cover and Hold procedures
3. Consider the possibility of another imminent explosion and take appropriate action
4. After the explosion, the IC will initiate the appropriate response signal, which may include a Lockdown or Evacuation. Evacuation may be warranted in some buildings and other buildings may be used as shelter.
5. In the event of an evacuation, sound the fire alarm and everyone in the school should leave the building in a calm, orderly manner with classes led by teachers.
6. Any students separated from their classes should be incorporated into any adult-led group
7. Follow the evacuation routes established in the fire drill plan. Create a safety zone -- at least 300 feet from the building.
8. Staff without classes should monitor crosswalks or other posts to locate children that may have been separated from adult supervisors
9. Teachers should have class rosters so that each student can be accounted for once the evacuation is completed. Names of any students unaccounted for or students that have joined groups other than their own classes in the evacuation process should immediately be given to the IC.
10. The IC should formulate a list of students that could still be in danger with the assistance of other administrators or staff
11. Limit the use of electronic and motorized devices – no open flames
12. Attempt to suppress fires with extinguishers

? Note: Ensure the use of proper type of extinguishers, i.e. Class A, B or C for ordinary combustibles; Class B or C for fires involving flammable liquids; or Class C only for fires involving electrical equipment.

13. Contact the Utility company with any damage to water lines, sewers, power lines or other utilities

14. Any areas affected by the explosion will not be reopened until the City/County HazMat or appropriate agency provides clearance and authorization

Scenario 2: Risk of Explosion on School Property

General Procedures

1. Call 911
2. Determine the appropriate response signal: Lockdown (Soft) or Evacuation
3. If an evacuation is warranted, follow standard evacuation procedures in Evacuation Procedures
4. If an explosion occurs follow the procedures outlined in Bomb Threats

Scenario 3: Explosion or Risk of Explosion in Surrounding Area

General Procedures

1. The IC will initiate a Lockdown (Soft)
2. Call 911
3. Do not declare an All Clear until the appropriate authorities have given authorization to do so

Scenario 4: Nuclear Blast or Explosion Involving Radioactive Materials

General Procedures

1. The IC will initiate a Lockdown (Soft)
2. Call 911
3. Staff members should attempt to establish an adequate barrier or shielding (e.g. concrete walls, metal doors) between themselves and the source of the blast or explosion. Move students away from exterior windows.
4. After the initial blast, remove students from rooms with broken windows, extinguish fires, provide first aid, and relocate students from upper floors if possible
5. Turn off the school's main gas supply, local fans in the area, lock doors and windows, shut down all buildings' air handling systems, seal gaps under doors and windows with wet towels or duct tape, seal vents with aluminum foil or plastic wrap, and turn off sources of ignition, such as pilot lights
6. Monitor radio or television announcements and initiate further action as appropriate
7. Do not declare an All Clear until the City/County HazMat or appropriate agency provides clearance

Fire in Surrounding Area

IC will determine whether the students and staff should leave the premises, or any further action should be implemented.

Burning Clothes

If a student's or staff member's clothing catches fire, don't allow them to run! Smother the fire with a blanket, coat, rug, curtain, or other heavy fabric material. If wrapping material is not available, drop the victim to the ground and attempt to smother the fire by rolling the victim on the ground. After the fire is out treat the victim for shock (lying down, feet raised, neck supported) and cover the burned area with soaking wet cloth, sheet or blanket.

When appropriate and directed by the IC, SERT member may:

1. Turn off the gas and electricity service
2. Direct emergency vehicles to the scene
3. Make sure fire lanes are clear and gates are open

IMPORTANT: ALL SEARCH AND RESCUE, FIRE FIGHTING, OR ANY OTHER ACTIVITIES WILL CEASE IF TOXIC OR HAZARDOUS MATERIALS ARE INVOLVED. ALL PERSONNEL ARE TO EVACUATE IMMEDIATELY.

Fire on School Grounds

Fires may occur at any time in almost any structure and usually are totally unexpected. The longer a fire is undetected the more severe and dangerous it can become. A definite plan of action is needed for each occupied area to ensure that the maximum effort is made to protect the occupants and the buildings involved.

The Principal of each school shall develop a route of egress and an alternate route to be used in case of fire. These route signs shall be posted in each occupied area in a conspicuous place, preferably near the door to be used during the evacuation (place at student's eye level). Clearly identify the primary escape route.

Fire extinguishers should be used only after notifying the Fire Department and only if feasible. Fire extinguishers are intended for small fires only. In addition, the user should make sure the fire extinguisher is of the proper type for the fire before using it.

General Fire Safety

1. Ensure that all exits are clearly marked and free of clutter (this includes classroom exits)
2. Ensure the location of all fire extinguishers and pull stations is indicated on the evacuation map posted in every classroom and office.

Passage and Aisle Widths

A minimum of 36 inch free and clear passage width shall be maintained in all doorways and aisles within each classroom and office. Equipment, furniture, or materials which reduce these passageways to less than 36 inches must be relocated.

Turning off the Fire Alarm System

If for any reason it is determined that the fire alarm bell system must be silenced, a trained member of the staff must maintain a watch at the systems panel to monitor for activation of the systems detection devices. This person should have radio communications to others who can: sound an alert for evacuation if necessary; be dispatched to the area where the device has been activated to verify a fire or emergency; and to ensure that they system is not silenced and forgotten.

Fire Procedures

1. Any person discovering a fire will activate the fire alarm, call 911, evacuate the area, close doors and windows to confine the fire, or extinguish it if possible. Take your Emergency Backpack and ID card when evacuating.
2. Check with your buddy teacher during an evacuation to ensure everyone is evacuating and assist or evacuate the class yourself if necessary. All staff are to report to the assembly area and display the appropriate 'alert card' (Green Card = all students accounted for, Red Card = missing students and/or need additional assistance) in the emergency backpack.
3. The IC is to be notified immediately
4. Members of the Search Team or IC designee will report to the evacuation site before any students arrive. Team members will look for any suspicious objects or behavior (i.e. abandoned cars or objects in evacuation site) and report findings to IC. In the event of a suspicious object, team member will redirect teachers and students to alternate evacuation site.
5. The IC will form a Command Post at the evacuation site.
 - a. Direct that the necessary agency contacts be made
 - b. Teachers will immediately take roll and report any missing students to the Search Team Coordinator by using the card system. If problems exist, hold up appropriate colored card:
 - ? Red Card - Missing Students/Need Assistance
 - ? Green Card - All Students Present
6. The Search Team Coordinator will manage the reconciliation of all students and staff. The Search Team Coordinator is responsible for bringing the Visitor's Log and Early Dismissal Log (and any additional entry logs) to the evacuation site and reconciling attendance with these documents.
7. First aid is rendered as necessary
8. Use fire extinguisher if appropriate. While attempting to extinguish the fire, the user should keep a free exit path to his/her back to prevent being trapped by the fire. If one extinguisher does not put out the fire, do not go searching for additional extinguishers. Close off the area as best as possible, and exit the building immediately.
9. Access roads are kept open for emergency vehicles
10. IC in consultation with first responders will determine if students and staff should be moved to another area and/or begin the early release procedures
11. Students and staff will not return to the school building until fire department officials declare the area safe

Flooding**Flood/ Severe Weather**

Warnings of severe weather are usually received via public radio or the State Warning Center. If time and conditions permit, students may be sent home. However, if the weather conditions develop during school hours, without sufficient warning, students should be held at school.

The principal will assess the situation and make an announcement over the PA or megaphone to A) evacuate, B) stay in classes or C) release students to go home.

See emergency procedures previously described for evacuation directions.

Loss or Failure Of Utilities

This procedure addresses situations involving a loss of water, power or other utility on school grounds. This procedure should also be used in the event of the discovery of a gas leak, an exposed electrical line, or a break in sewer lines.

General Procedures

1. Communicate with school administration when a power failure or loss of utilities in any part of the school building occurs.
2. Call 911 and provide them with location and nature of the emergency.
3. Inform the custodial staff of the situation.
4. Check elevators affected by the outage for stranded occupants. If there are stranded elevator passengers, a staff member should be assigned to stand outside on the nearest floor to facilitate communication with the person(s) inside.
5. Locate flashlights with batteries to use until power comes back on. Do not use candles – this can cause a fire.
6. Turn off sensitive electronic equipment such as computers, VCRs, and televisions.
7. Turn off major electric appliances that were on when the power went off. This will help to prevent power surges when electricity is restored.
8. Check the status of the fire alarm system. The system should have a secondary back up power supply and should be operating. This is important, as the cause of the electrical failure may be the result of an electrical fire condition.
9. Assess need for further assistance. Contact the appropriate utility company.
10. Consider the need for evacuation or early dismissal of the school on the basis of the time it will take to restore power to windowless areas, heat or air conditioning, meal preparation facilities, and water services.
11. Should the school be without electricity for an extended period, notify appropriate individuals/agencies (charter board, media)
12. As needed, school emergency supplies will be utilized to compensate for the loss of a utility
13. If the loss of utilities may generate a risk of explosion, such as a gas leak, refer to Explosion/Risk of Explosion section

Electrical Failure

1. Principal and/or custodian notify the electrical company.
2. Office staff and classroom teachers turn off computers and other equipment that might be damaged by a power surge when the service is restored.

Gas Line Break

1. Principal and/or custodian notify Local Gas Company.
2. Principal and/or custodian notify the Fire Department.
3. Staff to follow the emergency procedures previously described.

Water Main Break

1. Principal and/or custodian notifies the water department.
2. Custodian shuts off water.
3. Principal or notifies the police.
4. Principal determines if it is necessary to follow the emergency procedures on page 6 to evacuate students and staff.

Water Contamination

1. Instruct teachers to move students away from drinking fountains and sinks.

2. Notify school office and TEACH headquarters.
3. Have custodian turn off pressure to drinking fountains and sinks.

Motor Vehicle Crash

This procedure addresses situations involving a motor vehicle crash on or immediately adjacent to school property. If a crash results in a fuel or chemical spill on school property, refer to the Biochemical or Chemical Release section.

General Procedures

1. Based on the location and extent of the crash, the IC will declare a Lock Down – Response or evacuation
2. If an evacuation is declared, students and staff will follow standard evacuation procedures. IC will determine safest location for evacuation site.
3. Call 911
4. The IC will direct members of the School Emergency Response Team (search & rescue) will secure the area surrounding the crash to prevent unauthorized access, until the police arrive
5. The IC will direct the search & rescue team to perform fire suppression activities, if necessary, until the fire department arrives
6. The IC will direct the first aid team to check for injuries and provide appropriate first aid

Psychological Trauma

Crisis management at TEACH PS specifies actions during and subsequent to any emergency that may have a psychological impact on students and staff. Emergencies like those described above usually produce one or more of the following conditions:

- Temporary disruption of regular school functions and routines.
- Significant interference with the ability of students and staff to focus on learning.
- Physical and/or psychological injury to students and staff.
- Concentrated attention from the community and news media.

As a result of such emergencies, students and staff may exhibit a variety of psychological reactions. As soon as the physical safety of those involved has been insured, attention must turn to meeting the emotional and psychological needs of students and staff.

Contact the Director of Student Services at the TEACH Prep Elementary for specific procedures relating to crisis management.

Procedure

1. The School Administrator will activate the School Psychological First Aid Team, (Principal, School Counselor, Parent/Family Coordinator, RSP Teacher) which has primary responsibility for providing necessary assistance after all types of crises.
2. The Psychological First Aid Team will assess the range of crisis intervention services needed during and following an emergency. The Team may determine the need for additional psychological support and will contact the Superintendent to request additional mental health support.
3. The Psychological First Aid Team will provide direct intervention services.
4. The Psychological First Aid Team will advise and assist the School Administrator to restore regular school functions as efficiently and as quickly as possible.
5. In performing their duties, the Psychological First Aid Team members will limit exposure to scenes of trauma.
6. The Psychological First Aid Team should isolate students demonstrating externalized behavior.
7. The Psychological First Aid Team will provide ongoing assessment of needs and follow-ups services as required for both student and staff.

Suspected Contamination of Food or Water

This procedure should be followed if site personnel report suspected contamination of food or water. This procedure applies where there is evidence of tampering with food packaging, observation of suspicious individuals in proximity to food or water supplies, or if notified of possible food/water contamination by District staff or local agencies. Indicators of contamination may include unusual odor, color, taste, or multiple employees with unexplained nausea, vomiting, or other illnesses.

Procedure

1. The School Administrator will isolate the suspected contaminated food/water to prevent consumption, and will restrict access to the area.
2. The School Administrator will notify the District Office, Director of Food and Nutrition Services(Office Manager). Administrator will determine if they need to call "911."
3. The School Administrator will make a list of all potentially affected students and staff, and will provide the list to responding authorities.
4. The First Aid/Medical Team will assess the need for medical attention and provide first aid as appropriate.
5. The School Administrator will maintain a log of affected students and staff and their symptoms, the food/water suspected to be contaminated, the quantity and character of products consumed, and other pertinent information.
6. The School Administrator will notify the District Superintendent to determine necessary follow-up actions including the need to notify other potentially affected district facilities.
7. The School Administrator and the District Superintendent will confer with the County Department of Health Services before the resumption of normal operations.
8. The School Administrator will notify parents of the incident, as appropriate.

Water Contamination

1. Instruct teachers to move students away from drinking fountains and sinks.
2. Notify school office and TEACH headquarters.
3. Have custodian turn off pressure to drinking fountains and sinks.

Unlawful Demonstration or Walkout

Principal stays on site to supervise students

- Talk to students as they leave campus if this is manageable--do you understand that you will be marked absent? Do your parents know you are leaving campus and will be unsupervised?
- Support staff and campus supervisor(s) depending on the size of the crowd walk with students to protect their safety.

The members will have a two-year term. The TEACH Public Schools Principal and the Executive Directors shall be ex officio members of the Board. In accordance with Education Code Section 47604(b), the authority that grants the charter to a charter school to be operated by a nonprofit public benefit corporation shall be entitled to a single representative on the Board of Directors of the School. There shall be a non-voting member of LAUSD on the Board of Directors, as appointed by the District.

ANNUAL NOTIFICATION AND GUIDELINES

This Student Family Handbook enumerates sections of the Education Code that require annual parent guardian notification. (Education Code 48980[a])

California state law governs the basic operation of public schools, and the legislature regularly passes new laws affecting the quality and availability of education, as well as laws mandating that local school districts undertake new responsibilities.

These laws often require that TEACH adequately inform parents of the opportunities and protection to which they are entitled. TEACH complies with this by providing families with this Annual Notification in the Student Family Handbook at the beginning of each school year and by issuing the same publication to new families as they enter TEACH schools during the year.

The following contains a summary of state law provisions with which all parents and guardians should be familiar. In some cases, the laws have been summarized, and the precise code number has been provided should parents require more detailed information. "Education Code" is the area of state law that affects education most directly.

The Student Family Handbook will be published annually. All registered families of TEACH Public Schools will indicate their willingness to be governed by the Student Family Handbook by signing annually a written statement to that effect. The Administration reserves the right to amend the Handbook at any time for just cause. Parents of TEACH Public Schools students will be notified of the changes, in writing, in a timely manner.

From the Principal

Dear Families:

Welcome to the 2021-2022 School Year! TEACH Prep Elementary is thrilled to kick off our 4th year in operation where we provide a nurturing and safe environment for our students to grow academically as well as social-emotionally! TEACH Prep family is strong in our team work. We strive to provide the best education for our students to become critical and independent thinkers as well as great communicators. Our teachers are excited and ready for another great year of learning to take place in the classroom utilizing a variety of methods for student engagement. Once again we are dedicated in our commitment to partner with our parents/guardians to stay connected with information and resources to support our students and family. Thank you for your continued support of TEACH Preparatory Mildred S. Cunningham & Edith H. Morris Elementary School and our mission to create a high quality, innovative teaching and learning environment that focuses on literacy as we integrate state-of-the-art technologies across the core curriculum to achieve academic proficiency for all students. It is evident to us that the support from our families is one of the things that makes our school successful. We ask that you continue to support our scholars at family events and student presentations.

We are also looking for more parents to become involved in the TEACH community and making our meetings more productive and centered around our students' academic success. Every effort is being made to continue to achieve our goals:

1. Challenging students by moving away from traditional teaching applications in order to attain academic proficiency at grade level and above.
2. Allowing each student the freedom to learn by exploring cutting edge technologies and concepts
3. Enabling students to become creative, self-motivated, competent college-bound students, and lifelong learners that live responsibly as informed, and productive members of a complex social, economic, and global society

Please feel free to contact the school at any time to find out how you can get involved and provide feedback. I sincerely appreciate you entrusting us with your scholars and want to assure you that we will continue to make TEACH Prep, a haven for students to thrive and grow.

Sincerely,

To ensure the safety of students and staff as well as to minimize interruption of the instructional program, the school has established the following procedures, pursuant to California Penal Code Sections 627, ET. seq., to facilitate visits during regular school days:

1. Visits during school hours should first be arranged with the teacher, Principal, or designee, at least three days in advance. 4. The Principal or designee may withdraw consent to be on campus even if the visitor has a right to be on campus whenever there is reasonable basis for concluding that the visitor presence on school grounds would interfere or is interfering with the peaceful conduct of the activities of the school, or would disrupt or is disrupting the school, its students, its teachers, or its other employees.
5. The Principal or designee may request that a visitor who has failed to register, or whose registration privileges have been denied or revoked, promptly leave school grounds. 2. Further conduct of this nature by the visitor may lead to the school's pursuit of a restraining order against such visitor, which would prohibit him/her from coming onto school grounds or attending school activities for any purpose for a period of three (3) years.

Volunteers

Volunteers must come to the office, get their temperature checked, and sign in and sign out when volunteering. A volunteer badge must be worn while on campus. Additionally, all volunteers are strongly required to take a TB test and have the results on file with the office. With the uncertainty of the circumstances, volunteers in the classroom will be on pause until further notice.

Telephone and Cell Phones

The telephone is to be used for business only. If a student needs to place a call, he/she may do so with the permission of a teacher or other adult in the office. If it is necessary for a parent/guardian to call, the message will be relayed to the student as soon as possible. No student will be called out of class to talk on the phone, except in cases of a life or death emergency. All students carrying cellular phones to school will be responsible for leaving their phone in "cell phone bin", in the office before the start of the school day. Please be aware that students will not be excused for any tardiness due to this policy. Phones can then be retrieved at the conclusion of the school day. Cellular phones are not permitted on campus during the school day. Any student who brings a cellular phone to school without following the cell phone procedure, will have the phone confiscated and will only be released to a parent/guardian.

Students excused from physical education, due to medical reasons, will be required to complete and to submit written work assigned by the instructor.

Students excused from physical education, due to medical reasons, may not participate in an athletic event that day.

Student Code of Internet Conduct

The Internet is an exciting and powerful tool for students to research for both academic assignments as well as their own personal interests. As part of our curriculum, pupils have controlled access to the Internet and learn how to use libraries, databases and informational sources on a wide variety of topics. We recognize that some inappropriate material on the Internet may be accessed intentionally or by accident. To guard against this we will use a filtered service from a reliable software provider which regularly monitors web sites.

We will teach students the importance of responsible use of the web and e-mail as well as providing basic rules to maintain the privacy of students. At all times, pupils must agree to follow the Student Code of Internet Conduct summarized below.

1. Access to the Internet at TEACH is for educational purposes.
2. Students will not use the internet system here at TEACH to access material in violation of the following standards:
 - Prohibited Material: any material that appeals to a prurient interest and material that promotes or advocates illegal activities.
 - Restricted Material: sites that contain personal advertisements or facilitate making online connections with other people are restricted unless the school has approved such sites.
 - Limited Access Material: material that is generally considered to be non-educational or entertainment.
 - Limited Access Material may be accessed in the context of specific learning activities that are directed by a teacher or during periods of time that a school may designate as "open access" time. This includes such material as electronic commerce, games, jokes, recreation, entertainment, sports and investments.
3. Students will not disclose your full name or any other personal contact information for any purpose.
4. Students will not disclose names, personal contact information, or any other private or personal information about other students under any circumstances.
5. Students will promptly disclose to their teachers or other school staff any message they receive that is inappropriate or makes them feel uncomfortable. Students should not delete such messages until instructed to do so by a staff member.

Applications of Admission

Applications will be accepted during a publicly advertised open enrollment period each spring for the following school year. Following the open enrollment period each year, applications shall be counted to determine whether any grade level has received more applications than availability. In the event that this happens, School Name will hold a public random drawing to determine enrollment for the impacted grade level, with the exception of existing students (2nd year forward) who are guaranteed enrollment in the following school year. All individuals who have contacted School Name regarding enrollment will be notified of the time and place of the lottery and will be encouraged to attend. All prospective students who have completed the enrollment process will have their names entered into the lottery. Names will be drawn at random until the grade level is filled. Once a grade level is drawn to capacity, applications will continue to be drawn for position on a wait list. This wait list will allow students the option of enrollment in the case of an opening during the school year. In no circumstance will a wait list carry over to the following school year. In all situations, siblings will have first consideration.

Academic Program

Our academic program offers a fully inclusive curriculum that puts all students on track for academic proficiency and eventual college success. The school's curriculum framework is developed for {TK-4} grades with the explicit purpose of helping all students reach grade-level proficiency and beyond by the end of {TK-4} grade. The school model pulls together curricular and instructional practices proven most effective with a strong emphasis on low achieving students who are struggling academically in the traditional school setting. All teaching and learning is directed toward student mastery of the California State Standards as well as key college-prep skills, learning strategies, and work habits crucial for long-term academic success.

Our students will move through an age-appropriate curriculum for English-Language Arts, Mathematics, History- Social Studies, Science, and Visual/Performing Arts at each grade level. Spanish, French, and Visual Arts will be among electives available to students who have gone through the remediation courses and subsequently need significantly less time for literacy and numeracy remediation.

Our Extended Day- Extended Year

Our extended daily schedule offers additional academic programming and culture-building, character-building, personalized support systems, and activities to help students develop the personal skills and resilience they need for college and life success.

- Tutoring - After or before school classes where students receive individual guided practice and homework assistance from teachers and tutors. The tutoring period is explicitly designed to respond to student achievement data and target student areas of difficulty. Students will also be coached and given the opportunity to practice the learning strategies and work habits that they encounter in their regular course work. For those students needing further intervention, one-on-one tutoring and supplementary remedial instruction may be provided. Teachers and staff usually invite students who are struggling that need extra support.
- After school Program will be offered for students where homework assistance, enrichment work and online programs will be utilized, as well as arts and crafts and physical activity will be provided. The hours will be from 3:00pm-6:00pm. Signs ups will be available during Orientation. (Rules regarding After school Program- refer to All Stars Program guidelines)
- Summer Session - Summer programs will provide critical support for struggling students as well as acceleration and enrichment opportunities for students who have reached grade-level proficiency.

Report Cards & Progress Reports

All grades can be accessed through our online grading system, and parents can contact teachers to request any one on one meeting to discuss the student’s grades and assignments. Progress Reports will be prepared for each student three times during the trimester. Report cards will be sent via ParenSquare and/or mail. Parents are welcome to obtain a copy from the office.

Grading System

The grading scale is based on the degree to which students demonstrate proficiency on content area standards. The academic grade scale is composed of 4, 3, 2, or 1.

4-	100%-90%	(Exceeds	Expectation)
3-	89%-75%	(Meets	Standards)
2-	74%-55%.	(Approaching	Mastery
1-	54%	Proficiency	Standards)
	and	Below	(Not
			Approaching
			Standards)

- Evidence of student learning can be captured using classroom work (formative) and benchmark tests as well as teacher created assessments (summative).
- Students are graded on mastery of the required California Standards. The comprehensive report cards at the end of each academic semester is information to parents about the student's performance in the core curriculum subjects and related elective courses.
- These reports should be examined by the parent/guardian. Non-custodial parents may request a copy of student reports by contacting the office in writing.

TEACH Preparatory Elementary School believes that all children can learn when taught well. We recognize that the ultimate objective of education is to enable students to become successful, self-directed learners. This goal is best achieved in a culture of acceptance, high expectation, encouragement, support, and positive motivation. Teachers have a responsibility to maintain a positive learning environment. Discipline is a process by which students are helped to develop an understanding of, and an appreciation for appropriate behavior toward a sound learning experience. The process includes positive behavioral interventions. Any student who interferes with their right or the right of others to learn is engaging in inappropriate behavior. Inappropriate behavior is subject to disciplinary consequences. Students engaging in inappropriate behavior, or students who have conflict with another, is subject to disciplinary consequences. Our students are taught and encouraged to manage and resolve conflict on their own through positive communication skills. If after doing so, students feel that the problem is not resolved, the conflict should be reported to the teacher.

General disciplinary problems may result in disciplinary action by teachers and/or by the principal. The Principal has primary responsibility for defining the school's culture to ensure that student discipline is implemented in a fair, effective manner. Teachers handle discipline. Instructional aides and staff may assist with discipline. Instructional aides and school staff members will make every effort, individually, collectively, and cooperatively to help each student gain acceptable self-discipline standards. Students with repeated behavior problems are referred to the Student Success Team. This team includes the student, parent, teacher, principal and counselor. An action plan is developed to help the student develop constructive behavior patterns.

Restorative Justice

At TEACH, we believe in working with students in order for them to repair any harm that they may have caused to others through words or actions. Students accomplish this through a cooperative process that includes all stakeholders, which can lead to a transformation of people, relationships, and communities.

Health and Safety

Emergency Numbers

For the safety of every child, it is very important that parents complete the Emergency Card providing the school with an emergency telephone number so that someone may be notified in case of an emergency. This card should be signed and dated. The card will be maintained on file to use in the event of an emergency.

If no telephone is in the home, a telephone number of a relative or family friend must be provided. Any change in address, telephone number, parent's work, physician, or name of the person or persons authorized to pick the child up if the parent is ill or injured should be reported to the office immediately.

Accidents

Although School Name makes every reasonable effort to prevent student accidents and injuries, accidents occur. The Principal or designee shall develop procedures to ensure that first aid and/or medical attention is provided as quickly as possible and that parents/guardians are notified of accidents. Universal precautions shall be observed whenever it is possible that students, employees or others may have contact with blood or body fluids as a result of the accident. School Name staff shall appropriately report and document student accidents.

Health Services

School Name is regulated by the State Department of Health Services. All facility inspection reports are available upon request. The health and safety of each student is the foremost responsibility of the school. Health services will be made available to any student needing it. If a student becomes ill at school, and needs assistance, he/she should inform the teacher to receive a referral to go to the office. All injuries must be reported to the teacher. If injuries occur after school they must be reported to the After School Director, after school aide or to the Principal.

It is necessary for current emergency information be on file at all times. Parents must up-date emergency information on a regular basis.

This policy applies to all applicants to TEACH Preparatory Mildred S. Cunningham & Edith H. Morris Elementary School and the administration of the school in charge of admissions.

Immunizations

School Name will adhere to all law related to legally required immunizations for entering students pursuant to Health and Safety Code Section 120325-120375, and Title 17, California Code of Regulations Section 6000-6075.

California law requires that an immunization record be presented to the school staff before a child can be enrolled in school. School Name requires written verification from a doctor or immunization clinic of the following immunizations:

- Diphtheria.
- Measles.
- Mumps, except for children who have reached the age of seven years.
- Pertussis (whooping cough), except for children who have reached the age of seven years.

School verification of immunizations is to be by written medical records from your doctor or immunization clinic.

Exceptions are allowed under the following conditions:

The parent provides a signed doctor's statement verifying that the child is to be exempted from immunizations for medical reasons. This statement must contain a statement identifying the specific nature and probable duration of the medical condition.

- A parent may request exemption of their child from immunization for personal beliefs.
- Pupils who fail to complete the series of required immunizations within the specified time allowed under the law will be denied enrollment until the series has been completed.

Any child leaving the United States for a short vacation to any country considered by the Center of Disease Control and Prevention (CDC) to have increased risk of TB exposure (such as Mexico, the Philippines, India or Southeast Asia) MUST call the County Tuberculosis Clinic, for a TB Screening upon return.

Physical Examinations

All pupils are to have completed a health screening examination on or before the day after the pupil's entrance into first grade or such pupils must have obtained a waiver pursuant to Health and Safety Code Section 124085. This examination can be obtained from your family physician or possibly through the services provided by your County Health Department. Information and forms are distributed to pupils enrolled in kindergarten.

Failure to obtain an examination for your child or a waiver will result in your child being denied enrollment.

If your child's medical status changes, please provide the office with a physician's written verification of the medical issue, especially if it impacts in any way your child's ability to perform schoolwork.

Communicable, Contagious, or Infectious Disease Prevention Policy

TEACH Preparatory Elementary School recognizes its shared responsibility with the home and the community to promote appropriate disease prevention procedures in the handling and the cleaning up of blood and body fluids.

The Board desires to protect the entire school community without segregation, discrimination or stigma. Accordingly, infectious disease prevention shall be taught regardless of whether a student or adult is known to have an identified infectious disease. All students and employees shall be provided appropriate periodic instruction in basic procedures recommended by the State Department of Education and other public health agencies and associations.

Incidence and transmission of communicable diseases will be further limited through a rigorous program of immunization and health screening required of all students, faculty, and staff. (See "Immunizations I Physical Exams" Policy) Students found to have communicable diseases will be included in all activities deemed by a physician to present no hazard of infection to other students.

Science Laboratory Instruction

Students involved in science laboratory experiences shall be protected from contamination from body fluids of other persons and from contaminated instruments. Whenever possible, laboratory experiences involving body fluids will be conducted by way of teacher demonstration rather than by student participation.

Injuries and Accidents

Whenever exposed to blood or other body fluids through injury or accident, students and staff should follow the latest medical protocol for disinfecting procedures. (See "Blood borne Pathogen Exposure Control Program" Policy)

Illness

If a child is ill he or she **MUST NOT BE SENT TO SCHOOL**. Students who contract a contagious disease such as pink eye, chicken pox, ringworm, impetigo, head lice or other such conditions **SHALL NOT ATTEND SCHOOL**. The child must remain at home until he or she is no longer contagious and declared healthy by a health professional. A doctor's note is required for the student to return to school.

Medication at School

Students are not permitted to carry medication (including inhalers for asthma). If a doctor's note is on file, the Office manager will be permitted to dispense the medication to the student.

The Office Manager and the student's teacher must be informed of any prescription medication that a student is required to take at school. To dispense prescription medication to students, the school must receive a written order from the student's doctor and a permission slip from the student's parent. These notifications must remain on file at the school for duration of time that the student is required to take the medication. All medication should be brought to the office manager by the parent/guardian in its original prescription container, labeled with the student's name, the name of the medication, the date of expiration, and the proper dosage. If medication needs to be administered to the child when the Office manager is not present, a trained staff member will administer the medication.

Administration of Medications

TEACH Preparatory Elementary School staff is responsible for the administration of medication to students attending school during regular school hours. It is imperative that practices followed in the administration of medication be carefully delineated to ensure the safety of our students and the legal protection of our employees. Any pupil who is required to take, during the regular school day, medication prescribed for him or her by a physician or surgeon, may be assisted by designated school personnel or may carry and self-administer prescription auto-injectable epinephrine if the School Name receives the appropriate written statements

In order for a pupil to carry and self-administer prescription auto-injectable epinephrine, TEACH Academy of Technologies shall obtain both a written statement from the physician or surgeon detailing the name of the medication, method, amount, and time schedules by which the medication is to be taken, and confirming that the pupil is able to self-administer auto-injectable epinephrine, along with a written statement from the parent, foster parent, or guardian of the pupil consenting to the self-administration, providing a release for the designated school personnel to consult with the health care provider of the pupil regarding any questions that may arise with regard to the medication, and releasing School Name and school personnel from civil liability if the self-administering pupil suffers an adverse reaction as a result of self-administering medication.

In order for a pupil to be assisted by designated school personnel, School Name shall obtain both a written statement from the physician detailing the name of the medication, method, amount, and time schedules by which the medication is to be taken and a written statement from the parent, foster parent, or guardian of the pupil indicating the desire that School Name assist the pupil in the matters set forth in the statement of the physician.

Guidelines:

- The primary responsibility for the administration of medication rests with the parent/guardian, student and medical professional.
- Medication shall be administered only during school hours if determined by a physician to be necessary.
- Designated staff shall keep records of medication administered at the school.
- All medication will be kept in a secure and appropriate storage location and administered per physician's instructions by appropriately designated staff.
- Designated staff shall return all surplus medication to the parent/guardian upon completion of the regimen or prior to summer holidays.
- Designated staff shall establish emergency procedures for specific medical conditions that require an immediate response (i.e. allergies, asthma, diabetes).
- The written statements specified in this policy shall be provided at least annually and more frequently if the medication, dosage, frequency of administration, or reason for administration changes.
- A pupil may be subject to disciplinary action if that pupil uses auto-injectable epinephrine in a manner other than as prescribed.

Medication Policy

The following procedures will be in effect for the monitoring and use of medication at school:

- Medication will only be allowed at school when failure to take medication could jeopardize the health and/or educational abilities of the student.
- Medication is restricted to students with long-term chronic illnesses or disabilities including, but not limited to, diabetes, attention disorders, asthma, seizure activity, epilepsy, cystic fibrosis, cardiac, neurological, and endocrine disorders. Any other medications should be given by parents/guardians before and/or after school hours.
- No medicines may be administered at school unless directed by a doctor.

- The student must have a medical form completed by the attending physician and his/her parents or guardian on file with the school office.
- All medicine must be in a labeled prescription container and must be kept in the designated place in each building. All asthma inhalers should be kept in the office (labeled) unless a note from a doctor states the inhaler should be kept on the person
- Instructions for dispensing, as well as a date, must be on the container
- Students are expected to take their medication during passing times or lunch times.
- Students are to remember the conditions under which they are to request their medicine.
- Teachers or other personnel are not required to administer the medicine. They may, however, supervise the student taking the medicine.

Guidelines to Help Promote a Healthy Environment

Children are most vulnerable to contracting diseases while in school because of the close contact they maintain. While we cannot prevent this from occurring, with your help we can implement some simple guidelines to help promote a healthy environment.

1. Teach your child the importance of correct hand washing as a means of preventing the spread of germs.
2. Proper disposal of tissues and covering one's mouth when coughing also prevents germs from circulating.
3. If your child is coughing excessively, keep him or her home to prevent exposure to other children.
4. A child should be fever free for 24 hours before returning to school. Temperature may indicate the onset of an illness.
5. A child should remain home if he or she has vomited or experienced diarrhea within a 24-hour period.
6. Communication is essential to maintaining a healthy environment. Please report any contagious diseases your child has been diagnosed to have (e.g., strep throat, chicken pox, pink eye, etc.). The more we know, the better prepared we are to keep your child on the road to good health. When necessary, notices containing information regarding health matters will be sent home

First Aid, CPR, and Health Screening

TEACH Preparatory Elementary School recognizes the importance of taking appropriate preventive or remedial measures to minimize accidents or illness at school or during school-sponsored activities. To this end, the school expects parents/guardians to provide emergency information and keep such information current in order to facilitate immediate contact with parents/guardians if an accident or illness occurs.

Within the TEACH Preparatory Elementary School facilities, a First Aid Kit containing appropriate supplies will be present. First aid will be administered whenever necessary by trained staff members. When necessary, the appropriate emergency personnel will be called to assist.

All teachers are to be certified in adult and pediatric CPR and First Aid and be recertified prior to expiration of certificates. Opportunities for adult and pediatric CPR and First Aid training will be offered to all support staff and volunteers.

Resuscitation Orders

School employees are trained and expected to respond to emergency situations without discrimination. If any student needs resuscitation, staff shall make every effort to resuscitate him/her. Staff members are prohibited from accepting or following any parental or medical "do not resuscitate" orders. School staff should not be placed in the position of determining whether such orders should be followed, and such Advance Directives shall not be communicated to staff. The Executive Director, or designee, shall ensure that all parents/guardians are informed of this policy.

Head Lice

To prevent the spread of head lice infestations, TEACH Preparatory Elementary School employees shall report all suspected cases of head lice to the school nurse or designee as soon as possible. The nurse, or designee, shall examine the student and any siblings of affected students or members of the same household. If nits or lice are found, the student shall be excluded from attendance and parents/guardians informed about recommended treatment procedures and sources of further information.

The Principal, or designee, shall send home the notification required by law for excluded students. If there are two or more students affected in any learning center, an exposure notice with information about head lice shall be sent home to all parents/guardians of those students.

Staff shall maintain the privacy of students identified as having head lice and excluded from attendance. Excluded students may return to school when reexamined by the nurse, or designee, shows that all nits and lice have been removed.

Releasing Students

If a student becomes too ill to remain in school, a staff member will contact the parents by telephone. The parent is required to pick the child up or arrange for the child to be picked up by an authorized person. Parents must have the name and contact telephone number of an authorized person on the emergency card.

TEACHERS ARE NOT PERMITTED TO RELEASE CHILDREN WITHOUT OFFICE APPROVAL.

Parents or guardians who wish to take students home before regular dismissal time must come to the school's office for an official release from class. If a student has a specific medical condition, health problem or security need, this information must be reported in writing at the time of enrollment or as soon as it is known, so that appropriate accommodations can be made for the student.

Fire and Earthquake Drills

Fire and earthquake drills will be conducted throughout the year. Students are expected to follow teacher instructions.

Student Supports and Protections

Section 504 Plan

Section 504 of the Rehabilitation Act of 1973, states that no otherwise qualified handicapped individual in the United States...shall, solely by reason of his handicap, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance. (29 USC 794)

- Compliance monitored by the Office of Civil Rights.
- Applies to all institutions receiving federal financial assistance, such as public schools.
- Schools are obligated to provide a "free appropriate public education" (FAPE) to children with a disability.

Section 504 prohibits discrimination while assuring that disabled students have educational opportunities and benefits equal to those provided to non-disabled students. If you would like to know more about 504 Plans or other types of assistance available to your student, please contact your Principal.

Special Education Determination for eligibility for special education and services may come from teachers, parents, agencies, appropriate professional persons, and from other members of the public. Special Education referrals will be coordinated with school site procedures for referral of students with needs that cannot be met with modifications of the regular instructional program, including referrals from student intervention teams, such as the Student Study Team (SST). A student shall be referred for special education and services after the resources of the regular education program have been considered and, where appropriate, utilized.

Student Study Team (SST)
 The Student Study Team is an efficient and effective way to bring together all resources, human and programmatic, to support students having difficulties in regular classes. This is a concentrated solution-seeking meeting where all the needed persons, including the student and parent, are present at the same time. The SST is an expression of the school's concern for students and provides a supportive atmosphere for students to become actively involved in determining their own needs and in implementing strategies designed to help them. The SST meets to determine what assistance is needed for students who have learning difficulties or who have repeated behavior problems. The team consists of the principal, teacher, parent and others associated with the student's area of need.

Parents

Parent Involvement

A key piece of the school culture to support achievement for all students is a process of continuous communication and collaboration with families. As the student moves through the school year, his/her progress toward individual goals is carefully tracked and shared monthly with families through the means of a Personalized Learning Plan.

Therefore, parental Involvement at TEACH Preparatory Elementary School is required. Our parents are encouraged to participate individually and as a group for the benefit of the school.

Parent Participation

- Enhances the quality of education children receive
- Provides for greater integration of the educational program
- Promotes better understanding between parent and teacher, between parent and child; between home and school; and between school and the community.
- Parental involvement plays an important role in the life of the school and in the resolution of classroom behavior issues.

Required Parental Attendance

The Board of Directors of TEACH Preparatory Elementary School believes that parental involvement plays an important role in the life of the school and in the resolution of classroom behavior problems. The Board expects that teachers will communicate with parents/guardians when behavior problems arise.

Whenever a student is removed from a class because he/she committed an obscene act, engaged in habitual profanity or vulgarity, disrupted school activities or otherwise willfully defied valid school authority, the teacher of the class from which the student was removed may provide that the student's parent/guardian attend a portion of a school day in that class. After completing the classroom visit and before leaving school premises, the parent/guardian shall also meet with the school Principal or designee.

The Board of Directors encourages teachers, before requiring parental attendance, to make reasonable efforts to have the parent/guardian visit the class voluntarily. The teacher may also inform the parent/guardian about available resources and parent education opportunities. Teachers should reserve the option of required parental attendance for cases in which they have determined that it is the best strategy to promote positive interaction between the student and the parent/guardian and to improve classroom behavior.

The teacher shall apply this policy uniformly to all students within the classroom. This policy shall apply only to a parent/guardian who lives with the student.

Parental attendance may be requested on the day the student returns to class or within one week thereafter. The Principal

or designee shall contact any parents/guardians who do not respond to the request to attend school. The Board recognizes that parental compliance with this policy may be delayed, modified or prevented for reasons such as serious illness/injury/disability, absence from town, or inability to get release time from work.

Pursuant to this policy, persons responsible for conducting investigations shall be knowledgeable about the laws and programs which they are assigned to investigate. This complaint procedure is adopted to provide a uniform system of complaint processing for the following types of complaints:

(1) Complaints of unlawful discrimination, harassment, intimidation or bullying against any protected group, including actual or perceived discrimination, on the basis of the actual or perceived characteristics of age, ancestry, color, mental disability, physical disability, ethnic group identification, gender expression, gender identity, gender, genetic information, nationality, national origin, race or ethnicity, religion, medical condition, marital status, sex, or sexual orientation, or on the basis of a person’s association with a person or group with one or more of these actual or perceived characteristics in any TEACH program or activity; and

Pupil fee complaints shall be filed not later than one (1) year from the date the alleged violation occurred.

The complaint shall be presented to the compliance officer who shall maintain a log of complaints received, providing each with a code number and date stamp.

If a complainant is unable to put a complaint in writing due to conditions such as a disability or illiteracy, TEACH staff shall assist him/her in the filing of the complaint.

- **Step 2: Mediation**

Within three (3) days of receiving the complaint, the compliance officer may informally discuss with the complainant the possibility of using mediation. If the complainant agrees to mediation, the compliance officer shall make arrangements for this process.

Before initiating the mediation of an unlawful discrimination, harassment, intimidation or bullying complaint, the compliance officer shall ensure that all parties agree to make the mediator a party to related confidential information.

If the mediation process does not resolve the problem within the parameters of law, the compliance officer shall proceed with his/her investigation of the complaint.

The use of mediation shall not extend TEACH's timelines for investigating and resolving the complaint unless the complainant agrees in writing to such an extension of time.

- **Step 3: Investigation of Complaint**

The compliance officer is encouraged to hold an investigative meeting within five (5) days of receiving the complaint or an unsuccessful attempt to mediate the complaint. This meeting shall provide an opportunity for the complainant and/or his/her representative to repeat the complaint orally.

The complainant and/or his/her representative shall have an opportunity to present the complaint and evidence or information leading to evidence to support the allegations in the complaint.

A complainant's refusal to provide TEACH's investigator with documents or other evidence related to the allegations in the complaint, or his/her failure or refusal to cooperate in the investigation or his/her engagement in any other obstruction of the investigation, may result in the dismissal of the complaint because of a lack of evidence to support the allegation.

TEACH's refusal to provide the investigator with access to records and/or other information related to the allegation in the complaint, or its failure or refusal to cooperate in the investigation or its engagement in any other obstruction of the investigation, may result in a finding, based on evidence collected, that a violation has occurred and may result in the imposition of a remedy in favor of the complainant.

- **Step 4: Response**

Unless extended by written agreement with the complainant, the compliance officer shall prepare and send to the complainant a written report of TEACH's investigation and decision, as described in Step #5 below, within sixty (60) days of TEACH's receipt of the complaint.

- **Step 5: Final Written Decision**

TEACH's decision shall be in writing and sent to the complainant. TEACH's decision shall be written in English and in the language of the complainant whenever feasible or as required by law.

The decision shall include:

1. The findings of fact based on evidence gathered.
 2. The conclusion(s) of law.
 3. Disposition of the complaint.
 4. Rationale for such disposition.
 5. Corrective actions, if any are warranted.
 6. Notice of the complainant's right to appeal TEACH's decision within fifteen (15) days to the CDE and procedures to be followed for initiating such an appeal.
 7. For unlawful discrimination, harassment, intimidation or bullying complaints arising under state law, notice that the complainant must wait until sixty (60) days have elapsed from the filing of an appeal with the CDE before pursuing civil law remedies.
 8. For unlawful discrimination, harassment, intimidation or bullying complaints arising under federal law such complaint may be made at any time to the U.S. Department of Education, Office for Civil Rights.
- If an employee is disciplined as a result of the complaint, the decision shall simply state that effective action was taken and that the employee was informed of TEACH's expectations. The report shall not give any further information as to the nature of the disciplinary action.

Appeals to the California Department of Education

If dissatisfied with TEACH's decision, the complainant may appeal in writing to the CDE within fifteen (15) days of receiving TEACH's decision. The appeal should be sent to:

California Department of Education
1430 N Street
Sacramento, CA 95814
Telephone: (916) 319-0800

When appealing to the CDE, the complainant must specify the basis for the appeal of the decision and whether the facts are incorrect and/or the law has been misapplied. The appeal shall be accompanied by a copy of the locally filed complaint and a copy of TEACH's decision.

Upon notification by the CDE that the complainant has appealed TEACH's decision, the Superintendent or designee shall forward the following documents to the CDE:

1. A copy of the original complaint.
2. A copy of the decision.
3. A summary of the nature and extent of the investigation conducted by TEACH, if not covered by the decision.
4. A copy of the investigation file, including but not limited to all notes, interviews, and documents submitted by all parties and gathered by the investigator.
5. A report of any action taken to resolve the complaint.
6. A copy of TEACH's complaint procedures.
7. Other relevant information requested by the CDE.

The CDE may directly intervene in the complaint without waiting for action by TEACH when one of the conditions listed in Title 5, California Code of Regulations, Section 4650 exists, including cases in which TEACH has not taken action within sixty (60) days of the date the complaint was filed with TEACH.

Civil Law Remedies

A complainant may pursue available civil law remedies outside of TEACH's complaint procedures. Complainants may seek assistance from mediation centers or public/private interest attorneys. Civil law remedies that may be imposed by a court include, but are not limited to, injunctions and restraining orders. For unlawful discrimination, harassment, intimidation or bullying complaints arising under state law, however, a complainant must wait until sixty (60) days have elapsed from the filing of an appeal with the CDE before pursuing civil law remedies. The moratorium does not apply to injunctive relief and is applicable only if TEACH has appropriately, and in a timely manner, apprised the complainant of his/her right to file a complaint in accordance with 5 CCR § 4622.

General Complaints

The Board of Directors of TEACH Public Schools (“TEACH”) has adopted this General Complaint Policy to address concerns about TEACH generally or regarding specific employees. For complaints regarding harassment or perceived violations of state or federal laws, please refer to the TEACH Anti-Discrimination, Sexual Harassment, Harassment, and Bullying Policy and/or TEACH Uniform Complaint Procedures. For all other complaints, the General Complaint form and accompanying procedures will be appropriate.

Internal Complaints

(Complaints by Employees against Employees)

This section of the policy is for use when an TEACH employee raises a complaint or concern about a co-worker.

If reasonably possible, internal complaints should be resolved at the lowest possible level, including attempts to discuss/resolve concerns with the immediate supervisor. However, in the event an informal resolution may not be achieved or is not appropriate, the following steps will be followed by the Superintendent or designee:

1. The complainant will bring the matter to the attention of the Superintendent as soon as possible after attempts to resolve the complaint with the immediate supervisor have failed or if not appropriate; and
2. The complainant will reduce his or her complaint to writing, indicating all known and relevant facts. The Superintendent or designee will then investigate the facts and provide a solution or explanation;
3. If the complaint is about the Superintendent, the complainant may file his or her complaint in a signed writing to the Chair of the TEACH Board of Directors, who will then confer with the Board of Directors and may conduct a fact-finding or authorize a third-party investigator on behalf of the Board of Directors. The Chair or investigator will report his or her findings to the Board of Directors for review and action, if necessary.

This policy cannot guarantee that every problem will be resolved to the employee’s satisfaction. However, TEACH values each employee’s ability to express concerns and the need for resolution without fear of adverse consequence to employment.

Policy for Complaints Generally

(General Complaints and Complaints by Third Parties against Employees)

This section of the policy is for use when either a complaint does not fall under other complaint procedures or a third party (non-employee) raises a complaint or concern about TEACH generally, or an TEACH employee.

If complaints cannot be resolved informally, complainants may file a written complaint with the office of the Superintendent or Chair of the TEACH Board of Directors (only if the complaint concerns the Superintendent) as soon as possible after the events that give rise to the complainant’s concerns. The written complaint should set forth in detail the factual basis for the complaint.

In processing the complaint, the Superintendent (or designee) shall abide by the following process:

1. The Superintendent or designee shall use his or her best efforts to ascertain the facts relating to the complaint. Where applicable, the Superintendent or designee shall talk with the parties identified in the complaint or persons with knowledge of the particulars of the complaint to ascertain said facts.

2. In the event that the Superintendent (or designee) finds that a complaint is valid, the Superintendent (or designee) may take appropriate action to resolve the problem. Where the complaint is against an employee of TEACH, the Superintendent may take disciplinary action against the employee. As appropriate, the Superintendent (or designee) may also simply counsel/reprimand employees as to their conduct without initiating formal disciplinary measures.

3. The Superintendent's (or designee's) decision relating to the complaint shall be final unless it is appealed to the TEACH Board of Directors. The decision of the Board of Directors shall be final.

General Requirements

1. Confidentiality: All complainants will be notified that information obtained from the complainants and thereafter gathered will be maintained in a manner as confidential as possible, but in some circumstances absolute confidentiality cannot be assured.

2. Non-Retaliation: All complainants will be advised that they will be protected against retaliation as a result of the filing of any complaints or participation in any complaint process.

3. Resolution: The TEACH Board of Directors (if a complaint is about the Superintendent) or the Superintendent or designee will investigate complaints appropriately under the circumstances and pursuant to the applicable procedures, and if necessary, take appropriate remedial measures to ensure effective resolution of any complaint.

SFA Wellness Policy

Due to children’s need to access healthy foods and opportunities to be physically active in order to grow, learn, and thrive; TEACH Schools is committed to providing school environments that promote and protect children's health, well-being, and ability to learn by supporting healthy eating and physical activity. Therefore, it is the policy of TEACH SFA that:

- The schools will engage students, parents, teachers, food service professionals, health professionals, and other interested community members in developing, implementing, monitoring, and reviewing TEACH SFA school-wide nutrition and physical activity policies.
- All students in grades 9-12 will have opportunities, support, and encouragement to be physically active on a regular basis.
- Qualified child nutrition professionals will provide students with access to a variety of affordable, nutritious, and appealing foods that meet the health and nutrition needs of students; will accommodate the religious, ethnic, and cultural diversity of the student body in meal planning; and will provide clean, safe, and pleasant settings and adequate time for students to eat.
- Schools will provide nutrition education and physical education to foster lifelong habits of healthy eating and physical activity, and will establish linkages between health education and school meal programs, and with related community services.

TO ACHIEVE THESE POLICY GOALS:

Creation of Wellness Committee

TEACH SFA has created, strengthened, or worked within existing school advisory councils developing, implementing, monitoring, reviewing, and, as necessary, revising school nutrition and physical activity policies. The councils serve as resources to school sites for implementing those policies. (A school health council consists of a group of individuals representing the school and community, and should include parents, students, and representatives of the school food authority, members of the school board, school administrators, teachers, health professionals, and members of the public.)

Nutrition and Physical Activity Promotion and Food Marketing

Meals served through the National School Lunch and Breakfast Programs will:

- be appealing and attractive to children;
- be served in clean and pleasant settings;
- meet, at a minimum, nutrition requirements established by local, state, and federal statutes and regulations;
- offer a variety of fruits and vegetables;²
- calories and sodium will be specific for grade levels
- no more the 10% of total calories from saturated fat, averaged over a week;
- serve only low-fat (1%) and fat-free milk³ and nutritionally-equivalent non-dairy alternatives (to be defined by USDA); and
- ensure that grains are whole grain.^{3,4}

Schools should engage students and parents, through taste-tests of new entrees and surveys, in selecting foods sold through the school meal programs in order to identify new, healthful, and appealing food choices. In addition, schools should share information about the nutritional content of meals with parents and students. Such information can be made available on menus, a website, on cafeteria menu boards, placards, or other point-of-purchase materials.

Breakfast

To ensure that all children have breakfast, either at home or at school, in order to meet their nutritional needs and enhance their ability to learn:

- Schools will, to the extent possible, operate the School Breakfast Program.
- Schools will, to the extent possible, arrange bus schedules and utilize methods to serve school breakfasts that encourage participation, including serving breakfast in the classroom, "grab-and-go" breakfast, or breakfast during morning break or recess.
- Schools that serve breakfast to students will notify parents and students of the availability of the School Breakfast Program.
- Schools will encourage parents to provide a healthy breakfast for their children.

Free and Reduced-priced Meals

Schools will make every effort to eliminate any social stigma attached to, and prevent the overt identification of, students who are eligible for free and reduced-price school meals⁵.

Meal Times and Scheduling

Schools:

- will provide students with enough time to consume their meal after it has been served.
- should schedule meal periods at appropriate times, *e.g.*, lunch should be scheduled between 11 a.m. and 1 p.m.;
- should not schedule tutoring, club, or organizational meetings or activities during mealtimes, unless students may eat during such activities;
- will encourage students to wash or hand sanitize hands before they eat meals or snacks; and
- should take reasonable steps to encourage the tooth-brushing regimens of students with special oral health needs (*e.g.*, orthodontia or high tooth decay risk).

Qualifications of School Food Service Staff

Qualified nutrition professionals will administer the school meal programs. As part of TEACH SFA it is our responsibility to operate a food service program, we will provide continuing professional development for all nutrition professionals in schools. Staff development programs should include appropriate certification and/or training programs for child nutrition directors, school nutrition managers, and cafeteria workers, according to their levels of responsibility.⁶

Sharing of Foods and Beverages

Schools should monitor students sharing their foods or beverages with one another during meal or snack times, given concerns about allergies and other restrictions on some children's diets.

Middle/Junior High and High Schools

In middle/junior high and high schools, all foods and beverages sold individually outside the reimbursable school meal programs (including those sold through a la carte [snack] lines, vending machines, student stores, or fundraising activities) during the school day, or through programs for students after the school day, will meet the following nutrition and portion size standards:

- **Beverages**

Allowed:

- Fruit or Vegetable juice:
 - 100% juice (can be diluted with water, no dilution limit)
 - No added sweeteners
 - 12 fl. oz. serving size or less
- Milk:
 - 1 % (unflavored), nonfat (flavored, unflavored),

- 12 fl oz. serving size or less
- Water:
 - No added sweeteners, flavors etc.
 - No serving size
- Other flavored beverages ("no calorie") **(Not Allowed in Middle School)**
 - 5 calories/8 fl. oz. or less
 - 20 fl. oz. serving size
- Other flavored beverages ("low calorie") **(Not Allowed in Middle School)**
 - 40 calories/8 fl. oz. or less
 - 12 fl. oz serving size

Not allowed: Caffeinated beverages are not allowed in middle school.

Foods

- A food item sold individually:
- will have no more than 35% of its calories from fat (excluding nuts, seeds, peanut butter, and other nut butters) and 10% of its calories from saturated and trans fat combined;
- will have no more than 35% of its *weight* from added sugars;⁸
- will contain no more than 230 mg of sodium per serving for chips, cereals, crackers, French fries, baked goods, and other snack items; will contain no more than 480 mg of sodium per serving for pastas, meats, and soups; and will contain no more than 600 mg of sodium for pizza, sandwiches, and main dishes.
- It is encouraged to offer a choice of two fruits and/or non-fried vegetables for sale at any location on the school site where foods are sold. Such items could include, but are not limited to, fresh fruits and vegetables; cooked, dried, or canned fruits (canned in fruit juice or light syrup), juice; and cooked, dried, or canned vegetables (that meet the above fat and sodium guidelines).⁹

Snacks

Snacks served during the school day or in after-school care or enrichment programs will make a positive contribution to children's diets and health, with an emphasis on serving fruits and vegetables as the primary snacks and water as the primary beverage. Schools will assess if and when to offer snacks based on timing of school meals, children's nutritional needs, children's ages, and other considerations. The TEACH SFA will disseminate the guidelines for compliant snacks.

- If eligible, schools that provide snacks through after-school programs will pursue receiving reimbursements through the National School Lunch Program.

Rewards

Schools are encouraged not to use foods or beverages, especially those that do not meet the nutrition standards for foods and beverages sold individually (above), as rewards for academic performance or good behavior,¹⁰ and will not withhold food or beverages (including food served through school meals) as a punishment.

Celebrations

Schools should limit celebrations that involve food during the school day to no more than one party per class per month. It is encouraged that each party include no more than one food or beverage that does not meet nutrition standards for foods and beverages sold individually (above).

School-Sponsored Events

(such as, but not limited to, athletic events, dances, or performances)

It is encouraged that foods and beverages offered or sold at school-sponsored events outside the school day meet the nutrition standards for meals or for foods and beverages sold individually (above).

Nutrition and Physical Activity Promotion and Food Marketing

Nutrition Education and Promotion

TEACH SFA aims to teach, encourage, and support healthy eating by students. It's encouraged that schools provide nutrition education and engage in nutrition promotion that:

- is offered at each grade level as part of a sequential, comprehensive, standards-based program designed to provide students with the knowledge and skills necessary to promote and protect their health;
- is part of not only health education classes, but also classroom instruction in subjects such as math, science, language arts, social sciences, and elective subjects;
- includes enjoyable, developmentally-appropriate, culturally-relevant, participatory activities, such as contests, promotions, taste testing, farm visits, and school gardens;
- promotes fruits, vegetables, whole grain products, low-fat and fat-free dairy products, healthy food preparation methods, and health-enhancing nutrition practices;
- emphasizes caloric balance between food intake and energy expenditure (physical activity/exercise);
- links with school meal programs, other school foods, and nutrition-related community services;
- teaches media literacy with an emphasis on food marketing; and
- includes training for teachers and other staff.

Integrating Physical Activity into the Classroom Setting

For students to receive the nationally-recommended amount of daily physical activity (*i.e.*, at least 60 minutes per day) and for students to fully embrace regular physical activity as a personal behavior, students need opportunities for physical activity beyond physical education class. Toward that end:

- classroom health education will complement physical education by reinforcing the knowledge and self-management skills needed to maintain a physically-active lifestyle and to reduce time spent on sedentary activities, such as watching television;
- opportunities for physical activity will be incorporated into other subject lessons; and
- classroom teachers will provide short physical activity breaks between lessons or classes, as appropriate.

Communications with Parents

The TEACH SFA/school will support parents' efforts to provide a healthy diet and daily physical activity for their children. The TEACH SFA will, send home nutrition information, post nutrition tips on school websites, and provide nutrient analyses of school menus when available. Schools should encourage parents to pack healthy lunches and snacks and to refrain from including beverages and foods that do not meet the above nutrition standards for individual foods and beverages.

The TEACH SFA/school will provide information about physical education and other school-based physical activity opportunities before, during, and after the school day; and support parents' efforts to provide their children with opportunities to be physically active outside of school.

Food Marketing in Schools

School-based marketing will be consistent with nutrition education and health promotion. As such, schools will limit food and beverage marketing to the promotion of foods and beverages that meet the nutrition standards for meals or for foods and beverages sold individually (above).¹¹ School-based marketing of brands promoting predominantly low-nutrition foods and beverages¹² is prohibited. The promotion of healthy foods, including fruits, vegetables, whole grains, and low-fat dairy products is encouraged.

Examples of marketing techniques include the following: logos and brand names on/in vending machines, books or curricula, textbook covers, school supplies, scoreboards, school structures, and sports equipment; educational incentive programs that provide food as a reward; programs that provide schools with supplies when families buy low-nutrition food products; free samples or coupons; and food sales through fundraising activities. Marketing activities that promote healthful behaviors (and are therefore allowable) include: sales of healthy food for fundraisers.

Staff Wellness

TEACH SFA highly values the health and well-being of every staff member and will encourage that support personal efforts by staff to maintain a healthy lifestyle.

Physical Education and Physical Activity Opportunities

Daily Physical Education (P.E.) 5-10

All students in grades 9-10, including students with disabilities, special health-care needs, and in alternative educational settings, will receive weekly physical education for the entire school year. All physical education will be taught by a certified physical education teacher. Student involvement in other activities involving physical activity (*e.g.*, interscholastic or intramural sports) will not be substituted for meeting the physical education requirement. Students will spend at least 50 percent of physical education class time participating in moderate to vigorous physical activity.

- A minimum of 400 minutes for every 10 school days for students in grades 9-12
- Schools shall be encouraged to annually administer the physical fitness test designated by the State Board of Education to students in grades 5, 7, and 9.

Physical Activity Opportunities Before and After School

All middle and high schools will offer when appropriate extracurricular physical activity programs, such as physical activity clubs or intramural programs. All high schools, and middle schools, when appropriate, will offer, interscholastic sports programs. Schools will offer, when feasible, a range of activities that meet the needs, interests, and abilities of all students, including boys, girls, students with disabilities, and students with special health-care needs.

After-school child care and enrichment programs when appropriate will provide and encourage – verbally and through the provision of space, equipment, and activities – daily periods of moderate to vigorous physical activity for all participants.

Physical Activity and Punishment

Teachers and other school and community personnel will not use physical activity (*e.g.*, running laps, pushups) or withhold opportunities for physical activity (*e.g.*, recess, physical education) as punishment.

Safe Routes to School

TEACH SFA will assess and, if necessary and to the extent possible, make needed improvements to make it safer and easier for students to walk, skate and bike to school. When appropriate, TEACH SFA will work together with local public works, public safety, and/or police departments in those efforts. TEACH SFA will explore the availability of federal "safe routes to school" funds, administered by the state department of transportation, to finance such improvements. TEACH SFA will encourage students to use public transportation when available and appropriate for travel to school, and will work with the local transit agency to provide transit passes for students.

Use of School Facilities Outside of School Hours

School spaces and facilities should be available to students, staff, and community members before, during, and after the school day, on weekends, and during school vacations. These spaces and facilities also should be available to community agencies and organizations offering physical activity and nutrition programs. School policies concerning safety will apply at all times.

Monitoring

The Wellness Committee will ensure compliance with established TEACH SFA school-wide nutrition and physical activity wellness policies. In each school, the principal or designee will ensure compliance with those policies in his/her school and will report on the school's compliance to the TEACH SFA Wellness Committee.

School food service staff, at the school level, will ensure compliance with nutrition policies within school food service areas and will report on this matter to the Wellness Committee (or if done at the school level, to the school principal). In addition, TEACH SFA will report on the most recent USDA Administrative Review findings and any resulting changes. The Wellness Committee will develop a summary report periodically on TEACH SFA school-wide compliance with TEACH Schools established nutrition and physical activity wellness policies, based on input from schools within TEACH SFA. That report will be provided to the school board and also distributed to all school health councils, parent/teacher organizations, school principals, and school health services personnel in TEACH SFA schools.

Monitor and Policy Review

Policy Review

To help with the initial development of the TEACH SFA wellness policies, each school in the TEACH SFA will conduct a baseline assessment of the school's existing nutrition and physical activity environments and policies.¹³ The results of those school-by-school assessments will be compiled by the Wellness Committee level to identify and prioritize needs. Assessments will be repeated periodically to help review policy compliance, assess progress, and determine areas in need of improvement. As part of that review, TEACH SFA will review our nutrition and physical activity policies; provision of an environment that supports healthy eating and physical activity; and nutrition and physical education policies and program elements. TEACH SFA, and individual schools within TEACH SFA, will, as necessary, suggest revisions to the wellness policies and develop work plans to facilitate their implementation.

Footnotes

² To the extent possible, schools will offer at least two non-fried vegetable and two fruit options each day and will offer five different fruits and five different vegetables over the course of a week. Schools are encouraged to source fresh fruits and vegetables from local farmers when practicable.

³ As recommended by the *Dietary Guidelines for Americans 2010*

⁴ A whole grain is one labeled as a "whole" grain product or with a whole grain listed as the primary grain ingredient in the ingredient statement. Examples include "whole" wheat flour, cracked wheat, brown rice, and oatmeal.

⁵ It is against the law to make others in the cafeteria aware of the eligibility status of children for free, reduced-price, or "paid" meals.

⁶ School nutrition staff development programs are available through the USDA, School Nutrition Association, and National Food Service Management Institute.

⁷ Surprisingly, seltzer water may not be sold during meal times in areas of the school where food is sold or eaten because it is considered a "Food of Minimal Nutritional Value" (Appendix B of 7 CFR Part 210).

⁸ If a food manufacturer fails to provide the *added* sugars content of a food item, use the percentage of weight from total sugars (in place of the percentage of weight from *added* sugars), and exempt fruits, vegetables, and dairy foods from this total sugars limit.

⁹ Schools that have vending machines are encouraged to include refrigerated snack vending machines, which can accommodate

¹⁰ Unless this practice is allowed by a student's individual education plan (IEP).

¹¹ Advertising of low-nutrition foods and beverages is permitted in supplementary classroom and library materials, such as newspapers, magazines, the Internet, and similar media, when such materials are used in a class lesson or activity, or as a research tool.

¹² Schools should not permit general brand marketing for food brands under which more than half of the foods or beverages do not meet the nutrition standards for foods sold individually or the meals are not consistent with school meal nutrition standards.

¹³ Useful self-assessment and planning tools include the *School Health Index* from the Centers for Disease Control and Prevention (CDC), *Changing the Scene* from the Team Nutrition Program of the U.S. Department of Agriculture (USDA), and *Opportunity to Learn Standards for Elementary, Middle, and High School Physical Education* from the National Association for Sport and Physical Education.
