**2021-2022 School Accountability Report Card
(Published During the 2022-2023 School Year)**

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2022-23 School Overview

TEACH Preparatory Mildred S. Cunningham & Edith H. Morris Elementary School (TEACH Prep ES) is the third school operated by TEACH Public Schools, Inc. in the Westmont/Gramercy Park community served by TEACH Academy of Technologies (grades 5-8) and TEACH Tech Charter High School (collectively, TEACH Public Schools or TEACH). TEACH Public Schools was founded by longtime Los Angeles educators Mildred Cunningham and Edith Morris, after whom our new elementary school will be named. TEACH was established with a vision of addressing the whole child's needs, building children's character, and integrating state-of-the-art technology in instruction—staff focus on forging deep, lasting connections with their students.

TEACH Public Schools' mission is to create a high-quality, innovative teaching and learning environment that focuses on literacy, integrating state-of-the-art technologies across the core curriculum to achieve academic proficiency for all students. Our vision is to reach students of all backgrounds by teaching the entire child, which includes the student's social, physical, emotional, and intellectual needs. Upon graduation, the knowledge and the experiences acquired at our schools will be effectively applied to their daily life. TEACH Public Schools are innovative, dynamic, creative, and educationally enriching institutions of positive-driven learning. We believe that all children can learn when taught well and given an opportunity to thrive. We adhere to the thinking of philosopher G. Givhan, "What you pay attention to grows." By looking consistently at our students and the data of our practices, our teachers and students grow in their development and to great successes in the 21st century.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22
English Language Arts/Literacy (grades 3-8 and 11)	N/A	19	N/A	41	N/A	47
Mathematics (grades 3-8 and 11)	N/A	9	N/A	27	N/A	33

2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2021-22 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2022-23 Opportunities for Parental Involvement

One of the primary predictors of student success is parental involvement in their children's education. Parents of TEACH Prep ES students are encouraged and expected to participate in the educational experience of their child(ren). TEACH Prep ES will create a school culture where parents and families are embraced as partners in each child's education.

TEACH Prep ES provides translation services and materials in the child's home language to ensure effective communication. Staff will receive ongoing training on quality parent services. TEACH Prep ES will implement administrative procedures to measure the level of parent satisfaction with school staff.

Equally important, TEACH Prep ES will provide ongoing parent education classes and workshops. For example, some of the activities focuses on helping parents understand how to: create a home environment that encourages learning; express high expectations for their children; and helps their children form a vision for their own future. Other activities will teach parents the significance of their involvement in the school.

Prior to admission, all parents/guardians are encouraged to a) attend an orientation; and b) sign a non-binding agreement indicating they understand the TEACH Prep ES philosophy, program, targeted outcomes, and accept the responsibilities of parent involvement/partnership

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

Professional Development

At TEACH Prep ES, it will be the expectation that students are engaged in the curriculum and learning objectives at all times. Teachers are expected to continuously communicate learning objectives to all students while assessing, both formative and summative, student mastery of all concepts and state content standards. Research clearly suggests that learning best occurs when students are actively engaged in their own learning. This requires that students be involved in conversations about learning objectives, instruction, and assessment. Furthermore, this student-centered approach supports a more culturally relevant curriculum that connects with student's interests and prior experiences. Frequent and meaningful connections with parents and engaging them in conversations about their child's education will also ensure that the academic program reflects the diversity of the community being served.

As part of the curriculum design process, research-based instructional strategies for increasing student achievement will be embedded into the daily culture of the classroom. Strategies brought to light in Classroom Instruction that Works (Marzano, Pickering, and Pollock) will be utilized by teachers in their classrooms. These researchers have compiled teaching practices and strategies that "have a high probability of enhancing student achievement for all students in all subject areas at all grade levels" (Marzano, Pickering, Pollock, 2001). Teachers will be challenged to examine the three elements of effective pedagogy: Instructional Strategies, Management Techniques, and Curriculum Design.

We will train and support how teachers will use the process to develop standards-aligned assessments and project-based instructional activities at each grade level and across the content areas.

The foundational coursework, as outlined above, will use a repertoire of instructional strategies, curriculum, and materials. Instructional strategies will include:

- Direct instruction
- Research-based projects
- Cooperative group work and projects
- Inter-disciplinary approaches to curriculum
- The presentation of clearly defined "Learning Targets" for all students by all teachers
- Rubric self-assessment
- The involvement of community members and educational partners in the instructional presentation
- Computer-Assisted Blended Learning: Students will receive targeted instruction at their individual instructional level while in a larger class setting with computer assistance. The teacher acts as a facilitator, monitoring student progress and addressing learning pitfalls as they arise, while simultaneously other students are engaged in independent learning and independent practice.
