#### **D. Policy #801 - Student admission - first reading**

CMiller discussed adopting a new enrollment at Vida. Students who will receive priority in the enrollment process (e.g., students from chartering districts, siblings of current students) were discussed.

Kindergarten is nearing full enrollment, making a lottery process a viable tool select students for enrollment.

The board discussed the importance of clarity and transparency to families about the enrollment process, particularly regarding dual language expectations. Specifically, the board discussed challenges facing students enrolling in grades 2 and above if they are not already bilingual. In such cases, school leadership can make recommendation to families that students only be enrolled if they possess knowledge of Spanish language and literacy at these upper grade levels.

Greg Murry questioned special accommodations and who would decide in these situations.

Question was discussed on readmission for returning students. How would a lottery affect returning students if they had left and returned to Vida? Example - children of college professors that go on sabbatical and leave Gettysburg.
